

Techsapoppin Tickets Now On Sale

Jr. Promenade To Be Followed By Gay Informal

Mardi Gras Carnival With Moon Glow Juice Planned For Sat. Night

Junior Prom weekend is going to be a full weekend this year with plans to make the Saturday dance almost as big an event as the formal on Friday night.

With a motif of "Mardi Gras Carnival," the affair will have music provided by Hal Reeves and his thirteen-piece band. The South Armory in the vicinity of Copley Square is to be redone in the festive spirit of the occasion. To aid in this transformation the J. P. committee has been busy gathering supplies and has enlisted the help of several Technology activities. The Tech, Voo Doo, the Catholic Club, Tech Engineering News, Technique, the American Management Association, and the 5:15 Club have volunteered to provide booths to add to the carnival atmosphere.

These booths will be operated in good carnival style with hawkers to lure the unsuspecting couples into the side shows. The gleam in their eyes is presumably due to a mercenary attitude, but these activities show a new interest in Tech spirit.

Mysterious Punch Available

Contributing its bit to the frivolity of the dance will be the punch which is to go by the enticing name of "Moon Glow Juice" but is rumored to be cider on which some of the more energetic chemistry students have been working for some time.

Appropriate apparel for Mardi Gras will be insisted upon at the door but emphasis will be placed more on originality than upon fancy costumes. Long woolens supported by suspenders, though not the height of fashion, will be considered adequate. Prizes are to be awarded for the most original costumes. As an added attraction there will be a short intermission program.

Table Reservations

Students holding tickets to the Junior Prom will be able to make

Tech, Bradford Will Sing Nov. 15

Techonians Will Play For Dance Following Concert

The first public concert of the Men's Glee Club at Technology is to be presented jointly with the Women's Glee Club of Bradford Junior College on November 15 in Morss Hall. This year's concert is the result of a successful joint concert last year between the same two schools.

An informal dance for the participating students will follow the concert. A limit of 200 tickets will go on sale for non-gee club members at \$1.30 per couple. The Techonians are to provide the music at the non-stag affair. Concert tickets alone may be purchased for \$1.00.

The Men's Glee Club has already enjoyed marked success this year. On October 23, they sang for the 32nd Anniversary Banquet of the Associated Industries of Massachusetts at the Grand Ballroom of the Statler Hotel. It was strictly a popular concert with such numbers as "Oh, What a Beautiful Morning," "I Dream of Jeannie," and "The Whiffenpoof Song." A similar concert was given for the New England Transit Club on November 6 in the Hotel Statler ballroom.

Carroll L. Wilson Of Atomic Comm. Featured In "Post"

Now hear this! All you Techmen who want to grow up and be famous can get the inside story on how to do it by reading this week's issue of the Saturday Evening Post. It features an article on Carroll L. Wilson, '32, the general manager of the Atomic Energy Commission, who may well serve as the ideal example of the successful graduate of the Institute.

Wilson, at the tender age of thirty-seven, is at the head of an organization that holds the future of the world in its field of activities. But to Techmen, who know all about atomic energy already, the most interesting part of the Saturday Evening Post story is the tale of Carroll Wilson's Technology days.

It seems that Wilson, according to Jack Beall, author of the story, was what we familiarly call a "typical Techman." Or he was as a freshman, anyway. During his frosh year, to quote the Post, "he

(Continued on Page 4)

Sr. Week, JP Nominees Listed

Senior Ring Chairman Also To Be Selected

Elections for Senior Week Committee, Senior Ring Chairman, and Junior Prom Committee, to be elected by the Classes of '48, '49, and '50, are to be held between 8:30 a.m. and 5:20 p.m. on Wednesday, November 12, in the lobby of Building 10. Ten Senior Week Committeemen and five Junior Prom Committeemen will be chosen.

