Tech Draining
Charles River
For Expansion

Students Jam Bridge
But Can’t Find Reason
For Lowering Bottom

For the last week Tech students who regularly plod across that infamous collection of steel, brick, and concrete still known in official circles as the Harvard Bridge have been awe'd and baffled by the purpose of the dredging operations currently taking place in the Charles River.

Intrigued by the efforts of the pint-sized tug which valiantly tries to haul the barges of silt and other refuse away, and the motions of the derrick as its scoop comes up with another pile of miscellaneous trash from the river bottom every few seconds, Tech students have created more than one traffic jam on the bridge by collecting in large groups and arguing as to why the bottom of this body of hydrogen and hydroxide ions is being lowered, and have even gone so far as to conduct lotteries concerning where the little tug was taking the barges to be dumped.

So far none of our brainy little Human Slide Rules has come up with a logical reason for the marauding operations. But that hardly would be expected from such a collection of characters as swarms over Massachusetts Avenue during most of the daylight hours.

However, the Tech has conducted a meticulous, detailed, scientific study of the subject, and has reached some very definite conclusions. First, it is obvious that, as with everything else that happens in these parts, Technology is involved somewhere. Proceeding on this assumption, it was found that the purposes of the dredging is to dig a hole in the bottom of the river so that all the water can run (Continued on Page 7)
ASSMUSIN PLEADS

Trackmen Oppose Babes At Briggs

Privacy of Showers Ruined By Models

Violent opposition from members of the track team has forced postponement of a plan proposed by a local model agency in which 30 of its most promising models would train daily at Briggs Field for the purpose of developing physically.

Although welcomed wholeheartedly by Coach Hedlund, who reportedly is anxious to get his hands on some new material, the agency’s plan was condemned by the trackmen on the grounds that models at the field house would infringe on their cherished privacy.

Overheard was the bitter comment of one cross country runner that “after a race I always like to hop into a good hot shower, but with all them models using the shower, there won’t be any hot water left. How am I going to keep warm?” Another runner, whose reach is only 20 inches, complained that his girl was one of the models and “if running around the track develops her any more, I won’t be able to reach.”

Although the head of the model agency was not available for comment, the plan will face a serious setback unless the objections to it can be overcome.

California Slip-Stick Sliders Slip To Second

Coming from behind in the last 4 minutes and 8.321 seconds, the Tech slide rule team figured its way to a hard-won victory over the Cal Tech sliders, winning by a final score of 3.98573 to 2.9867064/1-3.

The contest has been hailed as a victory of modern science over time-worn traditional customs, as the victors employed the latest developments, including machine-driven sliders, and chalk powder on the rules of their opponents, to gain their victory. A rumor that the M.I.T.-men had a direct telephone line to the Differential Analyzer has been soundly squelched.

Much credit for the home team’s victory must be given to their coach, J. Norbert Frankfurt, who managed to keep the team’s score accurately and efficiently on an abacus, while cheering his team on to “E to the X, du, dx . . . .”

The California team jumped off to an early lead, despite the fact that two of their men were disqualified for using natural logs, but the M.I.T.-men recovered quickly after discovering that their slides had been inserted upside-down. The teams were divided into classes, as follows: Class A for Log Duplex; Class B for Mannheim Decitrig; Class C, Log Vectors, and Class D, Associated Tutors slide-rules, which Tech won by default. A fifth class, for co-eds, was eliminated after it was seen that the Cal Tech girls had to hold their slide-sticks at arms length, and couldn’t get any accuracy.

In a special interview with your reporter, M.I.T.’s captain, L. L. O. Syneths would only remark, “It was easy as PI.”

Tech Co-eds Named Nation's Beautie

Battered Contest
Judge Found In Wellesley Ash Can

The American collegiate world was shocked today to hear that the nation-wide collegiate magazine, Durty News, had selected Technology Co-eds as the most beautiful and talented group of women students in the country. An immediate cry was raised at Harvard, which had expected to win the coveted award. All co-eds at the Institute will be entitled to wear a garland of raspberries, to signify the glory involved. In addition, the group will be presented with a prize; rumours have it that they are asking for a ten-foot slide rule with accuracy to the sixth place.

