Bus Buccaneers Fined $200

Tuesday Trial Closes Trios Columbus Speare

Upon a recommendation of the Undergraduate Judicial Committee of Institute and with the permission of the Dean of Students, four members of the Tech News, the official newspaper of the Institute, have been found guilty of violation of the teachers' rules and have been fined $200. The fine was assessed because one of the four students, who was not identified, was found guilty of violation of the teachers' rules and has been fined $200.

Private Branch Exchange at Tech Is The Largest in New England

by PARKER GAY

The dial telephone network which we use today was not always so simple. In the past, telephone services were provided by individual companies, and the cost of a call was determined by the number of miles between the caller and the callee. In the early 1900s, the first Automatic Switching System was installed at the Institute, and it quickly became the largest in New England.

Cast For 1950 Tech Show Announced; Maine Fishing Village to Provide Setting

The selections for the cast of this year's Tech Show have tentatively been announced. The annual picture play, a musical comedy, will be set in a Maine fishing village and will be directed by John J. O'Brien, 50, of the 1946 Tech Show. James Jones, a graduate student, will play the part of John, a handy- man, while James Jones, a graduate student, will play the part of John, a handyman, in the show. The show will be presented on Tuesday, October 25, at 8:00 p.m. in the Great Court Auditorium. The audience is invited to attend.

Cave Exploring Trip Planned By MITOC

The Outing Club is planning a trip to Ely's Cave near Pittsfield, Massachusetts this weekend as one of its major outings of the year. Traveling in an ROTC bus, the club will be accompanied by one of the members of the ROY who will lead the trip.

Tech's-A-Poppin Dates, Tickets To Be Prized For 5 Lucky Romesos

Tickets and dates to Technology's annual sports weekend, Tech's-A-Poppin, will be prizes at a rally to be held Thursday, November 19, at 12:00 p.m. in the Third Floor.

Numbers to be drawn at the rally by an Institute secretary correspond to those on leaflets dropped by Technology Flying Club planes on Field Day. Ten men without dates to TP will win Tech's-A-Poppin dates, and five women without dates to TP will win Tech's-A-Poppin dates for themselves.

Students To Hear Shapley Speak On Universal Science

Famous Astronomer's Lecture Scheduled For 10-25 November 8

Technology students and faculty have the opportunity to hear one of the world's outstanding scientists speak on Friday, November 8 at 8:00 p.m. in the Great Court. The topic of the lecture is "The Nature of the Universe." The speaker is Dr. Heber D. Shapley, the astronomer who has been recognized as one of the world's leading scientists.

The new Juniors are: George Lucas, John E. Adams, Robert F. Abbanat, Hans K. Talley, James A. Miller, John Lucas, David Vincent Ragone, Marc Leibowitz '51, Robert Maschler, James Bresee, a graduate student, and Andrew Te-an Ling. The new Juniors are: George Lucas, John E. Adams, Robert F. Abbanat, Hans K. Talley, James A. Miller, John Lucas, David Vincent Ragone, Marc Leibowitz '51, Robert Maschler, James Bresee, a graduate student, and Andrew Te-an Ling.

Norton Belicnad, V. Henry Ellenberger, Robert posters, a Blvd. Smith, Charles A. Greer, Walter Kinmum, Eyal Scher, Baron Brill, Alvin Zorn, Alan Zorn, and Wladimir E. Scher, the members of the Undergraduate Judicial Committee, the Executive Committee, and the Budget Committee.

Inst. Comm. Has Busy Day

Long Discussion Held On Budget Committee

Time ran out for the Institute Committee in its meeting last Wednesday when discussions of the budget for the Junior Prom Committee, the Budget Committee, and the Executive Committee were postponed.

The new Juniors are: George Lucas, John E. Adams, Robert F. Abbanat, Hans K. Talley, James A. Miller, John Lucas, David Vincent Ragone, Marc Leibowitz '51, Robert Maschler, James Bresee, a graduate student, and Andrew Te-an Ling. The new Juniors are: George Lucas, John E. Adams, Robert F. This past term we have made it a policy not to be so presumptuous as to deplore anyone's misdemeanors or urge anyone to behave himself decorously, and we don't intend to begin deploiring and urging again until such time as we have to come to our own conclusions. There is now a minor crisis which the committees are trying to take care of, but until matters improve it seems that unless the noise from this place is removed, there is a possibility of it becoming chronic.

