Bronk Calls For Unity Between Science, Society

Calling for a greater appreciation of "the motives and methods of science," Dr. Detlev W. Bronk, president of Johns Hopkins University, told a Technology audience last Tuesday that the success of industrial democracy depends on developing "a closer unity between the sciences and between those called natural and those called social."

Speaking in Morss Hall of Walker Memorial, Dr. Bronk was the Institute's fourth in a distinguished series of annual Arthur Dehon Little lectures. His address was titled "The Unity of the Sciences and the Humanities."

Social Implications
A discussion of the social implications inherent in the development of science, he said, is particularly timely because of the recent rapid expansion of scientific activities. Present-day culture, Dr. Bronk pointed out, is increasingly dependent upon the products of science and technology, and scientists are thus becoming "essential to our social order."

This greater relevance of science to modern society tends to make scientists focus their attention on quick answers to practical questions . . . a fact which, together with the increasing complexity and widened scope of scientific knowledge, Dr. Bronk said, leads to specialization and the possibility that scientists will be trained for limited objectives in a small sphere of scientific activity.

However, Dr. Bronk added, the goal of true science is more than quick answers to practical questions. Quantities of data and many individual solutions must be correlated for the development of broad new concepts.

Specialization Needed
"Science can seldom be developed by scientists who do not have specialized competence," continued Dr. Bronk, "but more than this is needed for the development of science." We need, he said, men able to "comprehend the broad relevance of detailed facts and knowledge and their human implications."

The unity of sciences and humanities required for the achievement of future objectives is to be found, Dr. Bronk said, "in the common search for understanding, in the satisfaction of intellectual inquiry and expression, and in the enrichment of human life."

Musical Clubs Offer Handel's "Messiah"

For its annual Christmas Concert the Musical Clubs are offering Handel's Messiah to be performed at Jordan Hall, Saturday, December 10, at 8:30 p.m.

The program will feature soloists Willabelle Underwood, soprano; Helen McClosky, alto; Sumner Crockett, tenor; and Paul Matthen, bass, accompanied by the combined M. I. T. Glee Clubs and the Symphony Orchestra under the direction of Klaus Liepmann. The soloists have been heard on the opera and concert stage throughout New England and in New York.

Tickets will go on sale in the lobby of Building 10 Tuesday, November 29, at 10:00 a.m. All seats will be reserved. The ticket prices are \$90, \$1.20, and \$1.80 per person.

Hungarian Quartet To Present Concert

Clarinetist To Appear In Joint Performance

Fresh from a tour of Europe and the United States, the Hungarian String Quartet will present a concert at 8:30 p.m., Tuesday, December 13. The concert which will be held in room 10-250 will be a joint appearance with Reginald Kell, a British clarinetist.

This performance, which is under the auspices of the Humanities Series and the Elizabeth Sprague Coolidge Foundation, will include "Clarinet Quintet", Mozart; "String Quartet No. 4", Bartok; and "Death and the Maiden", Schubert.

Both the Quartet and Mr. Kell are widely known on the other side of the Atlantic. Mr. Kell's Columbia recording of Mozart's "Clarinet Quintet" with the London Philharmonic Quartet was voted "the best chamber music record of the year" by New York's Music Critics' Circle.

Tickets for the concert will be available to students at 12:30 p.m., Tuesday, December 6, in the Information Office, Building 7.

NSA Is Planning Industrial Work Student Exchange

First information has been received here concerning the possibility that students in American colleges may be invited to participate in the present all-European program known as IAESTE, the International Association for the Exchange of Students for Technical Experience, reports Donald J. Eberly, '50, NSA Chairman.

It is a program whereby students who are interested may go abroad for the summer and make money at the same time. Although complete details of the project have not yet been received, the main idea is that a Technology student may work in a factory or power plant in Norway, for example, while a Norwegian student is spending his summer working in an American industry. All students preferably juniors, are paid regular wages for the jobs and must work at least for a six-week period.

Until this time, the principal difficulty has been the ruling of the State Department that foreign students are prohibited from working in this country when they are depriving an American from the job. Erskine Childers, international vice-president of USNSA, recently obtained special permission from the State Department to run this particular short-term program. The only expense to the student is that of oceanic transportation.

Basketball, Hockey, Skits, Dance, To Highlight Third Annual Sports Weekend

Nine athletic contests, a dance, a two-hour skit show, and a beauty contest will enliven the coming weekend when the third annual Tech's-A-Poppin program is presented by the Athletic Association. Tickets for the Friday and Saturday events will continue on sale in Building 10 this week. Seventy-five per cent of all tickets had been sold as of last Friday.

