PRICE FIVE CENTS

French Dance Will Be Given Tonight at 8:30

Masquerade to Have French Atmosphere; Baron Hugo Will Play

Tonight, the Masquerade Francaise, the Dormitory Committee's novel dance idea, will take place from 8:30 p.m. to 1:00 a.m., Morss Hall, with a featured French atmosphere. Street lamps will be placed along Morss Hall, as will be park benches, and tables and chairs which will be placed under the balconies to give a French sidewalk cafe atmosphere. The 5:15 Club Room will also be decorated as a French cafe, with a pianist pounding out music for those who may visit it. The balconies will be open to dancers. Tickets, at \$1.80 per couple, will be sold at the door.

Costumes Featured

The main feature of the dance is to be the costumes. A "standard" outfit is to be that of the French apache, consisting of a beret, turtle-neck sweater and dark slacks for men, and short skirts with tight-fitting blouses for women. However, there can be many variations just on this idea, and any costume with a French idea or motif will be welcomed. The Dorm Committee is making it worthwhile to have a good costume by giving imported French champagne to those with the best outfits.

Proposed ideas for costumes are those suggestive of a French stereotype, such as cancan dancers, chefs, French writers, characters from French literature, French royalty, artists, a French peasant or fisherman. A couple may come with each half dressed in a different costume, even though it may be slightly confusing. Masks will be given to everyone when they come in at the door. All masks will be taken off at intermission, when the chaperons will present the champagne to those with the best costumes, the chaperons being the judges.

Baron Hugo to Play

The refreshments, which will be served during intermission, are intended to fit in with the French atmosphere. They will consist of petit-fours and iced ginger ale.

Music will be supplied by Baron Hugo and his men. The Baron, who is chiefly remembered for having played at the Totem Pole for a great many years, will be broadcast over WMIT from 12:00 p.m. to 12:30 a. m. on the Night Owl program.

Last Ski Lecture Given Wednesday

Busses to Be Available For Weekend Ski Trips

The last in the series of lectures on skiing sponsored by the Outing Club was given last Wednesday in Room 10-250, featuring Jim Klein's talk on "Where to Go Skiing."

Announcements on the future plans of the group were also made during the meeting, including that next Tuesday Domie Lowell, divisional chairman of the National Ski Patrol, will organize all eligible and interested men. Further news was that probably as soon as one week after the Christmas vacation there will be chartered busses to take anyone who signs up in advance for weekend skiing trips.

In his talk last Wednesday, Jim Klein began by listing the nearby ski slopes. Dedham's Commonwealth Country Club can be easily reached by public transportation. Quincy, the Blue Hills, and Braeburn slopes are also easily reached from here.

Handel's "Messiah" To Be Presented By Musical Clubs

Concert is Tomorrow In Boston's Jordan Hall; Expected to Be Sellout

The Combined Musical Clubs of the Institute will present their second annual performance of Handel's Messiah tomorrow at 8:30 in the evening in Jordan Hall, Boston. The group will be conducted by Mr. Henry Jackson Warren of Wayland, Massachusetts.

Those tickets still remaining will be available in the Building 10 lobby and at Jordan Hall. They are priced at \$.74, \$1.00, and \$1.50. Robert L. Miller, '50, has announced that there are virtually no bad seats in Jordan Hall for this concert, and the performance is almost sure to be a sellout.

The combined clubs are made up of the men's and women's glee clubs and the symphony orchestra, led by Professor Klaus Liepmann.

TECHNIQUE NOTICE

All seniors must return their senior portrait proofs by Monday, December 15. If the proofs are not returned by that date, the picture will not appear in the yearbook. Proofs may be obtained and returned in Room 308, Walker Memorial.

All the participants, numbering over 200, are members of the Institute, either students, employees, or faculty members.

The soloists for the traditional Christmas oratorio are also members of Technology. Miss Margareta Backer, '48, of Belmont, is the soprano singing the same part she sang in last year's first annual performance. Contralto soloist will be Mrs. Gladys Raczynski, wife of a Technology student, who also sang the same part in last year's performance.

Robert J. Giljohann, '48, will sing the tenor solo. He is a member of the musical club's management and has sung many solo parts with

Dorothy Williams Crowned Queen Of First Techsappopin; 6 Chosen As Princesses at Rally Saturday

Pucksters Win Two 7-3, 4-3

Defeat Tufts, Devens After Loss to Boston U.

A constantly improving Tech hockey team rolled to successive victories Monday and Tuesday nights at the Boston Arena, beating Tufts 7-3 and Devens 4-3 after losing to B.U. 10-5 over Techsappopin weekend. Playing without their two star forwards, Ed Thompson and Don Lea, the Beaver sextet brought up new stars to carry their attack and played a generally impressive defensive game, in winning their first games of the year.

Captain Jack Clifford and Ted Madden were brilliant on the defense as Devens was held scoreless until a major penalty on Charlie Seifert early in the second period gave them the opportunity to force a score which matched Jerry Walworth's first period goal.

The game with Tufts was also highlighted by Tech's sparkling defense. Goalle Jack Adams was especially good allowing only two goals during his stay in the nets. The first of these was a screen shot that was caged before a minute of the game had been played. However, the Beavers quickly took command and went ahead 2-1 before the first period had ended, Seifert and Bradley scoring. In the second frame it was all Tech. With Adams holding the Medford boys at bay Willard (from Tsotsi), Walworth (from Tenney) and Clifford, unassisted ran the score to 5-1. Tufts second goal came early in the third period, but McKim scored on a pass from Bradley to keep Tech's five goal edge.