I believe that some step to relieve the nearby office workers of aural strain; the continual noise level during the day is something which is not necessary. As an immediate measure, the Institute has put a sign on underclassmen as hair clipping on their head, but I believe that there is a possibility of it becoming a chronic one.

Sincerely yours,

John E. St. John
Dean of Humanities

FOR FAIR WARNING

The following item appeared in a recent issue of the BPI of the Cambridge High and Latin School:

"What say, Buildings and Power, what say?"

The answer, I think, is best given in the terms of a simple analogy. Suppose you consider a Mozart symphony and ask a few questions about it like this:

"What characters are represented? Why don't we try to understand it in terms of something familiar?"

It seems to me that the characters that are being represented are the angels and devils. The question that comes to mind is: "What are they doing?"

Booters To Face
Conn. Tomorrow
Registration-Certificate
Admits Tech Students

Tomorrow afternoon the Tech soccer team will have one of its biggest tests of the season when it runs up against Connecticut on Briggs Field. Last year's New Eng-
rund champs are having another great season, having lost but one game.

Beaver Captains Dimi Dimitriou, who was injured in the RPI game, will probably be back in the starting lineup.

The game, which will begin at 3:30 p.m., is the first for which an admission fee will be charged ac-
cording to the new AA policy.

How do you Rate
With a ROGERS' Date?

You'll be glad
when you smoke PHILIP MORRIS!

In just a few seconds you can prove
PHILIP MORRIS
is DEFINITELY LESS IRRITATING
than the brand you're now smoking!

...light up a
PHILIP MORRIS
TRULY just take a puff—DON'T INHALE—and
suddenly the smoke goes through your nose, down your throat and out...

NOW YOU KNOW WHY YOU SHOULD BE SMOKING PHILIP MORRIS!

Everybody talks about PLEASURE, but
only ONE cigarette has really done something about it.
That cigarette is PHILIP MORRIS!

Remember: less irritation means more pleasure.
And PHILIP MORRIS is the ONE cigarette proved
definitely less irritating, definitely milder,
than any other leading brand.
NO OTHER CIGARETTE
CAN MAKE THAT STATEMENT.

YOU'LL BE GLAD TOMORROW—
YOU SMOKED PHILIP MORRIS TODAY!

No Cigarette
Hangover
when you smoke PHILIP MORRIS!

Hers All You Do!

The Beaver
Barks

BY GENE LUBARSKY

There is a movement under way in the A.A. instigated mainly by Coach Warren Berg, to inaugurate a Southern trip for the baseball team next spring as a preparation for the coming baseball season. Though this is standard practice at most neighboring colleges, includ-
ing schools on the Beaver schedule, it would be unprecedented here at Tech and a move in the right direc-
tion.

This year, with the added facil-
ties the Rockwell Cage will pro-
vide, conditioning practice will be-
gin early in February, whereas in other years spring sports could not begin till March. This added month of practicing in reality will do the team good unless the boys can get into actual competition. At last year's record will testify, the Beavers sorely needed the oppor-
tunity to work together as a unit before the actual season began.

Last year, though officially the second for baseball at Tech, was really the first organized season. The first year squad had to play the varsity competition. Other return-
es who were more or less regular last season include Jack Corrie, Ozzie Honkalehto, John MacMillan and Rich Rorschach, all seniors.

This year the squad will have all five games scheduled

TUES. Dec. 20—Northeastern
Wed., Dec. 14—at Tufts
Wed., Dec. 1—W.P.I.
Sat., Dec. 10—at New Bedford
Wed., Dec. 7—at Easterly

VARSITY SCHEDULE

(Continued on Page 4)

Brevelling, as the Tech court squad works out in preparation for its '49-'50 campaign, Benson games are listed on the Beaver slate for this winter, with all but one a hold-
over from last year's schedule.