Tech's-A-Poppin is scheduled to get under way on Friday, December 2, at 6:00 p.m., when the freshmen basketball squads of Technology and Boston University tap off. A varsity encounter will follow. Complete details of all sports events for the weekend can be found on page three.

Howley Speaks On 'Fear For Breakfast'

Brig. Gen. Frank L. Howley will speak today under the sponsorship of the Lecture Series Committee and the Faculty Series Committee on "Fear For Breakfast."

Until his resignation in October, 1949, he had served four years as the director of the United States military government in Berlin. He will speak of his experiences with the Russians and of his policy towards them.

Gen. Howley now has a series of articles appearing in Collier's magazine, also dealing with his Berlin experiences. This lecture will be given in room 10-250 at 4:00 p.m.

Beauty Contest

At the TP dance Friday night in Walker Memorial, the preliminaries to the beauty contest will be held. Appointed student judges for the contest are Robert W. Mann '50, John Jacoby '50, Norman B. Champ '50, George A. Lopez, General Manager of Tech's-A-Poppin; and Theodore R. Metzger '50.

Nine finalists will be selected by this group from fifty preliminary contestants chosen by members of the TP Steering Committee during the early hours of the dance. Final judgment on Tech's-A-Poppin beauty has been entrusted to a committee consisting of President James R. Killian, Jr., Executive Vice President Edward L. Moreland, Dean of Students Everett M. Baker, Dean of Freshmen Thomas P. Pitre, and Dean of Humanities John E. Burchard. The queen will be selected and crowned by Dr. Killian at 11:00 p.m. during the Hexapoppin skit show Saturday night.

TP Dance

Brad Kent's Society Orchestra will supply the music for the TP Dance to be held in both Morss Hall and the Walker Gym. Additional entertainment planned includes Julio Gianotti, accordionist; Mr. Gie and Lopez (George A. Lopez '50), South American dancers; and vocalists Jean Seaver and Arthur A. Wasserman '51. The dance will last from 9:00 p.m. to 2:00 a.m.

Places and times for the Saturday afternoon sports events can be found in an adjoining schedule. In addition to five contests, a fencing demonstration has been scheduled. Saturday night the Engineer ice-

(Continued on Page 4)

28 New Members Elected To Pi Tau Sigma

Eleven Seniors and seventeen Juniors were recently elected to Pi Tau Sigma, honorary mechanical engineering fraternity. The new pledges are all Course II men and were selected "on a basis of sound engineering ability, scholarship, and personality."

Seniors: Robert D. Bissell, Thomas C. Cerwonka, Jack E. Downhill, Malcolm Green, Lawson P. Harris, George M. Hatsopoulos, Richard H. Johnson, Louis A. Morton, George M. Robinson, Edwin H. Speshl, Jr., Louis H. Washauer. Juniors: William G. Austen, John J. Bradley, George A. Brown, Stephen J. Chamberlain, Jr., Donald K. Crockett, Albert C. Erickson, Louis Galan, Robert E. Kendall, John H. Lindholm, Jr., Daniel E. Magnus, Edwin B. Miller, Jr., Robert Nock, Jr., Carlos Nogueira, Charles D. Spencer, Robert R. Stephenson, Jaime Urrea, Roger D. Weatherbee.

Unique, Pleasant English-History Library Opens; Students Criticize Locked Door, Book Layout

By ROBERT LEDEBETTER

Featuring incandescent lighting, individual study cubicles and air-conditioned to a temperature calculated to increase mental agility, Walker Library opened last week in the north wing of the new Charles Hayden Memorial Library.

Pleasant as well as functional, the first floor of the north wing, which is now known as the English and History Library, is designed to provide a maximum number of students with a quiet place to read and study. The 104 by 40-foot room has linoleum flooring of a deep terra-cotta color. The scrape of chairs, the click of heels on hard-surface floors, and all the other distracting noises that pervade many libraries will be largely eliminated.

One point of criticism from the many who have already had occasion to use the library is the arrangement of the books. 3000 volumes of literature, or what is judged to be the best of the entire collection, have been placed on a special shelf. This system divides the collection into two parts, the criticism being that anyone wishing to locate a book must usually look in two places.

