

TECH FACES BUDGET SQUEEZE

Vaughn Munroe Plays At I.F.C. Dance

I.F.C. Weekend Features Munroe Band, Radio Show

The highlight of the 1948 I.F.C. week-end will be a nationwide broadcast over CBS of the regular Saturday night Vaughn Munroe Show from Morss Hall, it was announced last night by Frank Jones, dance committee chairman.

Larry Clinton and his orchestra will play for the formal dance on Friday evening, April 23, at the Grand Ballroom of the Hotel Statler, 9:00 p.m. to 1:00 a.m. The Munroe aggregation will play from about 9:00 p.m. to 10:30 at the Saturday night informal dance to be held in Morss Hall, Walker Memorial. The radio broadcast will last from 9:30 to 10:00. Jack Marshard and his orchestra will provide the music for the rest of the dance which will be held from 8:00 to 12:00 p.m. Tickets for the whole weekend will be \$8.80 per couple.

The Vaughn Munroe show will feature Colonel Stoopnagle, The Moon maids, Ziggy Talent, Frank Fontaine and a guest star to be announced later. This is a part of a college tour by the Munroe show.

Larry Clinton's Band

Larry Clinton's orchestra features vocalist Helen Lee. Clinton, before forming his own band, was arranger for the Dorsey Brothers and Glen Gray. He is best known as the composer of "My Reverie." His band has played at the Meadow Brook, and the Strand and Paramount Theatres in New York City.

Marshard's orchestra plays the debutantes dance circuit in New York and Boston.

Feature of the intermission entertainment of the formal dance will be the presentation of the top three original songs to be written by students for the I.F.C. song contest on April 9.

Unique Prizes

The first prize in the contest will be a complete layout for the weekend: tickets, corsage and champagne. Second and third prizes will be tickets and champagne respectively. The contest is open to all but April 1 is the deadline for entries. Words must be original but the tune need not be. The contest and judging will take place at a beer party on April 9.

Other entertainment is planned for Saturday afternoon or evening. For further details see a later issue of *The Tech*.

Mt. Holyoke Group Will Join Glee Club

Mr. Holyoke College will send its Glee Club to Technology on April 3 to participate in a joint concert with the M.I.T. Glee Club to be presented that Saturday evening at 8:30 p.m. in Morss Hall. The mixed chorus of 195 voices will be under the direction of Professor Klaus Liepman and Miss Ruth Douglass of Mr. Holyoke. Following the concert, featuring soloists from both groups, the Techtonians will take over the spotlight to supply music for a couples dance.

The program will have five featured soloists. From Mt. Holyoke, Misses Mary Lou Casper, Rose Perry and Elina Grant will render selections and the Institute's group will put Major Hollis Dakin and Robert H. Giljohan, '48, before the lights.

Tickets for the affair will be on sale all of next week in the lobby of Building 10 and may be ordered by mail direct from the Music Club in Walker Memorial. The price for tickets for the concert alone will be 75 cents per person, and for those interested in attending the dance afterwards, combination tickets may be had for \$2.00 per couple. There will be no tickets sold for the dance alone.

I.F.C. VOCALIST

Helen Lee, featured with Larry Clinton's Orchestra, will sing at I.F.C. Formal.

Enrollment Drops 6.9 Per Cent Here; Total Now 5279

Total enrollment at the Institute dropped 6.9 per cent this term for the first time since the end of the war. The undergraduate school decreased by 343, while the graduate school lost 49 men. The peak enrollment last fall of 5,662 students is down to 5,279, the undergraduates numbering 3,795.

The elimination of first term classes in the freshman, sophomore and junior years was mainly responsible for the decrease. The large number of graduating seniors (292) coupled with the decrease in the freshman class (24) almost accounts for the undergraduate decrease.

The proportion of students in each course has remained nearly constant. Leading the Institute numerically is Course VI with 1,075 students. Somewhat behind is Course II with 693; and third place goes to Course X's 553 scholars. The balance of the total is scattered among the remaining courses, and also 46 graduate students who are not attached to specific courses.

