

Frosh Council Gets Together For First Time

Dean Baker Speaks About Responsibility Of Representatives

Elected representatives from all of the freshmen sections met in Litchfield Lounge at 5:00 p.m., on Friday, October 15, for the first Freshman Council meeting of the year.

Robert Mann '50, opened the meeting with a brief welcome and then introduced Dr. Everett M. Baker, dean of students. Dean Baker congratulated the group on being elected to the council and reminded them of the responsibility which has been entrusted to them. The dean told the assembled group that nowhere in the country is there a college which has as high a standard of student government as we have here at M.I.T.

Council Responsibilities

"Your student government will be held responsible for certain types of conduct," Dean Baker cautioned the council. He reminded them that in all cases of property damage or misconduct cases against the class the authorities will be referred to the Freshman Council. In conclusion, Dean Baker emphasized that the right to vote for the use of the honor system in exams rests with each man in the freshman class.

The Council then voted to hold a meeting next Friday at 5:30 p.m., to elect a secretary-treasurer and two councilmen to represent the Freshman Council on the Institute Committee. It was decided by majority vote to hold an informal meeting before the regular one in order to familiarize the men with one another so they could make a wiser choice in the elections.

Appeal to Freshmen

Mann, advisory chairman of the council, concluded the meeting with an appeal to the representatives to get the men in their sections out for Field Day sports, and to urge all freshmen to attend the convocation on Wednesday, October 27, which will be run by the Council.

NSA's Purchase Card System Will Provide Student Discounts

Arrangements for discounts for college students in the Boston area on groceries, clothing, theatre tickets, and other commodities are currently being investigated by the Boston area of National Student Association. A purchase card system was outlined to about one hundred members at the Northern New England regional meeting held at Radcliffe College, October 15 and 16.

Under the proposed plan, student purchases will be funneled to certain merchants who in turn will offer discounts of from 10 to 30 per cent. According to Donald J. Eberly, '50, cards similar to those used by the Coop will be supplied for a small sum to those students participating in the plan. A successful purchase card plan was run last year at the University of Buffalo.

A tri-nation tour in which students from Western Europe and the United States will visit each others' countries came up for discussion. France, Belgium, and the Netherlands are included in the plan. Smith College has arranged to handle transportation, housing, and other details for the foreign students.

Plans for 60 Models in Fashion Show

In conjunction with foreign student relief, a fashion show will be held on November 12 at Ringe Technical High School for the purpose

D. F. Carpenter, '22 Is Life Member Of M.I.T. Board

Donald F. Carpenter, Chairman of the United States Munitions Board, has been elected to life membership on the corporation of the Massachusetts Institute of Technology, it was announced today.

Mr. Carpenter, who graduated from M.I.T. in 1922, was first elected to the corporation for a five-year term in 1943. His election to life membership comes at the completion of this term, during which he has served as Chairman of the Corporation Committee on Student Activity.

Associated with the Remington Arms Company since 1933, Mr. Carpenter has served on the Industry Advisory Committee and more recently on the Military Liaison Committee of the U. S. Atomic Energy Commission. He is also deputy to James Forrestal, Secretary of Defense, on atomic energy matters.

He is a member of the Board of Directors of the American Management Association and is Assistant Chairman of the Small Arms Ammunition Industry Integrating Committee.

Dramashop Actors Will Play Comedy

Present "Charlie's Aunt" On Nov. 12th and 13th

Members of Dramashop, the M.I.T. drama club, will present the comedy "Charlie's Aunt" on Friday and Saturday evenings, November 12 and 13. This performance is to be staged at the Peabody Theater, 357 Charles St., in Boston. Tickets will be \$1.20 and will be available from all cast members, at the T.C.A. office, and in Building 10 as well as at the door before the show. Blocks of seats at reduced prices will be available for interested groups.

Robert Abelson, '48, will play the leading role as Charlie's Aunt, and other cast members will include Oscar Eubank, '50, as Charlie, Arthur Bankhardt, Shirley Levik, Rachea Goetchius, '51, Madge Rosenbaum, '51, Edith Gould, Martin Osman, '50, Robert Podell, '49, and Martin Miller, '51.

of raising funds. Nine colleges from the Boston area will provide sixty girls to act as models and to present humorous skits.

Student festivals are being planned in the various college centers, Boston, Springfield, and Portland. These will include choral, dance, and dramatic presentations by local college talent. A dance will also be on the program.

Harvard College is in charge of a program of scholarships for displaced persons desiring to study in the United States.

Student officers and others interested are to be invited to attend student government clinics to be held about every three weeks in the near future in Boston.