The list of candidates, as released by the Elections Committee, is as follows:

Nominees

For Senior Week Committee: D. Dennis Allegretti, Kenneth S. Brock, George H. Browne, Robert B. Cook, Robert D. Fier, Philip J. Friedlander, John R. Kirkpatrick, William Oard, Peter H. Spitz, John W. Weil, Joseph V. Yancunas, William R. Zimmermann.

For Junior Prom Committee: Allan Baer, William C. Bibb, Jr., Hans F. Eckardt, Thomas R. Eggert, Roy W. Jenkins, William S. Peppler, Jr., James F. Stengel, Harris B. Stone, Alan Vort.

For Senior Ring Chairman: E. Milton Bevington, Donal L. Botway, Robert C. Peterson.

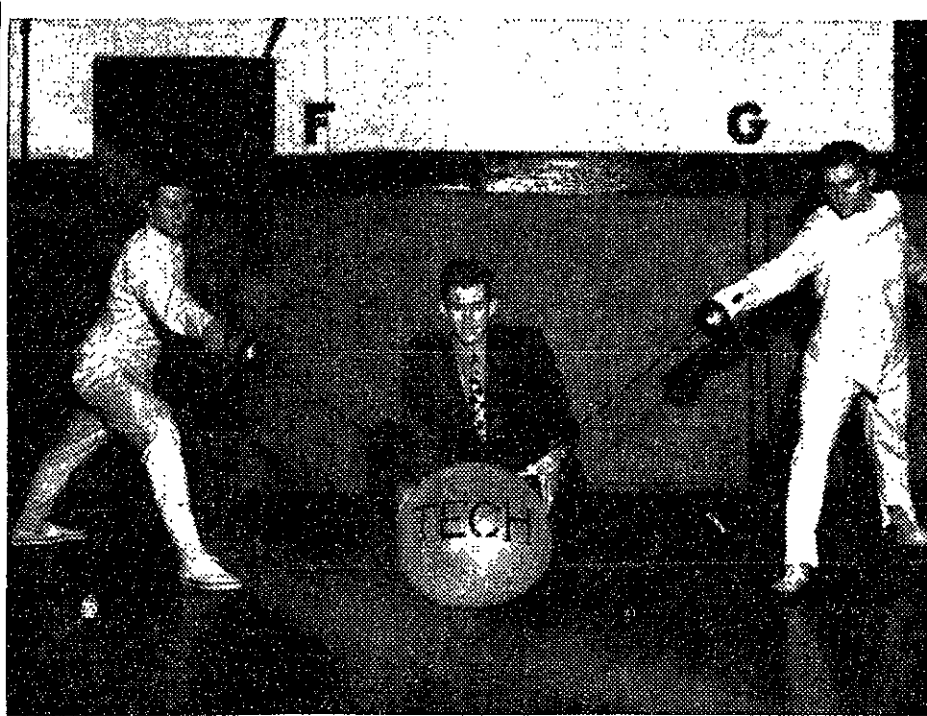

Prior to the actual casting of the ballots on Wednesday the Elections Committee will do its part to remind the student body of its right and duty to vote by placing posters bearing the time and place of the elections on bulletin boards throughout the Institute. By next Wednesday the Committee will in addition have had 1200 ballots printed for each class.

Voting Procedure Outlined

If voters wish to have their ballots counted, they must be careful that they follow the standard voting procedure. This requires that when a student has indicated his desire to vote, and has properly identified himself, he should withdraw to a secluded area.

Here he should mark the ballot that has been given him by the preferential system, placing a "1" after his first choice, a "2" after his second choice, etc. Those checked by "x's" or by any other incorrect system will be thrown out. Finally, after having signed and detached the slip at the bottom of the election sheet, he should give both of these to the Election Committeemen in charge.

TECHSAPOPPIN!

Maybe you get the idea? That's a balloon and you get one guess as to what's going to happen when the fencing foils move in. Just to remind you, Techsapoppin! The fencers are John W. Weil, '48, and Walter A. Mindermann, '48. The middleman is Paul D. McNaughton, '49, the general manager of the Techsapoppin weekend.

