

'49 Executive Committee Chooses Insurance Plan To Finance Reunion Gift

Class Will Present Dividends Of Policies At 25th Anniversary

To finance their 25 year gift the present senior class has selected a unique insurance plan and will officially start a campaign next Monday, according to an announcement by J. Thomas Toohy, president of the Class of 1949. The 25 year gift is traditionally presented to the Institute by the members of the class at their 25th reunion.

The plan is being started now, said Toohy, because past classes have proved that the only successful plans have been launched while the men were still in school. Also insurance policies can be obtained at a minimum annual expense at this time.

How Plan Works

The Senior Class Executive Committee voted unanimously to adopt an individual insurance plan only after examining all possible plans for the raising of the funds. The plan works as follows:

Each individual takes out an ordinary life insurance policy of \$1,000 and names anyone he wishes as the beneficiary. However, the annual dividend would be payable to Technology to be accumulated by the Institute at interest until the 25th reunion. At this time the class will present the accumulated dividends to the Institute in whatever form it chooses. In case of the death of the individual, \$1,000 would be payable to his own beneficiary.

Annual Premium

The annual premium would be \$17.46 which would be payable to some insurance company. The company has yet to be chosen, but several companies have indicated their approval of the idea.

The dividend of an insurance policy represents a type of refund to the policy holder. After the end of the fiscal year, the operating costs

Harrison Given Medal of Merit

Science Dean Honored For War Discoveries

The highest honor that can be bestowed on a civilian in recognition of outstanding service to the nation has been presented to a member of the faculty of the Institute. Dr. George R. Harrison, Dean of the School of Science, was awarded the Medal of Merit today by Dr. Karl T. Compton, Chairman of the Institute's Corporation and Chairman of the Research and Development Board of the National Military Establishment in Washington.

The medal was awarded to Dr. Harrison in recognition of "exceptionally meritorious conduct in the performance of outstanding services to the United States." His work as Chief of the Division of Optics and Chief of the Division of Physics of the National Defense Research Committee increased materially the effectiveness of the United States in World War II.

Dr. Harrison, a native of San Diego, Calif., received the degree of doctor of philosophy from Stanford University in 1922. He joined the staff of the Institute as profes-

Dr. George R. Harrison, Dean of the School of Science, who was awarded the Medal of Merit.

sor of physics in 1930 and has been Dean of the School of Science since 1942.

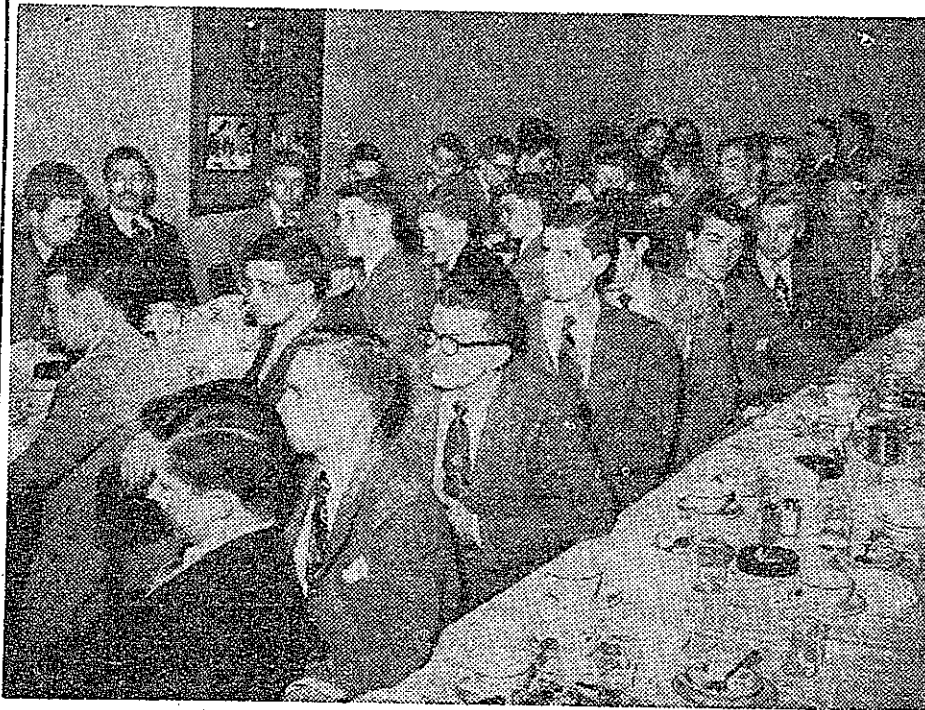

The citation accompanying the medal concluded, "Through Dr. Harrison's unceasing and selfless efforts, he was responsible for organizing, initiating, stimulating, and personally guiding research and development investigations culminating in equipment and methods which saved the United States many lives, and increased our effectiveness in the war."