Presidential Opinion Poll

Wellesley College announced that it is holding an opinion poll similar to the Gallup Poll. About four per cent of the student body, constituting a representative cross-section, is being quizzed to find the leading presidential candidate on the campus.

Delegates to the meeting from M.I.T. were Lloyd A. Haynes, '49; Earl W. Eames, '49; Donald J. Eberly, '50, and Yenwith Whitney, '49. Alternates and visitors were Morris L. Wasserstein, '50; Robert Arbuckle '52; Herbert W. Eisenberg, '51, and William W. Vicinus, '49.

Soccer Team Beats Trinity, 6-2 But Tufts Tops Harriers, 24-31

Killian Explains Expansion Plans

\$20 Million Is Slated For Gym, Dorms, Club

By MARVIN C. GROSSMAN

Future plans for expansion of the Institute's present educational plant, starting with their imminent drive for \$20,000,000 will include, to a large part, improved facilities for student living and recreation. This was the statement made to your reporter, by Dr. James R. Killian, President of the Institute.

One of the primary goals of the Institute's "long range program," is to reorganize the area west of Massachusetts Avenue into a group of buildings for the sole purpose of giving to the students increased facilities for their recreation.

Institute Aim

Quoting from a report made by an alumni committee studying the extra-curricular program at the Institute, he said, "We recognize that the primary purpose of M.I.T. is to give young men and women an education specializing in engineering. . . . It is possible however, that through improved living conditions and recreational facilities . . . and the stimulation of other student activities, our engineering and scientific education can be greatly enriched and the quality of the M.I.T. graduate . . . thereby improved."

A plan to "bring the faculty closer to the faculty," will be aided by the new Faculty Club, part of the long range program. A step in this direction has been taken by the opening of the "Campus Room," where staff members may eat and converse together.

\$200,000 for Humanization

Great steps have been taken by the Corporation to "humanize our Institute," and as an example of this, Dr. Killian stated that the amount given to various extra-curricular activities by the Institute has increased almost one hundred per cent since 1945 and this year, \$200,000 is expected to be spent for such purposes. In addition, allocation of funds has been made for musical and athletic directors, and a lecture and concert series, sponsored by the Institute, is being held this year.

TUG-OF-WAR RALLY

Freshmen will rally in Room 3-270 and Sophomores will meet in Room 3-370 Wednesday at 5:00 p.m. for organization of Field Day tug-of-war teams. Men are urgently needed from both classes. Contrary to some opinion, a successful tug-of-war team does require practice.

Those interested are urged to turn in their eligibility slips without delay. These are obtained from the tug-of-war coaches and are to be turned in at the A.A. Office on or before October 27.

Professor Eames, Retired Since '45, Succumbs At 68

Professor Jesse J. Eames, Emeritus Associate Professor of Mechanical Engineering at the Massachusetts Institute of Technology, died October 14, at his home in Center Ossipee, N. H., where he had been living since his retirement from the Institute's faculty in 1945.

A native of Framingham, Mass., where he was born on April 13, 1880, Professor Eames was graduated from the Institute in 1902. He held various posts in industry until 1910, when he was appointed an assistant in the department of mechanical engineering. He was promoted to instructor in 1911, and became an assistant professor of experimental engineering in 1920. He was promoted to the rank of associate professor of mechanical engineering in 1934.

In addition to his Institute teaching, he was an instructor in the Lowell Institute School from 1911 until his retirement. As a member of the faculty he was in charge of the course in steam and hydraulic machinery, as well as engineering laboratory work until the time of his retirement.

Professor Sax Will Talk On Birth Control Oct. 21

"World Wide Need for Birth Control in Light of the Food Supply and in Light of Civil Liberties" will be the topic of a lecture to be given by Dr. Karl Sax, Professor of Botany at Harvard University and the head of the Arnold Arboretum.

This talk will be held in 10-250 at 5:00 P.M., Thursday, October 21.

Veras, Falcao Net Three Goals Each

In the first big weekend of Tech's fall sports season, the varsity soccer team won its match Saturday afternoon, defeating Trinity College, 6-2, while the varsity cross-country team lost a close meet at Franklin Park to Tufts, 24-31. The freshmen harriers edged out Tufts frosh, 27-28.

Captain Jimmy Veras and Harry Falcao paced the Beaver booters, each scoring three goals in a fast match. The first goal of the game went to Geiger, of Trinity, on a grounder past goalie Hendershot. Veras equalized soon after, and Falco put the Red and Grey into the lead before the end of the first half.