EDITORIAL

TECHSAPOPPIN is one of the biggest things that's happened to this school for a long time. There is no reason why this affair, which is to be held annually, should not rank with the Dartmouth Winter Carnival and other well-known college affairs in brilliance and publicity. The idea is still not fully developed, however, and the student body has perhaps not fully appreciated how big and how celebrated TECHSAPOPPIN is going to be and how much support from the students the affair

(Continued on Page 2)

Cath. Club Offers Dorothy F. Grant Next Wednesday

Dorothy Fremont Grant, editor, author and lecturer, will be the speaker at a meeting of the Catholic Club on November 12 in 6-120 at 5:00 p.m. Mrs. Grant will speak on the subject, "Information at Work." Admission to the meeting will be free, although the Paulist League of Boston is presenting the same lecture at a charge of \$1.50.

Mrs. Grant, with her 30 years of experience as a writer, presents in her lectures the message of Christian living in a pagan world. She speaks with authority on the role of the professional writer in modern society and the moral obstacles to family life.

Mrs. Grant is the author of five books, including *War Is My Parish*, *Night of Decision*, and *So You Want To Get Married*, a down-to-earth approach to the problem facing the unwed.

The Catholic Club will hold a wiener roast and party at the Newman Center, 68 St. Stephens Street, Boston, on Tuesday, November 11, at 7:00 p.m. Those desiring to attend should see Frank Heger for a reservation.

The second of the Club's monthly dances with local girls' schools will be held November 22 with girls from Simmons College. The dance is for members of the Club only, and reservations are required.

TCA DRIVE RESULTS

By last Wednesday night the Technology quota for World Student Service Fund contributions had been over subscribed. At the same time, the T.C.A. receipts were about one thousand dollars short of the \$4,500 goal.

To date the largest single contribution came from the treasury of the Chinese Students' Club. The \$100 donation was divided between the W.S.S.F. and the T.C.A. in seventy and thirty dollar sums respectively.

Poetry Readings To Highlight Visit By Robert Frost

New England Poet Is To Teach At The Institute For Period Of Month

The celebrated poet, Robert Frost, will visit Technology from November 15 to December 15, as a visiting professor of poetry, and will give several lectures and classes on his work. One major highlight of the visit will occur on Wednesday, November 19, when Mr. Frost will give a reading of his poetry in Huntington Hall, 10-250 at 5:00 p.m. under the sponsorship of the lecture series committee. He will also appear at a Faculty Club luncheon on Monday, November 24.

Arrangements may be made with Professor William C. Greene of the English Department, for interested groups to meet with Mr. Frost during the first two weeks of December.

The life of Robert Frost has been a curious admixture of great poetry and a love of simple living and farming. He was born in San Francisco in 1875, and except for several years in England has lived the greater part of his life in New England.

He has received numerous prizes in literature, including the Pulitzer Prize in poetry in 1924, 1931, and 1937, as well as numerous honorary college degrees. Some of his principal works are: "A Boy's Will," "North Of Boston," "Mountain Interval," "New Hampshire," "Selected Poems — 1923," "Westrunning Brook," and "Lone Strike."

Possibly the best definition of Robert Frost or his poetry is given by himself: "Poetry is a reaching out toward expression; an effort to find fulfillment. A complete poem is one where an emotion has found its thought, and the thought has found the words."

This visit is the first of a series of visits by such personalities. Dean of Humanities Robert G. Caldwell

December 5 & 6 Marks Weekend of Battles Royal

Basketball And Hockey Features Competition; Tickets Sales End Fri.

With the expectancy that the future may see the establishment of Techsapoppin as an annual fall social and athletic weekend, ticket sales for the highly publicized event got under way last Wednesday morning. Priced at \$2.50 each, \$5.00 per couple, the tickets are being handled by various living group representatives and will be on sale until next Friday afternoon.

Techsapoppin has been defined by its sponsors as "an effort to give the average Techman a weekend of social and athletic activity which will match those of other colleges." With this view in end, the committee, under the leadership of Paul McNaughton, made a special effort to produce a program which would be the result of the combined efforts of all living groups.

