G. Kendall Parmelee was elected president of the class of 1946, and thus president of next year's In- stitute Committee last Wednesday in a closely contested election that swept almost the entire fra- ternity under the yoke of the student government. The vote was high in all fraternities, with the freshmen classes with the dormitories only showing strength in the class of 1946. As unusually large numbers of students went to the polls to participate in the usual contest of power between the living groups.

The class of 1946 elected Ronald W. Greene to guide them through the coming year while the freshmen chose Frances J. Shanahan, Jr., as their president. Norman H. Holland, who ran on a "whole life" ticket, became the unanimous permanent president of the graduating class of 1946. The election of Ken Parmelee came as a surprise to most observers; he is a member of the polity to participate in the elections for the office in its entirety. Elected with him were John W. Raeburn for first vice-president, and Richard J. F. McLean for second vice-president.

Today is May 2, and tonight is the "first night" for the approximately 100 Technology students, their wives and secretaries who will be living, eating and sleeping Tech Show day in and day out: they hope that it will be a sight for you to remember too. It's a story often told, but the 1947 Tech Show, the fifth Annual, is a two-act musical comedy entitled "A Liberal Life," dealing with the perverted possibilities of Technol- ogy as a liberalized school. The world premiere will be held at 8:30 p.m. in Jordan Hall, Huntington Avenue and Commonwealth Street, Bos- ton. This will be followed by a re- peated performance every evening throughout the show time, same place, same cast.

Scientists are speaking, the busi- ness manager stresses the fact that there are still a few tickets left for those who are planning to return tonight. The selection in single seats is still ex- clusive.

The Tech Show came back to life five months ago when Robert Elliott, head of the Tech Saga, got together with friends and, after much work, a group of students was formed to run the student newspaper. This year, the group is planning to publish Tech Show, the show that was billed as "A Liberal Life." The show is scheduled to take place at 8:30 p.m. in Jordan Hall, Huntington Avenue and Commonwealth Street, Bos- ton. This will be followed by a re- peated performance every evening throughout the show time, same place, same cast.

The Tech Show, which was first performed in 1942, has been a popular event among students and faculty alike. The show features a variety of performances, including music, dance, and comedy, and is known for its clever and witty script. The show has been performed every year since its inception, and is always a highlight of the academic year.

The show will take place on Friday, May 2, at 8:30 p.m. in Jordan Hall, Huntington Avenue and Commonwealth Street, Bos- ton. The show is free to all Tech students, and tickets are available at the box office. The show is expected to last for approximately two hours. The Tech Show is a popular event among students and faculty alike, and is always a highlight of the academic year.

Elections (Continued from Page 1)

Friday, May 2, 1947

By DAVID GROSSMAN

In college calculus, where we were studying integration, a friend of ours, a person in the back of the hall, asked, "Can you really integrate the square root of x with respect to x?"

"Yes," he said, "if the square root of x represents the distance from the origin to a point on the x-axis, then the integral can be computed by finding the area under the curve." He went on to explain the concept of the definite integral and its geometric interpretation.

However, the answer to his question was not at all obvious to me. It required not only an understanding of the fundamental theorem of calculus, but also a familiarity with the properties of the logarithmic function.

"But," I protested, "the logarithmic function is not defined for negative values of x." He smiled and replied, "Precisely. This is why we define the logarithm function as the inverse of the exponential function. For x > 0, we have log(x) = ln(x) / ln(a), where a is the base of the logarithm and ln is the natural logarithm. Thus the logarithmic function is defined for all positive real numbers, and its domain is (0, infinity)."

He then went on to explain the techniques for evaluating the integral of the square root of x, using a combination of substitution and integration by parts. He showed me how to transform the integrand into a form that could be integrated using standard techniques, and how to apply the result to the original problem.

I was impressed by his knowledge and enthusiasm, and I realized that calculus was not just a set of rules and formulas, but a powerful tool for solving real-world problems. I decided to study calculus more deeply, and to appreciate its beauty and elegance.

BLOOD DONORS

BLOOD DONOR APPEAL

On Monday, May 5, Tuesday, May 6, and Wednesday, May 7, a Mobile Donor Unit of the American Red Cross and the American Association of Blood banks will be set up in the Bancroft Room of the Engineering Ames, and in the Engineering Auditorium, for the purpose of handling blood donations.

There is no need in this community to point out the importance of this donation program. I am sure that, as in other community activities, all members of the W.M.C. will be more than willing to do their part to ensure that no one will be deprived of the opportunity to save a life.

AWAY FROM THE GRIND

The following commentary in the Boston Herald is applicable to conditions here at Tech:

"Poly's provokers are very efficient. Every time I sneeze, some "sneezing" event will bring a loud ringing noise. I don't know whether to search for the cause of this phenomenon or just let it be."

