

Housing, Dining Set-up Revised

Freshman Camp Program To Use Tech Facilities

Dr. Killian's Address, Tour Of Dorms, Labs, Precede Wonderland

Freshman Camp, the entering class's introduction to Technology, has in past years been limited to six hundred students by restricted facilities. However, during this period similar facilities at the Institute have been even more limited. Now, with the addition of Rockwell Cage, and the improved athletic program, it is possible to assemble an entire freshman class at one time. Serious thought has been given and a committee has been appointed to consider the possibility of having at least a part of the freshman program at the Institute.

The committee, composed of both faculty and students, has approved a plan which combines the facilities of Camp Wonderland and those of Technology. Details of the program have not as yet been worked out.

The freshmen will be addressed by President Killian on the afternoon of the Thursday previous to registration day. They will then be taken on guided tours of the Institute laboratories and also the dormitories in order that the new men will become more familiar with the living facilities.

On Friday afternoon the group will leave the Institute for Sharon where they will remain until Sunday morning. Nearly fifty undergraduates will accompany the freshmen as counselors. Anyone interested in acting as counselor should contact the T.C.A. office.

Sunday afternoon the freshmen will return to the Institute where Dr. Killian will hold a reception in his home for them and for their parents.

It is believed by the committee that the usual fourteen-dollar cost may be reduced considerably next year.

Courses XV, XVI Complete Survey Of Job Situation

Course XV

The demand for interviews for business administration students has experienced no slump, Professor E. H. Schell stated, but the number of offers of positions—resulting from the interviews—is not yet known. Course XV has experienced less fluctuation in the demand for its graduates; Professor Schell attributes this to the versatility of the students. However, despite the adaptability of business administration graduates, they must realize that good positions are now on a "Buyer's Market," and that each student must now show real initiative and quality if he is to gain the type of position he seeks.

Reported starting salaries for bachelors are: \$300 per month. No information is available for the salaries of masters.

Course XVI

All June graduates in aeronautical engineering are expected to be placed. The aircraft industry, despite the apparent insecurity of government contract orders, has a steady demand for aeronautical engineers. However, Professor J. R. Markham pointed out that not all aeronautical engineers would get

VD'ERS MAKE ONE OF FEW RUNS

Photo by Baschinsky
Jim Miller of the Voo Doo team staggers home and upsets The Tech catcher Dave Uline as he collapses at home plate. Scene is from annual Beer-ball game.

The Tech Outplays Voo Doo As VD's Use Ringers, Bribe Ump

Sparked by the superb pitching of Leo "Gopher-Ball" Satori and Lew "Yog" Berger "The Tech Trojans" outpitched, outfielded and outdrank the "Voo Doo Smellsox" in their annual beer-ball game held last Saturday in the Blue Hills. Run after run was made by The Tech sluggers off of V.D. hurler Clayton "Brown-Bagger" Williams, while V.D. fielders booted the ball all over the field.

Tech Sluggers

Pausing only for frequent retreats to the beer keg, The Tech batters scarcely had time to run bases as they batted around the order again and again, and V.D. outfielders glumly chased the ball. Particularly outstanding for his pelota pounding was N.B. Champ, The Tech General Manager, who took a position in the field replacing Sandy "Sandra" Rubin after the latter was pursued into the woods by a drunken (and short sighted) V.D.'er.

The Tech's runs were made despite Voo Doo's use of ringers and their frequent attempts to bribe umpires. It is rumored that Ted Williams and Eddie Stanky were sawed off at the ankles and pounded with baseball bats for a whole night to disguise them as George Pines and Dave Yeomans of the V.D.'s. W.C. "Honest John" Schneider when questioned as to being approached by V.D.'ers who wished him to favor their team as umpire,

replied, "They shure did, but I wouldn't do it. It wouldn't be fair to The Tech, seeing as The Tech paid me more."