TECH'S QUEEN

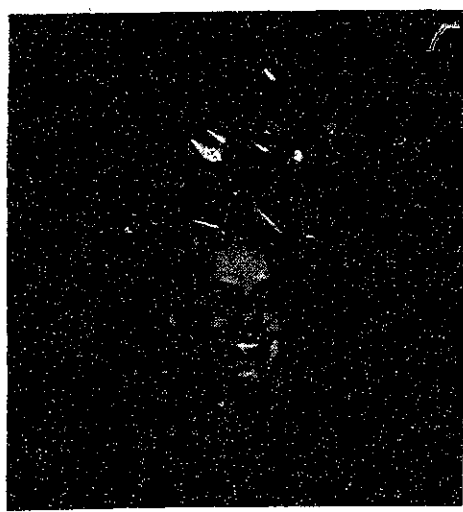

Photo by Hano

Miss Dorothy Williams, a Wellesley senior, was selected as Queen of Techsappopin. Miss Williams, escorted by Walter O. Lowry, '48, a course XVI student, smiles as she leaves in her special car for the hockey game.

Inst. Comm. Rejects J. P. Comm. Report

After a long debate the Institute Committee voted not to accept the report of the Junior Prom Committee at its meeting last week. The motion to accept the report, which had been presented by Ronald Greene, president of the Junior class, was defeated 22 to 4.

Included in the report were two recommendations to future J. P. Committees: that tables should be reserved in advance only for the chaperons, the committee itself, and the previous year's committee; and that no one be permitted to reserve more than two tables.

The report was attacked on the (Continued on Page 3)

Squash Only Team To Gain Victory Out of 5 Sports

Dorothy Williams of Tower Court, Wellesley College, escorted by Walter O. Lowry, '48, captured honors as Queen of Techsappopin at a coronation and rally climaxing the weekend last Saturday night between 7:15 and 8:00 p.m. in the Great Court.

The queen was selected by judges Dr. Karl T. Compton, president of the Institute, John Powers, head of the Powers Model Agency, and Francis Dahl, Boston Herald cartoonist. Six girls were designated as princesses.

Spirit Is Applauded

Reactions to the first Techsappopin generally expressed by the student body seemed to be favorable. Said Paul McNaughton, '48, who was in charge of the weekend, "I was surprised at the spirit shown by Technology. I did not think it was there and am sure most of the students did not know it either."

Over 1,400 tickets, not including those sold Friday evening, were sold.

Results of Athletic Events

As far as athletics are concerned, the weekend was hardly successful, with squash the only victorious sport. Complete results are as follows:

- Basketball, Friday evening—Boston University 51, M.I.T. 46.
- Wrestling, Saturday afternoon—Brown 18, M.I.T. 12.
- Squash, Saturday afternoon—M.I.T. 5, Wesleyan 2.
- Swimming, Saturday afternoon—Brown 48, M.I.T. 29.
- Hockey, Saturday evening—Boston University 10, M.I.T. 5.

Cheers were written and adapted for the occasion by William Conant, '48, head cheerleader and a transfer student from the University of Michigan. Leading cheers in addition to Conant were Dieter Hauser, '50; Nancy Keating, '51; Robert Johnson, '51; Mary Catella, '51; Margaret Irby, '51; Casper Zublin, '51; Patricia Wolfe, '51; and Harold Moss, '50.

After the basketball game, the Saturnalia dance was held in Mechanics Hall from approximately 10:30 p.m. to 1:00 a.m. During the earlier part of the evening, student judges made preliminary selections for the queen selected Saturday night.