SAVE A LIFE IN '49

Next Tuesday and Wednesday, January 12 and 13, a Mobile Red Cross Unit will collect blood for the M.I.T. Blood Bank in the Homberg Infirmary. These who phone (Extension 885) or stop at the TCA Office for an appointment will not only provide blood insurance for all MIT personnel and their immediate family (if all these persons reside in Massachusetts), but will enable M.I.T. to maintain its war and peacetime record for blood donation.

Champ, Benenson, Rubin, Reiner Form The Tech Managing Board Other Promotions Announced

GUESTS LISTEN TO BANQUET SPEAKER

THE TECH'S Annual Banquet at Dinty Moore's on Tuesday, January 4. Dinner, speeches and the announcement of the promotions for the ensuing year were the topics of the evening.

Ellis, Killian, Baker Speak At Annual Banquet In Dinty's

New members of the Managing Board of Volume LXIX of The Tech were announced at the annual banquet last Monday evening at Dinty Moore's. They are Norman B. Champ, Jr., General Manager; David M. Benenson, Business Manager; Sander Rubin, Editorial Chairman; and David Reiner, Managing Editor.

The main speaker of the evening was Mr. Harry B. Ellis, a member of the Foreign News Department of The Christian Science Monitor. He outlined in his address the course of world affairs since the end of the World War II. Dr. James R. Killian extended his congratulations to the retiring board in a short talk. Dean Everett M. Baker also spoke a few words.

Junior Board

A new Junior Board also was appointed, with William R. Miller, as News Editor, John R. Sevier, Associate News Editor; Marvin C. Grossman, Features Editor; Frank E. Heart, Assignments Editor; and Leo Sartori, Sports Editor.

Also appointed to the Junior Board were David Uline, as Personnel Manager; Robert Bagnall, Publicity Manager; George Myers, Exchange Editor; Thomas Hagan, Office Manager.

Members of the Business department promoted to the Junior Board include David Janis, Advertising Manager; Sheldon Herskovitz, Circulation Manager; Warran Marcus, Associate in Charge of Sales; and Edward Ort, Treasurer.

Staff Members

The staff members announced for the ensuing term were: Ernest A. Grunsfield, Ralph W. Hall, George Hanc, Charles A. Honigsberg, Robert Q. Jeffery, Richard H. Koenig, Howard K. Kothe, Gerald F. Laufs, Larry M. Lintz, John C. Lowry, Eugene Lubarsky, George L. Mellor, Edward B. Mikrut, James H. Murray, Robert L. Nesbitt, John B. Schutt, Paul M. Seever, Richard H. Silverman, Nathan H. Divin, Thomas N. Skerbeck, Newell J. Trask, Rodger K. Vance, Robert F. Walsh, and Donald A. Younger.

Tech Entertains Wellesley Fliers

Tomorrow afternoon, 12:00 to 4:00 p.m., the Wellesley Flying Club will be entertained by the Tech Flying Club with an Air Show at Beverly Airport.

They previously planned to have a helicopter, but due to last minute circumstances, it will not arrive. However, the Club still hopes to have a midget racer, with only a 14 ft. wingspread. Also, Charles E. Richbourg, '50, will give a demonstration with the F8F, while Charles O. Miller, '49, plans to lead a squadron of Corsairs in the show.

The club's three double seated Cessnas as well as the new four place Cessna 170 will be in operation. The show is free of charge and open to anyone interested in aviation and the functions of the Flying Club. The airport is about a mile north of Beverly, just off route 128.

No Exams, Finals or Themes In New English, History Courses

No written work, no examinations, no finals are some of the features of the new courses in the History and English Department. It was announced by John B. Rae, Associate Professor of History, that the new seminar courses, which will be one hour class work and three hours homework per week, will be reading and discussion groups.

Although the courses are designed for those really interested in the subjects, credit will be given as follows: For each two terms of the seminar course taken, credit will be given for one term of Senior Humanities. No credit will be given for one term of the seminar course.