Workers Wanted Now For 1949 Tech Show

There will be a meeting of anyone interested in writing, composing, or working as stage or choral assistants in the 1949 Tech Show, on Monday, March 29. The meeting will be in the Faculty lounge of Walker at 5 p.m.

Stand Is Made On Elections By Inst. Comm.

Compromise Effected In New Amendment On Elections Procedure

Final arrangements concerning the amendments to the constitution of the Elections Committee were made during the Wednesday meeting of the Institute Committee, when the governing body passed the "compromise" amendment submitted by the Elections Committee.

Originally, the amendment was to the effect that almost all of the student elections be held under a preferential - proportional system.

Compromise Formulated

However, during a special meeting of the Institute Committee held on Monday, the proposed amendment was discussed, and it was decided that the preferential-proportional system would prove both inequitable and impracticable in some cases. As a result of this discussion, a compromise amendment was formulated having the following points.

The election of class president and vice-president will be held under the preferential-proportional system, the first candidate being elected by the majority and the second one by the minority faction providing they had 40 per cent of the total votes cast. The class Representatives to the Institute Committee will be elected by the same method, but the candidate will only need a thirty per cent majority.

Point System

For the elections to the Senior Week Committee, the Junior Prom Committee, and the Beaver Key Society, the point system would be used, whereby a candidate would receive a certain number of points if he received a first choice, on the

(Continued on Page 4)

Compton Announces Strict Economy May Come In Two Years

Unless the Institute finds some new sources of income, or unless prices come down considerably, the Administration will have to start economizing seriously in two years, announced Dr. Kari T. Compton, President, in a "Report To You" on Station WMIT, Wednesday, March 24.

At the present time, expansion is being financed by reserve endowment funds, which were earmarked for special purposes. Since it was impossible to carry out the projects for which these funds were appropriated during the war, the income has been accumulating for several years. However, declared Dr. Compton, this can be expected to last only about two years.

Enrollment To Decrease

There is a great deal of trouble expected with the budget during the next year, Dr. Compton continued. This is because of the planned decrease in enrollment, which will substantially reduce the Institute's income. At present, Technology is overcrowded to an extent which, declared the Institute's President, interferes with education. The new stable enrollment plan calls for a student body of about 4500. Enrollment now is 5600. The maximum pre-war number of students was 3100; next fall there will be about 4900 men here. The increase in the student body over the pre-war figure is justified, said Dr. Compton, by many new facilities—classrooms, laboratories, etc.

Even though there will be a substantial reduction in income, the Administration does not want to reduce the size of the teaching staff, because of the heavy programs of staff members as they now stand, and because of the importance of individual attention in classes. All economies are to be made, if possible, in the building equipment, and related lines. No cuts will probably be made in anything related to education.

In his opening remarks, Dr.

(Continued on Page 4)

Santillana Supports Jews In Palestine

Professor George de Santillana and Bishop Alexander St. Ivanyi were the speakers at a lecture sponsored by the Hillel Society last Wednesday afternoon. The topic of the lecture was "A Plan for Peace."

Professor de Santillana, speaking first, took up the problem of peace in Palestine. He stated that an international legion would have kept peace in Palestine, but the United Nations would not work because we were not supporting it; he continued that the people of Palestine were rapidly coming to the realization that they must find an understanding with the Arabs, "The first word of sense spoken in two thousand years."

Bishop St. Ivanyi discussed peace as a problem of going back to man. He illustrated his remarks by references to the Palestine problem and the world situation in general, and said that he hoped the United Nations was not done for.

Dormitory Rent Is Raised \$10

Sr. House To Empty Bldg. 22 Next Year

Several important announcements have been made by Professor Leicester F. Hamilton, Chairman of the Dormitory Board. In presenting the new program for dormitory accommodations for the summer and fall terms of 1948, Professor Hamilton announced that rates for all occupants have been increased by \$10. Circulars have been sent to all members of Building 22, the Graduate House and Undergraduate dormitories explaining the increase and other items.

