Judicial Comm. Embarks On New Term Program

With a go-ahead signal from the Administration, the undergraduate Judicial Committee is this term embarking on a new program. The Faculty Committee on Student Discipline will continue its usual functions, but the administration of disciplinary cases which involve disciplinary action, with certain exceptions. The chairman this year is Gerald Fisch. 100.

The Undergraduate Judicial Committee was set up by Institute Committee two-and-a-half years ago, said its chairman, "primarily because its scope and responsibilities were not clearly known."

First Harvard Incident

Before the five-man committee was formed, the Institute Committee as a whole investigated and disposed of disciplinary cases, but only those cases reported to the body. However, after that body stopped months wandering over what is now known as the First Harvard Incident it was decided to organize an Undergraduate Judicial Committee to handle such cases in a more expeditious manner. Such a committee would also strengthen student government by giving it a direct voice in student discipline.

The Committee has no disciplinary
powers—it can only recommend action to the either the Institute Committee or to the Faculty Committee in Provisional Student and Discipline cases. The recommendations involving legal relationships between students and the Institute are referred to the Dean of Students for consideration by the Faculty Committee.

According to Hilton, Assistant to the Dean of Students, "It is strongly hoped that there will be agreement as to the proper discipline up to between the Faculty Committee and the student disciplinary committees. Such a process would make a sincere effort to achieve this understanding."

During the recent discussions of the Judicial Committee it was agreed that although in most cases no action would be taken by the Dean's Office without agreement between the Faculty and student committees, the necessary mechanism to go into effect in case of disapproval of the Dean's Office, or any action to be taken. The recent agreement on student discipline, for a more expedient manner. Such a committee would also strengthen student government by giving it a direct voice in student discipline."

ATTENTION FRESHMEN

Don't forget the Fourth Acquaintance Dance, this coming Saturday night at the Statler Hotel! Only members of the Freshman Class are invited. Be sure to arrive in time for the Tie and bring registration cards. Also remember that no non-freshman may be admitted.

Martha Graham And Troupe Will Appear November 2 At Cambridge Auditorium

Miss Graham says of her work, "The aim of my dancing is to impart the sensation of life, to express the sensation, to send him away with a fuller sense of his own possibilities and the power of realizing them."

According to Hilton, Assistant to the Dean of Students, "It is strongly hoped that there will be agreement as to the proper discipline up to between the Faculty Committee and the student disciplinary committees. Such a process would make a sincere effort to achieve this understanding."

CALEND A R OF EV ENTS

Wednesday, October 5 to October 11

THURSDAY, OCTOBER 6
Civil and Sanitary Engineering Department. Seminar: "Your Department and its Seminars" Dr. John B. Wilbur. Room 1-204, 4:00 p.m.
Physics Department Seminar. "Relativistic Physics" with Dr. Willard F. Libby. Room 1-204, 4:00 p.m.
Coffee will be served at headquarters from 3:30 to 3:45 p.m.

SATURDAY, OCTOBER 8
IN THE SPOTLIGHT

In The Spotlight

By DONALD BENNET

In 1888, The Pentecost Medal, one of the highest honors bestowed on chemists, was won by an M.I.T. professor, Doctor Warren Lewis, of the Chemistry Department. The citation with the medal recognized his "...creative activities as the father of modern chemical engineering."
Callahan First In The Tech Contest
Former Tech Swimmer
Had Best Predictions

Emerson Callahan '49, of Cardin-
Hall, Mass., is the winner of the
track contest conducted last week
by The Tech, and will re-
screen the prize. Callahan
correctly pointed the
Yankees and Dodgers
in their pennants, and his oth-
er predictions were closer to
the final standings than those of the
seven other entrants who also picked
the Yanks and the Dodgers.

Callahan was a member of the
Tech swimming team for four years
and graduated from the Institute
in June in Course VI-A. Since
then he has been working for the
American National Bank in Boston.

Callahan will receive instead a prize
to help him enjoy the football sea-
son, a bottle of Scotch whiskey.

THE TECH

The Beaver Barks

by LEO SARTORI

We noted with interest the AA's
announcement of the change in
position of the exhibitions to home
games of Tech teams. The question
is now, what effect will this change
in policy have on the attendance
at these home games? On the sur-
face it would seem that this would
allow charge admission prices is aimed
at satisfying rather than Tech stu-
dents, since the latter are to be
admitted free to all events. How-
ever, it is hoped that the very fact
that these contests are no longer free
to outsiders will prove to be a
psychological encouragement for
more Techmen to attend.