Up to this time, a course similar to this has been given in English alone, by Mr. Wood of the English

Dept. The new setup will, however, offer several possibilities including a possible combination History and English group. As a side note, Mr. Wood announced that the "free rides" in his groups are about coming to an end.

There will be an organizational meeting for all persons interested in the course on Wednesday, January 12, at 5:00 P.M. in Room 4-270. This meeting also includes those interested just in Mr. Wood's English seminar. Some of the tentative topics for seminar groups discussion include The Progressive Movement, The American Political System and How It Works, The World Between Two Wars, Comparative Religions, Topics in Economic History, and Military and Naval History.

New Army Policy Offers Commissions

Enables Former Officers To Re-enter Service

A new policy of the Department of the Army under which former officers of the armed services are given the opportunity to receive appointment in the Regular Army was announced this week by Colonel Harold R. Jackson, Professor of Military Science and Tactics. Appointments will be made in two major increments in March and August of this year.

Selected applicants will be commissioned as second lieutenants in the Regular Army. Individuals so appointed will be given credit for their wartime service and will serve in their appropriate temporary grade.

To be eligible for appointment each must be a male citizen. He must be between the ages of 21 and 27; however, the upper limit may be increased by the amount of commissioned wartime service of the applicant. He must have served honorably for a period of at least one year as a commissioned officer in any of the armed forces of the United States. He must possess a baccalaureate degree from an

(Continued on Page 5)

OFFICIAL NOTICE

The deadline for submitting requests for special and conflict examinations this term will be Friday, January 7.

Arrangements for conflict examinations or examinations not listed on the January 1949 Examination Schedule cannot be made after 5 P.M., Friday, January 7.

Dormitory Dinner Set For Tuesday In Campus Room

There will be a chance for dormitory men to get together with each other and members of the staff next Tuesday at the semi-annual Dormitory Bull Session Dinner. The event will be held at 6:00 p.m. in the Campus Room of the Graduate House.

Groups of seven men may invite a professor or instructor of their choice to be their guest. The free dinners for the staff members will be paid for by the Dormitory Committee.

Guests of honor will include Professor Leicester F. Hamilton, Chairman of the Dormitory Board Administration, and Dean Everett M. Baker.

Ten Fellowships Will Be Awarded To Business Grads

Ten young executives from various fields of business will be chosen in a national competition for a year of graduate study in the Sloan Fellowship Program for Executive Development at the Institute, Dr. James R. Killian, Jr., President, announced tonight.

The program, which is a joint project of the Institute's departments of Business and Engineering Administration and Economics and Social Science, began in 1931 and is now being resumed after a wartime recess.

The award of ten fellowships this year is made possible by a grant of \$225,000 from the Alfred P. Sloan Foundation, Inc., which has supported the program for several years. Stipends of \$4,000 for married men and \$3,000 for single men will provide education for a group of outstanding young business executives as well as research in the field of executive development.

Said Dr. Killian in discussing the objectives of the program, "Increasingly, top executives must balance policies and programs to serve equitably all of the participants in the enterprise, thereby enhancing the survival values of our democratic industrial system.

In The Spotlight

Thomas L. Hilton

As The Tech embarks upon Volume 69, the general managership once more changes hands. Today the spotlight is aimed at Thomas L. Hilton, '49, last year's general manager.

A Bangor Boy

Born on January 7, 1924, in Bangor, Me., Tom attended Bangor schools and had an uneventful life before coming to M.I.T. He was on the ski and tennis teams in his high school, and pursued the usual childhood hobbies.

Tom was a very bewildered freshman at Technology since his high school only prepared him with a half year each of chemistry and physics. However, the Army soon rescued him from his bewilderment. He went into the Air Corps at Miami Beach, where he was first a drill sergeant, then a cadet, and later a B-17 pilot. He transferred into the B-29 program at its inception and was sent to New Mexico. He finally was assigned to the Marianas, where he participated in 15 missions "over the Empire."

Reporter for Home Paper

Upon being discharged, as he says, with the "usual decorations," he came back to the Institute, and spent the following summer working as a reporter-photographer for the Bangor Daily News.

A Course XIV man majoring in Human Relations, Tom's other activities include membership on the Walker Memorial Committee, Dorclan, and the Chairmanship of the Judicial Committee of Institute Committee.

To Be Married in June

Tom's present hobbies include mountain climbing, music, and water colors, but his most important one, he explains, is his fiancée, to whom he has been engaged for

all of ten days. She is an old newspaperwoman herself, he explains, an Assistant Editor on the Penobscot Times. They expect to be married in June.