Locked Door Criticized

Considerable criticism has also arisen over the locked door at the east end of the library. In the original plan of the building the door was to be a convenient entrance to the library for the dorm residents and others coming from that end of the campus. After the door had been constructed, however, the idea hit home that the English and History Library was in danger of becoming a passage-

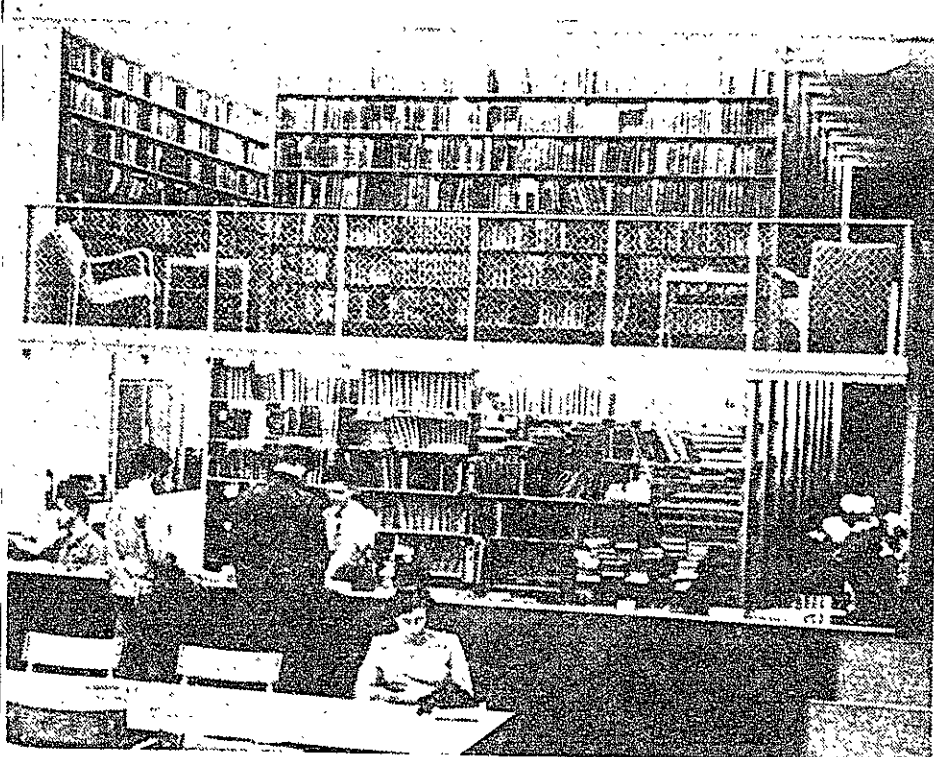

Photo by Honigsberg

way to and from the main building in inclement weather.

Students generally agree, however, that the seventeen two-foot by three-foot individual study cubicles are a blessing to those who find utter silence the most conducive atmosphere for studying. Students from Building 22, from the dorms, and the commuters will find these rooms a pleasant and convenient place to study.

Reference Stacks Opened

Something unique in the new library will be free use of the reference stacks by the students. Formerly reference material was kept

under lock and key. In the new location, however, only the basement stacks will be closed to the general student body. This means that the majority of the 16,000 volumes of English and history in the library will be readily available to everyone.

In another effort to cut down disturbing noise in the library, a window to be used for borrowing and returning reserve books was built opening on the corridor. Other innovations are all wood, rock maple furniture, steel shelving, and a mahogany librarian's counter with a bonded plastic, alcohol and cigarette-proof top.

CALENDAR OF EVENTS

WEDNESDAY, NOVEMBER 30

Electrical Engineering Department. Staff Colloquium: "Acoustics Laboratory." Dr. Leo L. Beranek. Room 10-275, 4:00 p.m.
 Metallurgy Department. Colloquium: "Solid Phase Transformations." Dr. Benjamin L. Averbach. Room 2-390, 4:00 p.m.
 Catholic Club. Father Hubbard Mission Film on China. Room 6-120, 5:00 p.m.
 Mathematics Society. "Continuous Functions Without Derivatives." Dr. Warren Ambrose. Room 4-370, 5:00 p.m.