There has been an extreme amount of difficulty in finding any of the contest judges, but using our slide rule as a probe, we located one of these bedraggled individuals lying in what appeared to be a pool of gin, but what on closer inspection turned out to be the result of an evening of drooling.

Upon seeing the approach of another male, this character was only able to utter, "as . . . s . . . h. . . . to as . . . ss . . . h."

"Tech girls have two fine points that girls in other schools do not have," he commenced in an unsteady voice. However, after seeing the look on our faces, he modified his statement. He admitted that most girls did have these two points, but Tech girls had them in greater degree. Our curiosity as well as our temperature rose, someone ran to get an attorney. Was this legal? Should Voo Doo be called? We attempted to question further, but all that he could moan was "Murg-a-Troid, Murg-a-Troid what makes your big tail so soft." We concluded that he was speaking of that pre-historic animal, the Murg-a-Troid which plagued early mankind.

At this instant, a reporter from the Harvard Lampie arrived on the scene. We were slightly shocked to be caught alone with a Harvard man. He shrieked, "do you, I do." I answered that I did. He went away happy, content in the thought that two out of two college newspaper reporters do.

"51"...the world's most wanted pen
Writes dry with wet ink!

- With people of note Parker "51" is the preferred writing instrument. And only recently, American pen dealers, by a margin of 3.37 to 1, named Parker the most-wanted pen. More-wanted than all other leading makes combined. • Yet more 51's are now being shipped than ever before. So see your dealer soon. • Created painstakingly, the "51" cannot be hurriedly turned out. Its point starts writing instantly, smoothly. For the tip is a ball of micro-smooth Osmiridium. • Only the "51" is designed to write satisfactorily with Parker "51" Ink that dries as it writes! • Three colors. $12.50; $15.00. Pencils, $5.00; $7.50. Sets, $17.50 to $80.00. The Parker Pen Company, Janesville, Wis., and Toronto, Canada.

Parker "51"
New Instrument Records Thoughts of Typical Techman At Acquaintance Dance

Drumming into the very thickest of a man, the Medical Instrumentation Lab at Technology has developed an amazing device called a cerebrocensillograph which simultaneously records a man's spoken word and the thoughts which occupy the innermost crevices of his brain. The machine can be made to operate from a distance of 100 feet from the subject, completely without his knowledge, thus making innumerable possible experiments.

An order has already been placed for one of the gadgets by the United States Navy. It is expected that its use will clarify no end the motives of those who enter the room at a Tech Acquaintance Dance. The Tech publishes the results of its first test the cerebrocensillograph was projected on a television screen at the Tech Acquaintance Dance.

A Techman enters the room at a Tech Acquaintance Dance. The Techman is a Techman who entered the room at a Tech Acquaintance Dance. He was last identified at press time, were the bodies of several officers, still unidentified at press time, were found in the Rifle Room by Sergeant O'Duly, who entered the room at a Tech Acquaintance Dance.

"How'd ya like to see the campus?" ("Campus, . . . . - I'll drag her to my room before she knows what's flying.) "Well, isn't this a coincidence. Here we are right in front of my dorm. Let's go inside for a minute—think I left my radio on by mistake before. No, guess I didn't. Well, you know what I mean. Maybe I'm just pulling the shade down for a while. What am I pulling the shade down for? Oh, didn't you know—we have a blackout here."

At this time the machine began vibrating terrifically, and before it could be brought under control a half hour had elapsed. We continue:...

"---didn't hurt a bit, did it? Oh, that's my rule."

Barracks

(Continued from Page 5)

The Tech goes to press retrospectively at 1:30 a.m. on Monday, November 15, 1946. The appointment of Vice Admiral Edward L. Cochrane, Chief of the Material Division of the United States Navy, and former Chief of the Bureau of Ships, as head of the department of Naval Architecture and Marine Engineering at the Institute was announced by President Karl Milliman today.