When he graduates, Tom hopes to do work in industrial relations. He'll always be glad he went to M.I.T., which he describes as "a school with a great future."

Debaters Oppose World Socialists

On Wednesday, January 12, the M.I.T. debating society will oppose The World Socialists Party debaters on the question — resolved: that Capitalism has outlived its social usefulness. In anticipation of the large audiences that the debates have attracted in the past the event will take place in 10-250 at 5:00 P.M. After the debate, time will be allowed for questions from the spectators.

GOODBYE . . .

Just a week ago, the old year was neatly disposed of amid much revelry by the people using the Gregorian calendar. Shortly thereafter, as is our annual custom, we neatly disposed of Volume LXVIII of The Tech. Volume LXVIII, under the General Managership of Thomas L. Hilton, '49, will very likely go down in our annals as the one in which the worm was stopped dead in its tracks and started to turn. Materialistically speaking, the year just past was the first since the late war in which the paper has made operating profit; a small but significant one. Also during the year, the paper's staff was reorganized along efficient lines, and its news coverage expanded. We are taking over a paper that is in better shape than it has ever been since we entered the Institute.

. . . AND HELLO

This volume will be the first since the war without a majority of veterans on its Managing Board; whether this fact will affect the managing of the volume remains to be seen. We hope not. Journalistically, we will be on safe ground if we continue the policy of separating clearly editorial comment from news matter. But there are certain changes that will become evident throughout this year.

In the first place, more space in these columns will be devoted to comment on national and international affairs. We feel that it is foolish, if not even dangerous, for anyone much less college students, to ignore events going on outside his small sphere. This is especially true of technical students who should learn to be aware of the social consequences of their research. On the other hand, The Tech is the official undergraduate news organ of this school, so we would be very remiss in our obligations to our readers if we neglected school issues in order to sound off in fine phrases on national and international issues. We therefore propose to place an informal maximum limit of forty per cent of our editorial space to be devoted to matters outside of the Institute.

In dealing with school politics, we realize that The Tech enjoys an editorial monopoly at Technology. In fairness to those who disagree with us, we shall make every attempt to print letters to the editor which express opinions differing from ours. (If we get no letters, we shall assume that the students at the Institute agree with us). We must insist, however, that the identity of the writer be known to the editor of the paper although public anonymity will be respected if requested.

BLOOD NEEDED

Having collected your shoes, clothing, and money for deserving causes during the past year, the TCA is now after your blood. A notice on our front page gives details. The need for blood is urgent if we are to be prepared for possible disasters, and by giving, you insure that if you or your family are in need of the precious fluid it will be available. Blood given by members of the Technology family will be credited by the Red Cross to Homberg Infirmary which serves all the Institute. Furthermore, the donor and member of his family will be allowed free use of blood bank facilities should an emergency strike any of them. Apart from selfish considerations, there is nothing that you can give so easily and conveniently that can mean so much to some unfortunate. Your blood can save someone's life—maybe your own, someday.

CHEST X-RAYS

CHEST X-RAYS

The deadline for chest x-rays is January 15. If you have not yet had your chest x-ray, please report to the Medical Department, preferably between 2-4 any afternoon, for a chest film. This applies to all students who have not been x-rayed since September 1, 1948. Registration will be held up for all students who have not complied by January 15, 1949.

Sloan Fellowship

(Continued from Page 1)

"The Sloan Fellowship Program for Executive Development was originally founded in recognition of the increasing need for business leaders with a fundamental understanding of the broader and longer-term phases of management and of the economic and social background within which business operates."

Professor Gerald B. Tallman of the Department of Business and Engineering Administration, director of the Sloan Program, commented, "The courses to be under-

taken by the fellows are designed to capitalize upon their maturity and background and to offer an experience not otherwise readily obtainable by the young executive in industry.

Professor Tallman went on to say that, "The better appreciation of the varying objectives and points of view of different elements in our society provides a foundation of understanding for intelligent administration of the individual business enterprise and for adjustment to new circumstances and attitudes as they arise."

CALENDAR OF EVENTS

JANUARY 7 TO JANUARY 15

38-E

FRIDAY, JANUARY 7

Mechanical Engineering Department. Seminar: "Optical Means of Studying Compressible Flow." Frank W. Barry. Room 3-470, 4:00 p.m. Coffee will be served at Headquarters from 3:30 to 4:00 p.m. Station WMIT. Broadcast of basketball game with Tufts College. Walker Memorial, 8:30 p.m.