THURSDAY, DECEMBER 1

Spectroscopy Laboratory. Seminar: "Spectroscopy of the Sun from V-2 Rockets." Dr. Richard Tousey, Naval Research Laboratory. Room 6-120, 3:00 p.m.
 Civil and Sanitary Engineering Department. Seminar: "General Survey of French Hydro-Plants and of the Rhone River Development." Film of Construction of Genissiat Dam and Power Station. Raymond Giguet, Director of Procurement of the French National Electric Power Service. Room 1-390, 4:00 p.m.
 Economics and Social Science Department. "An Anthropologist Looks at Yankee City." Professor W. Lloyd Warner, University of Chicago. Room 1-190, 4:00 to 5:00 p.m.
 Physics Department. Colloquium: "The Extensive Air Showers of Cosmic Rays." Professor Kenneth Greisen, Cornell University. Room 6-120, 4:30 p.m.
 Tau Beta Pi. Initiation of new members and banquet. Initiation: Moore Room, 6-231, 5:00 p.m.; banquet, Campus Room, Graduate House, 6:30 p.m. Faculty, staff, and graduate students are invited to attend.
 American Institute of Chemical Engineers. "Possibilities for Chemical Engineers in the Field of Ceramics." Dr. Francis E. Vinal, Room 2-190, 7:30 p.m.
 Economics and Social Science Department. Graduate Economics Seminar: "Certain Aspects of American Symbolic Behavior." Professor W. Lloyd Warner. Litchfield Lounge, Walker Memorial, 8:00 p.m.

FRIDAY, DECEMBER 2

Acoustics Laboratory, Modern Languages Department, and Research Laboratory of Electronics. Conference on Speech Analysis. Moore Room, 9:30 a.m. to 5:00 p.m.
 Biology Department. Colloquium: "The Development of Methods for the Histochemical Demonstration of Intracellular Enzymes and Other Substances." Dr. Arnold M. Seligman, Beth Israel Hospital. Room 10-275, 4:00 p.m.
 Mechanical Engineering Department. Seminar: "The Use of Strain Gages in Force Component Measurement." Erwin G. Loewen. Room 3-470, 4:00 p.m. Coffee will be served at Headquarters from 3:30 to 4:00 p.m.
 Tech's-A-Poppin 1949. Basketball. M.I.T. vs. B.U. Armory, 8:00 p.m. to 9:30 p.m. Freshman game at 6:30 p.m. Dance. Walker Memorial, 9:00 p.m. to 2:00 a.m.

SATURDAY, DECEMBER 3

New England Mechanical Drawing Teachers Association. Meeting. Room 2-390, 10:00 a.m.
 Tech's-A-Poppin 1949. Pistol: M.I.T. vs. Coast Guard Academy, Rifle Range, 12:00 a.m. Rifle: M.I.T. vs. Harvard, Rifle Range, 1:00 p.m. Track: M.I.T. vs. Boston College, Briggs Field, 1:30 p.m. Squash: M.I.T. vs. Dartmouth, Squash Courts, 2:00 p.m. Wrestling: M.I.T. vs. Tufts, Rockwell Cage; Freshman, 2:00 p.m.; Varsity, 3:30 p.m. Swimming: M.I.T. vs. Brown, Alumni Pool; Freshman, 2:00 p.m.; Varsity, 3:30 p.m. Fencing demonstration, Walker Gymnasium, 2:30 p.m.
 Tech's-A-Poppin 1949. Hockey: M.I.T. vs. Harvard. Arena, 7:30 p.m. to 9:30 p.m. Hexapoppin Show: Rockwell Cage, 10:00 p.m. to 12:00 p.m. Queen Contest Finals, 11:00 p.m. to 11:30 p.m.

MONDAY, DECEMBER 5

Convocation. Academic staff and students invited. All classes excused. Dr. James R. Killian, Jr., will speak on recent developments in the Institute, Nathaniel McL. Sage will discuss the placement outlook, and Dr. Vannevar Bush will talk on human enterprise. The student band will play before and after the exercises. Rockwell Cage, 11:00 to 12:00 a.m.
 Outing Club. Lauletaan—Folk Songs. Tyler Lounge, Walker Memorial, 8:00 p.m. Everyone welcome.

TUESDAY, DECEMBER 6

Faculty Club. Luncheon. "Who Should Study Education?" Dean Francis Keppel, Graduate School of Education, Harvard University. Campus Room, Graduate House, 12:00 noon.
 Acoustics Laboratory. Seminar: "The Electrical Response of the Cochlea." Dr. Walter Rosenblith, Harvard Psycho-Acoustics Laboratory. Room 20E-121, 4:00 p.m.
 M.I.T. Development Fund. Moving picture of the Institute. Room 10-250, 4:00 p.m.
 Model Railroad Club. Business meeting. Room 20E-216, 5:15 p.m.
 Musical Clubs. Messiah rehearsal. Room 10-250, 7:30 to 9:30 p.m.