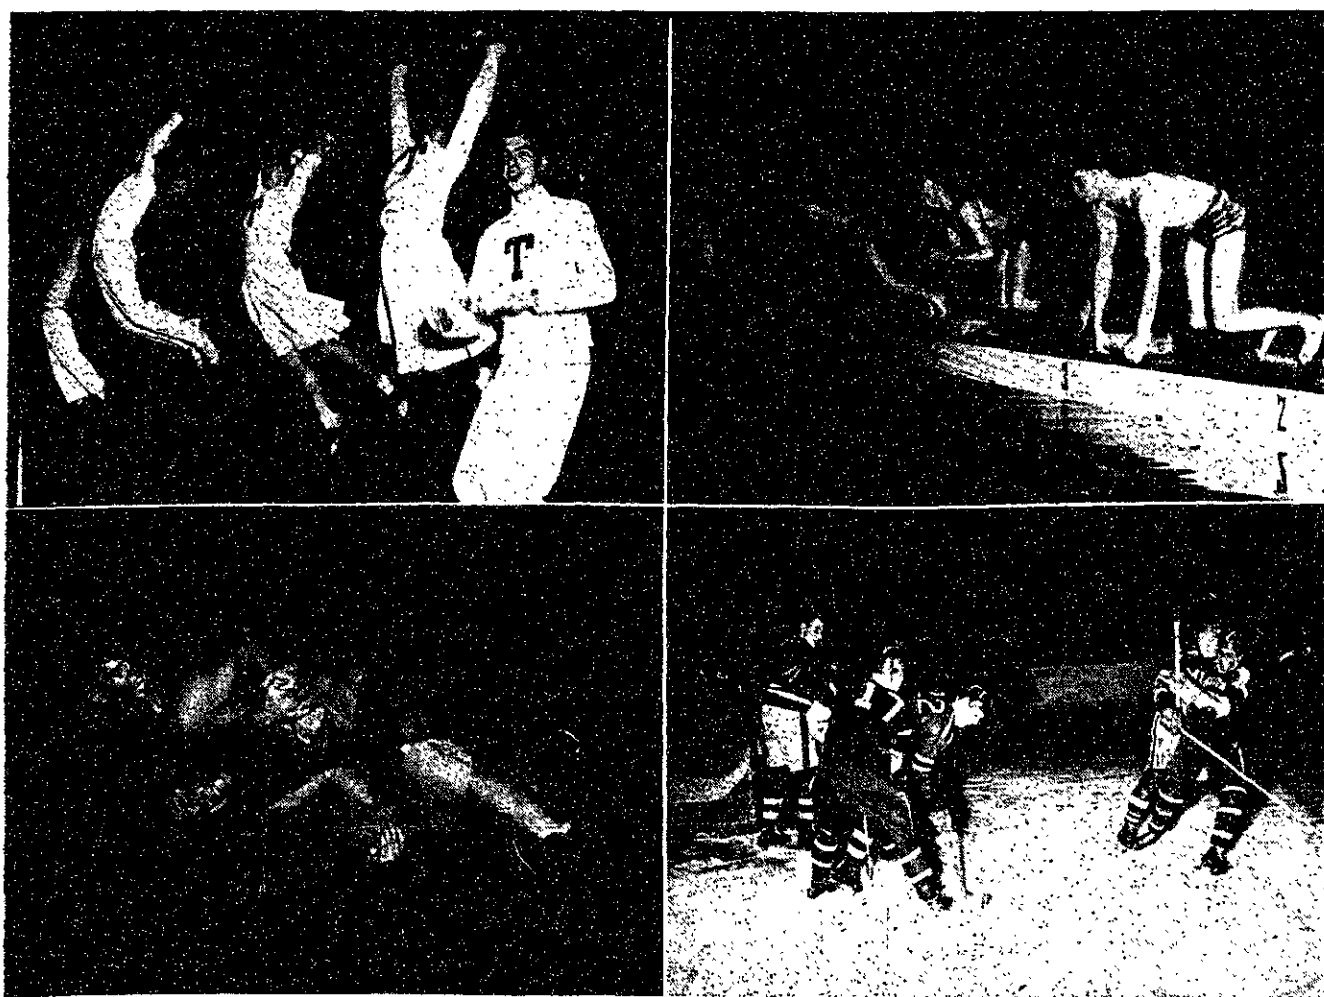

NSA Inaugurates Many New Projects

Several projects have been announced recently by National Student Association committee chairmen in which Technology students may participate.

One project to be inaugurated in the near future is a series of short-wave programs dealing with American student activities. The program is to be broadcast over WRUL, Boston. Anyone interested in writing or editing radio scripts or in directing or announcing radio programs may contact Roger Moore, '49, in the dormitories.

Lloyd Haynes, '49, reported that a number of European students have written to the N.S.A. asking to correspond with American students. Any student interested in this project should send his name, address, age, sex, interests, type of correspondent preferred, to the N.S.A. Committee, Walker Memorial Building.

HIGHLIGHTS OF TECHSAPPOPIN WEEKEND

Photos by Hano, Luther, Meers, Mohr

Upper left. Symbolic of the enthusiasm of the Techsappopin participants is this shot of the Tech cheerleaders at the basketball game against Boston University which clipped M.I.T. 51 to 46. W. Dieter Hauser faces the camera on the right. Yes, we'd like to know who the coeds are too. Upper right. The swimming team takes to water against Brown. Frank Conlin, '50, second from right, is about to take the first place by tying the pool record, 55.6 seconds for the 100 yard freestyle, set last year by John Searle, '48, seen on the right. Beyond Searle and Conlin at M.I.T. are Leeming and a second Brown swimmer. Tech lost the contest 46 to 29. Lower left. Whit Mauzy, '48, on the bottom wins the upper hand. Mauzy, captain of the 165 lb. class Tech team, overcomes Samuel Raymond to take the decision against Wesleyan 13 to 12. Lower right: A Boston University player smiles as Walworth blocks a Boston University scoring rush. The players from left to right are Ted Madden and Jack Adams of M.I.T., a B.U. player, Jerry Walworth and Chuck Nolan, both of M.I.T., and two other unidentified Boston University pucksters. The final score was 10 to 5 for B.U.

OPTIMISTIC POST MORTEM

The curtain has now come down on Techsappopin, the first affair of its kind in the history of the Institute. It is now possible to evaluate the event objectively to see what it offered to the school, where it failed or could have been improved, and how the students accepted the idea.

There is probably very little doubt in anyone's mind that the idea of Techsappopin was excellent and there is no doubt among the people attending but that the week-end was a complete success. What with our awakening of interest in athletics and expanding program for student participation and teams, a school function of this sort that highlights Technology sports activities is very worthwhile. The social events mixed in really make a week-end out of it. Furthermore, the price, which some people felt was a little stiff, may be cut down in the future. This should make Techsappopin available to almost all pocketbooks.

Having decided, then, that we want a week-end of this sort, we must give due credit to the students who brought it about for the first time, overcoming a wave of pessimistic comments by the kind of people who are always opposed to changes and new ideas. Now that we've had one Techsappopin, we've set the precedent and have a chance to build on the foundations that were established.

In order to put the event on at least a break-even basis and to make it really an all-college affair, student participation will have to be a lot greater. As Techsappopin becomes better established, attendance will undoubtedly soar. But certain steps should still be taken to insure larger crowds and to prevent the affair from possibly dying a natural death a few years from now.