MONDAY, JANUARY 10

Civil and Sanitary Engineering Department. Sanitary Engineering Seminar: "Chlorination in Sewage and Industrial Waste Problems." A. E. Griffin, Director, Technical Service Division, Wallace & Tiernan Company. Room 1-236, 1:00 p.m.

Technology Matrons. The Book Club. "The Plague" by Albert Camus, reviewed by Dr. William C. Greene. Emma Rogers Room, 2:45 p.m.

Meteorology Department. Seminar: "The Weather Radar Thunderstorm Flight of June 28, 1948." G. R. Hilst and G. P. MacDowell. Room 12-182, 4:00 p.m.

Mathematics Society. "Some Elementary Applications of Topology." Dr. Witold Hurewicz. Room 4-270, 5:00 p.m.

Physics Society. "Electrostatic Generators and Their Applications to Science and Industry." Dr. William W. Buechner. Room 2-390, 5:00 p.m.

TUESDAY, JANUARY 11

Acoustics Laboratory. Seminar: "Acoustic Source Impedance and Tube Attenuation." J. Edward White. Room 20E-125, 4:00 p.m.

Biology Department. Colloquium: "The Chemistry of Serum Albumen." Dr. W. L. Hughes, Jr., Department of Physical Chemistry, Harvard Medical School. Room 10-275, 4:00 p.m.

Economics and Social Science Department. Graduate Economics Seminar: "Labor's Participation in the ECA." Clinton S. Golden, Labor Adviser, Economic Cooperation Administration. Litchfield Lounge, Walker Memorial, 4:00 p.m.

Eta Kappa Nu. Election meeting. Tyler Lounge, Walker Memorial, 5:15 p.m.

Model Railroad Society. General meeting. Room 20E-216, 5:15 p.m.

Faculty Bowling League. Walker Memorial Alleys, 6:00 p.m.

Staff Players of M.I.T. Dinner meeting. Emma Rogers Room, 6:00 p.m.

WEDNESDAY, JANUARY 12

Civil and Sanitary Engineering Department. Seminar: "Foundation Problems at the M.I.T. Library Site." William H. Mueser of Moran, Proctor, Freeman & Mueser, Consulting Engineers. Room 1-190, 4:00 p.m.

Metallurgy Department. Colloquium: "Some Ideas on Reaction Mechanisms and Rates in the Steelmaking Slag-Metal System." B. M. Larsen, United States Steel Corporation. Room 2-390, 4:00 p.m.

Catholic Club. "Consolations of a Catholic American." Most Reverend John J. Wright. Room 6-120, 5:00 p.m.

Debating Society and Lecture Series Committee. Resolved: "That Capitalism has Outlived its Social Usefulness." Affirmative, World Socialist Party; negative, Debating Society; moderator, Dean John E. Burchard. Huntington Hall, 5:00 p.m.

THURSDAY, JANUARY 13

Faculty Club. Luncheon meeting. "Civil Liberties and Congressional Committees." Professor Zechariah Chafee, Jr., Harvard Law School. Campus Room, Graduate House, 12:00 noon.

Technology Dames. Trip through assembly plant of Ford Motor Company, Somerville. Meeting at 1:00 p.m. in Lobby of Building 7, M.I.T., or at 1:35 p.m. at Ford Plant.

Physics Department. Colloquium: "Controlling Phenomena in High Frequency Discharges in Gases." Dr. William P. Allis. Room 6-120, 4:30 p.m.

Debating Society. Resolved: "That the Bipartisan Foreign Policy has Failed and Should be Replaced." Affirmative, Beaver Country Day School; negative, Debating Society. Room 24-205, 5:00 p.m.

Faculty Bowling League. Walker Memorial Alleys, 6:00 p.m.

FRIDAY, JANUARY 14

Mechanical Engineering Department. Seminar: "Determination of Boundary Stresses in the Pressing of Cylindrical Powder Compacts." Maurice E. Shank. Room 3-470, 4:00 p.m. Coffee will be served at Headquarters from 3:30 to 4:00 p.m.

SATURDAY, JANUARY 15

Modern Languages Department. Graduate Language Examinations. French examination, Room 24-502, 10:00 to 12:00 a.m. German examination, Room 3-440, 2:00 to 4:00 p.m.

