Edwards To Play At Spring Frolic

Dorm Dance To Be Held In Morse April 23

Burt Edwards, orchestra has been announced as the featured attraction at the annual spring frolic to be held in Morse April 23. This will be the last official dormitory dance of the year.

Burt, who has been a member of the orchestra has been playing for two years. Burt says that he has been looking forward to this dance and is anxious to see the reaction of the other dormitories.

Fiedler To Conduct Tech Night at Pops

Under the auspices of the Social Society, the annual Tech Night at the Pops will be held at Symphony Hall the evening of May 9. Professor Charles Meele will conduct the Tech Night in several numbers, and Mr. Arthur Fiedler will present the regular Pops Program.

The Tech Night will go on sale at the Institute about two weeks before the Tech Night is to be given. Tickets will be sold at 4:00 p.m., April 13, at the Tech Night Ticket Office, Room 4-132, before April 16. Mr. Charles Meele, president of the Combined Music Class, will give the Tech Night program.

Free Enterprise, Lower Income Taxes Supported By Besse In MITMA Talk

Championing capitalism and free enterprise as the "salvation of the American economy," Mr. Besse I. Wilkins, president of Besse I. Wilkins and Company, Inc., and member of the Board of Directors of the American Enterprise Institute, has been announced as the featured attraction at the annual spring frolic to be held in Morse April 23.

Besse says that he has been looking forward to this dance and is anxious to see the reaction of the other dormitories.

DO YOU KNOW:

(1) that 40,000 people are expected to visit the Institute on Open House Day?

(2) that over 350 exhibits have been planned?

(3) that almost every room and laboratory in the Institute will be open to inspection?

(4) that over 50 different organizations have been invited to attend with all their members?

(5) that 25,000 printed invitations will be available to students, faculty, and Institute personnel to send to their friends and relatives?

(6) that the Marine Corps is sending a squad of planes to perform over the Institute?

(7) that dozens of governors, mayors and senators have been invited to attend?

(8) that Technology will meet with Harvard, Dartmouth, Worcester Polytechnic Institute, Northeastern, and Boston College in athletic and debating spectacles?

(9) that a mere glance at the above list of events is enough to create a false impression of what the Summer Session has to offer student government, especially political activities, accurately. I feel that the students will fill this function... and has created a true impression of what has been done... this paper Tuesday, an article appeared which mentioned the above mentioned... members and... representing the dorms, frats, barrack... men... that we are on... "should be spelled correctly... student government was... by over 100 un... petition signed by over 100... If this was all that the student government was to do... is the student government. It has been said that the student government should be elected... this amendment known as the... and 9:00 am; Wednesday School... will be elected. Furthermore, Class B activity representation will be possible for the first time. Institute Committee reorganization plus a fair, democratic method of electing class officers and representatives will be in every way a benefit to student government.

Sincerely,
Louis F. Krentz, Jr.
Kauffman Leads Tennis Team in Season-opener Tomorrow

Leading the Tech tennis team in its first match of the season with the Harvard Graduate School tomorrow afternoon on the courts will be Axel "Ace" Kaufman, ’48, and first singles men. Having finished fourth in the National Interfraternity in 1946, he is playing high-fourth of the singles court.

In doubles, he and Warren Walters, his partner, lost only one match last academic year. As played in the national collegiate matches last year, he and his partner are rated number three.

Three weeks ago he traveled to New York City along with his fellow Tech tennis men to compete in the National Tournament. Kaufman won the first singles match with M.L.T. for many years and expected to win again. The year Kaufman won the singles match, and things looked good. Then the Techmen took all the doubles matches and won for the day.

Doubles was run-ner-up in the New York State Junior Championships in 1949 in both singles and doubles and also won the New Jersey Sectional. Kaufman won first class A activity.

That year the Tech tennis team appeared to be strong and well balanced. The challenge-laden is already in operation and the team commanders. The season's final may be anticipated under the leadership of Captain Axel Kaufman.

Activity Briefs

Pi Tau Sigma Lists Nine New Members

Pi Tau Sigma, honorary Mechanical Engineering fraternity, announced the election of four new members, following a smoker and meet.

The fraternity, since received its charter last spring, has been in active cooperation with the start of the M.E. Dept. Considerable progress has been made toward the establishment of an instructor rating program.

New members elected are as follows: Sven H. Barklund, B. J. Kirkwood, R. W. Naseem and M. E. Reed.

PEP Fellowship Won by Senior J. S. Levin

The Pep-Pep Fellowship Scholarship Board announced that Julius S. Levin, ’49, a nuclear physics student at Dartmouth, is one of the six Eastern members selected to attend the graduate fellowship under its school program. Each school provides its students with the opportunity to study in any field of specialization at any accredited graduate school in the United States or Canada.

POLICE FELLOWSHIP

Win by Senior J. S. Levin

Levin, ’49, a nuclear physics student at Dartmouth, is one of the six Eastern members selected to attend the graduate fellowship under its school program. Each school provides its students with the opportunity to study in any field of specialization at any accredited graduate school in the United States or Canada.

EFA KAPPA NU

Last week ten men were elected to EFA, the honorary electronic engineering society. They are: John A. Darling, ’48, David R. Baker, ’49, John C. G. Gay, ’49, Edward M. Kernin, ’49, Richard M. Somers,’49, Harrison E. Wilcox, ’49, and John H. Stoddard, ’49.

CATHOLIC COLLEGE

The Catholic College will be host to the General Session of the New England Province of Newman Club Federation Convention, Saturday and Sunday. The General Assembly will meet in Room 6120 at 1:15 p.m. and the business meeting of the convention will also be held on Sunday, at 2:00 p.m. Tech students Francis T. Reynolds, ’49; Edward M. Neu- nel, G. and Robert W. Mann, ’49, are helping to run the convention.

TECH SHOW

Technology will be one of thirty- four colleges and universities taking par in a debate tournament being held at Wellesley University today and tender the debate in the college. The subject to be debated is, "Resolved, that a Federal World Government should be established." The six best teams in this tournament will represent this region in the national tournament.

Open House

(Continued from Page 1)

One Club: At 6 p.m., Room 10-20 will play host to a Woodwind Ensemble and in Room 10-22, a new tech music group, the Big Beavers will play. Music performed by students will also be featured in the tech socials elsewhere on campus.

The one club will be under the direction of Robert Bartlett, and the Big Beavers under the direction of R. H. Havens. Both groups will feature student talent, and music is intended to appeal to both students and faculty.

WMTD will broadcast a speech by Jack Cuthbert, WMTD president, interviewing dignitaries.

Field Hockey

The Physics Department, in co-operation with the Physics Society, will feature demonstrations on optical phenomena, as well as Van De Graaff machines for use in theory. Other exhibits will be a number of microscopes, an oscilloscope, and a number of other instruments.

For the young, a new technology is intended to show the physics of the universe in a non-technical and entertaining and science and music according to Dr. B. S. N. S. F. Ms and Dr. B. S. N. S. F. A.

Beavers Will Oppose Huskies Next Week in Season's Opener

A cast in an initial 15 yard line was the outable group of men marked this past week in the first and last efforts of the team. These efforts, as the potential diamond car shows in the third week of prac-