Infield Combo

Also outstanding was the unmatched infield double-play combination of Young to Sevier (oops!) to Young to Sartori (oops!) to Honigsberg to Harris (oops!) to Sevier to Harris. Barbed wire and land mines laid along the second base line proved of material aid as the infield kept up practically errorless ball. At the end of the fifth inning Voo Doo was threatened by a serious dearth of players as group after group of Smellsoxers wandered off arm in arm singing lewd songs and others simply lay inertly about the beer keg. Finally the game was called

Dorm To House Guests For Graduation Week

The New Dormitory at 362 Memorial Drive will be available for occupancy by parents and guests of undergraduate and graduate students who expect to attend the exercises of Commencement Week.

Rooms may be reserved for Wednesday, June 8th, Thursday, June 9th, and Friday, June 10th, by making application through Mr. Gordon Watson, Manager, at the New Dormitory Office. In order that accommodations may be available, reservations must be made before Saturday, June 4th. The rate will be \$2.00 a day, per person. Guests will be expected to leave by 9 o'clock Saturday morning, June 11th, which is Alumni Day. The main dining room in the Graduate House will be available on a cafeteria basis.

Baldwin Will Supervise Central Living Facilities

Cordial Receptions Are Promoted For Foreign Students

Cordial receptions for foreign students attending the Institute is the aim of the Student's Good Will Program under the joint sponsorship of the T.C.A. and N.S.A. Under the plan, Technology students will first contact the summer visitors with a letter and then discuss with them the Institute, its environment, and activities in person after their arrival.

The Good Will program is also an opportunity for the dissemination of knowledge of foreign countries through first-hand talks with the students. Sign-up lists are posted on most of the bulletin boards. Students joining the program will re-

Anyone interested in entertaining a student from Scandinavia, England or France, for about two weeks sometime in July, is requested to contact the NSA office in the basement of Walker Memorial.

ceive an addressed, stamped envelope to a foreign student and personal information about him.

Some of the posters containing the lists have been misplaced, and a list of all names received by the T.C.A. is posted outside its office in the basement of Walker. All students who signed up but whose names are missing or do not eventually receive an envelope are requested to re-register with the T.C.A.

Wlodzimiev Tereshkevitch, '50, of the foreign student department of the T.C.A. is in charge of the program.

Appointment of Frank M. Baldwin to the newly created post of Director of Housing and Dining Facilities at Technology was announced last Friday by Horace S. Ford, Treasurer, of the Institute.

He will be responsible for supervision of the increasing facilities for student housing and dining services at the Institute to assure effective centralized direction of these activities. His duties include administration of all undergraduate dormitories, including the barracks dormitory; the Senior House, Walker Memorial, the Graduate House, and the Women's Dormitory, as well as Westgate.

Promote Better Living

In announcing the new office and Mr. Baldwin's appointment, Mr. Ford said: "It will be the function of the director to maintain, and improve wherever possible, the standard of service for students, faculty, and staff at the lowest possible prices. Direction of these facilities and the policies governing them has for many years been effectively carried on by the Dormitory Board under the chairmanship of Professor Leicester F. Hamilton as a part-time responsibility.

"As the dining and housing facilities have increased, however, the problems of management have become more than a part-time activity, and the new director will now consolidate the management of housing and dining services and provide continuous administration of these activities. Promotion of better living accommodations for students and planning for additional facilities are important responsibilities of the new office in which the director will report to the Treasurer of the Institute."

Commenting in an interview, Mr. Baldwin stated that he hoped he would be able to act efficiently as a liaison officer between the dormitory residents and the dormitory office. He will also assist Albert W. Bridges, Manager of Walker Dining Service, and Mr. Henry K. Dow, Manager of the Graduate House and Dormitory Supervisor.

Interested in Students

Speaking from his experiences with the St. Clair Restaurant, at Harvard Square, Mr. Baldwin said that he had considerable interest in the students and that he hoped

Diamondmen Divide Two Games; Marshall Blanks W.P.I., 1-0

Byrne's Home Run Tops Worcester

By SCOTT CONNOR

Captain Lloyd Marshall turned in one of his best efforts of the season last Saturday afternoon at Briggs Field as Tech edged out a Worcester Polytech squad by a 1-0 count. Barney Byrne slammed a home run over the left fielder's head in the seventh inning, to account for the only run of the game.