IMPORTANT INFORMATION FOR STUDENTS

All students who have not had a chest x-ray since September 1, 1948, should report to the Medical Department, preferably between 2:00 and 4:00 p.m., for a chest film before January 15. This must be done in order to register for the second term.

EXHIBITIONS

The exhibition of paintings by twenty-two artists of the Western Hemisphere will be shown in Lobby of Building 7 until January 15.

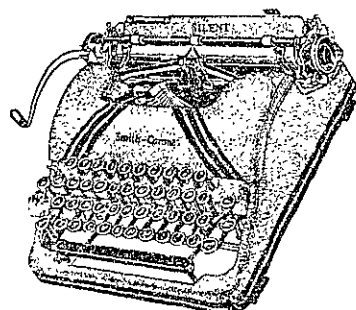

From January 10-31 there will be a display of the work of Mies van der Rohe, Director of the School of Architecture, Illinois Institute of Technology, in Lobby of Building 7.

The Calendar of Events is published weekly on Friday and contains announcements for the following week. It is sent without charge to all members of the staff and the heads of various organizations. It will be mailed to others for one dollar a year, payable in advance at the Calendar of Events Office. All announcements, typewritten and signed must be in the Office of the Editor, Room 7-103, not later than noon on Monday prior to publication date. Material for the Calendar, January 14-22, is due January 10.

Varsity Hoopsters Bow To WPI, 59-37; Meet Tufts Here Tonight

In its last game before Christmas vacation, the varsity basketball team absorbed a 59-37 drubbing from W. P. I. on the latter's home court. It was the fifth straight loss for the Beavers after their opening game win.

The whole Tech team was far below form against the Worcester Engineers; the Beavers fell behind almost immediately and were never in contention. Lou Morton, after scoring 18 points against Brown, was able to garner only two against Worcester. Captain Jim Madden scored 14 points before fouling out of the game.

In a preliminary game the Tech freshmen defeated the Worcester J.V.'s, 58-49, for their fourth straight win. The Worcester team jumped off to a 9-0 lead and it looked like a runaway, but the Beavers got their bearings, caught up, and pulled away during the second half.

The varsity courtmen will meet Tufts tonight in an attempt to break their losing streak. The game will be held in Walker Gym immediately following the freshman game.

Tankmen Lose Meet But Smash Records

Pitler And Pelletier Set 2 Varsity Swim Marks

Wesleyan University's swimming team defeated the Tech Tankers 41-43 in a pre-Christmas meet December 17 in the Tech pool. Stone of Wesleyan was the only double winner of the meet, but Bob Pelletier was high scorer for Tech with a victory in the 200-yard breast-stroke and a leg on the winning medley relay.

A bright spot in Tech's loss was a pair of record-breaking performances by Bob Pelletier and Dick Pitler. Both men broke Tech varsity records while winning their events.

Pitler clipped eight-tenths of a second off the old record while winning the 150-yard back-stroke in 1:43.2. Pelletier lowered the old 200-yard breast-stroke mark by five-tenths of a second, crossing the line in 2:33.9.

This Saturday the varsity squad is traveling to Trinity for a meet there, while the frosh squad will meet Brookline High in Alumni Pool.

BEAVER BARKS

As we begin a new year and a new volume of this illustrious publication, "The Beaver Barks" is being dragged out of the proverbial mothballs and revived, with perhaps a slightly different emphasis. This column will appear from time to time with the opinions and comments of various people on Tech sports and sports in general. We shall try to keep it from becoming a voice for the private aspirations or pet peeves of anyone. Comments and criticisms of the literature appearing in this space are welcome.

Although most of the Tech varsities have been taking their lumps so far this season, an indication of better things to come is found in looking at the records of the freshman teams, especially the wrestling and basketball squads. The frosh matmen have been very impressive in winning their first two meets, including a victory over Harvard (which is, unfortunately, a feat not often accomplished by a team wearing the cardinal and gray).

Warren Berg's freshman court team is now unbeaten in five starts. It has defeated B.U. twice, and lists New Bedford, Brown, and Worcester among its other victims. Moreover, it has played some real basketball along the way. The frosh have shown depth and scoring punch; they possess a good playmaker in Captain Herb Glantz, and have generally exhibited the class which is not often seen in a freshman squad. Whether Glantz, Larry Garthe, Mike Nacey, & Co. make the varsity next year (as they undoubtedly will), Technology's varsity opponents will have something to worry about.