Speaking about the increase, Professor Hamilton said this was due to a general rise in the cost of such items as laundry, furnishings and an increase in wages paid to dormitory employees. The M.I.T. Dormitory system does not come under the jurisdiction of rent controls.

Professor Hamilton stated that the rents at Technology were not unduly high and added that Harvard University charges approximately the same rates. Harvard has recently experienced increases in their rents.

Freshmen entering next year will, in all likelihood, remain in 22 for a few months at most. As soon as the Senior House is completed they will be allowed to move in to the Undergraduate dormitories. Entering freshmen next year will have priority for dormitory rooms over men who have left Building 22 this year for outside accommodations.

Instructor Rating Confab Held By Student Faculty Committee

The question of instructor rating was a major topic of discussion at the meeting of the Student-Faculty Committee held on Monday, March 22. An attempt was made to bring to light all possible information as to the purposes of the project, the success or failure of past experiments with it, and the various methods and forms which might be used in the future.

Several guests were present to contribute their views on the subject, including Prof. Walter G. Whitman of the Chemical Engineering Department, Mark Campbell, '48, president of Pi Tau Sigma, the honorary mechanical engineering fraternity, Jim Adelstein, '48, president of Tau Beta Pi, and Peter Guercio, '48, from the National Students Association.

Ratings Desirable

The desirability of instructor rating in general was unanimously agreed upon. Several faculty members present said that instructors on the whole would like very much to know what the students think of their teaching methods. It was felt that the quality of instruction at Tech would improve if a system were set up to relay student opin-

ion to the instructors. It was thought desirable that the individual ratings be revealed only to the instructors involved and that averages for the department be submitted to the department head.

Prof. James Holt of the Mechanical Engineering Department described the instructor rating programs conducted by Tau Beta Pi and Pi Tau Sigma in his department. Both experiments were considered successful and met with considerable favor in the department. Prof. Whitman told about Tau Beta Pi's rating of Course X professors, among whom sentiment ran "from mild enthusiasm to high enthusiasm." Most of them felt that the students' evaluations were fair and that the program resulted in improved teaching in the department. Three different rating systems were then discussed but no decision was reached.

Coordination Needed

Conceding the advantages to be gained from such a program, the meeting attempted to decide upon a method by which the efforts of the interested organizations might be correlated. Dean Pitre emphasized the importance of having an

REPORT TO INSTITUTE COMMITTEE

One of the items on the agenda of Wednesday's Institute Committee meeting was to have been a written report submitted by the Athletic Association concerning their organization and procurement of personnel. This written report was not submitted and in its stead Institute Committee received an oral report from the present and past president of the A.A. This oral report is singularly noted because of its lack of specific information.

It is quite evident from the present A.A. constitution and Jim Veras' explanation to the Institute Committee that the Athletic Association lacks an efficient organization below the Executive Committee level. It was this lack of organization and seeming confusion in the lower strata of the A.A. that has led to its present position. The present executive committee could make a great contribution to the A.A. if it undertook to correct this situation.

CLASS ELECTIONS

Over the past several weeks both the Institute Committee and the Elections Study Committee have spent a great deal of time and effort attempting to reach a solution to the problem of elections. The method of elections finally passed by the Institute Committee was a compromise between the various plans offered—the preferential, the preferential-proportional, and the point system. The final compromise should go far to giving the students the best system for elections they have had in years.

SPEAK UP

Several times in the past we have invited comments and other people's opinions upon anything which has appeared in **The Tech**. Usually it doesn't happen that way though, and people are always either stopping us or someone else on the staff to relate how **The Tech** was very wrong and unfair in its last editorial.

Specifically, we have been privately briefed several times on what is supposedly wrong with the "point counting" in elections. Yet, despite the fact that we solicited the opposition's viewpoint from three separate sources, they did not see fit to make it public in writing.

