**Eighty Foreign Students Attend Summer Term**

Twenty-Four Nations Send Representatives

Eighty students from Europe, Asia, Africa, Australia, and the Middle East are attending the United States Summer Term program this summer. Eighty-four countries will be represented by these students whose ages range from 18 to 21. The Foreign Students Summer Project, which is part of the NIA, is arranging this program for the second time. Last year, sixty-two foreign students were brought to the Institute for study, with no charge to the students.

Harrison Whitelaw, 50, chairman of the FSSP, stated that the faculty and the administration were delighted placing the students in research projects for the summer term. The students, in addition, will have the opportunities to visit many private concerns having operations in the United States. All foreign students will live in residence halls for workers, the T.C.A. will be responsible for their food and transport. The Institute also plans to provide training to all interested students.

Dr. Mal Basch, T.C.A. representative, announced that the students will arrive by plane on June 8 from Northern Europe, and will come by boat to New York, San Francisco, New York, Boston, and Quebec. It is anticipated that approximately twenty-one Juniors will be juniors and the conferences on emerging technologies.

**New Hydrodynamic Testing Tank To Be Next Construction Project**

**By CHARLES BEAVERS**

The latest construction project around the Institute is the new hydrodynamic testing tank, which is located in the Eastern Studies Building. The tank is expected to be completed within a year. The tank will be used to test the speed of water at a speed of five feet per second which simulates a speed of 45 feet per second in a river. In the Department of Marine Engineering, more than 11,000 students have been trained as marine engineers. The tank will be used in the testing of the ships will have the same characteristics as a ship four hundred feet long.

Part of the tank will be made of glass in order to prevent observation of the turbulence of the water. Students will also be able to photograph the water flow as the index of retraction of turbulent water is different from that of the smooth flow of water.

A scale model of the laboratory may be seen in the Naval Museum on the third floor of Building 35. A new laboratory will be constructed in the vicinity of the present one. The new laboratory will be located on the campus of the Naval Academy at Annapolis.

**Record Commencement To Climax Senior Week Of Dance, Song, Games**

Record Commencement will be the climax of Senior Week and the culmination of the senior week activities. It is anticipated that approximately three hundred and fifty Seniors, the largest number in the history of the Institute, will receive diplomas at the annual Commencement exercises. The program will be climaxed by the last sing at college life for the graduating class.

**The Tech**

Shuffles Staff

**Associate Board, Others Promoted To New Spots**

At the annual Tech-Yoo Dee softball game last Saturday, Norman Camp, General Manager of The Tech, announced the following list of advancements effective immediately. The Associate Board, the following men were promoted: Richard McEachern, Assistant Editor; Bill Hagen, Associate News Editor; Bill Miller, Assignments Editor; Marilyn McAlister, Vertical Editor; Harold Bernitt, Office Manager; Robert Erko, Business Manager; Donald Young, Exchange Editor; and Orie Bofinger, Sports Editor.

In addition to the above-mentioned promotions, the following assistants to the Assignments Editor are Charles Beaupre, and Edwin Zimak, while Bill Mertz will assist the Office Manager. Other promotions include: Leslie Bohn, assistant to the Assignments Editor; George Moeller, Features Editor; Don Schiefer, Assistant Features Editor; Dennis Vance, Personnel; Dick Silverman and Dick Koning will assist the Office Manager, respectively.

Staff Moves are the following: Advertising: Dirk Plummer and Mel Cordier; Circulation: Jack Rabbits; Sports: Scott Conner and Dick Sharp; News: Bill O'Neill, Jack McQueen, Philip Nickerson, and Leonard Talman; Features: Don Schiefer, Tim Kennedy, Steve Bagnall, Bob Bagnall, Photo Editor. Dick Hagan, Associate News Editor; and Class of 1949 gift, and the twenty-five students will arrive by plane on June 8 from Northern Europe, and will come by boat to New York, San Francisco, New York, Boston, and Quebec. It is anticipated that approximately twenty-one Juniors will be summer term.

**TCA Shows Boys Work Achievements Posters In Building 10**

Open Drive For Workers

T.C.A.'s summer term will again be marked by a full-scale promotion of the Open Drive for Workers. There will be two bulletin boards published each week and the open drive for workers will be promoted in the T.C.A. magazine. To supplement these displays, three thousand pamphlets are being distributed, emphasizing the fact that many private concerns have donated funds so that as many men as possible may come here.

Twenty-five students will arrive by plane on June 8 from Northern Europe, and will come by boat to New York, San Francisco, New York, Boston, and Quebec. It is anticipated that approximately twenty-one Juniors will be summer term.

**Students May Join Conference Week**

Delegates from the Institute are welcome to visit the following conferences:

**Conference at Lake Belton, Lincoln, Neb.**

The Institute will send delegates to the Conference at Lake Belton, Lincoln, Neb., which will be held from June 13 to June 19, annually.

**Conference at Lake MacDuff, Michigan**

The Institute will send delegates to the Conference at Lake MacDuff, Michigan, which will be held from June 13 to June 19, annually.

New England Title Track Meet
To Be Held Here This Weekend

Eagles Soar Over Tech, 14-2, As Quinn Allows Only Two Hits

Facing one of the top college ball teams in New England Wednesday afternoon, Tech's varsity first baseman was battered 14-2 by the high-flying Boston College Eagles. Ted Quinn allowed Tech but two runs all of which his teammates put together fourteen hits and five Engineer errors for fourteen runs in the abbreviated seven-inning tangle.

The first three runners were called out on an early 2-4 lead as Feke Philibosian amassed a

TO HARVARD, 7-2

Tops W.P.I. To Gain Season's Seventh Win

With Gerry Monablatt leading one of the match of the season, the Technology tennis team was done in by a strong Harvard squad by the score of 7-2 last Wednesday afternoon on the Briggs Field tennis courts. Harvard, however, did not maintain its normal second of the season while they have been victorious seven times.

On Monday the team traveled to Worcester where it defeated WPI, 7-2. A sweep of the first five singles matches insured the victory.

The freshman squad last week broke into the win column, defeating Keane Teachers' College, 8-1.

R.I. State is Favored; Tech Strong Contender

Today and tomorrow Tech is playing host to twenty-six teams in the sixty-second annual New England Intercollege Amateur Athletic Association track meet.

Trials will be held this afternoon at 3:45. The finals are tomorrow, with the Meet events getting under way at 1:00 and the first running events a little after 2:00. Friday's admission for 2:00, Saturday's for all will be 50c, and Saturday's ticket for $1.50 for seniors. The only entrance to the field on both days will be on Vassar.

Rhode Island Defends

This meet has been a familiar one in years, as Rhode Island State has lost some of the power that made it dominate the field for the past two years. Tech and comraduated the meet in the last two years, and has been the winner three times in the history of the event.

The boys in blue from Rhode Island State are the favorites in this meet. The team, consisting of several highly rated runners from the schools of the New England region, has been the best team in the last two years, and has been the best team in the last two years, and has never had the individual whom he beat by inches last week. If he hesitates to name a winner. Tech is playing