In the first place, much more publicity must be given. There were barely two months between the inception of the idea of a sports week-end at Technology and its realization in Techsappopin. Granted that the publicity it received was very clever and good, there was still not enough time allowed to let the idea soak in.

Also, one questions the sagacity of the Athletic Association in choosing to hold the week-end when it did, a couple of weeks before Christmas. Techsappopin's management was lucky that there was snow, but usually the weather is especially foul around that time of year. A winter sports week-end seems much better timed in early February, around the time the Dartmouth Carnival comes off. Why not hold the week-end in spring, though, possibly having it coincide with Tech Show or the Activities Ball? Technology is not too well adapted for a real winter sports week-end, with the usual skiing and tobogganing and so forth. If so, the publicity could go on all year and chances are that more people would attend.

Another point, and Techsappopin management please don't feel offended, is that some people felt that the week-end was overpriced. Of course, when we have the new gymnasium, this will be taken care of but this year we didn't and some people didn't see what exactly was supposed to cost five dollars. Let's try to get away from Mechanics Hall, if possible.

That brings us to another weak spot, mainly the dance on Friday night. To be quite frank, it wasn't much. Even a dance in Morss Hall would have been better. The Hall was too big and there was too much commotion, and too much light. The whole thing was too impersonal. The only saving grace was the band which was good and loud.

Some of the features of the week-end were excellent, however, and should certainly be retained. Among the highlights were the beauty contest, the fencing exhibition, and of course the hockey game which, unfortunately is only a winter sport.

Techsappopin, or whatever the school will choose to call it in the future, is a great idea. Now that we know we want it, let's work on it to be sure that it comes up to all its potentialities and that it remains here firmly as an event that Technology has long wanted and needed and has finally been able to realize.

Letters to the Editor

Sir:
I wish to take this opportunity to express appreciation for the utmost enthusiasm and cooperation rendered by the Athletic Association, the chairman of Techsappopin and assistants, The Tech and other organizations and spirited boosters in putting over the splendid sports social weekend. It is my feeling that this type of an affair should be established as an annual event. Many individuals, who missed the affair this year, will plan for this event in other years thus insuring even greater success than what was enjoyed this year.

Ivan J. Geiger
Director of Athletics

December 2, 1947

Sir:
I note that the N.S.A. Cost of Living Survey given in today's issue of your paper follows the high standard of all your reportorial work. I feel that analysis of these figures leads to some very disheartening conclusions, however, regarding the manners and morals of those attending M.I.T.

There appears to be some confusion, apparently, as to whether the natives of Westgate are married or not. If, indeed, they are all living in sin, something should be done about it right away. And, of the married and/or living at Westgate, I see a considerable number of associated children, to wit, 35 per married, and 48 per Westgate; these figures speak for themselves very strongly.

According to the figures labelled "Total per Month," I see that all those with a family are burdened each month with the total term's tuition and books, and moreover, those of Westgate show an additional expense nowhere listed of some \$16.00 per month. In the opinion of the writer, this is too much for the average wages of sin. Also in regard to the tuition and books, I see that, for the most part, all other classes have escaped scot free. The bursar should look into the matter, if no one else will.

I must point out that you have missed a scoop connected with this report. Those with families report that they manage to get along on some \$11.00 per month per family for food. This could mean either mass starvation, or a solution to the cost of living problem — in any event, a most important thing.

Yours very truly,
D. J. Rose

It just goes to show you that when bigger and better news items are printed, THE TECH will print them. As for the data in the aforementioned article, THE TECH will contact the National Student Association and find out if unmarried students at Westgate are as prolific as the report states. —ED.

New Laboratories Provide Research Facilities at Tech

Dr. John B. Wilbur, head of the Department of Civil and Sanitary Engineering, presided at the dedication exercises of the William Thomson Sedgwick Laboratories of Sanitary Science on December 3.

The new laboratories are designed to meet modern educational procedures in teaching sanitary engineering and to provide a thorough knowledge of the chemical and biochemical reactions which take place in the treatment of water, sewage and industrial wastes. Professor William E. Stanley, who has charge of the new laboratories, described the facilities of each and the work of its director.

The laboratory of sanitary bacteriology and research, of which Dr. Murray P. Horwood is in charge, has equipment for demonstrating the principles involved in water, sewage and the industrial treatment of water. Dr. Clair N. Sawyer is in charge of the sanitary chemistry laboratory, which is equipped with the latest apparatus for the analysis of water and general sanitation problems.

The laboratory of sanitary engineering, under the direction of Professor Ariel A. Thomas, includes a bacteriological laboratory and a research room, and has facilities for individual student work and experimental demonstrations.

Discussing the importance of the laboratories, Professor Stanley spoke of the many old and new problems which may be solved by the research equipment. He also emphasized the value of the new facilities for thesis projects by seniors and graduate students and for advances in research in the various branches of sanitary engineering.

Du Pont Announces Award Of Fellowships at Institute

The DuPont Company has announced that it is awarding 81 post graduate and post-doctoral fellowships to forty-seven universities throughout the country for the 1948-49 academic year. The program includes fellowships in chemistry and physics; chemical, mechanical and electrical engineering; and metallurgy.

Each post-graduate fellowship provides \$1,200 for a single student or \$1,800 for a married person, together with an award of \$1,000 to the university. Each post-doctoral fellowship provides \$3,000 for the recipient and a grant of \$1,500 to the university, which is intended for financing tuition and fees.