Falcao Scores

After the second half opened, Falcao netted his second goal, capitalizing on a Trinity blunder. Then the stubborn M.I.T. defense staved off several Trinity threats, and Veras made his second counter. The Tech captain sent the Beavers off on a rush and knocked in his third goal. Then Falcao came up with his third on a whirling-dervish shot after a sensational solo carry from mid-field.

During a Trinity attack, a foul was declared against the Engineers in their penalty area, and G. Nelson scored Trinity's second counter on the ensuing penalty shot.

At Franklin Park Tuft's well known marathoner, Ted Vogel, won the varsity meet in the time of 22:05 over the 4 1/4 mile course. Tech's Hank Henze placed second. Sam Holland, Gordon Hunt, Paul Lobo, and Carole Benton finished in that order for the Cardinal and Grey.

Nicholson, of M.I.T., took the

Hotels Hold Rooms For 200 JP Guests

Room reservations for 200 girls are now available for Junior Prom week-end, November 19 and 20. Reservations have been made in the following hotels: Sheraton, Bostonian, Lenox, Pioneer, Statler, and Copley Plaza. The majority of these rooms are for double and triple rooms and suites, although a few singles are available.

Rates for rooms vary from \$2.50 to \$6.00 per person per night. In the majority of the hotels, the management has agreed to group the girls together on one floor or in one section.

Room reservations may be made beginning Thursday, October 21, at a table in the lobby of Building 10 every week day from 12:00 to 2:00 p.m.

If additional information is desired, call Hans F. Eckardt, '50, at LO 6-8713.

Remodeled Cheney Room Opened By Coeds Thurs.

The Margaret Cheney room, local home of the co-ed students, was opened to selected members of the male populace Thursday in a room-warming party to celebrate the room's redecoration.

Credit for the new interior job belongs to two misses from the Architectural School, Elisabeth Sieck '51, and Judith Turner, a graduate of the school who is known locally for her work on Pritchett Lounge.

The room is really three rooms: a kitchen, a living room, and a locker room. Redecoration is most notable in the living area, which has new wall surfacing, new drapes, and slick new furniture.

TECH GOES TO A PARTY

The Phi Betas went all out for a big hay ride near Topsfield last Saturday night. The horses thought the girls were a little heavy, but otherwise everything went smoothly. Shown above is the second wagon setting out with "all aboard."

The Tech

In The Spotlight

By DAVID A. GROSSMAN
 At some point in the fairly near future, the Dramashop is planning to produce the comedy "Charley's Aunt." Because of the fact that Bob Abelson is to star as the "Aunt" in this production, and also because a biography of this illustrious former undergrad is long overdue, we present to you. . . .

Mr. Robert P. Abelson

We interviewed Abelson in his Grad House room the other day, and the following is a nearly literal transcription of the answers he gave to our questions:

Born: "Yes."

Where?: "Brooklyn, but it was all a mistake. My mother got on the wrong subway."

First word: "Strawberries." (no explanation offered.)

Early activities: "Sold and published a mimeographed tip sheet at the age of 11."

Abelson and the Institute
 His freshman year, claims Abelson, was spent in a fruitless but desperate search for Building 9. But during his sophomore terms, his activities increased their tempo, and among other things, he fell in love twice, was general manager of the Dramashop, student leader of the Glee Club, and chairman of the Dorm Dance Committee.

As a junior, Abelson suffered a general decline. He fell in love only once (he considers this sub-par for himself) and played in the Tech Show. He was also a member of the Voo Doo staff, serving "as manager of liquid assets, ink well division."

Abelson and the Mustache
 In his senior year Abelson, rewarded for three long years with Voo Doo, rose to the position of managing editor. His social season, he recalled sadly, was a total loss: "She went away to Paris." His own closest approach to Paris last year was in the Tech Show, where he performed ably as the villain. His magnificent mustache-twisting in this part was a direct throwback to the days of meller-drammer.

Now he is a graduate math student, sharing an office in Building 20 with some character he claims not to have seen yet. His chief extra-curricular activity consists of a vallant effort to win this year's "Messiest Office" competition.

Abelson and Tik-Tak-Toe
 In the class of assorted trivia, Abelson says that he has been with WMIT (he is to broadcast basketball games for them this year),

and the Baton Society. He has sold more tickets for a wider variety of activities than any other man at the Institute. Indeed, the day when one might pass through Building 10 without being accosted by Abelson the Huckster was rare when he was in his heydey.