The game was a close pitcher's duel between Marshall and Shattuck of Worcester. Lloyd allowed five hits and Shattuck six as a good Saturday afternoon crowd was treated to some very tight baseball. In the first inning Tech loaded the bases as Gene Lubarsky's hit to left was sandwiched between two Worcester errors, but Mike Johnson skied to center for the third out.

Gerry Kiely strolled and Joe D'Annunzio singled to right in the second inning. Marshall sacrificed the runners along, but John MacMillan went down swinging and Dave Gushee looked at a third strike.

Worcester threatened in the fourth on two hits and a walk, but Marshall bore down and retired the side leaving the sacks full. In the seventh inning MacMillan led off with a short fly to left which the

(Continued on Page 3)

Beavers Held To 1 Hit As Devens Wins, 6-2

Held to one hit by strong pitching on the part of Ed Frydryk and helpful home-town scoring, Warren Berg's varsity nine dropped a 6-2 decision to Devens in a game played Friday afternoon on the Winners' home field.

A bad fifth inning, in which the winners scored five of their runs, proved to be the undoing of Starter Stan Moulton. After pitching four scoreless frames, Stan ran into a barrage of enemy basehits and defensive lapses on the part of his teammates, as five Devensites crossed the plate. Key blow of the inning was a blooper hit by pitcher Frydryk with the bases loaded, which was allowed to drop untouched near second base.

The Engineers had previously gotten off to a two-run advantage, scoring single tallies in the second and third. In the second inning Gene Lubarsky beat out an infield hit which was called an error on the shortstop, and subsequently got around to third from where he scored on a double steal.

Moulton was safe on an error by third baseman Armand Yeretian to open the third. MacMillan then beat out a bunt which was called an error on the pitcher. Moulton was out at the plate on an at-

Tech Show Script Highlights Ghost

Preliminary choice of a script idea for Tech Show 1950 has been announced by the Managing Board of the production. The basic story idea resulted from the combined efforts of Larry Michel, '47, Art Van Stolk, '49, and Bob Abelson, '48. Featuring the setting of a small fishing village in Maine, the plot will revolve around the actions of a visiting artist, a prudish housekeeper, and an amorous ghost.

Writing of the actual script, lyrics, and music will be undertaken during the summer vacation by a group of interested undergraduates under the guidance of several members of Tech Show 1949. March 17 and 18, 1950, have been selected as tentative dates for production of the thirty-seventh Tech Show.

CALENDAR OF EVENTS

MAY 18 TO MAY 25

WEDNESDAY, MAY 18

Faculty Meeting. Huntington Hall, Room 10-250, 3:15 p.m.
 Electrical Engineering Department. Staff Colloquium: "Description of Whirlwind Computer." John M. Salzer. Room 10-275, 4:00 p.m.
 Faculty Pistol Club. Pistol practice. Rifle Range, 5:00 p.m.
 Mathematical Society. Election of officers. Room 4-270, 5:00 p.m.
 Pershing Rifles. Business meeting. All members are requested to be present. Room 24-109, 5:05 p.m.
 Interfraternity Conference. Dinner meeting. Hotel Fensgate, Boston, 6:15 p.m.
 Chemistry Department. Harvard-M.I.T. Physical Chemistry Colloquium: "Thermodynamic Properties of Elementary Phosphorus." Dr. Clark C. Stephenson. Room B-23, Mallinckrodt Laboratory, Harvard University, 8:00 p.m.

THURSDAY, MAY 19

Physics Department. Colloquium: "A Short Survey of Paramagnetic Resonance." Dr. B. Bleaney. Room 6-120, 4:30 p.m.
 Faculty Pistol Club. Pistol practice. Rifle Range, 5:00 p.m.

FRIDAY, MAY 20

Mechanical Engineering Department. Seminar: "Demonstration of the High-Speed Electronic Analog." James E. Reswick. Room 3-470, 4:00 p.m. Coffee will be served at Headquarters from 3:30 to 4:00 p.m.
 Glee Club. Concert with Chandler School group. Chandler School, 245 Marlboro Street, Boston, 8:30 p.m.

SATURDAY, MAY 21

Modern Language Department. Graduate language examinations: German, 10:00 to 12:00 a.m., Room 24-033; French and Russian, 2:00 to 4:00 p.m., Room 3-440.