While in Philly during the past vacation, we were fortunate enough to be able to see in action one of the most colorful teams of this or any era—the Harlem Globetrotters. In this, the "age of the giant" in basketball, it was really stimulating to watch a team which relies not on height but on playmaking and accurate shooting. Although their opponent—the Philadelphia Sphas, had a height advantage of three or four inches a man over them, it seemed as if the Globetrotters could win by a large score as they pleased.

In order to keep the crowd entertained after they had run up a comfortable lead, the Globetrotters began to clown and to show off their remarkable powers over a basketball.

The highlight of the evening occurred when they lined up in football formation, and a little ball fellow almost dropkicked a basketball through the basket at the other end of the court.

Anyone interested in basketball will enjoy watching this unusual team.

Pucksters Face Heavy Schedule In Next Six Days

After having been absent from competition since December 15, the Tech hockey team now faces its most severe test of the season. Four games are scheduled for Coach Ben Martin's sextet within the short space of six days.

The test of endurance will begin this afternoon when the team travels to Durham to meet New Hampshire's Wildcats. Tomorrow afternoon Colby College will be the opposition in another away game.

After a day's rest through the mercy of the schedulmakers, the icemen will face the pleasant (?) task of meeting Boston College, the defending New England League champions. The Eagles have already beaten Tech once this season, by the tune of 12-5.

Rounding out the week's schedule will be a return game against Northeastern University next Wednesday night at the Arena. The first meeting between Tech and Northeastern resulted in a thrilling 8-7 overtime victory for the Engineers, so the Huskies will certainly be out for revenge on Wednesday.

On the result of these four games will hinge much of Tech's chances for a playoff berth this year.

Smoke a LUCKY To feel your LEVEL best!

Luckies' fine tobacco picks you up when you're low . . . calms you down when you're tense!

Luckies' fine tobacco puts you on the right level—the Lucky level—to feel your level best, do your level best.

That's why it's important to remember that LUCKY STRIKE MEANS FINE TOBACCO—mild, ripe, light tobacco that makes a thoroughly enjoyable smoke. No wonder more independent tobacco experts—auctioneers, buyers and warehousemen—smoke Lucky Strike regularly than smoke the next two leading brands combined.

Light up a Lucky! Luckies' fine tobacco picks you up when you're low, calms you down when you're tense. So get on the Lucky level where it's fun to be alive. Get a carton and get started today!

Frosh Courtmen Top BU For 5th Straight Triumph

Tech's undefeated freshman basketball team gained their fifth consecutive victory last Tuesday afternoon as they edged out the B.U. frosh, 38-35, in a game played at the Boston Arena. It was the second time this season that Warren Berg's outfit had beaten the B.U. yearlings.

Both teams showed the effects of the two-week layoff due to the winter vacation, and play on both sides was often spotty.

The game was close all the way. The Terriers jumped off in front and, with Bill Murphy hitting consistently on his short set-shots, took a 15-9 lead midway in the second quarter. This was the largest margin which either team enjoyed at any time during the game.

Tech Closes Gap

Tech began to close the gap, and, after two layups by Mike Nacey, a hook-shot by Captain Herb Glantz finally tied the score at 20-20. Three foul shots by Tech's Dick Lee, sandwiched around another set-shot by Murphy, contrived to give the Beavers a 23-22 halftime advantage.

Sloppy Play

As the second half opened the play was particularly sloppy, with both teams taking turns in throwing the ball away. However, towards the end of the third period Nacey caged a layup which gave the Engineers a lead they never relinquished. The Terriers' tall center, Killelea, cooperated by missing a large number of foul shots.

Mike Nacey led in scoring with 13 points, followed by Wells and Murphy of B.U. with 12 each. Murphy, incidentally, did all his scoring in the first half. Captain Glantz of the Beavers played his usual good floor game and also contributed 11 points.

The freshmen will attempt to extend their streak to six straight as they meet the Tufts frosh in Walker Gym tonight.

How Long can a song-hit live?

Hear **CONNIE HAINES'** new version of "Stormy Weather" ...you'll know! (A Signature Record)

That great number that everybody was humming back in 1933 comes to life again with Connie Haines' sensational, new recording. Here's little Connie Haines, smooth-singing, phono-fan favorite, talking over this all-time hit-tune with fellow musician, Jerry Jerome.

How MILD can a cigarette be?

Make the **CAMEL 30-DAY TEST** ...and you'll know!