The selection of candidates for the fellowship awards and the choice of problems on which they are to work are left to the universities.

and stirring event.

Among the patrons who will be present are: Dr. and Mrs. Karl T. Compton, Prof. and Mrs. J. C. Hunsacker, Dean and Mrs. W. W. Wurster, Dean and Mrs. George Harrison, Dean and Mrs. Everett Baker, Mr. and Mrs. James R. Killian, Prof. and Mrs. F. O. Schmitt and Dean and Mrs. Robert G. Caldwell.

By SANDER RUBIN
We have been reading the Herald comic page for breakfast every morning in Walker so we won't notice the food and would now like to present a report on our research.

Crockett Johnson, the originator of Barnaby, is apparently back on the job indicated by his initials on the cartoon, signature and a marked improvement in the quality of the strip's continuity.

The latest character among Mr. O'Malley's acquaintances is Blotto, the robot who was created by Atlas, the mental giant, as a secret weapon for push-button warfare. (According to a front page story in a recent New York Times, push-button warfare is at least a decade away in the opinion of experts; this ought to take a load off the minds of all the people over sixty.)

Experts to the contrary notwithstanding, Blotto is a reality complete with radar antenna, periscope, rocket and plutonium yo-yo. He was created to push buttons because the push-bottom weapons will be so inhumane that no human being will dare to push the necessary buttons. (We hope you can follow the train of thought without getting tripped up by a button hole.)

The Case of the Kidnapped Bride

Further down on the page is Dixie Dugan, perennial girl friend. Recently she was engaged to marry a certain fictional Kenneth Bradford and the wedding date was set. It was apparent that Dixie, the idol of all the unmarried women of America, could not marry, but the wedding day came and she was gowned and ready. As she was waiting to leave for the church she was snatched into a black limousine by a clever ruse virtually from the very arms of the groom.

At present the suspense in the strip has switched from How Will Dixie Be Prevented From Marrying Thereby Preserving The Means Of Emotional Escape For Thousands Of Unmarried Women Who Wish They Were And Married Women Who Wish They Weren't, to simply Who Kidnapped Her. Anyhow, Dixie is still a virgin, and joy has not left the hearts of American womanhood.

She Should Drop Dead!

The last strip on the page is Harold Gray's pie-eyed darling, Little Orphan Annie, who is now wending her loquacious way through a sequence with a villainous politician, probably a Democrat if we know anything about Gray. Gray is very likely not overestimating the intelligence level of his audience by having one character or another repeat the entire plot, usually in soliloquy, every other day or so. In any case, the repetition covers up for a lack of inspiration. The evil politician, like a melodramatic villain, goes sulking around graveyards plotting the downfall of Anne and her friends. We wish him luck.

DON'T BE A "STUFFY STUDE"
Make a date with your best gal . . .
... and take her to the Fife & Drum Room for an evening she'll never forget. Wonderful food. Romantic dance music by Jimmy McHale and his orchestra. Songs by Sherry Lyndon. Never a cover or minimum!

(Continued from Page 1)

grounds that it did not include the facts concerning the preferential allotment of tables, including the names of committee members responsible. J. David Cist, '48, said that the report should have included more general recommendations which would have helped to eliminate preferential treatment in all student activities, not only the Junior Prom.

T.C.A. Will Provide R.R. Ticket Service

Representatives from the various railroad, pullman, airline and bus companies will be in the T.C.A. office from Monday through Friday next week from 12:15 to 1:45 p.m. Students wishing to confer with the representatives may do so by going to the T.C.A. office during those hours. On Saturday, December 13, from 10:30 to 11:30 a.m., an agent from the New York, New Haven and Hartford Railroad will be in the T.C.A. office for the purpose of selling tickets prior to the increase in price, which will go into effect on December 15.

Two delegates from the Institute will be present at the Christian Church's conference at the University of Kansas, Lawrence, Kansas, between December 27, 1947 and January 1, 1948. The conference is to be composed of college students from all parts of the world, and its primary purpose is to look at what the Christian Church is doing, both here and abroad.

Anyone connected with Tech may apply to be one of the two delegates. The T.C.A. has offered to pay the registration fees and to arrange to pay a portion of the other costs for the two representatives.

Activity Briefs

AERONAUTICAL ENGINEERING SOCIETY

The gliding group of the Aeronautical Engineering Society is undertaking extensive development and flight operations for the coming winter. Use of an airport for the group's activities has been procured, and work is being completed on an improved method for launching gliders by winch, which will be made available to New England soaring pilots. The first trip of the season, for training and gliding, has been planned for tomorrow.

WMIT News

Bob Clayton, ace announcer from Boston's WHDH, will be a guest "disc jockey" on WMIT on Monday, December 15. The program will be "Swingtime," and will start at 10:00 p.m. Bob will play some of his favorite records at this time for the entertainment of Dormitory and Barracks residents.

STAFF PLAYERS

The play, "Much Ado About Nothing," will be presented by the Staff Players this weekend at the Peabody Playhouse. It is advised that those holding tickets be at the theatre several minutes before the play starts because there are no reserved seats.

Harvard Forum Debates On Higher Cost of Living

The Harvard Law School Forum will be held in Rindge Technical Auditorium, Cambridge, on Tuesday, December 16th, at 7:50 p.m. The subject will be "What shall we do about the high cost of living?" Leon H. Keyserling, a member of the President's Economic Advisory Council, and Senator Homer Copehart of Indiana will speak.