SUNDAY, MAY 22

Nautical Association. Boston Dinghy Club Regatta. Sailing Pavilion, 10:00 a.m.

MONDAY, MAY 23

Technology Matrons. Annual meeting. At the home of Mrs. Arthur C. Cope, 210 Clifton Street, Belmont, 12:30 p.m.
 Civil and Sanitary Engineering Department. Seminar: "Compressed Yeast Wastes Treatment." John B. Nesbitt. Room 1-236, 1:00 p.m.
 Faculty Pistol Club. Pistol practice. Rifle Range, 5:00 p.m.
 Alumni Council. Dinner meeting. Alan C. Bemis, '30, will discuss weather radar research. Dinner: Campus Room, Graduate House, 6:00 p.m. Meeting, 7:15 p.m.
 Research Laboratory of Electronics. Seminar: "Theory Rectifiers." Dr. John C. Slater. Room 6-120, 800 p.m.

TUESDAY, MAY 24

Faculty Pistol Club. Pistol practice. Rifle Range, 5:00 p.m.
 Model Railroad Club. Business meeting. Room 26E-216, 5:15 p.m.

WEDNESDAY, MAY 25

Electrical Engineering Department. Staff Colloquium: "Design of a Typical Problem for Solution on Whirlwind Computer." Charles W. Adams. Room 10-275, 4:00 p.m.
 Mechanical and Chemical Engineering Departments. Seminar: "Research in Low Temperature Technology at Imperial College." Dr. G. G. Haselden, Imperial College of Science and Technology, London. Room 1-190, 4:00 p.m. Coffee will be served at Headquarters from 3:30 to 4:00 p.m.
 Faculty Pistol Club. Pistol practice. Rifle Range, 5:00 p.m.

INFORMATION FOR STUDENTS

Ticket agents with railroad, pullman, and airline tickets, as well as a representative of the Baggage Transfer Company, will be at the Office of the Technology Christian Association from 12:15 to 1:45 p.m. May 24, 25, and 26, to facilitate travel arrangements.

T.C.A. CLOTHING DRIVE

The clothes collection for Europeans is still going on. In addition to the Information Office and T.C.A. Office, material may also be left at the Graduate House, the Dormitories and the barracks.

CALENDAR OF EVENTS

The Calendar of Events will not be published during the summer term; this is the last issue until fall.

Devens Baseball

(Continued from Page 1)

tempted squeeze, but MacMillan scored on a wild pitch to make the score 2-0.

After that, however, the Engineers were held completely at bay. The final Devens run came over in the seventh as Lou Baldwin took two bases on an error by Johnson and scored on a hit by Gus James.

Stray Shots

The Beaver outfield was kept

plenty busy in the opening innings, registering eight putouts in the first four frames. . . . Ed Frydryk registered his sixth victory against no losses; he struck out eight and allowed only three balls to be hit out of the infield. . . . Gene Lubar-sky got the Engineers' only official hit, a single to left in the sixth. . . . Devens' shortstop Ed Maloney was outstanding on the defense; he covers lots of ground.

Boston Baedeker

In a recital last Tuesday evening Mary Seaver demonstrated a rich, promising voice. Under the auspices of the classical music department of WMIT she was on the air for the benefit of all dormitory residents.

Included on her program were works by Mozart, Faure, Scariatti and Kiplinger. The songs were very well sung by Miss Seaver, the lyrics were poignant and witty. Mr. Kiplinger's taste and technique in accompanying Miss Seaver made me hope to be able to hear him again.

A week ago last Saturday the M.I.T. Symphony Orchestra gave a joint concert with the Mt. Holyoke Symphony Orchestra. The program opened with the Hafner Symphony of Mozart, which was played sprightly and thoughtfully.

Bach's concerto for two pianos was next, and I have never heard a more beautiful performance. The fugue of the last movement was so grandly played that the two Holyoke students, Emel Gocken and Julia Sia, were complimented by the audience.

Mussorgsky's prelude to "Kovanchina" opened the second half of the program. Quincy Porter's suite "Music for Stings" was played well by the joint orchestra. The program was concluded with Mendelsohn's Fingal's Cave Overture. The overture was well played and is literally packed with delightful melodies that keep recurring.

