Letters to the Editor

TIME TO CLEAR UP

Dear Sirs,

We feel that it would be desirable at this time to clear up some misconceptions concerning the Unification Party that have been gaining wide circulation in the Sophomore Class and beyond. These misconceptions are either ignorant of the origin of the party or simply false. Therefore, in order to dispel the misinformation, the Unification Education Party was organized by a convention of sophomores who felt that the traditional methods of gaining a degree by living groups did not serve to prepare them for the exigent conditions of the electorate. It is true that this meeting was held by a registered group but this was the only realistic course that could be taken to show that the candidates would be good faith and no living group could be assembled at the meeting. Lestier events have shown that these tactics do not suit them, but they have not been necessary; however, at the time of the convention this was not evident.

Furthermore, we wish to protest the implication that the setting up of the Unification Party means in any way that minimal political knowledge is not to be open to all who want to run. On the contrary, the primary object of the party has been to do away with the kind of "official campus" under which an individual is impairedly impossible for an independent nominee to hope for election. We feel that the existence of a second party into the election race not only supports the axiom of the candidate but also is indicative of our goal of doing away with living group consideration in the political sense of the word. This is the only way of being attained.

Sander Rubin, Jr.
For the Unification Party

By Sander Rubin

If you have not read the Institute's financial report, we will not blame you for not knowing much about its condition. Turning to schedule B-19 we find the report of the Walter Memorial Institute of Boston University. The report appears to be in good order except as item 12; item 12 for the Walter Memorial Institute is the item: The expected expenditure towards a total dining room fund of $7,000 has not been realized. This is for, we stated Mr. Malcolm Kispert of the Institute administration, that for all practical purposes we cannot expect to go into the Institute as rent for spouse matters until we can realize a small amount for the value of the property and Walter Memorial is that the expected expenditure of $7,000 has not been realized. It is probably true that the Institute is not going to be able to make the rent payment, but the report is misleading.

In some departments the need for comprehensiveness is much greater than in others, but it seems unlikely, that there would be many in the required effort which would be wasted. It is necessarily unreasonable to assume that a trained engineer, upon being appointed as manager to his department, would foreswear in his mind and related fields without having to wait for his portable library of books and bible to be brought up from the rear. We are afraid that such an individual would soon be forgotten, as they are anyway, and the graduate's education would be like a cestaphot.

The direct proposal is this: Have modified comprehensive examinations for seniors in all departments. Except seniors majoring in economics, all seniors majoring in other departments should have the comprehensive examination. We are certain that this would be beneficial to the students and eliminate course finals. Give all seniors in any department the same examination (6 hours long). These need not be difficult but would require a group of the fundamentals of the related courses.

The M.I.T. Drama Society has defeated Yale and will be one of the six schools to represent New England at the National Drama Festival to be held at Harvard. Bill Siebert and Bill Perkins,拎 members of the Institute Committee, will be attending the festival to tell the facts.

Special Business:

Mr. Albert asked that reports from certain activities giving details of plans be presented to the committee. Mr. Kirkpatrick distributed copies of the Welcome Friday program. He also announced that invitations to the Tech Book Exposition and the Tech Activities Ball will be available to juniors, to start them in the correlation of the activities submitted lists.

Mr. Zimmerman said that activity leaders may pick up their share of tickets for comprehensives at the end of their senior year.

Mr. Killian reported that the amendments to the constitution of the Tech Flying Club have been approved for a year, after which three of the amendments will be in force. Approval will be given, however, only if the amendments are in accordance with the suggestions made by the committee.

Mr. Killian also reported that the constitution of the MI.T. Students for Stassen Club be approved.

The Technology senior is, in a very real sense, a has-been. Pick any senior at random and ask him if he feels himself to be well qualified as an engineer. He is probably deceiving both you and himself.

The Technology senior is a part of the society's program of giant trips. The Technology Men's Glee Club will hold a concert and dance on Friday, April 30, the first day of the Open House weekend. The Technology Club will be conducted by Klauss Liegemann. Tickets for the concert and dance will be $2.50 per couple. For the concert alone, $1.50 per person.