During the past few years, the
general support given to the
Yankees by the student body has been
poor, to say the least. When several
of the years most important con-
tests took place right on our very
doorstep last spring, plenty of Har-
vard, B.U., and other major league
partisans were present, but very
can be no Tech support were en-
deed. Attendance at home base-
ball games last spring was likewise
poorly attended. (When the New
Dorms played against the Old
Dorms in a 2-0 overtime decision over
Walker Gym.)

We noted with interest the AA's
meetings, all parties will have to
contribute to the solution. As the
committees were not made pub-
lic, the members of the student and
Faculty."

Captain Bill Holland heads the 1
squad. According to Coach Oscar
Edlund, seven men head the list|
League I. The following games were
spread over the next two weeks.

Wellesley Asks MIT For Actors

"Dark Of The Moon" Is Current Production

Tryouts for Wellesley's current "Barnswallow" production, "Dark of the Moon" by Balderston, will be held in Alumni Hall on November 11 and 12 at 7:30 p.m. Technology men are invited to try out for parts in the production, which will be presented on November 11 and 12 at the Wellesley College Theater.

The Barnswallows give three performances a year. Last year's were: "Dark of the Moon" was first presented at the University of Iowa, "Dark Square" by Balderston, played; "Dark Of The Moon" and "Antigone," by Fitz and Fitzgerald, comprised the main objectives of the Lecture Series Committee. Therefore it is necessary to charge admission at the rate of $3, $5, and $6 tax included. During this week and next week tickets will be sold in the lobby of buildings ten from 11:00 a.m. until 2:00 P.M. After that, remaining tickets will be sold to the general public through commercial channels.

New Dorm (Continued from Page 1)

The great cost of 'bringing the food' over to the dormitories was the new boarding system, whereby each resident pays two dollars a day for five days of food a week. Those who expected Walker-like food or Maggie portions were pleasantly surprised; the food so far has been appetizing, well prepared, and immaculately served in the spacious cafeteria. Residents have found that they get more than two dollars worth of food, by Walker standards, and considers the meals a bargain. A number of non-residents, in fact, have taken advantage of the cafeteria's pay-for-meals system.

So what is the over-all objective? Of course, as Table 1 shows, the very first thing to do is to acquaint the students with the staff of the Chemical Engineering Department, and the courses in Chemical Engineering given at Technology. The first in this series was given Thursday, September 29, by Professor Walter G. Whitman, head of the Department who was introduced by Professor Herman P. Meissner, Professor Walter G. Whitman, head of the Department who was introduced by Professor Herman P. Meissner, head of the Department, and the courses in Chemical Engineering given at Technology. Therefore it is necessary to charge admission at the rate of $3, $5, and $6 tax included. During this week and next week tickets will be sold in the lobby of buildings ten from 11:00 a.m. until 2:00 P.M. After that, remaining tickets will be sold to the general public through commercial channels. No dollar tickets will be available outside of Technology. The performance will be at Comstock Bridge High and Latin School Auditorium.

Glee Clubs and Symphony Will Perform "Messiah"

The Combined Glee Clubs and the Symphony Orchestra of the Institute, under the direction of Professor Klaus Liepmann, will perform Handel's "Messiah" in December 16 in Jordan Hall. Those who are interested in joining the Women's Glee Club for this occasion are invited to an audition which will take place Tuesday, October 4, at 5:30 p.m. in Room 2-199.

New Dorm (Continued from Page 1)

The building was designed to include two different levels of rental, but -this was later given some people much smaller rooms than others, with neither the architectural nor the interior. Yet these people pay exactly the same rent as the rest, a somewhat, I might say, unfortunate situation, we think.

"Ab Brendel"

All-in-all, however, the building is a beautiful and inspiring one, not only to the architects who designed it from the exterior, and those who live in it, but even in the offices in the back room.

'52 With Course X Lectures

Sophomores in Course X have been offered the opportunity to attend a series of talks designed to acquaint the students with the staff of the Chemical Engineering Department, the engineering profession, and the courses in Chemical Engineering given at Technology.

The first in this series was given Thursday, September 29, by Professor Walter G. Whitman, head of the Department who was introduced by Professor Herman P. Meissner, Professor Whitman outlined the main objectives of the Chemical Engineering Department, and the courses in Chemical Engineering given at Technology. Therefore it is necessary to charge admission at the rate of $3, $5, and $6 tax included. During this week and next week tickets will be sold in the lobby of buildings ten from 11:00 a.m. until 2:00 P.M. After that, remaining tickets will be sold to the general public through commercial channels. No dollar tickets will be available outside of Technology. The performance will be at Comstock Bridge High and Latin School Auditorium.