Compton Reveals Details of Trip
In Hawaii University Celebration

This is the story of Dr. and Mrs. Karl T. Compton’s trip to Hawaii, as told by Dr. Compton to The Tech’s reporter. (Ed.)

The purpose of the trip was to participate in the 40th anniversary celebration of the University of Hawaii. A part of the program was devoted to developing positions for the role of this institution as a center and a field station for a study of the cultural and scientific problems of the Pacific island and adjacent continental areas. Some parts of this program are scientific in character and had been in preparation during the war in cooperation with the Office of Field Research of O.R.D. under my chairmanship. The official program lasted from March 6 to March 16. My own contributions included an address to the Hawaiian Legislature, two addresses to Chambers of Commerce, two addresses at University Convocations, one on the use and control of atomic energy and another an evaluation of the results of the tetraday conference. There was also a Sunday evening address at the Central Union Church, and numerous addresses at the Punahou School and at a symposium, which is a Hawaiian native feast with roast pig and chicken, raw and cooked fish, pineapple, and the famous poi.

We took one side trip to the “big island,” Hawaii, and to the island of Maui. On the big island we visited the volcano crater of Waiakea, which was the scene of great lava flows in 1925 and 1960. We were told that Mauna Loa could

Prescription Prices Slashed 20%!!

In accordance with the urgent appeal made by President Truman to cut prices, the Tech Pharmacy takes the lead among retail drug stores in the country in slashing prescription prices drastically even though wholesale costs continue to increase.

86 MASS. AVE., CAMBRIDGE, MASS.

How a city’s voice was restored!

Easily on December 14, 1946, flames gutted the Central Office at River Grove, Illinois. Telephone service for 10,000 families ceased to exist.

Even as the fire burned, restoration work was begun. Emergency telephone headquarters was set up. Mobile equipment arrived to handle calls of first importance.

Telephone men from distant points came to aid the local forces. Bell System standardization proved itself again for all men were able to use the same methods, the same tools, the same Western Electric equipment. From Western Electric plants hundreds of miles away the needed supplies—the right kind and amounts—were started toward River Grove.

In a matter of just 11 days...a record accomplishment...two Quonset huts were erected, new switchboards installed, splices and connections made. River Grove’s communications system was restored.

Planning was far in advance for both emergency and normal growth. A task of telephone management. The many and varied problems presented after a stimulating challenge—promise adventure and opportunity— to men who choose telephone as a career.

Deutsch To Speak Thurs. On Fascism
Poll Being Conducted

By Lee, Series Comm.

Professor Karl W. Deutsch of the Department of English and History will speak next Thursday at 5:30 p.m. in Room 1-190 on "The Idea of Fascism—Is It Dead?" under the sponsorship of the Lecture Series Committee. During the war, Deutsch was with OSS, spending part of the time in research on the subject of Fascist ideology and the attempts to spread it to the United States.

The poll by the Committee to learn what Technology students want in future lectures is now going on. Ballots are available at several places around the Institute and everyone is free to show his preference. Louis Bromfield, the famous author, is scheduled to talk Wednesday, May 14, in Room 1-20 on the subject of soil conservation. Famous for his writings, Bromfield has become an authority on soil through experience at his farm in Ohio.

Untermeyer Tells April 24 on ‘What Americans Read and Why’

Louis Untermeyer, anthologist, poet, and writer, spoke Thursday, April 24, at 8:00 p.m. in Room 10-250 on the subject of “What Americans Read and Why.” Speaking under the sponsorship of the Lecture Series Committee, he gave his opinion that our reading matter has reached much higher standards than it had 20 years ago.

In his mind all literature is divided into two broad classifications, the escape or “get-away-from-it-all” type and the kind which doesn’t avoid, but entertains itself by a virulently understood it. The vast majority of books read by women, boys, girls, and some men fall into the first group. As the student is for this there is the fact that we are all raised on fairy tales, either the “Cinderella” or great deeds type, even Hollywood uses us at all the time, with the secretary marrying the boss, or one man defeating an army.

In the other main group the authors make the reader share in the realities of a group of people, whether Russian, German, English, or American. In this are men like Tolstoy, Dostoevsky, Thackeray, and Steinbeck. These books, portraying greater things, give us temporary greatness and a bigger world, which are not quickly lost. In recent years, the pendulum has swung more towards this realism, which he thinks is a good thing.

Some examples of this trend, which wouldn’t have been printed years ago, are “Tobacco Road,” “The Singing Fish,” and “Gentlemen’s Agreement.” “We are no longer in our cultural swaddling clothes. We stand face to face of Empire and Culture takes its way,” he concluded.

Track Team Loses To Brown; Maine Is Third In Meet At Briggs Field

Northeastern and Tufts To Oppose Team Tomorrow

In a triangular track meet held at Briggs Field last Saturday afternoon, Brown emerged the victor with 141 points, Tech second with 127 and Maine third with 93 points.

