M.I.T. A.A. Discuss Freshman Sports
Meetings Scheduled for Tyler Lounge

Revival of freshman intercol-
lodge sports at Tyler is due to
a host of new leaders and an
excellent return has been
reported from this organiza-
tion. As in previous years, the
arrangement for this, the only for-
mal, meeting of the year will be
held in the Tyler Lounge. The meet-
ing will include all members of the
Athletic Association, including rep-
resentatives of the various teams.

The meeting will be held Wednesday, March 20, at 7:30 P.M. at the
Tyler Lounge. All students interested in
the fresman athletic activities will be
welcome to attend. Motion
suggestions for approval of the
new officers and the constitution of
the organization will be presented.

Program for the meeting will include a short address by
President of the M.I.T. Athletic
Association, Stuart G. Far-
num, 4-46, President of the
Freshman Athletic Association,
Doris. Front, 5-15
Solicit for Red Cross

The Annual Red Cross Drive, new
in program, is to be man-
ered at the Institute by the
mittee representing the three
Departments of the Institute,
Arms, and the Committee, under
the direction of the Tyler Com-
mitee. For further information
on the drive, consult Stuart G. Far-
num, 4-46, President of the
Committee.

Soddering Speaks To Mech. Engineers

Presents Discussion On
History Of Gas Turbine

Professor Richard C. Soddering, of
Western Electric Co. engineering, arrived at a lecture pre-
tened by the American Society of
Mechanical Engineers on Wednes-
day evening in Room 1-106, and
Room 9-109. The subject of the lecture was "The Development of
Gas Turbines." The talk in the first part
covered the principles and cycles, and then on to the development of
the gas turbine in its present form. Starting with the earliest history, he
pointed out the use of the gas turbine in
air engines, and in conclusion discus-
sed the modern turbines.

Following the Carnegie principles and cycles, Sir George Cayley, in
glish scientist, engineer, and
lucted, developed the gas engine in 1767. The steam turbine, invented by Savery, and the Diesel
engine were other important develop-
ments in the development of the
late eighteenth century.

The second part of the lecture was
the field of supercharging internal combustion engines, and was for the
final development of the gas engine. Professor Soddering pointed out
how the engine to operate under these conditions of high pressure and
high temperatures are as paramount in industrial use of the engine as
are in the production of speed and power in the automotive engine.

Summary and Analysis

The lecture was concluded with a
summary of the points made, and
then the subject of the evening, the
turbine. Professor Soddering ended
the lecture with a brief statement of
the subject in the light of the present
day developments. He then closed
the lecture with a brief statement of
the subject in the light of the present
day developments. He then closed
his talk with a brief question and
answer period. The lecture was
very well attended, and the audience
was greatly interested in the subject.

Five Receive Professorships

For Next Fall

Associate Professors

S. S. Wilks, M.I.T., 7-29,
Professor of Statistical Engi-
en and Data

LET US PRAY

Benediction upon the newly advanced Faculty members.

O Lord, look down upon thy children with kindness, and to those who this day have been elevated over the students of this Institute, give them forgiveness, and forbearance. Instruct our predecessors in the secrets of our weakness, in the trials that we face, and the temptations to which we succumb.

Let them see the evil in Saturday morning inquisitions, in unsolvable problems, and more than twice the scheduled amount of homework. Give them strength to resist the will to demolish us in our mistakes, our uncertainties and gibberish. Open their eyes to see that we are not names on a card or grades on an exam, but fellow human animals, of perhaps an inferior grade and though not yet ready to enter the Kingdom of Heaven and the Graduate School, nevertheless endowed with a heart and soul and, we humbly submit, a brain.

ELECTIONS STATISTICS

In the Dormitory elections, held yesterday, a grand total of 117 ballots were cast out of the 690 delivered to Dorni residents through their mailboxes. On our slide rule this comes to a cool 16.3%. Four hours after ballots began landing there were approximately 160 ballots carefully scrutinized in the wastebaskets and three or four of them.

BOOKS FOR CHINA

Like so many other war-ravaged countries, China is one more trying to make a footing as a center of culture and education which she held prior to the conflict. Students are willing to endure outland inconveniences in order to continue their studies at the world-famous universities. Talk about education which she held prior to the conflict. Students are forced to take up residence in caves and huts near their universities in the face of housing shortages—hundreds of men and women have been forced to spring upon their classes. We, therefore, ask each of you to a contribution of one book to the cause, in refilling her libraries' shelves. We, therefore, ask each of you...
S.A.E. Quintet
Crushes Hayden

Beaver Key Prepares
For Intramural Baseball
S.A.E. capped the Beaver Key basketball Championship recently, making the other finalist, Matty
Hornoracy, by a score of 30 to 15. Hayden took second place, followed by the teams of Woods
and third and fourth positions.

S.A.E. and Hayden had Hayden on March 16 at 11:15, the second half saw a new S.A.E. team in the floor, and in no time at all the team had won the game. From the beginning of the second half to the end of the second half, it was up and down and the way.

Other Games Exciting
The game between Wood and Genoa did not prove quite as interesting because it was decided before the game began on to go to the finish. The way through and came out winning by a large margin.

Tennis Team Rally Held on March 22
Coach Jack Summer, squash and tennis coach at the Institute, has announced a tennis rally to be held on Wednesday, March 27, at 5:30 p.m. in the Beehive, sponsored by the tennis team of the technical society. Admission will be free to all interested in tennis. This interesting and ability, according to the coach, has indicated, will attract a large number of people to the rally. It is expected that there will be quite a few returning tennis players who will be present, as well as some new faces. The rally will be open to those who have not chosen as there will be no cuts, and newcomers are invited to watch the team practice. Several former players are back and rugged sport.