E. L. A.

Westgate Nursery Raises Funds With Children's Movies

Saturday afternoon, M.I.T.'s youngest preparatory school held a series of movies to boost its funds. Strangely enough, however, the movies were not on spectrum analysis or the splitting of atoms, but rather on Bunny Rabbit and elephants. The school, situated in Westgate, is the Westgate Cooperative Nursery, organized in October, 1947, by Mrs. Emily Willingham and a committee of five mothers for children from two and a half to five.

The school is cooperative in the true sense of the word, in that the fathers built much of the equipment and now perform the duties of janitor. As a matter of fact, only the teacher is paid, whatever help she needs being provided by sophomores from Wheelock.

Of course, the tuition of \$25 a semester defrays only a small part of the expense involved. Not only has the Institute aided the school, but the T.C.A. has made sizable grants.

Technique Terrific This Year, Says Helpful Critic

By ART VAN STOLK

A few weeks ago I plunked down my money for a *Technique* option and immediately became an interested and apprehensive customer. "The book wasn't much good last year," I remarked to the innocent freshman behind the desk. "No, but this year it's really all right," was the confident reply. So I muttered menacingly under my breath that it'd better be and walked away with that light-in-the-wallet feeling.

Well, I just had a chance to give the 1949 *Technique* the once over and "it's really all right." In case you judge a book by its cover, you're sure to like it because it comes in a strikingly handsome plain red leather cover with a large gold beaver impressed on it. In case you want to read the thing, I think you'll go for it because it is a competent and original job.

Instead of grouping activities by kind, the editors have recorded them by dates significant to the particular activities. So that a fraternity may be found under the date of its big dance or a sport by thumbing to the date of a big game. Luckily there is a convenient index in the back of the book otherwise you'd never find anything, but the aim is to give you a running diary of a year at Tech.

The picture work fits in well with the diary type book. John Thomas

and his staff can be complimented on a great number of clear and effective action shots. The whole book seems to give a sense of motion because the camera stopped the action of a school at work and at play. Unlike previous years, the "wheels" don't get star billing, so that there are more people pictured in this book than in any other *Technique* that I can remember and they are alive rather than fourth from the left in the third row.

The senior section looks clean, Waid Studios' pictures are what you'd expect from a good yearbook. Generally uniform face size, pleasing facial expression, clear. The make-up is neat if not spectacular and the editing of the various semi-literate articles handed in by the activities seems more than adequate.

All in all, I'm a satisfied customer. You may or may not like the diary style of presentation. For that reason it may be attacked by the people who have two soft boiled eggs for breakfast every morning. It's different and for that reason not necessarily better than the old style, but it shows thought and ingenuity and for that you must give credit to Chuck Holzwarth and his associates. Different people will have different gripes and different compliments. I think of last year when the pictures were seemingly taken by some carefree Cambridge street urchin with his little pinhole camera or of the years before with the people neatly stacked in rows under their activities, and say thank you very much for the 1949 *Technique*.

MAN SWEARS By Better Razor Blade

CAMBRIDGE, MAY 17

Plenty of men swear at their razor blades, but here's a man who swears by his!

When reporters called on Joe Muldoon, they found him whistling in the bathroom. "Boys," he said, "just tell my public I'm razor blade happy. After years of trial and error, mostly error, I finally found my blade — just a 'feather-touch' and so long whiskers! Why, shaving with Pal Hollow Ground is as easy as flicking the top off lemon meringue pie."

Mr. M. forgot to say that Pal Hollow Ground still gives you 4 for 10¢ (or 10 for 25¢, 21 for 49¢, 44 for 98¢). He uses Double Edge. Single Edge cost the same.

Haspel Refreshable Clothing

Lightest of all hot weather suits

The strong sun and high temperatures never upset active men wearing Haspel Refreshable Clothes. The Coop has these lightest of all hot weather suits and separate jackets. They're cool, crisp and easily cleaned. So remember to come in soon,—real soon and get the coolest, lightest summer suit that's made. The Haspel cotton cord is \$20.50 and the Celanese Cord is \$25.50, —separate jackets, cotton cord are \$15.00. For real summer comfort during the hot summer months ahead come to The Coop and get one or two of these Haspel cotton suits and separate jackets.

