WALKER DINING SERVICE REPORT

The following is a continuation of the report made by a subcommittee of the Executive Committee in the last issue. The subcommittee felt that the report and the changes proposed by the Executive Committee should be made public, and that the student body should be informed. The subcommittee will continue to follow the progress of the Walker Dining Service and make reports as soon as possible.

On November 29, 1945, a petition was placed before the Institute Committee asking for an investigation of the Walker Memorial Dining Room. The petitioners were an alumnus and two students who felt that the service was unsatisfactory.

The following questions were asked: (1) Have you felt that the food was satisfactory? (2) Have you felt that the price of the food was satisfactory? (3) Have you felt that the service was satisfactory?

The following responses were received: (1) Yes, 80%; No, 20%. (2) Yes, 75%; No, 25%. (3) Yes, 70%; No, 30%.

The following is a summary of the data collected:

- Quality of food: Satisfactory, 65%; Unsatisfactory, 35%
- Prices charged for lunch: Satisfactory, 40%; Unsatisfactory, 60%
- Service: Satisfactory, 50%; Unsatisfactory, 50%

The following questions were asked: (1) Do you feel that the food is satisfactory? (2) Do you feel that the price of the food is satisfactory? (3) Do you feel that the service is satisfactory?

The following responses were received: (1) Yes, 75%; No, 25%. (2) Yes, 85%; No, 15%. (3) Yes, 70%; No, 30%.

It is true around the campus, The Spotlight this week falls on Edward S. Hill, chairman of the Student Faculty Committee. Ed claims he has tried to enjoy an eventful life, but there seem to be some doubts if this statement is true. His "inflatable" existence.

Born in Oates, Illinois, he was a very progressive child, having a keen interest in the deep South, half-baked beans, palm trees, bathing beauties, and understanding of hotel swimming pools.

In high school he took his way very easily but managed to play some football and basketball teams, aside from being president of the student council and of his class for a year. He also became a member of the National Honor Society, Key Club, Discussion Group and a few other organizations whose names has he forgotten.

When asked for his reason for coming to Tech, Ed replied to "to make my own home. They didn't live like me there." It started as a civilian, and with an ambition of Mr. Williams, entered Course XVIII. During his 4 years at the Institute, he had to come the Navy, which seems to possess nothing more than an empty vessel. His future is now "changing one's mind," but he mod his career in Course XVI, where he is now finishing the Correspondents Option.

The eliminations of the basketball tournament have been completed, with Tech, Boston University Terriers, and Hayden entering the final round. The last three named teams, however, have already determined the seeds for the tournament.

In the top bracket, S. A. E. defeated Delta 25-18. A S. A. rally pointed 15 points through the hoop to open again the game against the S. A. E. second team. S. A. E. R. W. G. R. E. set up the island goal to list its victims by 25-10, to earn a place in the round robin.

In the second bracket, Sigma Chi defeated Delta 3-3-3. Sigma Chi is in good order. Benissi duffed by Delta 28-23. Sigma Chi whipped Minnesota 15-12. Benissi then eliminated second-seeded Sigma Chi in 13-18 upset. The game ended as a third-place game ran around the hoop and out, taking its Sigma Chi last chance to enter for the round robin.

The teams were:

- Sigma Chi
- Delta
- Minnesota
- Sigma Chi

**The Eliminations of the Basketball Tournament**

**Track Team Bows**

To Northeastern And Defeats Brown

By: John F. Chapman

At the conclusion of the National Intercollegiate Championships, Massachusetts Institute of Technology defeated Brown 55-32. Both Roger Shanaman and Glenn Doering of Tech were chosen for the All-Star Team, with Pierce and Trouper winning the tourney in the weight throwing classes. Lapce was favored in the five game limit. Incidentally, in shutting out one of its opponents, Cape Kennedy automated the season with the most points. Brown was defeated in the final game. The national team, Army defeated the final. Army did not win a single game in intercollegiate competition. On the basis of this performance, it was established that only the one-handed at the odds in losing. Army was the key team.

In subduing the pint sized speed men, the varsity had done a good job of bringing one of its most successful seasons to a close, the first of Tech.

**Basket Skies, 62-47**

Before a large crowd the Boston Federal League squared with S. A. E. yesterday, Wednesday, and won the season's game of the three teams. It was announced that the players from the individual teams would be able to remain in the tourney.

The team defeated its last opponents, S. A. E., by 42-22.

The second kegler to break into the six-foot-thin, Davis, led the team with a 275 average for the day. He also for bowling six consecutive strikes in the first game.

The team got off to a flying start in the opening game of the third game against the S. A. E. second team, which resulted in a 179.6. The team defeated its last opponents, S. A. E., by 42-22.

The team had a total of 68 strikes in the third game against the S. A. E. second team, which resulted in a 179.6. The team defeated its last opponents, S. A. E., by 42-22.

Debating Society Opposes Princeton On Conscription

Contests With Columbia, Rhode Island, Cushing Lined For Next Week

The M.I.T. Debating Society presented the negative side of the controversy on conscription for war purposes between Columbia and Princeton in a debate on Monday night. The two teams will be meeting again next week for a contest with the Columbia College Debating Society.

Professor Magoun Concludes Series Importance Of Period

Professor F. Alexander Magoun, a member of the Psychology Department of the University, concluded his program of lectures on “The Baldwin-Peabody Lectures” with a special lecture on “The Importance of Periods in the Study of the Brain.”

Emphasizing the point of historical perspective, Professor Magoun said that the development of the idea that the period of ephemeris is not a true indicator of the character of a person. During both parties both are trying to show themselves to be the most glamorous young people. Many faults remain hidden until after the end of ephemeris, after which they are exposed for the first time of their uprightness.

The period of exploration should take place before marriage. As long as the emotion toward the war a love is likely to be prejudiced and therefore the chance of finding true merits as a mate, and investigate the family background of the other, or make it appear in a marriage.

It is commonly supposed that marriage is a manhood and gives a man a feeling of superiority. Besides the marriage is the first and perhaps the only marriage of this sort is lacking in one of the advantages of a marriage. As long as the emotion toward the war a love is likely to be prejudiced and therefore the chance of finding true merits as a mate, and investigate the family background of the other, or make it appear in a marriage.

The American Institute of Chemical Engineers will hold a dinner meeting with the Management of the Davenport Chemical Company on Monday night, February 4. From 6.00 P.M. to 9.00 P.M., at the Hotel, for the discussion of any possible improvements in the daily service. The American Institute of Chemical Engineers will discuss plans for possible improvements in the daily service.

Deans Hold Elections, Dinner Meeting Planned

Elections are being held this week for the dormitories on the next regular meeting on Monday night, February 4. From 6.00 P.M. to 9.00 P.M., at the Hotel, for the discussion of any possible improvements in the daily service. The American Institute of Chemical Engineers will discuss plans for possible improvements in the daily service.

The Dormitory Committee has announced that a dinner meeting with the Management of the Davenport Chemical Company will be held this week on Monday night, February 4. From 6.00 P.M. to 9.00 P.M., at the Hotel, for the discussion of any possible improvements in the daily service.

The Dormitory Committee is already discussing plans for possible improvements in the daily service. The American Institute of Chemical Engineers will discuss plans for possible improvements in the daily service.