Admiral Cochrane succeeds Professor Henry W. Keith, who retired last January after serving 35 years on the Institute's staff. Admiral Cochrane will assume his new duties early next year.

Chief of the Bureau of Ships from November, 1942, until his appointment to the post of Chief of the Material Division, he is a graduate of the United States Naval Academy in 1914, and advanced through the grades to his present rank in 1940. He carried on postgraduate work at Annapolis until 1916, and was then sent to Technology for further advanced work in naval construction for which he was awarded the degree of master of science in 1920. Admiral Cochrane attended the United States War College in 1929.

Tickets Now On Sale For Dramashop Production

Tickets for the Dramashop production of Oscar Wilde's comedy, "The Importance of Being Earnest," are now available at the T.C.A. office or from members of the Dramashop. The play will be presented on Friday and Saturday, December 6 and 7, in the Peabody Playhouse. Tickets are on sale at the box office or from the student body. This meeting is open to all students, and it is anticipated that only the student representatives of the committee will be present.

Hotel Lenox Party Will Be Held Tomorrow

Champagne Door Prize; Guy Ormandy Will Play At Party Tomorrow

Five hundred couples will dance to the enjoyable music of Vincent Lopez tonight when the long-awaited Junior Prom takes place. The 14-piece orchestra will play from 9:00 to 1:00 P.M. with a half-hour intermission at 11:00 P.M. and will feature its seductive vocalist who has reached the highest pinnacle of fame, having had her picture printed in Voo Doo. As an added attraction there will be several bottles of champagne given away as door prizes during the intermission.

Saturday night will bring the party at the Hotel Lenox. The party will start at 8:00 P.M. and will continue until midnight. Guy Ormandy and his orchestra will supply the music for the occasion.

The Chaperones are Dr. and Mrs. Karl T. Compton, Prof. Avery A. Ashdown, Prof. and Mrs. L. F. Hamilton, Mr. and Mrs. George R. Harrison, Prof. and Mrs. Ralph G. Hudson, Mr. and Mrs. Thomas P. Patte, Mr. and Mrs. Delbert S. Rhind, Prof. and Mrs. Albert A. Schaefer, Prof. and Mrs. R. Alden Thresher, Mr. and Mrs. Walter C. Wood.

The Prom Committee, all of '48, is composed of J. David Cist, Chairman; William L. Whalen, Secretary-Treasurer; Benjamin J. Bottler; D. Dennis Allegretti; Donald R. Eaton; William B. Maley; Gilbert S. Parker.

The following will act as ushers: Carl Lindemann, Jr., '47; George W. Bartlett, '47; Donald S. Floyd, '48; George H. Latour, '48; Charles Palmer, '48; Judge McLaughlin, '48; Allen G. Woolf, '47; Edward Newdale, '48; John Kaymen, '47; and Nick Yannoni, '48.

Inst. Comm. Grants Class "A" To Vets

OK Results Of Senior, Junior Class Elections

Institute Committee last night granted Class A status to the Science Veterans' Association. The report of the investigating Committee recommended that provisional Class A status be granted, with the point made that it is never intended that the organization be granted permanent Class A status.

This question was elaborated further in debate where it was brought out that the M. I. T. V. A. is by no means a permanent organization at Technology, and that provisional Class A status should be given each year that the Association is active.

It was further pointed out that the report and recommendations were confined solely to the criteria for Class A status enumerated in the Institute Committee Constitution. During the debate, however, the Association was cautioned against overlapping the purposes and activities of other Institute organizations.

In other business, the proposed Liberal Arts Society was discussed and tabled until a later meeting. The men elected to the Senior Week Committee, Beaver Key Society, and the Senior Ring Chairman were approved, as were the newly appointed and promoted members of the Elections Committee.