Basketball, Dance Friday

The plans for the weekend call for a program spotlighted by a basketball game against Boston University at Mechanics Hall, to be followed by the Saturnalia dance all on Friday night, December 5. A rally and hockey game are planned for Saturday evening. On Saturday afternoon intercollegiate competition in four sports will be offered at Walker Memorial and Alumni Pool, while the dormitories and the Institute will be holding open house during the day.

Concessions Operating

According to a committee announcement concessions will operate to supply "Refreshments to suit everyone's taste." The ROTC band and a dance orchestra will furnish the entertainment between the periods of the hoop contest. Cheerleaders are also expected to be on hand.

Immediately following the basketball game, the Saturnalia dance and party will follow at Mechanics Hall. Bright decorations, refreshments, and surprises will feature the party.

Open House

On Saturday the Dormitories will have open house, with the Dormitory Committee planning to hold the Annual Dorm Tea during the afternoon. An open house will be the order of the day at the Institute also.

Four sports will be highlighted on Saturday afternoon. There will be a swimming match with Brown University at the Alumni Pool. Simultaneously a wrestling match will be underway at Walker Memorial.

A squash match with Brown is scheduled for the afternoon, while John Weil, captain of the fencing squad, has promised a spectacular display of fencing at Walker Gym. Last year's fencing team won the Eastern Intercollegiate, going through the season undefeated. A running account of the various fencing maneuvers will be broadcast by a member of the team.

Rally in Great Court

Saturday night at about 7:30 p.m. a large rally will be held in the Great Court of the Institute. A Techsapoppin Queen will be chosen at that time and she will be crowned along with her maids of honor.

is interested in any suggestions by the students as to what personages should visit Technology in the future.

needs in order to be a complete success and to establish itself as a permanent occasion.

To begin with, TECHSAPOPPIN weekend will be bigger than the Junior Prom or I.F.C. weekend because all Technology students will eventually participate. This is really going to be one occasion where everybody gets together, where a really big dance will be held, when really large crowds come out and cheer for Technology teams, where fraternity and dorm men go to each others' dances, where slide rules are dropped and a really marvelous weekend breaks up the regular schedule of events.

TECHSAPOPPIN will also serve to convince the outside world that Technology students are a little more worldly than people generally seem to think, that they are not all brain and no brawn, that they as well as everybody else like to have a good time every once in a while. Boston should never be quite the same after each TECHSAPOPPIN weekend.

The planning for this year has perhaps been somewhat sketchy and the publicity, because it started too late, a little inadequate. This should not act as a deterrent to the students, however. We think that they want this affair and that they'll back it up by really participating in numbers.

Then, when this year's test event has been run and evaluated, the student body can decide, perhaps by some sort of referendum, just on what scope the affair should be held each year, and certainly new ideas can be added as the time goes by. The important thing now is to see that the thing gets started. Tickets for TECHSAPOPPIN are on sale now.

FIELD DAY BRIEF

There are several suggestions for improvements possible if we wish to keep the Glove Fight an integral part of Field Day. First, the field should be roped off to keep the spectators out, and the participants in and to relieve the burden on officials. This would increase the feasibility of our second suggestion, namely limiting both sides to the same number—say 250 contestants—and using this as the basis to determine the results, even if one side fails to produce that many men. An additional bigger factor for fairer results would be to count both the gloves captured and those retained, thus creating a penalty for destroyed gloves.

Letters to the Editor

Editor, The Tech
 Walker Memorial
 Cambridge, Massachusetts
 Dear Sir:

I knew that when The Tech came out today, the words protesting the outcome of Field Day would come fast and furious. However, I thought that I would forget about the whole thing, and try to make some constructive criticisms for future Field Days. But on reading one or two articles in the paper, I decided that it was only fair to me and to the rest of the student body to give my views on the matter.