Now he prefers to engage in less strenuous activity, playing Chess, Bridge, Go (a Japanese game) and participating in championship matches of three-dimensional tik-tak-toe. He holds the No. 2 seeded position at the Institute in the last-mentioned sport. To top these indoor games, and for diversion, he plays the guitar.

Bob himself gave what we think is the best description of his college career when he said that he "never considered myself a wheel; I was merely a collection of spokes."

NEEDED: AN INTERNATIONAL OUTLOOK

It is with qualms for the future that we hear such things as: "I suppose you're taking this course (international Relations) to raise your cum?"; and see that foreign students at Tech have little in the way of friendship offered them by their classmates; know that some of us look with cynicism upon the idea of bringing students from behind the Iron Curtain to study at the Institute. We sometimes begin to feel as if some Tech men actually don't give a damn about the rest of the world.

Whatever opinion you may hold on various subjects does not concern us at the moment. What we are vitally interested in is **HOW** they are made. We should like to know what method you employ in shaping these—and other—opinions. Whether you go to one or a score of sources for your information, we think you agree that it is the individual who can state both sides of a question whose judgment is respected in any field of endeavor.

The Tech is adopting the policy of publishing editorials and letters that express the opinions of Tech students on questions of national and international importance. We feel that a threefold purpose can be accomplished by so doing; first, Technology men are interested in the viewpoints of their colleagues on such questions; second, the reader's interest in a certain subject might be stirred by its mention in **The Tech**; third, it is another source of opinion for those who search for all sides of a question.

Letters to the Editor

Dear Sir:

The October 8 letter to the editor raises an old problem and, I feel, an important one. It cannot be answered by appealing to a more broad-minded approach than that of Mr. Edmonds, for he is evidently a man who has a very special purpose in coming to Tech. To appeal to him to consider character and breadth of vision is to waste newsprint. The problem is more concrete than that, and it permits a more practical solution.

By any standard you wish to use, the man who is successful is the man who can associate with other men in cooperative enterprise. There are today no research men of eminence who hole up in a laboratory and isolate themselves from their fellows. It therefore seems evident that men who reject

such associations should not be given a diploma. Should they be permitted to study here? Of course; but only as special students not candidates for a degree.

The requirements for the M.I.T. degree are matters of M.I.T. policy. Let no one doubt that Tech's educational policy now includes not only technology but also the humanities. Perhaps even more important, it includes the character building that comes of association with fellow students, be this in athletics or in school activities. If too large a number of men fail to carry out the last parts of this program on their own initiative, then the school will enforce it, as it does the learning of calculus or mechanical drawing.

Harry F. Davis, '48
 Teaching Fellow (Physics)

Boston Baedeker

This week and on through November 14, the artist represented at the Museum of Contemporary Arts, which is located near the corner of Newbury and Dartmouth, is the Austrian Oskar Kokoschka. Of the numerous paintings, the most striking and effective is the large canvas "Tempest." It is a picture of a reclining couple, executed in heavy and colorful impasto, the effect of which is suggestive of stained glass.

The theater industry is generally composed of pleasant, sociable people. There is, however, one extremely unpleasant species, and that is the ticket seller. Since before you can enjoy the pleasures

of the theater you have to associate with the seller, let me tell you how to treat him.

Your approach must be bold; the first question should be "I want a . . ." not "What do you have left?" Tell him how much you want to spend and whereabouts you want to sit. At this point of the game he will pull out a ticket and this is where you pull your punch line: "Show me the seating plan!" At this query you may watch the animal writhe, for now he cannot sell you a ticket behind a pillar. Next let him locate your ticket on the plan, and if you are not satisfied tell him, and keep at it until you are satisfied.

freshman meet over the three mile course in 17:30. Techmen Vickers and Foley finished second and fifth respectively.

An interesting sidelight to the meet occurred when Vogel pleasantly surprised Coach Oscar Hedlund by presenting the latter a handsome meerschaum pipe. The pipe was a gift from a Turkish marathoner who, in 1946, trained at

Briggs Field with Coach Hedlund's help for the Boston Marathon. The Turkish runner was at the Olympic Games in London last summer and asked Vogel to present the gift to Oscar.

Fraternity Findings

Ed Stringham and Joe Fleming Saturday, after taking their dates to a Chinese dinner at the "Green Pagoda," the SAE pledges threw a dance at their fraternity house. Jim Stolley mixed the "Stolley Special" Punch while Fuz Frasher and Charlie Daniell entertained with guitars.

The SAM's held a hay ride Saturday evening, starting at Newton, and the Sigma Chi's had Lou Taylor's Band for a big pledge party. At the same time, the Phi Beta's had a 3 wagon hay ride at a farm up Ipswich way. A hearty country-style dinner was served.