Elections Committee Announces Result Of '48, '49 Elections

Results of the elections held by the Students of '47 and '48, which were held Wednesday, were announced by Robert E. McBride, '47, Chairman of the Elections Committee. The Senior Class chose 10 from 14 aspirants to the Senior Week Committee, while the Juniors elected a Senior Ring chairman, a position for which three men ran, and eight Beaver Key Society members from a field of 12. Names of victorious candidates appear above.

Voting was very light in both classes, amounting to less than one-quarter of those eligible.

In addition, the Elections Committee announced promotions on its staff. Donald M. Dewitt, '47, and Jerry R. Cox, '47, were promoted to Associate Members, while Joel Feldstein, '46, was chosen a Junior Assistant. Sophomore assistants, chosen as a result of the recent competition, are as follows:

Robert T. Ellsworth, Jr., Paul MacNaughton, James Maslon, Donald R. Merriman, and John Rau.

5:15 Club Holds Informal Dance On Friday Night

Sid Mansfield To Play At Thanksgiving Affair

Tickets Now On Sale

Featuring the music of Sid Mansfield, his popular twelve-piece orchestra and vocalist. Formerly playing such well known bands as those of Vaughn Monroe and Artie Shaw, Mansfield specializes in the Big Band style of music. He has recently played at dances at Dartmouth, Harvard, Duke, and Princeton, in addition to M.I.T.V.A. dance this summer.

According to George J. Katz, chairman of the 5:15's Dance Committee, Morris Hall will be lavishly decorated in style with the spirit of Thanksgiving and the Pilgrim Era. In addition to a large display, the ushers and hostesses will be dressed in Pilgrim costume.

Tickets for the dance are on sale daily from 11:00 A.M. to 2:00 P.M. in the lobby of Building 10 and the 5:15 Club Room in the basement of Walker Memorial. The price is $2.40 per couple.

Members of the dance committee include George J. Katz, '47, chairman; Vaughn Beals, Jr., '48; and E. Levitt, '49; Nicholas F. H. Fidder, '49; David Klaiman, '49; and Paul Machtin, '49; Herbert Lipson, '49, and Russ Trumble, Jr., '49.
Station WMIT's First Broadcast Monday Evening

Dr. Karl T. Compton Presents Dedication

On Inaugural Program

The student radio station, after having six weeks of silent operation, will present its first show at 7:30 P.M. Monday, November 20. The opening program of the station will be a short dedication address by Dr. Karl T. Compton, President of the Institute, of which this will be the forerunner. It will be followed by four half-hours of music and commentary by the station's staff.

The station personnel have been stepped up to a multitude of duties, ranging all the way from the lack of programs to programming difficulties, the latter having been ironed out through the cooperation of the entire staff. The transmitter and all associated equipment have been constructed by the members of the engineering staff. Any capacity portion of the other departments throwing in helpful hints at odd times. The entire staff has cooperated to make the first program a reality.

The station will broadcast to the Senior House, and the Old and New Dormitories, in Building 22 as well as the Graduate House. Telephone lines, supplied by the Institute, will enable students to make requests. Plans are under way to extend the broadcasting service to any dormitory in the absence of the Institute's power lines will deliver sounds. A request block will be planned in which the show will pick up. Plans are under way to make the broadcast a 24-hour position.

Undergraduates who can sing and play an instrument may at any time make a request for a musical instrumental, or tell humor stories of their own to entertain the tryout. A group act featuring a musical instrumental, and especially welcome. A piano will be provided at the tryout, so that the students entering the musical singing, at least, will be facilitated.

Turkey Trot To Be Held Next Friday

Technicians to Play Christmas Format

The Turkey Trot, annual informal dance of the dormitories' Committee, will be held in Morse Hall Thursday, December 13, at 8:30 P.M. to 12:00 P.M. The dance will be limited to approximately 300 couples are expected at the dance. The decorations will be somewhat out of the ordinary, featuring a special floral display, Pilgrim costumes for the orchestra and orchestra, and low lights and three in all of the lamps.

The Chairman for the dance are: Dr. and Mrs. Karl T. Compton, Prof. and Mrs. Alexander Maclus, and Prof. and Alvin Blomaz.

