Library Research Center To Be Established Here
By Carnegie Corporation

Scientific Methods To Aid Learning Will Be Studied

under a grant of $10,000 from the Carnegie Corporation of New York, a new center for library research and scientific aid to learning will be established at the institute. Dr. Karl T. Compton, president of the institute, announced last Saturday that the main purpose of the new center will be to study scientific methods of collecting, organizing, and communicating knowledge.

The new center, conceived as a national and international research in its field, will concern itself with experimentation on printing, documentary exhibition, visual education, sound recording and motion picture systems. It will also serve as a school for training teachers in the theory and practice of scientific and technical education.

New Mediums for Expressing Thought

In a joint statement issued by Dr. Joseph E.周一, director of the Library and Dr. Vernon D. Tate, librarian, the directors of the Library and Educational Department of the Institute charged that the quest for a new educational channel, superior to that of books, is one of the most far-reaching and important of the new and ever-expanding fields of education. The Carnegie Corporation of New York has just announced a new center for library research and scientific aid to learning, Dr. Karl T. Compton, president of the institute, announced last Saturday.

The center, similar in concept to that of the Institute of Technology, is founded on the belief that, except for great chunks of knowledge, the storage of knowledge is sterile and that its re-use is necessary. The main purpose of the new center is to study scientific education. Dr. Karl T. Compton, president of the institute, announced last Saturday that the main purpose of the new center will be to study scientific methods of collecting, organizing, and communicating knowledge.

The new center, conceived as a national and international research in its field, will concern itself with experimentation on printing, documentary exhibition, visual education, sound recording and motion picture systems. It will also serve as a school for training teachers in the theory and practice of scientific and technical education.

Compton Talks On Education To Alumni Club

Shapley Speaks To MIT Group

Famous Astronomer Talks on " Cooperation" 

"Science must be given a hand in determining the peaceful cooperation of nations, as it was from the military point of view," said Prof. Harlow Shapley, one of the nation's leading astronomers, in his presidential address to MIT last Thursday evening.

Shapley, a former member of the...
Abolition Movement Reappears; Civil Strife Believed Inevitable

A new organization, the National Society for the Abolition of Massa-
chiefs (N.S.A.M.), was founded at the Institute, it was announced. This.
week. Founder of this or-
thor is to "peacefully,
disseminate propaganda (asserting
people to the evil that is Massa-
chusetts," include Herbert Linnanger,
Daniel McGinnis, and Sande-
Rusin, all Exposure.

The first meeting was held
Wednesday, there to be an in-
other this Wednesday, December 17,
at 10:40 p.m. in Ware Lounge.

Officers announced that everyone is
welcome, membership being open to
any person having completed 18
passed through, ever, or under Mas-
sachusetts.

at present the society has several
places for accomplishing its purposes.
Among these are cutting the flask
from the roots of the Union and
burning it into the Atlantic, as
having it declared null and void by
the Supreme Court, because it
should have never started in the
first place. However, since it was
pointed out that the absence of
Massachusetts would be too far
All this, however, was cut back in 1944-45, you can re-
qualify simply
by passing the physical examination, provided
you're single, between 20 and
261/2 years old, and have completed at least ones
year of active duty, and will be given a chance to
join the U. S. Air Force offers you

$336 a month

The U. S. Air Force offers you
$336 a month

one year after graduation

That's what you can earn after completing
one year of pilot training and winning your wings
in the Air Force.

It is a good deal from the start. While you're
an Aviation Cadet you draw $75 per month, plus
food, quarters, laundry, medical and dental
care. After successfully finishing the course, you
are commissioned a Second Lieutenant, Air Force
Reserve, and assigned to active duty with the
Air Force at $336 a month (including Rant pay),
with excellent chances for further increases as
promotions come through.

In addition, you get an extra $500 for each
year of active duty, and will be given a chance to
compete for a commission in the Regular Air
Force if you are interested in a service career.

This opportunity, which cannot be duplicated
anywhere else at any price, equips men for
well-paid, responsible positions throughout the
aviation industry, at high pay from the beginning. It

may take advantage from the
Chambers of Commerce of the 47
other states. Also, travel funds to be
distributed discounting vacations
in Massachusetts.

The charter of the Institute, whose membership now numbers
thirteen, hopes to obtain a charter
from the Institute Committee as a
Class B activity. Recently, the
Society plans to get a corporation charter from the
Commonwealth of Massachusetts.