IMPORTANT NOTICE

The M.I.T. Development Fund moving picture will be shown on Tuesday, December 6, at 4:00 p.m. and on Thursday, December 8, at 3:00 p.m. in Room 10-250. Members of the staff as well as students are invited.

EXHIBITIONS

An exhibition including twenty paintings by contemporary Boston artists, as well as two examples of the work of Boston sculptors, is on display in Lobby of Building 7 until December 14.
 Salon prints by Mrs. Gisela A. Ellis of Waban, Mass., will be exhibited by the Photographic Service in Basement of Building 11 through December 11.

CALENDAR OF EVENTS

The Calendar of Events is published weekly on Tuesday in THE TECH, and contains announcements for the following week. It is sent without charge to all members of the staff, heads of D.I.C. projects, as well as to the leaders of various organizations. A separate listing of the Calendar of Events will be mailed to others for one dollar a year, payable in advance at Room 7-204.

Announcements, typewritten and signed, must be in the Office of the Editor, Room 7-204, not later than noon on Thursday, prior to publication date. Material for the Calendar, December 7-13, is due December 1.

Dates and Mates

With men who prefer intellectual women it's Radcliffe two to one. Extremists dominate the campus at this liberal education school. The same characteristic may be attributed to the girls' appearance. Beasts or beauties is the fare.

Although there are very notable exceptions, the normal Radcliffe girl neglects glamour. She believes that it is much more noble to groom her mind than her body.

Cooperating with Harvard scholastically as well as socially, the girls are impressed by the "astute faculty and educators" of their neighbor institution. Harvard men, however, look down upon their feminine classmates.

Far from being affronted or discouraged by this attitude, most Radcliffe girls desire and manage to have most of their dates with Harvard men. This situation seems to be fairly well entrenched as indicated by the fact that about 80% of the Radcliffe girls who marry wed Harvard graduates. Also, married undergraduates are common phenomena, and many of the spouses are at Harvard.

The classic-mindedness of the students is exhibited in their pastimes. Music and choral groups are favorites for participation, while the lectures of visiting dignitaries are well attended. Sports, on the other hand, although compulsory for two years, do not attract general interest.

The girls practically make their own schedules and free time. Homework is largely up to the aspirations of the individual. Off campus permission is exceedingly liberal—15 1 a.m.'s per term for frosh, and unlimited 1 a.m.'s thereafter. Later hours can be arranged in almost any case where something special is due.

On dates, the Radcliffe girl prefers her escort to have a stimulating diversity of interests and to appreciate her intelligence above her appearance. According to The Tech's sources, blind dates are a very poor gamble at Radcliffe because many of the girls will not accept this method of introduction, and because the more desirable females are usually taken anyway.

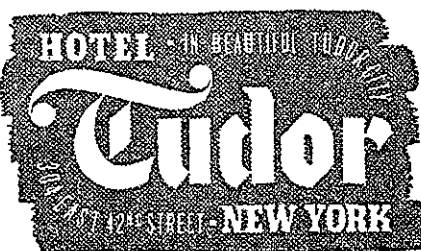

The professions such as writing, social relations and physics are popular as career hopes of the Radcliffe students. Intense individuality in their pursuits distinguish them as extremists in degrees of sophistication, but each hopes to obtain a broad background in the liberal arts.

WHA' HOPPEN' TECH'S-A-POPPIN

Pistoleers Win First Matches

Tech's '49-'50 pistol season is off to a successful start. After several weeks of practice the engineers have won their first two matches. The Beavers have seven of last year's varsity back this year along with several newcomers who have displayed great natural ability. One record has already been broken in practice; Wiston Markey fired 97 slow fire, which is four points above the old record held by George Dickson and Captain Francis Von Muller. The freshman team is one of the best M.I.T. has ever had and expects to win at least as many matches as the varsity.

For the first time M.I.T. has entered the Greater Boston Pistol League, which has some of the best shooters in the Metropolitan area. In the first match held in this

T.P. Weekend Sports Events To Usher In Winter Season

Hoopsters To Vie With B.U. Terriers

With the opening tip-off of Friday night's contest against Boston University, Coach Ted Heuchling and his basketball squad will officially open the 1949-50 season. Last year B.U. won the T.P. contest by 2 points; however, the Engineers came back to down the Terriers later in the season. Since the series began in 1903, B.U. has won 14 games; against 12 wins for Tech.