Ten Years Ago
March 30-39, Track Coach Gus Hayden has announced that the Institute team will have five events in track, and in each event there will be at least four runners. This turn of events left the team facing some extremely tough competition provided by seven teams who have been tried, the number one spot in the country will be needed for coxswain.

The team meets at the Wal-

Capt. Ernest Buckman of M.I.T., Buckman Unable To Compete

Ten years ago, some members of the team have returned veteran members of the team. The last event held surprise and.Nettleton, 6:00 P.M.

Jerald Takes 300-Meter Yard

Jerald of Tech was the only team to take this event, which took the 300-yard freestyle. Jerald then returned veteran members of the team. At the last meeting of the season the track meet was made to get the team on the same page and for the same event. Vitagliano, a freshman, has broken the freshman 400-yard freestyle record established by Robert McPhee at 3:46.6. The 440-yard freestyle Vitamin trimmed the 3:30 in a cool and refreshing performance. It was quite a day. The 440 yard afterward in the afternoon to the tune of 

Witt - The Beaver Key Society is plan-
ning the second half to the end of the game, with the new S.A.E. team in the floor, and in no time at all the team had won the game. From the beginning of the second half to the end of the second half, it was up and down and the way.

Practices Open to Texas
No definite squad has been chosen as will be the case with Coaches Martin and Coach Hornoracy, and there are still several good positions open for those who have yet come out for Tech's "touch".png
Dorms, 5:15 Club To Present Frolic On Fri., April 26

Other Dormitory Dinners Include “Spring Fancy” Featuring Competition

The 5:15 Club’s annual dance called “Spring Fancy,” and the annual Spring Frolic, are to give the coeds a glimpse of the Dormitory Committee on Friday, April 26, in Pritchett Hall, Room 6-120, respectively. The former, which is being given on the night before the annual competition, is being held to enable the six coeducational institutions to select dates for the Spring Frolic.

Invitations to 10 Colleges

Invitations have been sent to 10 colleges, including the four in New England. Replies of acceptance have been received from Harvard College, Simmons College, Wheelock College, and Radcliffe. The committee has not heard from Wellesley, Fiske Junior College, Mount Holyoke Junior College, and Katherine Gibbs.

Tickets On Sale

Tickets for the Spring Fancy will be on sale in the Lobby of Building 19 during the week prior to the dance and will cost $2.80. They may also be purchased from members of the Dormitory Dance Committee.

The Dormitory Dance Committee is sponsoring another informal dance on Saturday, March 23, in the Davis chee, room 25, and at the Prichett Hall, Walker Memorial. To start at 8:30 P.M. and to continue until midnight. Admission will be 60 cents per couple. Since the number of tickets for sale is limited, those wishing to attend the dance should inquire at the Dormitory Office to determine whether or not any are available.

Cabinet Officers

T.C.A. Cabins members were

erected last Wednesday, March 20

by the Executive Committee of that

organization. They are as follows:

Sanford A. Dena, Jr., director of

Tech Cabin; Ralph Seigel, 1-46; and

John W. Kuehntz, 2-46, co-

contributing editors to the Handbook.

Christian Rust, 49, and John

Cook, chairman of scholarships and

rewards, respectively, of the Ad

visory Board; Thomas Layo, Harold

Symonds, and Victor F. Seiblick,

4-46, directors of Information De

artmental, Ticket Service, and For

tage Students, respectively; Mark

A. C. Thompson, 10-47, business and advertising

managers, respectively, of the\n
DOT.

A schedule of events for persons

attending the conference on “World

Organization in an Atomic Age” at

Wellesley College this fall has been

prepared. The con-

ference starts at 4:00 P.M. and will

end at 7:30 P.M.

Freshman Supplement Ready

The Club, which has been in

getting women in 4/2 and M.I.I. are being concluded, the latest supplementary aid, which supplements the one issued previously, will be issued during the first half of the second chapter of Phillips. It is expected that the 4/2 supplements will be up to date about the middle of next week.

The Spring Frolic, Friday, April 26, will be in room 6-120 of Building 19, starting at 8:00 P.M. and lasting until 11:30 P.M.

Evelyn Best, to be written during the coming week, will be released for use in the Spring Frolic.

Campus Calendar

April 23: Four Coeds have been given time in the dramatour’s play “The Little Foxes” at trendy held last week. The play has been scheduled for the evenings of May 23 and 25, at the Peabody Playhouse in Boston.

leading roles in the play go to

Robert P. Abelson, 10/7, as Oscar

Hubbard; Margaretta J. Hacker, 2-48, as Regina Ochter; and Phillip R. Johnson, 646, as Benjamin Hubbard. Supporting players include Mary R. Greer, 546, as Addie; Robert W. Shuit, 3-48, as Cal; Virginia M. Tower, 6-47, as Nordie Hubbard; Eugene R. Scholes-

koff 2-46, as Leo Hubbard; Thomas R. Ingle, 6-47, as William Marshall; Miriam C. Carlson, 5-46, as Alex-

cia Goddard, and Donald Pear-

4-46, as Horace Ochter.

cover at 7:00 P.M. Following the discussion there will be an informal dance lasting from 9:30 to 11:30 P.M. The only cost is trans-

portation and 40 cents for dancers. The train for Wellesley leaves North Station at 2:45 P.M. and the last
cover on the return trip leaves at 11:25 P.M.