Tannem Institute Offers $1000 Prize
A first prize of $1000, and 13 other
prizes, will be distributed to college
students by the Tannem Social and
Economic Institute of New York, for the best 1000 to 6000 word
essay on "An American Program for
World Peace in the Present Crisis." The contest is open to all under-
graduates, and entry blanks and
envelope for the contest will be sent on request. Requests
for information and typed manu-
scripts should be sent to Tannem Institute Contest, 7 East 15th Street,
New York, New York. Manuscripts, accompanied by the name, address
and college of the student should be received no later than April 15,
1948.

To Publish Letter
In Another Letter, the N.S.A.M. is going to publish a
monthly news-letter, probably to be called "The Abolitionist," which

Center to Study Scholarship Aid

According to the statement by
John E. Burchard and Dr. Tate
"Free fields offer particularly
alternative possibilities for a program of research in the new order for
scientists and artists to learn. These
include printing and all phases of
duplication; documentary repro-

duction, including electronic
reproduction; facsimile, and relat-
ated tech-
iques; sound recording, concern-
ing the full exploitation of the
power of hearing; and mechanical
selection, dealing with assembling,
arranging, and supplying data of all
kinds."

Research in sound recording, language, and phonetics are under way
in the laboratories, and in the Departments of Lan-
geography, English, and History. Meth-
ods and results of research on mechanical
means are being studied in the De-
partment of Electrical Engineering.

Unusual, partly because the event was
such a success and partly because the
program was scheduled after the final
recital. Professor Klaus Liep-
krantz, clarinet, continued his
review of the work of the past se-
ason.

"Why On the Democrats Do Parti-
ately Rage Together," however, it
reached a low point in the tenor recitative
as the aria "L'Amor."

As the final number of the evening,
the choir had different soloists, wom-
men, the choirs, and conductors. Nev-
ertheless, the superior quality of the
performance was the result of the
poor of the Musical Clubs for

Wesleyan Sinks M.I.T. Tankmen By 49-26 Score
Pelletier, Relay Team Score Only Victories; Fresh Bent Dean 41-23
Wesleyan’s swimmers churned to a 49-26 victory over the Technology men, 41-23, in the third meet of the season for the Engineers and Wesleyan’s opus. Tech garnered a first place in two of the events, while the Cardinals swept to victory in the seven remaining divisions.

Bob Pelletier, a consistent winner from last year’s freshmen aggregation, backed up Tech’s only first-place individual event. Navigating the 200 yards in two minutes, 46.5 seconds Pelletier eased into first position over Forbes, of Wesleyan.

Through out the day the technology triumph of the day, the 50-yard medley relay team defeated the Wesleyan quartet with a time of three minutes, 17.7 seconds. In addition to the two first places, the Engineers finished second in three events. Jim Leonard capped the second spot in the 50-yard freestyle for the visiting team, with Bob Edgar taking third in the same race. In the 165-yard backstroke Tech’s Dick Pifer garnered second, while freshman Ben Davis hit the finish in third position.

Second and third place in the dives went to Technology, as Bob Ellis tallied a 70.9 score and Lou Lehman a 62.5 total. Third places for the Engineers were also registered by Carl Malin in the 220-yard freestyle, John Beute in the 100-yard swim, and Bill Hurlbut in the 440-yard distance event. Tech’s winners against Dean were Kelly 50-yard freestyle; Schwartzman 100-yard breaststroke; Compton, 200-yard freestyle; Jones 100-yard backstroke; and Hart diving.

“I WALK ALONE”
Lecture Series Committee

The Rev. Dr. Harold John Ockens, pastor of the Park Street Congregational Church, will speak at the Institute on Thursday, December 16, at 8:30 p.m. on "The Basic for Orthodox Belief."

5:15 Club

The 5:15 Club will hold an informal Christmas dance, for members only, in their courtroom in the basement of Walker Memorial on Tuesday evening, December 22, from 8:30 p.m. until 11:00 a.m.

Catholic Club

The Catholic Club Annual Christmas Party for members and their dates will be held Friday, December 25, at the Brighton Club in Allston.

A.S.M.E.

