Frosh Council Gets Together For First Time

Dean Baker Speaks About Responsibility Of Representatives

Elected representatives from all of the seven houses held their first Frosh Council meeting at 5:00 p.m. on Friday, October 15, for the first Frosh Council meeting of the fall semester.

Robert Mann, '59, opened the meeting with a brief welcome and then introduced Dr. Everett M. Baker, chairman of the Frosh Council. After Dr. Baker congratulated the group on being elected to the council and reminded them of the responsibilities which have been entrusted to them. The dean told the assembled group that nowhere in the country is there a better example of a standard of student government than we have here at MIT.

Council Responsibilities

"Your student government will be held responsible for certain types of conduct," Dean Baker emphasized. "As a Frosh Council representative at this time, you must be an active member of the Frosh Council in con-

F. D. Carpenter, '22
Is Life Member Of M.I.T. Board

Donald F. Carpenter, chairman of the United States Manufac-
turers Board, has been elected to life membership on the board of the Massachusetts Institute of Technology, it was announced today.

Dr. Carpenter, who graduated from M.I.T. in 1912, was first elected to the board in 1935, has served in that capacity for a five-year term. His election to life membership comes as the comple-
tion of a campaign which he has served as Chairman of the Or-
nelation Committee Student Activity.

Associate with the Remington Arms Company since 1932, Dr. Car-
penter has served on the Industry Advisory Committee and more re-
cently on the Military Loan Council. He is a member of the Boston Or-
chestras, Boston, Springfield, and Port-

Dramashop Actors Will Play Comedy

Present "Charlie's Aunt"
On Nov. 12th and 13th

Members of Dramashop, the student dramatic club, will present "Charlie's Aunt" on Friday evening, November 12 and 13. This performance is to be held at 8:00 P.M., in Room 3-370 Charles St., in Boston. Tickets will be $1.25 and will be available at the box office, in Room 3-370 Charles St., in Boston. The proceeds from this show will be可用于为 interested groups.

Robert Abelson, '48, will play the leading role of Charlie's aunt, while other cast members will include David L. Kalmus, Jered Marcus, Ralph Bankard, Shirley Levin, Rachael Oechsel, N. M. Malm, and J. D. Webster. The Margaret Cheney room, local college talent. A dance and dramatic presentations by local college talent. A dance and dramatic presentations will also be on the program.

$200,000 for Humanization

Great steps have been taken by the Corporation to "humanize" the Institute, and as an example he cited, Dr. Killian explained that no amount given to various extra-
curricular activities of the Insti-
tute has increased above one hundred per cent per year and this year, $200,000 is expected to be spent in this manner. In addition, al-

TUG-OF-WAR RALLY

Freshmen will rally in Room 3-279 and Sophomores will meet in Room 3-278 at 5:45 p.m. for organization of Field Day tug-of-war teams. Men are urgently needed from each class. As an added attraction, a tug-of-war team will be chosen by popular vote, and the winning team will be announced at the end of the field day activities.

Dean Killian

Dean Killian explains Expansion Plans

$200 Million Is Slated For Gym, Dorns, Club

By MARY C. GROSSMAN

Future plans for expansion of the Institute's present educational facilities were outlined by Dean Killian, the Institute's president, in a statement made to the press this morning.

One of the primary goals of the Institute's "long range program," as to recognize the area in which the region would be most useful to the student, is to provide educational and scientific training for men and women engaged in engineering.

It is possible, however, that through improved living conditions and recreational facilities, and the stimulation of other student activities, that educational and scientific training can be greatly enriched and the quality of the student's education will be greatly increased.

A plan to bring the faculty closer together and to increase the size of the student body will be considered at the next meeting.

Taxation and Life Members

The tax on each of the 1,125 life members of the Institute is $8.00 per person per month. In addition, all donations of funds have been made for two purposes: for musical and athletic directors, and for a lecture and concert series. The two purposes have been agreed to by the Institute, and is being held in the Margaret Cheney room, local college talent. A dance and dramatic presentations will also be on the program.

Professor Sax Will Talk On Birth Control Oct. 21

"World Wide Need for Birth Con-
control," the title of the lecture, will be the theme of a talk to be given by Professor Sax at 8:00 P.M., Thursday, October 21 in Room 3-370. Professor Sax is a native of Framingham, Mass., and was graduated from the Institute in 1945. He is a member of the Boead of Trustees of the Institute. He is a member of the Boead of Trustees of the Institute.
By David A. Grossman

Early activities: "Sold and published a mimeographed tip sheet at the age of 11." 

Abelson and the Institute

His freshman year, claims Abelson, was spent in a fruitless but desperate search for a building in Boston. But during his sophomore term his activities increased their tempo and among other things, he fell in love twice. He was always manager of the Dramashop, student leader of the Club, and chairman of the Dorm Dance Committee. As a Junior, Abelson suffered a general decline. He fell in love only once (he considers this sub-par for himself) and played in the Tech Show. He was also a member of the Vase Doo staff, serving as manager of that varsity, and on the Academic Senate.