With a large number of lettermen as well as several members of last year's successful freshman squad, it looks as if Brevelling has the ma-
terial for a good team. It should certainly be an improvement over last year's outings, which won only three out of 17 games.

WMC Plans Move Of Bulletin Boards

Strategy Will Transfer Boards Toward Hayden

Plans are now being made for a revision of the present bulletin board system at "footer's day." A committee consisting of faculty members and interested students attended a meeting this week to discuss a revision of the present bulletin board system. The committee's main goal is the installation of a new system that will make it easier for students to locate the information they need.

The estimated large movement of students through the pedestrian walkway of the Memorial Library will demand that a shift of bulletin boards be made to that building. Likewise, the corridor between Buildings 2, 4, and 6 will receive a larger number of bulletin boards corresponding to the larger student flow there.

No space

The departmental boards will undergo only slight change, since they will remain within the area of their particular division. However, the two other types of boards, the official boards used by the administration and the student activity boards used for student activities, will suffer the largest revisions.

Phones

(Continued from Page 3)

not be used because, however, then the Institute is charged for a call. There is only one exception to this rule. Long distance calls cannot be dialed except through an operator in the manual switchboard room. However, when an absent-minded caller dials "9," then long distance, he is suddenly found himself talking to the arm chair operator, not to the M.I.T. operator.

When Operators Go Home

The manual switchboard still operates from 8:00 a.m. to 1:15 p.m. weekdays and from 8:00 a.m. to 12:15 p.m. on Saturdays. After the manual switchboard closes in the evening, automatic dial operation still handles all inside calls. Calls coming in from the outside are handed in a unique manner. Instead of traveling to the switchboard operator, the telephone signal is sent to the switchboard in the underground conduits where an operator receives the number and completes the call by dialing.

The switchboard was shut down in 1942 that the first automatic operating dial board was installed. All calls were handled by operators who dressed in uniforms and made a complete change in uniform in the afternoon.

Basketball

(Continued from Page 9)

season opens.

Among the leading sophomores candidates for spots on the varsity squad are Mike Stacey, Herb Glans, Larry Gerhe and Lou Lee. Other candidates include Ken Harris and Bob Jus, both of whom saw action two years ago and are rated excellent for this year due to scholastic difficulties.

More Depth This Year

The big difference between this year's five and last year's should be in depth, according to coach Heuchting. With the knowledge that they will not be forced to play close to the limit of their abilities, many of the sophomores will be able to play harder during the period of time that they are in the lineup, and this fact should improve the effectiveness of the team as a whole.

The sophomores have a lot to learn, especially in defensive play, but they have looked good in practice thus far, according to Heuchting.

The lone change in this year's schedule is the replacement of Colby with St. Anselm's College. The slate features the usual home and home series with Tufts, B.U., St. Anselm, Colby, and the annual meeting with the Naval Academy. The Blue Knights, however, have not been able to meet all their game commitments due to the many men in the service who became eligible for the Army and Navy in this year's draft.

The First Church of Christ, Scientist

The mother church includes: First Church, Fullam House, FAM, and STH, FAM, BOSTON

Sunday services (10:00 a.m. and 1:00 p.m. Sunday School 8:00 a.m., Wednesday evening meetings 7:30, which include members of Christian Scientists, and children's classes), E. Main St., Cambridge. Reading Room - 91 Milk Street, Boston, and 84 Boylston St., Little Building, downtown Boston. Phone number 5-9494. Church School at 10:00 and 2:00.

The M.I.T. Bulletin Board System

The M.I.T. Bulletin Board System consists of the following boards:

1. The M.I.T. Operator's Board
2. The M.I.T. Student Activity Board
3. The M.I.T. Departmental Board
4. The M.I.T. Administration Board

The M.I.T. Bulletin Board System is a vital part of the M.I.T. community, providing students with access to important information and resources. It is an essential tool for students to stay informed and connected. The system is regularly monitored and updated to ensure that it meets the needs of the M.I.T. community.