The main protest is that it was entirely unfair to decide the Glove Fight on a percentage basis. I wholeheartedly agree that it would be unfair if there was a large difference in the number of participants on each side. Nevertheless, in this particular case, I believe that we were completely justified in doing as we did. Past records have shown that there is usually a greater percentage turnout in the Freshman class for the Glove Fight than in the Sophomore Class. But in this case, since there are approximately 200 more students in the Sophomore Class than in the freshman class, it was reasonable to expect that the two classes would be equally represented. Just because the freshmen took 50 more gloves than did the Sophomores doesn't necessarily prove us wrong either. Last year many Sophomores that were on the field refused to take gloves, for in that way they wouldn't stand a chance of losing them; but nevertheless they participated in the activities. To keep the same thing from happening again this year is the reason for using a percentage basis. However, that didn't altogether do away with that practice, for many Sophomores still wouldn't accept gloves. As a matter of fact, we tried to count the Sophomores on the field, and when we stopped because of utter confusion, the number was above 250. So the fact that only 198 gloves were issued doesn't prove anything. I maintain that there was a difference of less than 25 men on the two sides.

In classes where there is a large difference in the enrollment, this system will be wholly inadequate. I know that. And we shall try to work out something for the years to come that will be fair and satisfactory to everyone.

While I am on the subject of Field Day, I believe that there are a lot of things that need to be done. After seeing a group of about ten men relieve a fellow of his glove, his clothes, and then brutally beat him with their fists; and after seeing men disposing of their gloves by burying them in the ground or by hiding them in a convenient nearby car, I think that it is about time we all back off a little way, and try to determine just exactly what Field Day really means. It really

(Continued on Page 4)

De Santillana Blasts Argentina, Says Peron Gambles On War

Last Wednesday, at 5:00 p.m. in 1-190, the Lecture Series Committee presented Professor George de Santillana in a lecture entitled, "Argentina—What It Means to U.S." Professor De Santillana has recently spent three weeks in Argentina, and his lecture included the background as well as present conditions in Peron's Argentina.

What has happened in Argentina in recent years was termed by Professor De Santillana as an "historical accident." Argentina never had any of the assumed reasons for the growth of Fascism. Argentina was never poor; there was no minority problem; and there was sufficient opportunity for everyone.

Up to 1930, Argentina was ruled by "serious statesmen," who were liberal and economically sound, but who kept the common masses down. When the generals seized power in 1930, all political life ceased. Elections were "fixed" from then on, and elaborate political machines set up. In 1942, from among a mass

of discontinued politicians rose a "smart general—no fool," by the name of Peron. This man instituted a radical social, progressive, movement, which called for throwing out the "old generals," and instituting a pure Fascist government. Peron cut tariffs, and taxes, but secured money by making the State a monopoly. Peron buys wheat and other farmers' products at extremely low prices, and due to the world-wide food crisis is able to make large profits through export.

The aim of Argentina's five-year plan is to secure good bargaining power and economic autonomy. "Peron is gambling on another war." In a war, which would involve the Soviet Union and the United States, Peron sees the realization of a South American bloc. Officially Peron "calls communists bad names." In fact, however, the 30,000 Argentinian communists are excellent personnel for his labor unions.

(Continued on Page 4)

Television Society Starts Building Sets

E. E. Department Offers Institute Facilities

At a general meeting of the Television Society on Tuesday, November 4, Professor William H. Radford and Mr. Dasher of the Institute's Electrical Engineering Department, spoke on the policy of the Institute regarding the organization.

Professor Radford placed the facilities of the Communications Department at the disposal of the society, subject to regulation by the Society's technical director and Professor Radford. In addition, the department will supply material which is available or obtainable at reasonable expense.

A report was presented of the progress made by the various subgroups into which the main project has been divided. A part of the audio transmitter, the photographic equipment, and the generating equipment are well under construction. To date the society owns several hundred dollars' worth of transmitting and receiving equipment.