Blue jeans and old shirts were the costumes for the evening at the DTD's "Moldy Clothes" Party Saturday. Some brothers from Tufts dropped in for the occasion. When they tired of dancing, they sang fraternity songs and drank beer.

Saturday evening the Phi Kappa Sig's held their annual Founder's Day celebration with Dean Lobdell with some of the alumni present giving speeches. Later most of the members went out to the Quad dance at Wellesley and there joined a very large MIT contingent which "aced-out" the barely competitive Harvard charter-bus group.

Intramural Football Start Marked By High Scores

Skippers Annex J. Wood Trophy

Dan Greenbaum Leads Point-Getters With 47

In a wet and windy match, the M.I.T. skippers sailed away with the Jack Wood Regatta on the Charles River Sunday morning. Tech totaled 122 points, Harvard 104, Brown 83 and Dartmouth 62.

Danny Greenbaum led the Techmen to their fourth consecutive Jack Wood Trophy with a personal total of 47 points and high score honors for the day. The other two Tech sailors, John Lawson and Bob Nickerson, scored 40 and 35 points respectively.

High winds of 25 to 30 miles per hour whipped the Charles basin into hazardous waves and wet spray but caused only one capsized. The wind succeeded merely in tearing sails, snapping lines and thoroughly soaking the competitors.

Brown University's Fall Invitation Regatta is the next intercollegiate competition for the Cardinal and Grey sailing team. Racing in this match on Sunday, October 24, are: Brown, Coast Guard, Dartmouth, Harvard, M.I.T., Rhode Island, Trinity and Yale.

SAE, Dekes Win To Top Leagues

The annually strong SAE's started off the 1948 touch football season in defense of their title with a smashing 33-0 victory over the ATO's. After they had scored 6 points on safeties, their well drilled offensive team began to move with a touchdown pass from Connor to Robertson. From then on the outcome of the game was never in doubt, and the SAE's scored almost at will.

The SAE's, however, were topped in scoring by the Dekes whose New Orleans duo of Watters to Sawyer rolled up 40 points over Sigma Alpha Mu. Combining short passes

and spectacular runs by speedster Saf Peacock, the Dekes had built up a score of 26-0 before the first half was completed.

The Dekes hopes of domination of their league were shaken by the Graduate House team which overwhelmed the Pi Lambda 24-0. Although held to a mere 6-0 lead at the half, their tremendous power soon showed itself to bring about an easy victory.

Theta Chi, one of last year's league winners, continued its winning ways as it coasted to a 29-0 victory over Theta Xi. The powerful Theta Chi line held their opponents to their own half of the field while Stu Powell sparked the offensive by scoring one touchdown and passing two others to Ken Arms and Andy Lang.

Chi Phi posted another high score in defeating Building 22, 26-0. They showed their strength almost immediately, scoring in the first three minutes of play on a pass from Dave Powers to Ray Kretschmer.

League 4 appeared to have another strong team in the Pi Gamma whose Widner sparked both touchdowns in a 12-0 win over the 5:15 club. League 4 also produced the first overtime game in which Navy (a group of navy students) outlasted Sigma Chi 18-12.

PLACEMENT INFORMATION

The introductory placement lecture for seniors last week featured Prof. C. E. Tucker, Student Placement officer, who outlined the placement process and gave a short resume of its activities. His talk was followed by an explanation of the placement bureau and how it works by Mrs. E. B. Yates of the Alumni Placement Office.

The next of these series of lectures will be given this Friday in Room 10-250 at 12:00 m. when Mr. Paul Boynton, Superintendent of Employment for the Socony-Vacuum Co., will speak on "Six Ways to Get a Job."

These companies are not planning to visit the Institute this term. All interested students should come to Room 7-101 for further information.

NEW SPALDING WOODS
NEW BOBBY JONES WOODS
NEW JIMMY THOMSON WOODS

SPALDING SETS THE PACE IN SPORTS

First Again with Tobacco Men!

More independent experts smoke Lucky Strike regularly than the next two leading brands combined!

An impartial poll covering all the Southern tobacco markets reveals the smoking preference of the men who really know tobacco—auctioneers, buyers and warehousemen. More of these independent experts smoke Lucky Strike regularly than the next two leading brands combined.

First Again with Tobacco Men!

So, for your own real deep-down smoking enjoyment, smoke the smoke tobacco experts smoke!

LUCKY STRIKE MEANS FINE TOBACCO
So round, so firm, so fully packed — so free and easy on the draw