The Engineer squad has looked both hot and cold in pre-season practice, but is now beginning to jell. Under Heuchling's "platoon" system, the "senior" team will alternate with a "sophomore" five which will attempt to outrun the opposition.

B.U. has a new coach this year in Vin Cronin, former coach of Tony LaVelli and of Somerville High's New England championship squads. The Terriers have suffered considerable losses through graduation.

Beavers To Face Harvard Pucksters

Saturday night will see the Tech pucksters matching their sticks against the upriver sextet from Harvard in the initial meet of the season. This event will take place at the Boston Arena as one of the events in connection with the T.P. weekend.

The Engineers should show to good advantage in this game despite the pre-season scrimmages in which they have been defeated by Brown and B.C. These games, however, were not played at full strength and cannot be considered as previews of what is to come.

Veterans Return

A number of last year's squad are returning, including Captain Don Lea who was fourth high New England scorer last year, plus new players from Middlebury and Williams who have been obtained under the combined study plan. The seventeen men who made the squad should equal the record of last year's team and have one of the scrappiest teams in the league.

Praised by Writers

To show the reputation of the Tech squad in the newswriters circles here is an excerpt from Lennie Fowle's column in the Boston Globe, "no hockey team—not even Boston College's national champions—looked really good against the Engineers."

Following is the schedule for the 1949-50 season:

Dec. 3—Harvard	Arena
Dec. 12—Boston University	Arena
Dec. 13—Northeastern	Arena
Dec. 19—American Inst'l College	Arena
Dec. 20—Tufts	Arena
Jan. 13—Bowdoin	Away
Jan. 14—Colby	Away
Jan. 16—Tufts	Arena
Jan. 17—Northeastern	Arena
Feb. 11—Middlebury	Away
Feb. 13—Bowdoin	Skating Club
Feb. 15—Boston University	Arena
Feb. 18—University of N. H.	Away
Feb. 22—Saint Nick's	Away
Feb. 27—Boston College	Arena

The following is the probable starting lineup for Saturday's encounter:

Left Wing	Don Lea, No. 15
Right Wing	Paul Grady, No. 29
Center	M. Chisholm, No. 25
Defense	James Fuller, No. 23
Defense	Jack Bent, No. 32
Goalie	Burton Woodward, No. 26

Red Herring — "Am I my brother's Kipper?"

Riflemen To Fire Against Crimson

For the third consecutive season M.I.T. will play host to the Harvard varsity and freshman rifle teams on the Tech's-a-Poppin weekend. The Tech teams, which have made a clean sweep of the series so far, are given a slight edge on Saturday.

The varsity match, which begins at 1:30 P.M., will be Harvard's first of the season. The Beavers will be aiming for their second victory, having defeated Boston University 1394 to 1279 in their first match. Both freshman teams will be tasting their first intercollegiate competition. The Crimson have reported a talented turnout this year, and are predicting a good year for the freshmen. The freshman match will begin at 9 A.M.

NOTICE TO SENIORS

Joseph W. Saylor, Jr., general manager of the 1950 Technique, announces that all biography blanks of those Seniors whose pictures are to be in the 1950 book, must be returned to the Technique office before December 1. Any additions or corrections to these blanks by the Seniors must be made before December 10.

In addition, all proofs must be returned to Waid Studio before December 3 to insure their publication in the 1950 Technique.

Pistol Team

(Continued from Page 3)

league Tech defeated the M.I.T. Faculty Pistol Club with a score of 1290 while the faculty was posting a score of only 1233. Entering this league should provide the M.I.T. teams with plenty of needed experience in shoulder-to-shoulder matches. The score by M.I.T. in this first match is the highest fired by a Tech team in a shoulder-to-

shoulder match and is a preview of good things to come.

In the first pistol match of the season, fired on November 9, Tech easily defeated New York State Maritime Academy. The Beavers fired 1283 to N.Y.S.M.A.'s 1254. The Intercollegiate matches are scheduled to start on December 3, when M.I.T. meets Coast Guard Academy

as part of the sports events scheduled for the Tech's-A-Poppin weekend.

December 3, 1949	Coast Guard Academy	Home
December 10, 1949	U. S. Military Academy	Away
February 18, 1950	University of Mass.	Home
March 4, 1950	U. S. Military Academy	Home
March 11, 1950	Coast Guard Academy	Away
March 18, 1950	University of Mass.	Away