To Extend Deadline For Chest X-Rays

Charles Hayden Grant Provides New Facilities

A grant of \$11,000 by the Charles Hayden Foundation has been made to the Institute for new X-ray equipment which provides complete facilities for a chest X-ray for every person at the Institute once a year. In making the announcement, Dr. Dana L. Farnsworth, Medical Director, said that the equipment is already installed and in operation.

In view of the fact that the Medical Department has been unable to complete the chest X-rays of all students, Dr. Farnsworth has extended the final date for the physical examination required of every entering student to November 15.

Influenza vaccine will be offered free of charge to all who desire it at the Homberg Infirmary without appointment each morning from 8:30 to 9:00 during November. Dr. Farnsworth has stated that the dosages this year will be sufficiently small to insure against any possible reaction.

Hockey Game With Terriers Set For Dec. 6

Match With Last Year's Champs Gives Promise Of Being Close Battle

The announcement was made this week that the first Tech hockey game to be played this year will be against Boston University on the night of December 6 at the Boston Arena. The contest will be one of the highlights of the Techsappin weekend and will be preceded by a big rally at the Great Court.

The game with B.U. in itself would be one of the big events of the season even were it not part of the gaia weekend. B.U. has always had one of the leading hockey teams in the East.

Last year the Terrier sextet led the New England Intercollegiate Hockey League with the amazing

Last week's results:
 Westgate 7—Sigma Chi 6
 Bemis-Hayden 6—Kappa Sigma 0

Next Week's Schedule—
 Field —Saturday, November 8 at 2:30

- 1 Westgate vs. Hayden-Bemis
- 2 Phi Beta Epsilon vs. Sigma Chi
- 3 Phi Gamma Delta vs. Phi Delta Theta
- 4 Student House vs. Phi Kappa Sigma

Sunday, November 9 at 10:00 A.M.

- 1 Theta Chi vs. Delta Kappa Epsilon
- 2 Sigma Alpha Epsilon vs. Wood-Goodale
- 3 Theta Delta Chi vs. Delta Upsilon
- 4 Chi Phi vs. Lambda Chi Alpha

Sunday at 2:00

- 1 Sigma Nu vs. Alunroe-Walcott
- 2 Senior House vs. Phi Kappa Sigma
- 3 Kappa Sigma vs. Sigma Chi
- 4 Graduate House vs. Phi Mu Delta

record of 11 victories and one tie. Two of these triumphs were hotly contested games with M.I.T. in which the outcome was in doubt until the final minutes of play.

Tech Has Depth

The same Tech team of last year will again be back this time with the badly needed depth they lacked before and with hopes of pulling the upset of the year in beating the champs. The Terrier team on the

Intramural Fives Should Sign for Courts by Nov. 10

The intramural basketball tournament will begin December 1. Beginning November 15 two courts in the armory will be available for practice from 4:00 p.m. to 7:15 p.m., and the Walker Gym will be available from 7:30 p.m. to 11:30 p.m.

All teams planning to compete must register before Monday, November 10 with Fred Dunmire at 528 Beacon Street, Boston, Circle 7790. Preferred times for the practice sessions should be indicated.

With a schedule of approximately 150 games many officials will be needed. All men interested should contact Fred Dunmire or leave their names at the A.A. office in Walker Memorial.

other hand, has lost half of their varsity squad.

Bob Maker, one of the best defensemen in the league and the high scorer of the league last year, has used up his eligibility. Ed Figuiera, who was rated even more valuable than Walker on defense by his own coach, has left because of sickness in the family. Dan Crowley, who was chosen for the All-New England hockey team, has transferred to Michigan.

Tech Strong

The Tech sextet will still have Ed Thompson, All-Star selection from last year; Jack Clifford, one of the outstanding defensemen in the league; and Jack Adams, the goalie rated right behind B.U.'s Bevins as the goalie of the year.

Dribblers Ready For New Season

Twenty Men On Squad Hold Daily Practice

With a new game with New Bedford Textile added to their schedule on December 1 to prepare for their game with Harvard two days later, the Tech Basketball Squad is continuing its practicing in Walker Gym every afternoon. The team is now composed of 20 and will soon be cut down to the 15 top men which will be carried throughout the season.