Abelson and the Macke

In his senior year, Abelson, rewarding for three long years with Vase Doo, rose to the position of managing editor. His social season, he recalls sadly, was a total loss: "I went away to Paris." His own closest approach to Paris last year was in the Tech Show, where he performed as the villain. His magnificent mustache-twisting in that part was a direct result of the day of the month drama. Now he is a top student, gaining an office in the dormitory. Indeed, the day when he could not have, his chief extra-curricular activity consists of a trip to Paris to win the year's "Most Valuable" competition.

Mr. Robert F. Abelson

We interviewed Abelson in his Grand House room the other day, and the following is a nearly literal transcription of the answers he gave.

Born: "Yes." "Brooklyn, but it was all a mistake. My mother got off the wrong subway." 

First word: "Strawberries." (no explanation offered.)

Letters to the Editor

Dear Editor:

The October 8 letter to the editor raises an old problem and, I feel, an important one. It cannot be answered by appealing to a more practical solution.

Whatever opinion you hold on various subjects does not concern us at the moment. What we are vitally interested in is that they are men who desire to have the opportunity to employ you in shaping these—and other—opinions. Whether you go to one or a score of sources for your information, we think you agree that it is the individual who can state both sides of a question whose judgment is respected in any field of endeavor.

The Tech is adopting the policy of publishing editorials and letters that express the opinions of Tech students on questions of national and international importance. We feel that a threefold purpose can be accomplished by so doing; first, Technology men are interested in the viewpoints of their colleagues on such questions, second, the reader's interest in a certain subject might be stirred by its mention in The Tech, and third, it is another sound of opinion for those who search for all sides of a question.

This week and on through November 14, the artist represented at the Museum of Contemporary Arts, which is located near the corner of Newbury and Dartmouth, is the Austrian Oskar Kokoschka. Of the numerous paintings which are on exhibition, none is more striking and effective than the large canvas "Tempete." It is a picture of a restive couple, executed in heavy and colorful impasto, the effect of which is suggestive of stained glass.

The theater industry is generally composed of pleasant, sociable people. There is, however, one extremely unpleasant species, and that is the ticket seller. Believe me you can enjoy the pleasurings of the theater you have to associate with the seller, let me tell you how I learned it.

Your approach must be bold; the first question should be "I want a center seat in row 10 without being accosted by Abelson."

Tell him how much you want to pay, how many tickets you want to sit. At this point of the game he may pull out a ticket and this is where you pull your punch line; "show me the seating plan!" At this point you may listen to the animalistic, for now he cannot sell a ticket behind a pillar. Next let him locate your ticket on the plan, and if you are not satisfied, tell him and keep at it until you are satisfied.

The Tech

Tuesday, October 19, 1948
In an interesting sidelight to the event occurred when Vogel pleasantly surprised Coach Hedlund by presenting the latter a student meerschaum pipe. The pipe was a gift from a Turkish nuzzlemaker who, in 1948, trained at Bregis Field with Coach Hedlund’s help for the Boston Marathon. The Turkish runner was at the Olympic Games in London last summer and asked Vogel to present the gift to Oscar.

Intramural Football Start
Marked By High Scores

Skippers Annex J. Wood Trophy

Dan Greenbaum Leads
Pointers-Get With 47

In a wet and windy match, the M.I.T. skippers sailed away with the Jack Wood Regatta on the Charles River Sunday morning. Tech scored 122 points, Harvard 194, Brown 83 and Dartmouth 68.

Starting Greenbaum led the Tech men to their fourth consecutive Jack Wood Trophy with a personal total of 47 points and high score honors for the day. The other top Tech sailors, John Lawton and Bob Nickerson, scored 40 and 30 points respectively.

High winds of 25 to 30 miles per hour whipped the Charles bare to hazardous waves and wet spray but caused only one capsize. The wind succeeded merely in tearing sail, snapping lines and thoroughly soaking the competitors.

Brown University’s Fall Invitational Regatta was the last intercollegiate competition for the Cardinal sailors, which will move to Wellesley for the time.

Phi Kappa Sigma's 18-12 victory over Sigma Chi.

SAE, Dekes Win To Top Leagues

The strong SAE’s started off the 1948ouch football season in defense of their title with a smashing 33-0 victory over the AVS. After they had scored 6 points on axis, their well drilled defense held the AVS with a touchdown pass from Connor to Robertson. From then on the outcome of the game was never in doubt, and the SAE’s scored almost at will.

The SAE’s, however, were topped in scoring by the Phi Kappa Sigma’s whose New Orleans duo of Watters to Skwyer rolled up 60 points over Sigma Chi. Most surprising was a single-throw touch-down pass from Connor to Robertson.

PLACEMENT INFORMATION

The introductory placement lecture for seniors last week featured Prof. C. E. Tucker, Student Placement Officer, who outlined the placement process and gave a short resume of the activities. His talk was followed by an explanation of the placement bureau and how it works by Mrs. E. B. Yates of the Alumni Placement Office.

The next of these series of lectures will be given this Friday in Room 10-26 at 12:45 p.m. when Mr. Paul Boynton, Superintendent of Employment for the Socony Vacuum Co., will speak on "Six Ways to Get a Job."

These companies are not planning to visit the institute this term. All interested students should come to Room 1-Z for further information.