MINUTES OF THE INSTITUTE COMMITTEE

March 24, 1948

The meeting was opened by President Parmelee at 5:15 p.m.
 The roll call showed the following—absent: Fitzmorris, Greenbaum, Kosower, Proxy; Greene (Mitchell), Hilton (Israel), Schotland (Krage), Tooley (Synnor); late: Grant, Krinsky.
 The minutes of the previous meeting were accepted as read.
 The minutes of the Executive Committee meeting of March 23, were read.
 The agenda was read.
 Reports:—Elections Committee—Mr. Allen reported that nominations for the spring elections will be due on Friday, April 18.
 N.S.A.—Mr. Eames reported on the Progress of the Foreign Students Summer Program. The N.S.A. has arranged European transportation for about 40 students from Tech for the summer time. He also presented a form to be used for the evaluation of curricula by Alumni Association.—Mr. Veras submitted an oral report on the plans of the Association for the coming year.
 Club '50—Mr. Shannahan submitted the final report for the committee. The dance lost \$138.15 and consequently all nine men on the committee forfeited their \$10 bonds.
 Old Business.—M.S.P. (Executive Committee): that Article IV, Section 13 of the constitution of the Elections Committee be amended to read: "Class President, Vice-President and class Institute Committee Representative elections shall be by the preferential-proportional system of voting. Junior Prom Committee, Senior Week Committee, and Beaver Key Society elections shall be by the point system of voting. All other elections shall be by the preferential system of voting." (24-3)
 M.S.P. (Executive Committee): that the following amendment be added to Article IV, Section 27 of the constitution of the Elections Committee:
 "Counting by the Preferential-Proportional System."
 Although the voter has indicated his preference for all the candidates, only the preferences which will elect the smallest majority in any election will be honored. The smallest majority will consist of the following:
 Class President and Vice-President 1 out of 2
 Institute Committee Representatives 1 out of 2
 All preferences which are numerically higher than the smallest majority in that election will be disregarded unless a candidate is elected with less than a specified percentage of the total votes cast. In that event, his election shall be void, and the counting shall include preferences larger than the smallest majority. The specified percentage shall be 40% of the total vote cast in the case of the class President and Vice-President elections and 30% of the total vote cast in the case of the Institute Committee Representative elections.
 "Counting by the point system"
 "The voters express numerical preference for the candidates; as many should be enumerated as possible. Each candidate is credited with as many votes as he has first places, half as many number twos, one-third as many number threes, etc. The candidate with the largest number of votes is successful."
 M.S.P. (Budget Committee): that the freshman dance report be accepted.
 M.S.P. (Budget Committee): that the "Club '50" report be accepted.
 M.S.P. (Budget Committee): that \$100 be granted to the M.I.T.N.S.A.
 M.S.P. (Walker Memorial Committee): that the amendments to the constitution of the 5:15 club be approved.
 New Business.—M.S.P. (W.M.C.): that the constitution of Alpha Phi Omega be approved.
 M.S.P. (Budget Committee): that the Institute Committee reimburse the Baton Society \$28.10 for their loss on the All-Tech Sing.
 M.S.P. (Tech Show): that the appointment of James K. Berman as General Manager of the 1949 Tech Show be approved.
 M.S.P. (Brettler): that the question of delegates to the N.S.A. convention in Madison this summer be tabled until the next regular meeting.
 President Parmelee announced that as tentatively planned there will be a special meeting of the Institute Committee Thursday, March 25, 1948, to consider the question of the M.I.T. Undergraduate Assoc. constitution.
 President Parmelee closed the meeting at 6:55 p.m.

Respectfully submitted,
 BENJAMIN J. BRETTLER, Secretary

Letters to the Editor

MUSICAL CLUB'S PROFITS

Dear Sirs:
 Having noticed the interest **The Tech** has shown in the financial success or failure of the various activities at Tech, I believe you might be interested in knowing the final statements for the M.I.T. Musical Clubs' concerts held thus far this year. The Clubs have made a profit on every function which they sponsored this year with the exception of the concert with Bradford Junior College which had a loss of \$36.59. . . . The concert profit to date is \$792.77.