Prom Week Highlights

Sir E. V. Appleton Speaks On "Science, Govt., and Industry"

Discovery of F-Layer Inaugurates A. Little Memorial Lectureship

Inaugurating the Arthur Dehon Little Memorial Lectureship series, Sir E. V. Appleton, K.C.B., R.P.R. presented the inaugural address in Morse Hall, Walcott Memorial, Tuesday, November 19, at 8:30 P.M. To an audience of well over 2,000 listeners, Sir Appleton, who is a guest of Dr. and Mrs. Karl T. Compton who welcomed him as a friend and as the first Lecturer.

The Arthur Dehon Little Memorial Lectureship was inaugurated in 1944 with funds donated by Arthur D. Little, Inc., but owing to war conditions, the lectures could not be inaugurated until this Autumn. The Lectureship's purpose is "to promote interest and stimulate discussions of the implications of the development of science through lectures by distinguished contributors in the advance of science." These lectures are also in line with the Institute's policy of promoting the public's interest in modern scientific developments.

r Dr. Karl T. Compton
Dr. Karl T. Compton delivered the inaugural address of the Arthur Dehon Little Memorial Lectureship last Wednesday evening in Morse Hall on the topic "Science, Government, and Industry."

M.I.T. A. Plans Forum For December

Compton In Discussion On Military Training

Five distinguished speakers including Presidents Karl T. Compton and U.S. Department of the Navy, will make WMIT's programs to meet the requirements of the student's request of "no politics," will carry WMIT's programs to the students in the near future. It is the expectation of the station's staff.

Contest Planned To Name Revue; Tryouts Shorty

Competition To Begin December 1; Two Prizes Offered

A contest to select a suitable name for the annual revue of the Undergraduate Revue Association has been announced by Gerald L. Stelle, Jr., V. President of the student body. The revue will also be held shortly after the tryouts are over. The contest is to be held December 1, 2nd, December 1, 2nd, 12th, and prizes will be awarded to the winning entrant and to the submitter of the best suggestion. Students entering the contest are requested to leave their suggestions containing their names, addresses, and proposed names for the show in the Walker Memorial Committee office. They may also be mailed to the office through the usual channels.

First prize in the contest is $5.00 and two tickets for either night of the presentation. A group of Associate Staff members will choose the second prize winner also.

Tryouts for the show will be held the next period on December 1, 2nd, December 1, 2nd, 12th, and prizes will be awarded to the winning entrant and to the submitter of the best suggestion. Students entering the contest are requested to leave their suggestions containing their names, addresses, and proposed names for the show in the Walker Memorial Committee office. LIBERAL ARTS AT TECHNO

Students have probably been viewing with some surprise the recent push in the direction of well-covered buildings and student advertising from your Institute advertising the smoker for the Liberal Arts Society held last Wednesday evening. These posters have probably also been seen with the satisfaction of snug and selfish indifference. And yet they are in the way of activities.

If students would stop to think, they would realize that there is such an organization which might be beneficially and self-satisfyingly fulfilling its purpose.

Evidently, the Institute has accepted undergraduates with a spark of appreciation of the arts within its grasp. As a group we are far too prone to spend our extra time mending the wardrobe and hardly think of the top of the engineering world— they are pretty close to the bell. The liberal arts and sciences can comfort oneself with a knowledge or insight, in the eyes of the world, a life of thought, but is it the advancements of science and engineering which, with the sculpture, intellectualism and music, do not take note.

Admittedly, women, mong the big game Saturday have their place in the world. It is not just the individual's life, so should an analytic phrase for the world which are going to be running in all the few years. And it seems to me that the best way to do it is to study the problem, and direct this regard would be in our community to encourage student organizations.

Very truly yours,

L. Lang

Bravo, Mr. Lang (Ed.)

Reviews & Previews

Cyrano de Bergerac, by Edmond Rostand. Staged in the Tech Theatre last week under the supervision of Mr. Koehler, presented as the last Tech Theatre, realizes one of the most respected and imitated plays of the time.

