it leaves the Institute, and represent it as alumni, yet no more than a quarter of the class considered the issue to be of enough importance to give it their attention. You have stripped these positions of the honor that they should carry with them, and have reduced your election to a farce. It is an insult to the Institute obtains and sets up the financial base for the student governing body, do not know enough of the workings of the Institute library, and its methods of dealing with requests for information. The Cripps proposals, based on the Crown, must be capable to judge for themselves the objectivity and reliability of the exhibits set up for their inspection.

Letters to the Editor

The anonymous letter in your issue of January 25 contained many specious statements and specious parallels, but few facts and little inferences drawn from fact—two qualities that Technology trains its members to appreciate. The Museum of the Indian obtains and sets up the exhibits in the two buildings. No exhibit that man could devise is proof against any argument, but let us grant that the Museum Committee is sincere and does not intentionally offer any exhibit whose presence is a mere “bandwagon.” But aren't the students supposed to be capable of judging for themselves the objective and reliability of the exhibits set up for their inspection.

I hardly think that the Indian exhibit is quite as selfish as your anonymous writer would have you think. It tries very hard to be neutral. Indeed, until we saw the panel on the Crown, most of us thought that the exhibit was of the Government of India. The St. Hist. Winston Churchill said in September, 1942, that the declaration made by His Majesty's Government, “which forms the basis of the mission of the Lord Privy Seal, Sir Stafford Cripps, must be capable to judge for themselves the objectivity and reliability of the exhibits set up for their inspection.

Hayden and S.A.E.
Play In Beaver Key Basketball Finals

Hayden Dorm, and S.A.E. return unchallenged to the Beaver Key Basketball tournament. Hayden defeated the tournament's two-time Champions, Franklin College by a score of 78-69. The loss of the two-time Champions has allowed Hayden to take over the top spot in the tournament ratings. The other teams: Menlo, College, and Phi Eta will not be represented. Hayden, the current tournament leader, will also be represented by their team in the final game.

Red Cross Sponsoring Program: Civilian Blood Without Charge

At least 18 blood contributors are named by the T. C. A. for each day of a drive next Wednesday and Thursday. The drive is to be a part of the Red Cross civilian blood donor program inaugurated last year, and about 20 other groups in Cambridge are participating.

All blood obtained through this program will be distributed to hospitals where it is to be furnished to civilian patients free of charge. Anyone interested in donating blood is asked to see Miss Collet in the T. C. A. Office. Transportation to the local center will be provided upon request.

The T. C. A. Room Registry announces that it has exhausted its list of accommodations in private homes, and would like to see students, particularly those graduating in February, to contact Miss Collet if they know of vacant rooms. The need for rooms is urgent, and it is pointed out, since about 900 new students are expected next term while only 350 are graduating.

The annual Boys' Work dinner was held last Wednesday, February 14, at the Bay Hotel. Arthur M. Dener, '47, presided.

The T. C. A. office will be open at usual during vacation period, and inmates of the dormitories on Sunday, February 17, from 1:30 to 5:30 P.M. for the benefit of new students.