Yes, make the 30-day Camel Mildness Test. See for yourself how mild Camels are. In a recent test of hundreds of people who smoked only Camels for 30 days, noted throat specialists, after making weekly examinations, reported

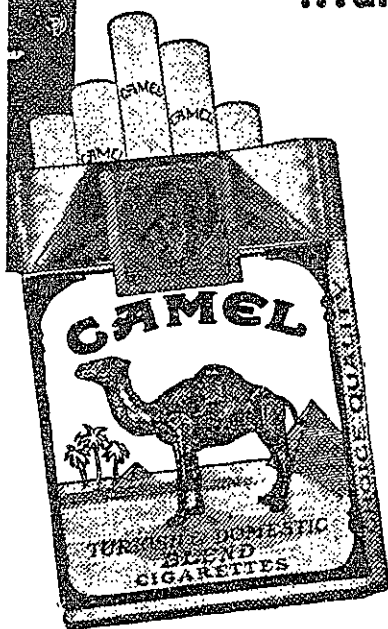

NOT ONE SINGLE CASE OF THROAT IRRITATION due to smoking

Money-Back Guarantee!

Smoke Camels and test them in your own "T-Zone." T for taste, T for throat. If, at any time, you are not convinced that Camels are the mildest cigarette you ever smoked, return the package with the unused Camels and we will refund its full purchase price, plus postage. PLACEMENT INFORMATION

As you can see by the following list only a few companies remain on our schedule. If you have not found a position as yet, be sure to come down and have an interview with one of these companies. Most of these companies are also interested in June men.

The companies, dates and courses are as follows:

- B. F. Goodrich Co., Akron, Ohio, January 10, 11; V, X, II, IX.
- The Baldwin Locomotive Works, Philadelphia, Pa., January 12; II, VI.
- Wright Aeronautical Corp., Woodridge, New Jersey, January 12; II, XVI.
- General Motors, Detroit, Mich., January 12, 13, 14; II, VI, III, X, XV.
- Eastman Kodak, Rochester, N. Y., January 12, 13, 14; X, II, VI, XV, V, VIII.
- Johnson & Higgins, New York, New York, January 14; XV.
- The Formica Insulation Co., Cincinnati, O., January 17; X, II, XV.
- International Business Machines Corp., New York, New York, January 18; II, VI.

Class Gift

(Continued from Page 1)

of the group policy are tabulated, and the excess of annual premium over the operating cost is refunded. In 1974, at the time of the 25th reunion, the individual may continue the policy and accept the dividends himself from then on, or he may drop the policy and accept the cash surrender value, which is \$338. Since the individual has paid in cash a total of \$436.50 at that time, if he elects to turn his policy in and accept the cash, he will have had \$1,000 insurance protection for a period of 25 years at a cost of \$98, or less than \$4 per year.

Aiming at \$100,000

According to Toohy, the senior class is aiming at \$100,000 for their gift. This is possible under the proposed scheme if nearly all of the class participate. The annual pre-

mium is computed for a man 22 years of age.

The class committee is working in close coordination with E. Lester Goodrich, an alumnus, who handles many of the Institute's insurance plans. An office will be opened at the Institute on January 10, as the headquarters of the campaign. The office will be open from 9:00 a.m. to 5:00 p.m. and will have all the material and information concerning the insurance plan.

The 150 odd members of the senior class that will be graduating in February will be interviewed immediately, and the June graduates will be contacted at the beginning of the spring term.

Can Use G.I. Insurance

If any member of the class al-

ready has G.I. insurance and feels that he is insured sufficiently, he can still take part in the plan without any extra payments on his part. If he has a G.I. policy he can transfer part of his dividends over to the Institute. In the case of the \$10,000 policy one-tenth of the dividends

would be allotted to the Institute. Dividends have not been paid in the 4 or 5 years that the government insurance has been in effect, but a cumulative dividend is expected soon, and thereafter holders of the G.I. policy will receive annual dividends.

CAMPUS ROOM NOTES

During the month of January you can have your Saturday dates and still find plenty of time to study for exams. THE CAMPUS ROOM is featuring afternoon dancing every Saturday from 4:00 until 8:00 to the sweet music of BOB HERMAN'S HARMONIUMS and Pat Rainey singing. Where else can you find so many fellow Techmen having such a wonderful time at such low cost? At the CAMPUS ROOM—of course—and remember that you can still have a barrel of fun every Friday and Saturday starting at 6:00 with Professor Jimmy White and the Magician with the Magic Balloon. Music Master Tommy Stewart and vocalist Pat Rainey will be there also.

No cover No minimum No 20% tax