Prof. Magoun Finishes Series

Last Talk Features Courtship as Search

On Tuesday, December 9, Professor F. A. Magoun presented his lecture, "Courtship," the last of a series of four presented this fall by the Technology Christian Association.

Professor Magoun told his audience that courting is a search for someone you can love. He warned his listeners they should beware "romantic courtship that is emotional." Infatuation doesn't last, and if marriage ends in failure, "either you courted the wrong person or were emotionally immature."

Any eligible boy or girl should be acquainted with several people. They should look over the situation and have a circle of friends. A man and woman should not "go steady" before they have had a chance to associate with people of all types.

Courtship is a sincere search, but never a conquest. It is not a situation of persuasion. It is important that the two people concerned be honest with each other, facing the disagreeable facts. A person should never "try to be loved," nor try to make an impression.

The big word in marriage is "together."

The person you will really love will really love you. By associating with many people, you can have sufficient standards for comparison. The period of courtship is the time to expose deceit and pretending, since the girl who fails to be ready on time, or keeps her escort waiting, is motivated by a desire to be dominating, or the center of attraction. Deception and conquest are not love, and will not lead to a happy marriage.

The period of courtship is a time when two people can acquaint themselves with each other previous to marriage. It is a time for two people to do the best thinking of their lives. They should determine what they really want from life, and it is a problem that requires deep thought.

How to be SURE

 of a **FULL TIME CHRISTMAS VACATION**

GO BY TRAIN! Avoid traffic jams—by-pass tricky winter weather. You'll leave on scheduled time and you'll enjoy cozy comfort, dependability and safety all the way. Ask your Railroad ticket agent about economical fares in modern sleeping cars and comfortable coaches.

-and how to

SAVE MONEY
 when you return

New "College Special" Round-Trip Tickets go into effect on all railroads on Christmas day. Buy one at your "home station." It will give you a longer limit for your return trip back home during Spring Vacation or at the close of the school year. The new tickets will be on sale for Students and Teachers any day between **December 25 and January 16**. Take advantage of money-saving round-trip tickets especially tailored for the needs of college men and women. Consult your home town ticket agent or any Railroad representative for cost of tickets, return limits and stop-over privileges.

WHAT IS A "THRIFTY"?

WELL...

We made an adjective

Into a noun, that's all.

A "thrifty" is a person who looks for

Three ingredients in every clothing purchase:

1. *Style—good looks, comfort, fit.*
2. *Quality—fine fabrics, fine workmanship.*
3. *Value—your money's worth and more.*

It means a person who buys Arrow products.

PS—You'll always get a good deal at your Arrow dealer's.

B.U. Registers Hockey Victory Over Engineers

Spirited Tech Rally Marks Final Period Of Opener at Arena

By KARL GOLDBERG

The Tech hockey season began last Saturday night before 2000 spectators at the Boston Arena with promise, but without victory. The undermanned Beaver sextet was whipped by Boston University, the champions of the New England Intercollegiate Ice Hockey League, 10-5, but not before they had thrilled the partisan, Techsappopin crowd by dragging a one-sided, Terrier-dominated contest to within reach of victory.

The outcome of the game was decided in the second period, when Don Lea, Tech's first string center, was taken out of the game with a sprained ankle, and B.U. scored five quick goals to bring their first period 1-0 lead to 6-0 before the puck had crossed into the B.U. nets. The loss of Lea coupled with the loss of Ed Thompson, last year's All-Star wingman, due to injuries sustained in practice, early in the week, left Tech with only one first string lineman and a confused set of lines none of which had played together as a unit all year. In contrast, the Terriers had three lines, all experienced, who were brought off and on the ice with such consistency that they were never tried.

First Blood

The five goals that B.U. scored in the second frame seemed to put the game on ice for them but they soon found they could hardly coast to victory. Near the end of the second period Tom Tsotsi, the one remaining first string lineman, took a pass from Captain Jack Clifford and caged an angle shot for the initial Tech goal.

Tech Scores Again

Before five minutes of the third period had passed M.I.T. had punched in two goals; Tsotsi again,

Tech Bows 46-29 As Brown Mermen Open Swim Season

Before one of the largest gallery crowds ever seen at the Alumni Pool, the Tech mermen met Brown on Saturday, December 6, as part of the Tech winter carnival.

After being washed away by the Brown Freshmen to the tune of 56-29, the varsity dropped the 300 yd. Medley Relay, and also five crucial points to start the varsity competition.

In rapid succession the Tech nators dropped the 220 yd. Freestyle and 50 yd. Freestyle events. Tech rebounded from the boards by placing first and third in the diving event with Lou Lehman and Bob Ellis netting 57.5 and 56.5 points respectively.

Tech assumed the lead 21-20 by netting 8 out of nine possible points in the 100 yd freestyle event. Frank Conlin, '50, tied the Tech record with a fast 55.6. John Searle took second. Then the high pitch of excitement was maintained when Dick Pitler and Ben Dann took second and third in the 150 yd. backstroke, tying the score.

Bob Pelitier managed to salvage three points from the 200 yd. breaststroke event while Brown's best—Brier turned in 2:31. In the longest event of the day, the 440 yd. Freestyle, Tech managed to only place third, this being accomplished by Russell. At this point the meet was Brown's no matter what the outcome of the following event.

from Willard and Mike Tenney, from Jerry Walworth. But the overwhelming strength of the B.U. reserves stemmed any possible turn in the tide of the game. B.U. scored before another minute had passed and thereafter held the surging Beaver sextet on even terms for the rest of the game.