Frosh Nine Splits Over Weekend, Tops Newton, But Bows To B.U.

Tech's frosh nine split their two games this weekend. They romped over Newton Junior College, eleven to six on Friday, and were defeated the following day by B.U., nine to four.

The Newton game was a field day for Tech batters. The Beavers scored in both the first and second innings, but were behind three to two going into the third. Then Tech poured five runs across the plate, taking full advantage of numerous Newton errors. Hartnett walked and took second on a wild pitch. Nehigen hit him to third and he scored on another wild pitch. Sylvester, Blodgett, Zaia, and Thompson then all made first without a hit, and Dixon singled, driving in the last of the runs.

Tech continued scoring throughout the rest of the game, driving four runs across and sending two Newton pitchers to early showers.

Boston University scored heavily on the Beaver frosh. They made one

run on one hit in the first inning, and picked up three more in the third. Tech had no score in the early part of the contest, but the game broke loose in the late innings. Nehigen singled in the seventh and advanced to second on a hit by Blodgett. He then stole third and scored on a single by Zaia. A fourth single by Ronnie Thompson loaded the bags, but B. U. hurler Miller pulled out of danger when Rusch hit out to the third baseman.

In the ninth a bevy of Tech pinch-hitters drove in two runs on two hits, three stolen bases, and a walk.

B.U. also made good use of the late innings. They scored a pair of runs in both the sixth and the eighth. The first set were unearned, but four singles were hit off Dixon in the eighth, which with a walk, accounted for their last two runs.

Freshman Crew Places Second In EARC Meet

Varsity Eliminated In Trial; Harvard Boats Sweep Regatta

Tech's sturdy freshman crew provided the only ray of sunshine in a dismal day of racing for Tech as it captured second in a field of 11 at Syracuse in the Eastern Sprint Championship Regatta. The varsity eight failed to qualify and the jayvees, having qualified, came in last in the finals. Harvard again proved its mastery of the waters as they swept the regatta.

Frosh Win Heat

The Tech frosh, after winning their trial heat by two lengths, overcame Princeton's early lead and led until the final stages of the race. Over the last quarter mile, Harvard moved up and won by 2 1/2 seconds. Princeton, Cornell, Navy, and Boston University followed the winners in that order. The winning time was 6:52.5 with Tech crossing the finish in 6:55. This was the fourth consecutive defeat handed M.I.T.'s freshmen by Harvard. The Beaver cubs, however, proved themselves to be one of the greatest if not the greatest freshman crew that Tech has produced by placing second in the large field of 11 schools.

In a trial heat so close that the winners thought they had lost, the Tech jayvee qualified for the finals. The surprised jayvees ran last in the finals, however, behind Har-

ATTENTION ATHLETES!

Standard forms are available in the Director of Athletics office to be used by M.I.T. intercollegiate squad members in connection with vacation employment at summer camps, hotels, beaches, playgrounds, and with industrial concerns and prior to competing with amateur town teams or with club teams.

Athletes must receive advance permission from their own college authorities for outside competition on any team even though no remuneration is involved.

vard, Princeton, Yale, and B. U. Harvard's winning time was 6:50.9.

The Crimson of Harvard also won the varsity competition followed by Penn, Princeton, Cornell, Yale and Navy. The winning time was 6:48.3. M.I.T. was eliminated in the trial heats.

Lightweights

Competing in the fourth annual 150-lb. regatta of the Eastern Association of Rowing Colleges at Princeton, M.I.T.'s lightweight crews failed to qualify. The varsity, however, lost their very close heat by only about six boatseats. The Techmen rowed a fast race losing to Penn and Harvard by only a few seconds. Cornell was victorious in the finals of the varsity competition, Penn won the jayvee race, and Harvard captured the freshman race.

Cindermen Lose To NH By Four Point Margin

Stickmen Defeated By Stevens, 10-6; Bob Boyden Hurt

Technology's varsity Lacrosse men suffered defeat at the hands of Stevens Institute Saturday afternoon at Briggs Field by the score of 10-6. Tech showed lots of spirit in the early stages but could not keep up its fast pace on the warm afternoon.