Joe Ferre plays Cyrano, and is a success at this. Cyrano is a lover of words, and consequently follow the lead of their union and union leader whether he is right or wrong.

But Mr. Lewis has shown by his long and disreputable career that the end does not justify the means. He has, consequently, destroyed for private gain, public interest, and consequently, the end does not justify the means. He has, consequently, destroyed the union and union leader whether he is right or wrong.

But Mr. Lewis has shown by his long and disreputable career that the end does not justify the means. He has, consequently, destroyed for private gain, public interest, and consequently, the lead of their union and union leader whether he is right or wrong.

It is in the tragic ending of the play that the audience is left with a lingering question. How will the lives of his hands be affected when his hair is cut? A question that the audience is left with a lingering question. How will the lives of his hands be affected when his hair is cut?

The Tech shows were written, directed, and acted by the students of Technology. Podax, under the leadership of Mr. Konig, is a Broad Street project, is being directed by the Institute to supervise the show. The script is a collection of the best of the students' work, and is colorfully drawn, and the story is well developed. The York shows were written, directed, and acted by the students of Technology. Podax, under the leadership of Mr. Konig, is a Broad Street project, is being directed by the Institute to supervise the show. The script is a collection of the best of the students' work, and is colorfully drawn, and the story is well developed. The script is a collection of the best of the students' work, and is colorfully drawn, and the story is well developed.
Here's Tech: T. C. A. Aids Many
With Several Diversified Services

The underlying force of the numerous activities of the Technology Christian Association is the desire of service. In true accord with the Christian doctrine of the good of all before the individual, the T.C.A. offers a program to aid at students at the Institute with their problems of original orientation and later with little and big difficulties which crop up in the course of matriculation at the Institute. In

T.C.A. offers a program to aid all first-year students in procuring a summer vacation camp. The approved list contains college in every continent and quarter of the world. Comprising with large
totals are: England, France, Italy, Switzerland, Austria, China, Mexico, Canada, Scotland, India, Bel
gium, Colombo, Denmark and Sweden. The list also includes colleges in the Soviet Union but up to
now the Russian government has not opened its schools to American veterans.

The mechanics of applying for an opportunity to study abroad include:
1. Veteran must be in training for the T.C.A. book exchange program.
2. Veteran must be in training for the T.C.A. book exchange program.
3. Veteran must be in training for the T.C.A. book exchange program.

The drive will continue from December 1 to December 6.

The T.C.A. not only is a direct aid to American veterans but also is a concern of the religiously oriented students interested in doing volunteer social activities. In line with the present housing difficulties, the students at the Institute are working to establish a system of room registry and boys' work to help new students and return

TAN BETA Pi TO HOLD TUTORIAL CLASSES

Members of Society To Cover Freshman Subjects

The Tan Beta Pi National Honors Educational Society, is offering free tutorial service to students in MAII, LIII, and XIV for the present semester. Tutors will not be creating study sessions for the classes but will have courses for those having difficulty with the subject. The directors of the organizations plan to conduct a study group for the LIII course with Prof. Philip S. E 1 and Prof. Philip J. O'Brien. The LIII class will be in charge of M. S. M. C. T. and, respectively. It is expected that the LIII class will be willing to share the information of the class with the directors of the organization.

The group will meet twice each week. Private places will be set aside for the work. The other two classes will be scheduled for their convenience.

Lectures, Discussions Planned

In the not distant future, the society will conduct some non-technical lectures, unassociated with the tutorial service. As an example of the lecture plan, a series of group lectures by Prof. G. P. H. B. W. will be presented.

The Liberal Arts Society will not be able to meet twice a week as the meeting room at the Institute is being used as an office by the M.I.T. Mathematics Laboratory. The lecture will be held in Room 210 at 5:30 P.M.