The weather was slightly chilly and the track somewhat wet, so the results were surprisingly good. Tech scored in all events but the 100-yard hurdles, shot put, and javelin. Brown was first in the two-mile and hammer throw, while Maine failed to collect any points in the 880-yard run and discus.

Burksdale of Brown was a double winner in the two dashas while Bill Balsch of Tech took a fourth in the 100 and a third in the 200. The 440-yard run, with the former Techman Crimmin of Brown winning in 44.4 produced a thrilling race all the way. Doug Vittagliano and Walt Wagner, both of Tech, finished just behind Crimmin.

Joshua Tobey of Brown was a double winner in the 880-yard run and the mile. Mark Kirchner and Raich of Tech took a fourth in the mile. Fran Jablonski placed third and fourth in the mile.

The Techns placed third and fourth in the 880-yard run, Doug Vitagliano and Walt Wagner of Brown winning in 440-yard run, with the former Techman Crimmin of Brown winning in 44.4.

The Techns failed to collect any points in the Brown was shut out in the two-mile high hurdles, shot put, and Javelin.

The Techns scored in all events but the 120-yard hurdles, slot put, and Javelin.

The track somewhat wet, so the Brown team emerged the winner at Briggs Field last Saturday afternoon.

Tech Skippers Compete Against Eastern Teams in Dinghy Championship

**FIELD DAY NEWS**

The tentative date for the 1947 Field Day has been announced as Saturday, May 25th, according to word of mouth from the Pennsylvania Dinghy Championship. For the first time in several years, wind conditions were posted for the event, which brings schools from the Eastern Seaboard area together for a day of competition. Techmen will have to beat the 100-mile-an-hour wind that is said to be blowing in the area. The winds will be kept under control by the Dinghy Championship Committee, which is responsible for running the event.

**Tech Show Schedule**

On May 25th, the Outing Club will present a show that features many of the athletes from the Tech team. The show will include performances by the fencing team, the basketball team, and the track team. The show will also feature a special performance by the Tech cheerleaders, who will perform a routine to the theme song of the movie *Rocky*. The show will be held at the MIT Field House, and tickets are available at the Outing Club office for $2 each.

**Unbeaten Record Snap At Brown As Rally Misses**

Competing with skippers from ten other colleges, the technology sailing team will journey to Brown University this weekend to compete in the Seventh Annual Intercollegiate Dinghy Championship Tournament. At the tournament, the teams entered in the regatta will compete against schools from Harvard, New York, Pennsylvania, Princeton, Williams, and Yale.

**Beaver Key Ends First Round of Softball Tourney**

The first round of the Beaver Key Softball tourney was completed this week with results that show a lot of talent in the elimination tournament. In the first game, Gabe Ciccone and Bob Deutch with Paul Bock, with two, John Toohy, one goal each rounded out the scor|...

Dear Mrs. Parker:

Eight years ago, on June 26, 1939, the United States entered a world war that was to last four years and cost the lives of hundreds of thousands of men.

In that period the American people have learned the meaning of a total war, and the meaning of a total war in the democratic world, is that the democratic world must unite as a whole.

In order to understand the present world situation, we must not look at it from the standpoint of one country, but from the standpoint of the whole democratic world.

The United Nations are the only organization that can bring about this unity.

The United States has played a leading part in the establishment of the United Nations, and it is the United States that must lead the way.

Sincerely yours,

Mrs. Parker.

Catholic Club Will Give Spring Dance

Chappie Arnold to Play May 17 in More Hall

The Technology Catholic Club will again present the annual Spring Aqueance Dance on May 17 in More Hall. Dancing will follow the melodies of Chappie Arnold and his orchestra. The affair will get under way at 8:30 p.m. and should finish at 10:30 p.m.

In the past, every effort is being expended to make this dance one of the social highlights of the season. To accomplish this purpose girls are being invited from Wellesley, Simmons, Radcliffe, Salern Teachers' Seminary, Boston University, Regis, Boston Teachers, Emerson, Wheelock, Mass. Art, Burdock, and several other colleges.

Tickets will be sold for $1.00 each. Girls will be limited to prevent overcrowding, which has been the downfall of many another acquaintance dance.

Soccer Squad Will Play Practice Game Tomorrow

Tomorrow, May 3rd, the MIT Soccer Team will play a practice game against Harvard at Harram Football Field. This game is to ease the Soccer spring practice which began at the end of last month. The starting lineup-up for the game is as follows: Goelke, H. Hendrebekchi, Pulizbaka, H. Planto, and M. Randla.

Two new boys bbanged their Boston Celtics outside room 1-190. The newsboys said they had sold for a living even though they sometimes buy movie. It was just part of the ceremony at which Professor John A. Beckley was presented a plaque by the students for his outstanding performance in operation crow. But most of the idealist, opened the door and showed the crow out.

Among those to be invited to the game were the Hawaiian Islands in the mat-