Assistant Coach Ted Heuchling has been putting the men into shape and has adopted a new style of fast break, which the team noticeably lacked last year. The old weave will again be used to confuse the man-to-man defense which most colleges use.

Watson Back

Doug Watson, the able ball handler from last year, is again to be depended upon to lead the Beaver attack, along with the speed and fighting spirit of Jim Madden. Although Lou Norton, the freshman sensation last year has injured his left shoulder, it is expected that by December he will again be able to help Tech control the boards.

Sailors Finish Racing Season With 4 Titles

Last Race Provides Brown With Margin For Regatta Victory

With the season's record marked by triumphs in three regattas and capture of the freshmen team championship, Technology's sailing team concluded its Fall competition in the I.C.Y.R.A. last weekend. Despite superior opposition on several occasions, Tech's Fall performance was good, according to Jack Wood, sailing mentor.

High hopes of adding another regatta win to Technology's laurels, however, were dashed when an unexpected victory by the Brown University skippers in the final race of the Schell Trophy regatta on Sunday provided just enough points to overcome Tech's lead and mar the season's climax for the Engineers.

Brown Wins Three

But among the 44 member colleges of the Yacht Racing Association only Brown garnered a record that could equal or better that established by Technology during the season. Copping the Danmark and Brown Invitation regattas as well as the Schell, the Beavers topped Tech on three occasions, while the Engineers turned the tables in winning the Jack Wood Trophy regatta.

Only other victor in major competition was Harvard, which carried off the International Star Class Championship for the second straight year.

Warming up with a local quadrangular regatta on October 4, Tech downed Boston College, Tufts and Wesleyan before moving on to stiffer competition. Commodore Ralph Evans and Phil Bridges paced the Tech forces in the season's opener.

Win on Thames

Sailing over Coast Guard's Thames River course, the Engineers carried off their first important victory by downing Yale, Harvard and Coast Guard on Sunday, October 5, with John Marvin, Fred Blatt, Chuck Bloomer and Dan Greenbaum piloting the dinghies. The following weekend Brown unleashed its potency to win the Danmark Trophy at New London, while M.I.T. finished in a fourth-place tie with the University of Toronto.

Led by Evans and Bridges, Tech captured the Greater Boston Dinghy Championship, October 13, for the

OUTING CLUB

The Outing Club is sponsoring a series of ski lectures every Wednesday at 5:00 p.m. in Huntington Hall, 10-250, from November 12 to December 17. The classes will include movies and slides as well as informative lectures, and demonstrations. Covering all phases of skiing, the lectures will include discussions of the cost of necessary equipment and the availability of nearby ski slopes. The classes will be open to the public.

DRAMASHOP

Tryouts for Dramashop's forthcoming play, which will probably be one of Ibsen's, will be held next Monday and Wednesday, November 10 and 12, from 4 to 6 p.m. in Room 2-190. Anyone interested in either acting or in production is welcome; this includes everyone connected with the Institute. There will be only one play given by Dramashop this year, according to J. Bastian, Faculty advisor.

MEN'S GLEE CLUB

Because of the November 11 holiday the regular rehearsal of the Men's Glee Club has been moved up to Wednesday, November 15, at 5:00 p.m. in Room 1-390.

AIEE

Last Monday at 5:00 p.m. in Eastman Hall Professor S. H. Caldwell gave a lecture on "The Differential Analyzer" to the members of the AIEE. Professor Caldwell brought out the fact that the differential

analyzer is an analog machine as distinguished from the mechanical computer at Harvard, which is classified as a digital machine.

seventh consecutive time to retain the Rudolph O. Oberg Trophy for another year. A week later, on October 19, Technology's skippers eclipsed Harvard, Brown, Coast Guard and Dartmouth to win the Jack Wood Trophy for the third consecutive year. Dan Greenbaum took high point honors in the regatta, while Bloomer, Marvin, John Lawson, Bridges, and Ray Brown also garnered points for the Engineers.