The second in the series of lectures on "Chlorine in the Field," sponsored by the American Society of Mechanical Engineers, will be presented tomorrow afternoon at 5:45 p.m. in Room 3-10. The speakers this week are Professor A. H. Shapiro, who will discuss "Chlorine in the sea," and Professor W. M. Murray, who will discuss "Stress Analysis and Plastics." The third lecture in the series will be held Friday, December 25, at 5:45 p.m. in Room 3-10. Professor H. Caro, Aeronautics, will discuss "The Use of Chlorine in the Production of Supercritical Fluids." The fourth and last lecture will be held Friday, December 31, at 5:45 p.m. in Room 3-10. Professor J. A. H. Cole will discuss "The Use of Chlorine in the Production of Superheated Steam." All lectures are open to the public.

Robert E. Booth is New Librarian

Robert E. Booth, formerly reference librarian of the Peabody Institute of the University of Notre Dame, has been appointed Associate Librarian of the Massachusetts Institute of Technology, John E. Boardhurst, Director of Libraries, announced recently.

In his new post Mr. Booth will be associated with Dr. Vernon D. Tate who was appointed Librarian of the Institute last July. He will be concerned primarily with administration of the Library and with operations of processing, book selection, and general supervision of reference, circulation and allied fields. Part of his time will be devoted to a study of library organizations in preparation for moving the Institute's Library when it is built.

His experience in the newer phases of library operation includes a study of all aspects of library work which is expected to be valuable in the shaping of the Institute's program in this field. Mr. Booth was educated at Wayland University, Columbia University, and the University of Michigan.

New Haven R.R. Increases Boston to N. Y. Fare 15%

The New York, New Haven and Hartford Railroad yesterday increased its fares to New York and other points along the line by 15%, thus raising the cost of a one-way ticket to New York from $3.75 to $4.15.

This increase was authorized by the Interstate Commerce Commission in view of the fact that the New Haven Railway Company materially benefited from the 15% increase in the rates of other railroads serving the country's railroads, as it is mainly a passenger railroad.

The increase will go towards meeting increased wages and cost of materials and supplies.

Tech Debates Gain Unanimous Decision

The Technology debate team defeated the Brown University team by unanimous decision of the three judges last Friday night at Brown. William G. Bibb, '50, and Leonard H. Caro, '50, debated the affirmative side of the question: "Resolved that the Federal Government should be subject to discipline by a Federal Board of Economic Advisers or other political associations constitute a threat against the interests of the United States." This is the third defeat in a row for the Technology team which was only New Haven's third defeat in 21 states, since these debate were officially recognized by the society. In its only other debate this season, the Technology team unofficially defeated Brown University in 26 states. "Resolved that a world federal government should be established."

Compton

B.U. Outplayed by Tech Bridge Club

Winners of last year's 6th annual in its first intercollegiate tournament against the newly formed M.I.T. Bridge Club.

Weekly intercollegiate bridge tournaments in which any of the clubs' members may participate over the club's monthly activities along with tournaments with neighboring schools.

The club will go into competition for the National Intercollegiate Bridge Tournament Championship in February, the winners of which will be chosen from the New England area will have an all expense paid trip to Chicago, where the finals are being held.

Free policies of Open House, the overall planning, and its transition into actual events and exhibitions. Men who are interested are urged to leave their names at the Walker Memorial Committee office to contact a member of the Open House Executive Committee. The Committee's co-chairmen are and Robert W. Halpenny '40, Richard H. Harris, '48, and Otto E. Kirchner, '47, chairman of the Sophomore exhibition, organization, and presentation.

There's no one more DAPPNER than the PHI BETA KAPPA

...who frequents the Fife & Drum Room. Or, for that matter, any of the gay young social set that frequents the Fife & Drum Room the perfect rendezvous for delicious food, congenial atmosphere, and superb dance or music. Never a cover or minimum.
The Harvard policy, muzzle as it is, is not new. For years now the leader maddens of Radcliffe by its refusal to investigate a situation has persisted in the absence of a protest. Not only do we intend to show the students of Harvard but also we intend to do something about it. The fruits of the operation of the Institute's laboratories, extended the realm of knowledge of Radcliffe to come to Technology and use our laboratories.

The only exception to this ban, which has been in effect, is keeping Radcliffe women out of the dormitories. Of the two, this ban on students can call for their books is the more serious. It can hardly be considered any more of a dilemma than the ban on students getting their fair share of "book-burdens.

Tolleson Given Advice
In an article in the "Tech," the director of Harvard's Libraries, Dr. John C. Laing, wrote:

...we are reasonably certain that there will be no danger of our losing the support of the students or faculty...