I should appreciate your correcting your earlier statements concerning the M.I.T. Musical Clubs which contradict the above figures. . . . I believe you will agree that we have a legitimate claim to any distinction which may accompany successfully putting across an event at M.I.T.

John C. Kern, '50
 Treasurer, Musical Clubs

GROSSMAN'S INADEQUACIES

Dear Sirs:
 In your last issue, David Grossman wrote a review of **The Tech Show**. In spite of the excellent acclaim the show received from all other sources, Mr. Grossman reluctantly commented that it was "good" . . . he seemed to delight in stressing the only point he could find to criticize, the fact that the show was not about Tech, a detail that probably bothered no one but Grossman. This might not have been bad in itself had not he con-

CONSTITUTION AMENDMENTS

Proposed: That the following sections of the Constitution of the Undergraduate Association be amended to read as follows:

ARTICLE IV
 SECTION 4. The Institute Committee shall consist of three members of each class, of whom one shall be the class president, the other two to be elected at large by the class; one each from the Budget Committee and the Walker Memorial Committee; one to be chosen by the chairman of all other standing subcommittees containing no class presidents as members ex-officio; one from each living group, as follows: Dormitory Committee, 5:15 Club, Interfraternity Conference; and one from each activity federation as follows: Federation of Athletics, Federation of Clubs and Societies, Federation of Music and Drama, Federation of Publications.

SECTION 5. All recognized undergraduate activities other than class organizations, living groups, and subcommittees of the Institute Committee, shall be grouped into federations. Each federation shall consist of at least two activities, of which at least one shall have Class A standing (as defined in the By-Laws). Assignment of an activity to a federation may be changed, new federations created, and existing ones merged or dissolved by two-thirds vote of the Institute Committee, provided notice of the proposed action of the Committee shall have been given the members of the organizations affected and full opportunity granted them to present arguments and reasons why such action should not be taken. If any federation fails to meet the requirements stated above as a result of change in status of one or more of its constituent members, said federation is automatically dissolved and its members must be reassigned in accordance with the provisions of this section. If a federation is dissolved by action of the Institute Committee, its members must be reassigned in accordance with the provisions of this section.

SECTION 6. These amendments shall take effect at the close of the first Institute Committee meeting following ratification by the undergraduate student body.

ARTICLE V
 SECTION 3. The Institute Committee shall enact such By-Laws as may be deemed necessary and not inconsistent with the provisions of this Constitution. Any By-Laws inconsistent with amendments to this Constitution shall be rendered null and void as soon as these amendments take effect.

cluded with: "The show was good. It made good entertainment on a semi-adult level."

This attempt to belittle the show in order to emphasize Grossman's sophisticated viewpoint has merely served to emphasize his inadequacies.

**Forty Men Report
 For Golf Practice**

A forty man showing at the golf rally held recently points to an outstanding season for the Tech clubbers. The squad, headed by hold-overs Captain Russ Gwillin and Earl Hoyt, began practice sessions Wednesday at the Woodland Country Club. These workouts will continue until April when a two-day tournament will pare the varsity to the customary nine.

On April 21, the campaign gets under way with a contest between M.I.T. and the Terriers of Boston University. The schedule calls for the playing of seven additional matches.

**Baseball Season Gets Under Way
 With Rally and Daily Practices**

**Basketball Squad
 Scrimmage Celtics
 In Warm-up Game**

Playing a top-notch brand of ball, Tech's basketball team scrimmaged the Boston Celtics Wednesday morning in a pre-playoff warmup for the Celtics before they enter the Basketball Association of America finals on Sunday.