The Beavers scored the first goal in the game and matched a Stevens goal later in the first period, to take an early 3-2 lead. The game continued to be a tight one till the third period when Tech seemed to fall apart, letting four Stevens shots find the net, without any retaliation. The game continued on its rough way and at the end of the game both sides knew they had been in a contest.

Jim Madden played an exceptionally fine game for Tech scoring two goals in addition to outstanding field play. Ted Madden also played a good game afield. Though the game was rough, resulting in an injury to Tech's Bob Boyden, in the first period only an average number of penalties were issued.

Stevens (10)—G. Turnamian, cp. Hildebrand, p. Benn, ld. Cordell, 2d. Lieve, c. Mitch 2d. Downey, la. Meyer, oh. Johnson, ih. Perry.
M. I. T. (6)—G. Butzow, cp. Stockwell, p. Helfrich, ld. Sharp, 2d. J. Madden, c. Craig, 2a. Schneelock, la. Ayerigg, oh. Stoney, ih. Hucker.
Stevens substitutes—Pernicone, Ottens, Leah, Pugh, Tiedeburg, Fredericks, Meghin, Four, McGrath.
M. I. T. substitutes—Totsi, Cushman, Boyden, Pearlman, Rougyle, T. Madden, Jerger, Bolta, Madsen.
Goals—Perry 3, Erickson 2, Meyer 1, Johnson 2, J. Madden 2, Craig 1, Schneelock 1, Bolta 1, Ayerigg 1.

Field Events Decisive; Freshmen Also Beaten

Lack of depth in the field events caused the Tech track team to lose its first meet of the season to the Univ. of New Hampshire 69 2/3-65 1/3 at Durham on Saturday. The Tech runners outscored the Wildcats by eighteen points, but the field events men could not hold the pace.

The meet was extremely close all the way, and was not decided until the final event, the javelin, in which Tech's Jack Adams could only score a third.

Feature races of the afternoon saw Wayne Carter win by inches in the low hurdles over Barndollar, and Al Dell Isola close on Barndollar in the 220, which the judges decided a dead heat. Previously, Dell had won the 100, and Wayne had taken the high hurdles. Ed Olney was another double winner for Tech with impressive times in the 440 and 380.

Bud Simpson turned in his best race of the year as he won the mile in the good time of 4:33.2. Henze and Lobo completed a sweep in the mile. Jack Adams met up with some tough weight men. He won the hammer throw, finished second in the shot-put and discus, and third in the javelin.

Tech's freshman squad was beaten by the New Hampshire youngsters 71 1/3-53 2/3. Ken Childs was once again high scorer for the frosh with wins in the 100 and 220 and a second in the shot-put. Outstanding performances were turned in by Chuck Vickers with a 2:02.2 half-mile and Ed Judd who cleared 6' 7/8" in the high jump.

100 yard dash—Won by Dell Isola (MIT); 2, Barndollar (NH); 3, Barker (NH). Time 16.1 sec.
220 yard dash—Tie for first between Dell Isola (MIT) and Barndollar (NH); 3, Carter (MIT). Time 22, sec.
440 yard dash—Won by Olney (MIT); 2, Sweet (NH); 3, Harmon (NH). Time 50, sec.
880 yard run—Won by Olney (MIT); 2, Webb (NH); 3, Vitagliano (MIT). Time 1:59.5 min.
One mile run—Won by Simpson (MIT); 2, Henze, (MIT); 3, Lobo (MIT). Time 4:33.2 min.
Two mile run—Won by Dunklee (NH); 2, Grant (MIT); 3, Paulson (NH). Time 9:55.3 min.
120 yard high hurdles—Won by Carter (MIT); 2, Campbell (NH); 3, Roth (MIT). Time 1:53 sec.
220 yard low hurdles—Won by Carter (MIT); 2, Barndollar (NH); 3, Whitney (MIT). Time—43. sec.
Hammer throw—Won by Adams (MIT); 2, Mullen (NH); 3, Grant (NH). Distance—155 ft.

Shot put—Won by Tupper (NH); 2, Adams (MIT); 3, Mullen (NH). Distance—42 ft. 11 in.