LOCAL SERIES OFFERS DE SANCTILLAN TALKS ON EUROPEAN TRIPS

Sponsored by the Technology Society Series - Edited by Professor George Demster - 11:00 A.M., Monday, December 2, 10:30 A.M. and 1:00 P.M., Tuesday, December 3, 11:00 A.M. and 3:00 P.M., Wednesday, December 4, 10:30 A.M. and 1:00 P.M., Thursday, December 5, 11:00 A.M. and 3:00 P.M., Friday, December 6, 10:30 A.M. and 1:00 P.M., Saturday, December 7, 10:30 A.M. and 1:00 P.M.

Professor De Sanctillan will give the lecture on "Europe Upside Down," at 1:00 P.M., Monday, December 2, at 5:00 P.M., Tuesday, December 3, 11:00 A.M. and 3:00 P.M., Wednesday, December 4, 10:30 A.M. and 1:00 P.M., Thursday, December 5, 11:00 A.M. and 3:00 P.M., Friday, December 6, 10:30 A.M. and 1:00 P.M., Saturday, December 7, 10:30 A.M. and 1:00 P.M.

The lecture is the conclusion of a col- ombian chemical, which he defined as "Europe Upside Down." Professor De Sanctillan elaborated on the literature and art of the Spanish and Italian renaissance. He will also discuss the effects of the German student movement and the social and political changes which are taking place in Europe today, and will be held in Room 200 at 12:00 P.M.

On Wednesday, December 11, Dr. Foucault, Minister of Foreign Commerce of France, will discuss "The Classics in the Modern World" with an emphasis on the influence of ancient Greece on the modern world.

Professor De Sanctillan will be present at each performance, and for those unable to attend, the lecture will be held in Room 103 at 5:30 P.M.

A regular business meeting of the institute will be held on November 25, 10:30 P.M., in Room 2-136. Officers will be elected by the present membership.

350 Options Sold For '47 Technique

Over 350 students took advantage of the opportunity last week to save money on the '47 Technique, according to information received yesterday. Options were offered for sale at ten per cent discount, with all future sales of options being at the regular price of $3.00. The next sale will be held after Christmas principally to redeem the options of those graduating in February.

All Seniors must choose the picture they wish to have appear in the yearbook by Monday, December 2, or the Technique staff will be forced to make its own choice.

Christian Science Monitor Adds Subscription Agents

The Christian Science Monitor has announced the appointment of five new subscription agents at the Institute. These men will take care of any business between anyone at Technology and the Monitor. In the dormitories will be Mark Meissner, Room 415 Bemis. Robert Smith, Room 1-C-11, and Theodore S. Huang, Jr., Room 2-E-6 are both in Building 22. Donald Deane is in the Senior House, Room 303 Ware and in the Graduate House, Worth Percival, G, Room 210-A.

There is a special subscription rate to begin on November 1st, and these agents will be glad to take subscriptions to the Monitor.

Bradford Concert (Continued from Page 1)

Two other events highlight Tech's musical future for the next few weeks. The Symphony Orchestra, under the direction of Antonio J. d'Almeida, '48, is planning a concert for Friday evening, December 13, at Rindge Tech Hall in Cambridge. Tickets are expected to go on sale in a few days, and further information will be available next week.

The Glee Club's annual Christmas presentation will be given this year on Wednesday evening, December 18, also at Rindge Hall. The program, including "The Messiah," will be presented jointly by the Men's Glee Club, the Women's Glee Club, and the Symphony Orchestra. The first joint rehearsal was held last Tuesday night. This is the first year it has been scheduled as an all-Tech affair. Colby Junior College in New Hampshire participated last year.

Lounger (Continued from Page 3)

(Continued from Page 5)

'Ite, but even after an exclusive interview, we have hardly penetrated the surface. Walking down Commonwealth Avenue one night, we came upon two men exchanging piles of books in back of a truck labeled American Lending Libraries. We thought we had stumbled onto a ring smuggling wild books into Boston, and asked, in the way of an opener, if they exchanged books at all the lending libraries. The leader grunted "yes." We asked what kind of books the customers liked in general. "Oh, they prefer "diney" books." "What kind?" "Diney books." And with no explanation of "diney," the pair sped on toward Kenmore Square.