The Beavers' excellent game led Coach Honey Russell of the Celtics to remark that M.I.T. gave his team a "better scrimmage than Harvard did." Tech's Jack Corrie and Bob Deutsch held Sol Marashian, fastest man on the pro team, to only a few goals, while Lou Morton ably guarded big Ed Sadowski, the six-foot, seven-inch and 230-pound Celtic center.

Another good performance was turned in by Jim Inman, who paced the Tech freshmen team this winter. Assistant Coach Ted Heuchling, who played for the Whirlwinds of the Junior Celtic circuit a year ago, also entered into the scrimmage.

At a rally held on Monday, Technology ushered in its first varsity baseball season. Seventy men were on hand to meet Coach Fred Heuchling and listen to some tips handed out by a veteran Boston Red Sox scout.

Coach Heuchling presented a plan for practices, which will be held at Briggs Field from 4:30 p.m. until sundown during the rest of March. In April the squads will move to Magazine Beach, which is situated just south of Cottage Farm bridge, a short run from Tech. In hopes of forming a good representative squad, practice sessions will also be held Saturday and Sunday afternoons until the season is well underway.

Due to the lack of a playing field at Tech, all of the scheduled games will be played away. Five games have already been arranged with local colleges, with two more to be scheduled in the near future. The frosh will also field a team which will face a schedule of five games with local freshman teams.

**ROTC Riflemen
 Cop First Place
 In New England**

**Team Takes Division
 Of Hearst Tournament;
 Pistol Team Triumphs**

Although losing out to the R.O.T.C. unit from the University of Illinois in the Hearst Trophy Intercollegiate Rifle matches, the Technology R.O.T.C. rifle team captured first place in the First Army Area section of the tournament.

Firing against schools from all of New England, New York and New Jersey, the Beaver sharpshooters were victorious by 40 points over Fordham, which occupied the runner-up spot in the final First Army Area standing. Rutgers, C.C.N.Y., Princeton, and the University of Vermont finished third, fourth, fifth, and sixth in the tournament.

Only New England Entry
 Of the first four units that will enter the National Intercollegiate next month, Tech is the only New England college represented. The M.I.T. shooters include John Corwin, Robert Kress, Herb Voelcker, Dave Powers, and Charles MacDonald.

**PT Track Enters
 Into Second Week**

Between the indoor and outdoor seasons freshmen on the track team are now competing among themselves in the frosh physical training program. In its second week, the intrasquad rivalry will last for one more week. Events included in the competition are 60-yard low hurdles, 50-yard dash, 440-yard dash, 880-yard run, the mile, and the 12-pound shotput.

Ed Olney is leading the competition by a wide margin with first or tie for first in all events except the shotput, where he is third. Vin Frasca, Fran McKee, Gerry Moore, and Bill Warner seem to be in the best position for the battle for second place. Last year a tie was scored, as Al Dell Isola and Bud Simpson could not be separated.

The PT Competition will finish the freshman board activities for this year. Tomorrow afternoon the straightaway of the board track will be taken apart, and put away for the summer.

Entering two teams in the National Intercollegiate Rifle League Tournament sectional at Amherst on Saturday, the Beaver varsity riflemen placed third and fourth in the competition.

Corwin Leads Beavers
 John Corwin, of Tech, came out second in the individuals to lead the Beavers in the meet. Stan Smock, Charles Holmes, Lee Powers, John Kirkwood, Jim Robertson, Reggie Stoops, Vernon Turnburke, Frank Ficarra, and Jim Christopher also fired for the Engineers.

Playing host to the sharpshooters of the University of Massachusetts last Friday at the rifle range, the Technology pistol team chalked up a 1181-1138 triumph.

**Changes In Frosh
 A-2 Course Listed**

With the promise of Spring at last, the Athletic Association has announced its plans for the extension of the freshman program to the outdoor activities. This schedule will become effective April 1 and all freshmen who indicated preferences for their favorite sport are urged to consult the M.I.T.A.A. bulletin board immediately to check the official listings.