Courtmen Topple Trinity by 42-40 In Final Seconds

Coming up from behind with only a minute and five seconds of playing time remaining, Tech's basketball team pulled a thrilling, evenly fought ball game out of the bag last Wednesday night to defeat Trinity 42-40 in Walker Gym.

On the low end of the scoring until midway in the second half, the Engineers lagged just a few points behind the Trinity aggregation throughout most of the game, and trailed 24-29 at half-time. With nine minutes left in the game, Tech's Ozzie Honkalehto registered a field goal to put the Beavers in the lead for the first time, 37-36.

Matching a field goal and a foul by Trinity with a two-pointer by Jim Madden, Tech was two counts short of victory as the timer's clock marked 1:05 minutes of playing time. But in that last 65 seconds Tech's Bob Deutsch knocked the lid of the basket to score the field goal that sewed up the ball game

for the fighting Engineers. With just 15 seconds to go, Doug Watson sunk a foul attempt to raise the final count to 42-40. Trinity had an unusually large number of shots from the foul line throughout the game, and netted 20 of its 24 attempts. Ed Faber, of Trinity, hit the bull's-eye from the 15-foot mark for ten out of ten.

More than meets the eye...

One look and you'd say that a great deal of work lies ahead before this new telephone central office is completed. That's true. But *already*, much of the job is done!

For months telephone men have been hard at work—in offices and in the field. One group has carefully studied business and population trends and has forecast the telephone needs of the community for years to come. Another has determined the amount and types of equipment that will best meet these needs. Still others have found ways to make this new equipment a part of our world-wide communications network.

At our Western Electric plants the telephone equipment—the switchboards, frames and switching mechanisms, the cable, wire and relays—has been scheduled and is already being manufactured.

All this and more before the ground was broken!

The telephone business is a constantly expanding business in which thousands of college men are finding interesting and rewarding careers. There's a future in telephony.

TECHSAPOPPIN OPENS SPORTS SEASON

Racquetmen Down Wesleyan College

Opening the intercollegiate squash season last Saturday as part of the Techsappopin weekend, the Technology racquetmen blasted to a 5-2 victory over Wesleyan University's squash team at the Barbour Field House courts.

In the most evenly contested set of the match in which five games were played, Tom Kelly of Tech beat Dick Lutz of the Wesleyan

team by the scores of 15-13, 11-15, 12-15, 15-8, 15-11. Stew Brauns, Tech captain, lost to Howard Sal-aun in a very well played match by the scores of 11-15, 12-15, 10-15. The number two man of the home team, Crawford McDonald, won his set with Wesleyan's Bill Cagney by the scores 18-17, 15-14, 15-10.

In the other four sets of the match Bill Stoney won over Don Rourke, Bob Auty beat Stan Beard, and Gerard Marlio gained the decision over John Vila to mark up the Engineers' fifth triumph. The other set that was won by a Cardinal player was that of Jim Spelman over Tech's Hank Warner.

Tomorrow the racquet men will

(Continued on Page 6)

Wrestling Champs Topped by Brown

As part of the Techsappopin week end festivities, M.I.T., the New England Intercollegiate Wrestling Champs lost to a strong Brown team 18-12 in a well-fought match held at the Armory. Each school won four of the eight matches held but three of the four Brown victories were by pins while all of the Tech wins were by decision.

The first three matches, the 121 pound class, the 128 pound class, and the 136 pound class went to Brown, two by pins and one by decision. However, Tech's Wilburt E.

Boston University Wins In Last Minute Attack Over Tech Courtmen

Haggerty started the Beavers off in the fourth match by winning an extremely close decision from the captain of the Brown team—Beachen. This match was probably the most interesting and closely fought match of the day. Brown took the fifth match by a pin but Tech took the three remaining matches, all by decision. These last three matches were won by Captain Whit Mauzy, in the 165 pound class, Richard Lemmerman in the 175 pound class and Lars Soderburg in the unlimited class. Those that lost their matches were Samuel Raymond, Richard Grant, Edward Handy, and Everett DeGuzzie. The freshman matmen also took it on the chin by the score of 21-11. Tech received 5 points on a forfeit and six points on decision wins. David Findlay in the 136 pound class, and Thomas Callahan, in the 145 pound class, won for the Beaver frosh.

Morton Leads Beaver Scoring With 13 Points

Holding the lead throughout the game until the final three minutes of play, the Beaver quintet suddenly was vanquished 51 to 45 in a spurt of scoring by George Gaudroault and George Winkler, both of the B.U. Terriers, at the Techsappopin basketball clash last Friday.

Despite the slippery floor which slowed down the team's usually fast attack, Tech went into an early lead at Mechanics Hall Friday night. With Lou Morton connecting again and again with spectacular hook shots for a 13 pt. spree and the drive of Jack Corrie and coolness of Bob Deutsch, Tech managed to stay one step ahead of the Terriers through the first half.

With only seconds to go in the half however, with the score 15 to 16 against Tech, Bob Deutsch raced down the floor and stopping just a few feet past mid court arched a long shot at the basket. The gun ending the half sounded as the ball was in mid-air and the cheers of the 1500 spectators echoed to the swish of the ball as Tech squeezed ahead at halftime, 17-16.