WPI Baseball

(Continued from Page 1)
shortstop grabbed on a great play running back hard and stabbing it over his head at the last moment. Gushee grounded out to the first baseman, but Byrne caught a high outside pitch on the nose and drove it over the left fielder's head for a game-winning home run.

Base Hits and Errors

Joe D'Annunzio played his best game this season spraying three hits, one to each field, and turning in some good defensive work—Barney Byrne banded a single through the box in addition to his winning home run and looked very much at home in his new first-base position—Tech played errorless ball in the field and showed more hustle than they have all season.

An Adventure in Good Smoking!

Graduate House 'C' Gains Final Round Of Softball Tourney

Grad House C gained the finals of the softball tournament and continued their undefeated status by rallying to beat Wood-Hayden on Sunday in the best tourney game to date. The "C" boys took an early lead with 2 runs in the first two innings. Four runs in the fourth put the dorm team out front 5-2. They seemed to have the game sewed up when they scored three more in the sixth. Then the roof fell in on pitcher Jack Pines as the grad team touched him for eight runs on eight hits and two walks. Don Hendrickson's homer with two on was the big blow.

On Friday the "C" team turned back the Grad House "B" team 11-8. The "B" squad scored pairs of runs in the first four innings, but this was offset by a bunching of five runs in the third and sixth.

The Phi Deltis were hot on Sunday when they smothered ATO 24-0. Twenty-five hits and nine errors built the amazing margin. Bill

PLACEMENT INFORMATION

Companies coming to the Institute:

The Kerite Co., Seymour, Conn., May 17; II, VI.

W. R. Grace, New York, N. Y., May 17; II, VI, X, XV.

Company to contact by letter: The Sponge Rubber Products Co., Shelton, Conn.; X, V.

Lueckel got five singles, and Sutherland two singles and two doubles. De Stabler also got four hits in the rout. ATC had eliminated the Senior House on Friday, winning 9-8, despite a five-run rally by the losers in the seventh.

The Grad House "B" team stayed in the running Sunday by knocking out the Grad House A team 12-8. Cohen's three hits were tops for the victors, and Oberg had a single and homer for the losers. The "B" team now meets Phi Delta Theta on Tuesday. The winner of this game battles Wood-Hayden on Thursday for the right to play in the final on Sunday.

Chemistry Society Officers Elected

Officers for the fall term were elected by Kappa Kappa Sigma, the recently organized honorary chemical society, on Thursday night, May 12. President is Edward L. Perkins; Vice President, John D. Staikos; Recording Secretary, Robert C. Tweit; Treasurer, Rene M. LeClair; Master of Ceremonies, Richard T. Keller; and Chairman of Entertainment, Vinson R. Simpson. All the above men are Juniors.

Baseball Game

(Continued from Page 1) on account of darkness when Umpire Schneider's hat slipped over his eyes.

Those members of both teams who could still walk thereupon adjourned to a nearby picnic ground to finish the outing, narrowly missing a contingent of twenty-five mounted M.D.C.'ers alerted to the occasion by the Watch and Ward society. Unfortunately official totals for the game are not available as the scorer, who also had charge of the beer, has not yet returned.

The final score, however, seems to have been about Voo Doo 24, the Tech 8.

Jobs

(Continued from Page 1) exactly the job they wanted, but he felt that they could be assured a position in the aircraft industry or allied fields. Government guided missile projects also present a demand for Course XVI graduates. Professor Markham said that the job opportunities are expected to be good for at least three years.

The current starting salaries are: \$250 to \$275 per month for bachelors; \$300 to \$325 per month for masters; \$400 to \$450 per month for doctors.

Summer job possibilities with aircraft plants are good for juniors. Two sophomores have also been placed for summer work.

Baldwin

(Continued from Page 1) he could arrange a system satisfactory to all.

Baldwin's early experience was gained in restaurants in Cleveland, Ohio, and Colorado Springs, after which he came to Boston and served in various capacities, including personnel manager and later as manager of the Waldorf System.

For the past 18 years he has been associated with St. Clair's, first as store manager from which he was promoted to general manager of the firm, and later became vice president.

Notice to Tech Students, Faculty and Personnel who need or will need glasses.