Freshmen Champs

With only the freshmen coming through for a win, the weekend of October 25-26 was dark for the M.I.T. cause, as Brown took its Fall Invitation Regatta and Harvard won the Star Class Championship. But the Tech freshmen, winners of the preliminary competition on October 18, went on to capture the Freshmen Team Dinghy Championship raced over the Charles River courses. Tech's Bob Nickerson just missed gaining the individual crown, but with teammate Howard Fawcett proved unbeatable in team scoring.

With Brown annexing victory, the Schell Trophy Regatta on home waters last weekend brought to a close the Fall competition. Ralph Evans tied for high-point skipper honors, while Dan Greenbaum and Fred Blatt garnered the points from the second division.

First Tech Show Meeting Will Be Held Nov. 12 & 13

Preliminary casting meetings for the 1948 Tech Show are being held on Wednesday and Thursday, November 12 and 13, at 5:00 p.m. in Tyler Lounge, Walker Memorial. Meetings are for the purpose of making try-out appointments and to outline the plot and parts. Those interested are urged to attend one of these meetings.

De Santillana

Senora Peron's visit to Europe was threefold. To secure Franco's alliance, "she brought him the promise of the new world to the old." In Italy, her mission was to secure immigrants for Argentina's deserted farms. In the Vatican, where her official audience with the Pope lasted 15 minutes (the unofficial one lasting 45 minutes), Senora Peron promised to establish compulsory religious education in Argentina's schools, "if the Vatican goes along."

These, this government which has no freedom of the press, in fact nothing that makes them different from the Nazis or Italian Fascists, are the people who are represented on the United Nations Security Council.

Wilson

worked furiously at his grades." Indeed, that was all he did. He browned. He tried for crew—and failed. He joined a frat—and left it. All in all, his first year was spent studying.

Came his sophomore year and Wilson was a new man. He became a "Joe College." He danced and played about town so much that he failed in several subjects. The new Wilson, however, was still capable of success. He became a B.M.O.C., head of the Budget Committee.

Upon graduation, he became an assistant to Dr. Compton. From then on Carroll L. Wilson worked on a line that was to lead him to his current job. He worked under the Institute's Vannevar Bush; then, during the war he became a government employee.

When, with the end of the war, the Atomic Energy Commission was established by Congress, the four-man panel empowered to hire a general manager for the Commis-

sion chose Wilson. With his selection, he undertook to make a success of that, in the words of the Post, is "the most exacting and critical job in the United States, except those held by Harry S. Truman and George C. Marshall."

table reservations in Building 10 on Monday morning, November 10. Twenty tables for two couples each are available while the rest will accommodate five couples.

Students must present their Prom tickets to reserve tables and couples wishing to be seated together must present their tickets in a group. Allocation will be on a first come first serve basis.

Students are requested to leave the name of their rate when they reserve their tables, otherwise the reservation will not be considered acceptable.

Letters

(Continued from Page 2)

matters not what it meant when it was first originated; what matters is what we would like for it to mean to us. Just what does it mean to us? And if it means nothing worth while, then I should think that we either should make it mean something wholesome and worth while, or do away with it altogether.

I hope that in the future Field Day will be a demonstration of athletic ability and good sportsmanship, and then I am sure that there will be no need for any protest.

Very truly yours,
HAROLD L. ABRAMS '48

Everyone's Talking 'Bout This Record...

It's **GORDON MacRAE'S** Latest Capitol Release
... "I STILL GET JEALOUS"

MARK the name: Gordon MacRae. You're going to be hearing more and more of him, for this newest platter of his is really a record for the books. Another record for the books is the fact that all over America more men and women are smoking Camels than ever before!

Why? You'll find the answer in your "T-Zone" (T for Taste and T for Throat). Try Camels. Discover for yourself why, with smokers who have tried and compared, Camels are the "choice of experience"!

CAMELS SUIT ME BEST!