The score wavered first one way and then the other throughout the second half with many fouls committed on both sides and with B.U. height beginning to account for most of their scoring. Then Jim Madden, star forward of Tech, and only man over 6 feet on the first team besides Morton, left the game having committed five fouls. With the minutes waning B.U. caught a slight lead despite the more aggressive ball playing of the Beavers and with the inability of the Tech five to sink more than 14 of the 32 foul shots allotted them. With two and a half minutes to play Doug Watson, captain and mainstay of the team, left on personals with the score 44-47 in B.U.'s favor. Gaudroault had just driven in for a hook and added a foul shot to give BU. this 3 point lead. Gaudroault then sank his free toss at Watson's expense. Winkler and Morton then exchanged fouls, and Winkler poured in another lay-up under the basket for the final tally.

(STUDENT PRICE WITH THIS AD)

FOR DETAILS SEE — WARREN BALL, Building 22, Room 2A

Are you dough-shy? Get us! We give the stuff away. Folding money, too. Yes sir, Pepsi-Cola Co. pays from \$1 to \$15 for gags you send in and we print. Why worry about an honest living? This is easier. Just send your stuff, along with your name, address, school and class, to Easy Money Department, Box B, Pepsi-Cola Co., Long Island City, N. Y. All contributions become the property of Pepsi-Cola Co. We pay only for those we print.

There's nothing to it—as you can see from the samples below. If, by coincidence, the words "Pepsi-Cola" turn up somewhere in your gag, don't worry about it. We don't mind. (Matter of fact, we kind of like it.) So start your stuff in now—for Easy Money.

GOOD DEAL ANNEX

Sharpen up those gags, gagsters! At the end of the year (if we haven't laughed ourselves to death) we're going to pick the one best item we've bought and award it a fat extra

\$100.00

LITTLE MORON CORNER

Our well-known moron-about-campus, Murgatroyd—now a student in the school of agriculture—has developed a new theory on sheep-feeding. He makes a daily ration of Pepsi-Cola an important part of their diet. "Duuuuuuuh, of course," said Murgatroyd recently, when questioned as to his reasoning, "everybody knows that Pepsi-Cola is the drink for ewe!"

\$2 apiece, believe it or not, for any of these we buy!

Get Funny . . . Win Money . . . Write a Title

This is easy as falling off a log. A small log, that is. Just send us a caption for this cartoon. The best line gets \$5. Or you can send in cartoon ideas of your own. For cartoon ideas we buy, we pay \$10 apiece . . . \$15 if you draw them.

HE-SHE GAGS

If you're a He, and know a She—or vice versa—this should be your meat. Here's your chance to strike a blow for the home team in the battle between the sexes—and maybe win three bucks besides!

He Ubangi: I hear that Mbongo has left his wife.

She Ubangi: Really? Why?

He Ubangi: He says that every time she drinks a Pepsi, she smacks her lips, and he can't stand the clatter.

He: Why do you call my date "Pepsi," when her name is Betty?

She: Oh, we all call her "Pepsi" because she goes with anything!

He: I never knew what real happiness was until I married you.

She: Darling!

He: Yes, and by then it was too late.

Three bucks apiece for each of these we print. Let your conscience be your guide.

Daffy Definitions

Here's a column that must have some deep underlying significance. Darned if we know what, though. All we know is that these rate a buck each—and the daffier, the better.

Frustration—having a Pepsi-Cola and no bottle-opener.

Stork—bird with a big bill.

Professor—textbook wired for sound.

Thirst—obsolete term; dates back to pre-Pepsi-Cola era.

Cooperation—one bottle of Pepsi with two straws.

Paying \$1 apiece for these is like giving you a license to commit burglary. But—\$1 apiece for those we buy.

500 Freshmen Protest Against Sports Training

Freshman Petition Sent To Stud.-Fac. Committee For Its Consideration

A petition for the abolition of the new physical training, signed by over 500 freshmen, was considered by the Institute Committee last week. Acting on the recommendation of the Executive Committee, the full Committee tabled the proposal and referred it to the Student-Faculty Committee for consideration at its next meeting.

As stated in the petition, the chief objections of the freshmen to the physical training program were the addition of two more hours to "an already overcrowded schedule," and the "compulsory" feature. There was little opposition to the actual sports activities comprising the program.

Speaking in favor of the petition, Thomas A. Weil, freshman representative on Institute Committee, stated that under the training program the present freshman class will have the heaviest schedule of any class in history.

Other freshmen spokesmen said that the program is being "put over" on the class without advance warning, as it was not announced in the Institute Bulletins and became known only in the last few weeks.

The petition was originally handled by the leaders of freshman sections, and was then ap-

proved by the Freshman Council. Before any action in carrying out the petition is possible, the approval of several groups will be necessary.

If the Student-Faculty Committee acts favorably, the petition will then go to the Faculty Administration Board. Final decision is in the hands of the Corporation. Regardless of the outcome, it will be too late to alter the program during this school year.

26 Graduate Fellowships Offered by Pepsi-Cola

The Pepsi-Cola Scholarship board has announced that they will award during this school year 26 three-year graduate fellowships to present seniors. Good for any field of study at any accredited graduate school in the U.S. or Canada, they will provide full tuition plus \$750 a year for the three years.

Racquetmen

(Continued from Page 5)
try to continue what might be the start of a winning season when the five top players from Technology journey down to West Point to compete against the team of the United States Military Academy.

In addition to the regular inter-collegiate schedule, members of the team compete in a league of the Massachusetts Squash and Racquet Association.

VETERANS ATTENTION

The final date for requisitioning books and supplies from the "Coop" under the C. Bill (Form 1950A or P.L. 16) is Friday, December 19. All veterans are urged to anticipate their needs, particularly those writing a thesis, for the issuance of the Fall Term and obtain requisition blanks Room 4-132, before December 19.