The sailing program will be open to the freshmen A-2 students and those men who signed last term for this activity will find a list of those eligible on a notice posted in the A.A. office. There will be a charge of \$3.00 for full Nautical Association membership privileges to those in the A-2 course. The required shore school will be given during class hours for those in the activity. Freshmen already qualified may be called upon to act as assistant instructors in the school and can use the period for their own sailing at the discretion of the instructor in charge.

Tau Beta Pi Elects New '48 Members

Candidates Also Picked From Junior Engineers

Tau Beta Pi, the honorary engineering fraternity, held its senior smoker on Tuesday, March 23, in Crafts lounge in the Senior House. The smoker began at 5:00 p.m. and elections were held in the evening.

The seniors elected to the fraternity were Eugene Ashley, Robert E. Barnhart, Bascom W. Birmingham, Frederick G. Folberth, Thomas W. Folger, Bernard M. Gordon, Frank J. Hoyer, Edward N. Helmers, Jan N. Hoegfeldt, John H. Kellogg, Jr., Mark E. Kirchner, William C. Kurtzsh, Albert S. Lang, Howard R. Morash, Jack C. Page, Victor H. Pomper, Edward R. Powsner, Malcolm E. Reed, Arlie G. Sterling, William J. Weisz and George R. Warrell.

Two course VI-A fifth year men were also elected to the fraternity, J. J. Baruch and E. C. Ho.

The smoker and election for Juniors was held on Thursday, March 25. The results were not available at press time.

COMPTON REPORTS

(Continued from Page 1)

Compton praised the complete staff of Frere Jacques! in producing a well-acted, well-managed and successful Tech Show.

Dr. Compton then turned to the International Seminar which is to be held this summer at Technology. Under the sponsorship of the local NSA he declared that the project originated with students and all phases of the Seminar are being carried out by students at the Institute.

Concluding his remarks on student enterprises, Dr. Compton spoke of the excellent work of the Institute Committee since the war and the ever-increasing role of athletics in Institute life.

Dr. Compton outlined the developments in athletics here at the Institute. The first step, he said, was the drill field, which the Institute was required to have because it was a land-grant college. Because of its availability, it offered opportunities for recreation. The students, after a few years, petitioned for a board fence to surround the field so that they might change their clothes in comparative privacy. The next step was a roof over part of the fence, and then running water on the field. This was the start of the first field house.

INST. COMM.

(Continued from Page 1)

ballot, fewer points for a second choice, and so on.

It was decided in the compromise that the present system of preferential voting be continued in the elections of the class Secretary-Treasurer, and the Class Day Marshals.

The amendment just described was approved by the Institute Committee and it was decided to hold this year's elections on April 27.

Change in Inst. Comm. Membership

During the recent meeting, an amendment to the constitution of the Institute Committee was proposed and discussed, the change concerning the decrease in number of the Institute Committee from the present thirty-two members to twenty-two members. At present

the body has twelve representatives directly from the student body, three from the living groups, and seventeen from the various activities. The amendment provides for the same number from the student body and the living groups, but only seven from the activities.

This amendment was proposed in order to give the student body a larger representation on the Committee. However, since the meeting was adjourned before any action could be taken, the motion was tabled and will be discussed further during the next meeting.

INSTRUCTOR RATING

(Continued from Page 1)

effective form and efficient organization. It was felt that some general form might be devised for all departments using a system of check marks rather than number of points, which would permit mechanical tabulation of results.

The scope of the program if extended to the whole school was considered great enough to perhaps warrant the formation of a new student activity to administer it. With

You'll arise—and sing with this RECORD!
 It's "AIRIZAY" (Arise)—RCA Victor's new platter by Ray McKinley and his band

RAY MCKINLEY'S styling of the New Orleans ditty, "Airizay," is attracting lots of fans. If you ask Ray about it, he says: "I've found from long experience what style of music we do best—just as I've learned from experience that Camels suit my 'T-Zone' to a 'T.'" Try Camels! Learn for yourself why, with smokers who have tried and compared, Camels are the "choice of experience."

And here's another great record—
