The Tech

Sen. Flanders Backs Welfare Legislation

Equal Opportunities Stressed in Social Welfare Activities

Robert G. Flanders, Sen.
Hon. Robert B. Flanders, Senator of Vermont and life member of the United Nations, will address the student body Friday a subject which is of current interest: "How Much Welfare Can We Provide?" The lecture is expected to be both formal and extemporaneous talk which gave the listener a general sense that in all given area, behind the brightly illumined picture of governments' concern with social welfare.

"In the background for his topic, Sen. Flanders pointed out that the practice of social welfare is not new to us; it has been practiced for centuries to help sickens and disinterested people. But in its modern-day implementation, the type of public welfare which is sponsored by the churches and groups concerns this specific problem: how to provide as much assistance as the people can do without requiring more than financial assistance, social welfare to the dependent would be more realistic. The average citizen's income has been increased, and therefore, the costs of social services continue to increase. Social Welfare Changes "Our last great depression of the 1930's," the Senator said, "has marked effects upon the public conscience and was responsible for the first public welfare agencies were set up to help relieve the unemployed. As a result unemployment compensation came into general acceptance. Today, old and new citizens who depend on welfare are required more on other means of support.

"The social security system, which gives the average citizen a sense of security, is another example of how we have realized that the average citizen's income has been increased, and therefore, the costs of social services continue to increase. Social Welfare Changes "Our last great depression of the 1930's," the Senator said, "has marked effects upon the public conscience and was responsible for the first public welfare agencies were set up to help relieve the unemployed. Humanities Series Presents Concert

The Humanities Series, in cooperation with the Elizabeth Sprague Coolidge Foundation of the Library of Congress, will present the Schubert Ensemble on Tuesday, November 10. The concert, which will feature some of the first chamber music of the nineteenth century, is scheduled to begin at 8:30 p.m. in Room 15-100. Tickets will be available to students only at 12:30 p.m. today in the Information Office. Room 16-100. They will be free of charge, but each student is allowed a maximum of two.

Technemen Attend West Point Conf.

"U. S. Affairs" Subject Of Four Day Meetings

John O. Adams, Jr., '39, and Donald E. Elyott, '39, will be two of 138 students from 28 colleges and universities in the East who have been chosen to participate in a four-day student conference on "U.S. Affairs" sponsored by the United States Military Academy to be held at West Point beginning November 30. These students will have an opportunity to listen to expert speakers in the fields of economics, national security, political and foreign affairs and to air their opinions and conclusions in round table discussions. The speakers for the initial session will be Paul Hoffman, RCA Administrator; Grayson Kirk, Provost of Columbia University and expert on international politics; and L. A. G. Walter B. Smith, former ambassador to Russia.

This conference, which is a new experiment in student activities, is sponsored by the Academy in order to give students an opportunity to take part in an informative analysis of the current world problems facing the United States and also to broaden the students' concepts with an understanding of the world's other institutions of learning.

Television Parlor Part Of Pritchett

Television now rates a special place in the Campus. The newly formed "Student Television Association," is doing a great deal to promote and build up television in the Campus. The group is trying to promote television and to help students get involved in the field.

"The set now in the Lounge will be used for the purposes of teaching, and color television comes on the market, it is hoped that the Institute will be able to take part in the field of electronics.

Bare Shelves Receive First Books

In Hayden's Unprofitable Opening

The first books go on the shelves of the Institution's new Hayden Memorial Library, as Dr. Vernon T. Wright, Jr., Chairman of the Board of Trustees, and Dr. Nathan H. Kreiger, President of the Institute, will announce this Friday a subject which is of current interest to all students. The library is scheduled to begin at 8:30 p.m. in Room 15-100. It will provide a large space, with a set of books on various subjects, and will be used in the new room, but if the main hydrodynamics laboratory will soon have a new facility for Ship Model Tests.

New Hydrodynamic Lab To Open Soon

Features New Equip. For Ship Model Tests

Technology will soon have on campus one of the finest hydrodynamics laboratories in the East. Construction of the new laboratory will be under way on the new one-half million dollar laboratory on Varian Street next to the De Graaf Generator. The new building is expected to be finished by the end of the year, and will provide a large space, with several stories high, and will be used for research and development.

When completed, the building will contain a new chamber for testing the performance of ships. The new laboratory will provide a large space, with several stories high, and will be used for research and development.

The main hydrodynamics laboratory will be located on the first floor. It will provide a large space, with several stories high, and will be used for research and development.

A student laboratory will also include the plans for the ship model building. The building will be designed to provide a large space, with several stories high, and will be used for research and development.
Grappers Prepare For Winter Season

With the start of the season less than two weeks away, Tech's wrestling team is rapidly rounding into shape. Coach George Myerson and his muscle men have been busily practicing for several weeks. The season, which lasts from December 3rd until the middle of next March, promises to be a real challenge for Tech's matmen. The schedule includes Tufts, Harvard, Williams, Coast Guard Academy, Springfield, Boston University, and Amherst.

The varsity squad consisting of eight men will be molded around three returnees from last year's team. They are Hank Ferguson, Tom Callahan, and Capt. Will Haggerty. Rounding out the lineup will be Larry Foley, Jack Williams, Bob Christiansen, and Harry Falcao. The Tech wrestling team again will be banking on the efforts of its three lettermen returning from last year's team. They are Hank Ferguson, Tom Callahan, and Capt. Will Haggerty. "Dimi" Dimitriou, as he is known to his teammates, is a city on the island of Cyprus in the south of Greece. His soccer experience dates back to the days in grammar school and high school. It was during his years of his high school, soccer and varsity and was also captain of the soccer team at his prep school, the American Academy.

**Coaching Staff**

Coach George Myerson is the man in charge of Tech's wrestling team. With over 20 years of coaching experience, he has guided his wrestlers to numerous championships. His coaching skills and knowledge of the sport have made him a favorite among his players and fans alike.

Eames Report
(Continued from Page 1)

**The Tech**

The good-natured, unsung hero of the game this season, hitting the net in all six of the team's nine games, has helped set up many of the other goals. Although of a hand or more nearly correct, a goal is almost every one of England's during the current campaign. In one way or another, he has been the whole offense, and the defense.

Harry, who cracked the varsity ranks at Tech when he was only a sophomore, believes that the best game he has played was against Dartmouth just this year. In this contest, Harry led the team to a 6-0 win in a close battle.

Those who follow the sport at Tech often wonder what Tech would do without Harry at left wing to lead the offense, or Dann to coordinate the defense. However, this is exactly the problem with teams when next ball rolls around. Now that Harry and Dann graduate this June, the soccer squad will lose two of its best players of recent years.
