

Sailors Top Field To Take Schell Trophy For 5th Time

For the fifth time in the history of the event, the Engineers last Sunday locked the Erwin H. Schell Trophy in their trophy case for another year. Battling rain, wind, and a field of eleven other top-notch contenders, the skippers from MIT topped second place Harvard by a comfortable twenty-six point margin 205-179, at the end of the two-day affair.

High Winds Make Sailing Difficult

Sunday's stiff wind saw its share of close scrapes, featuring three breakdowns, a capsizing, protests, and a good many wet sailors. Tech skipper Nickerson had a touch of hard luck during the day when the pittle holding the rudder gave way in the seventh race. McGill's Canadian visitors also limped home

in the fifth race when the traveler gave way.

Rounding out the trio of breakdowns for the afternoon was the Crimson crew from Harvard, who, however, received a fourth place in the race on breakdown points. McGill averaged a tenth place for their breakdown score, while Nickerson received a fourth place award.

Nickerson, Fawcett Skipper For Tech

Racing for the Engineer squad were Skippers Bob Nickerson and Howie Fawcett. With Nickerson in Division A were two crews, beginning with Larry Buckland for the first six races. By then the strong winds necessitated a heavier cargo, and Dick Moroney stepped in for Buckland. In Division B, Skipper Fawcett and crew Jake Kerwin

Westbound Highway Opens On Boston Side of the Charles Plans Include Pool, Canoeway

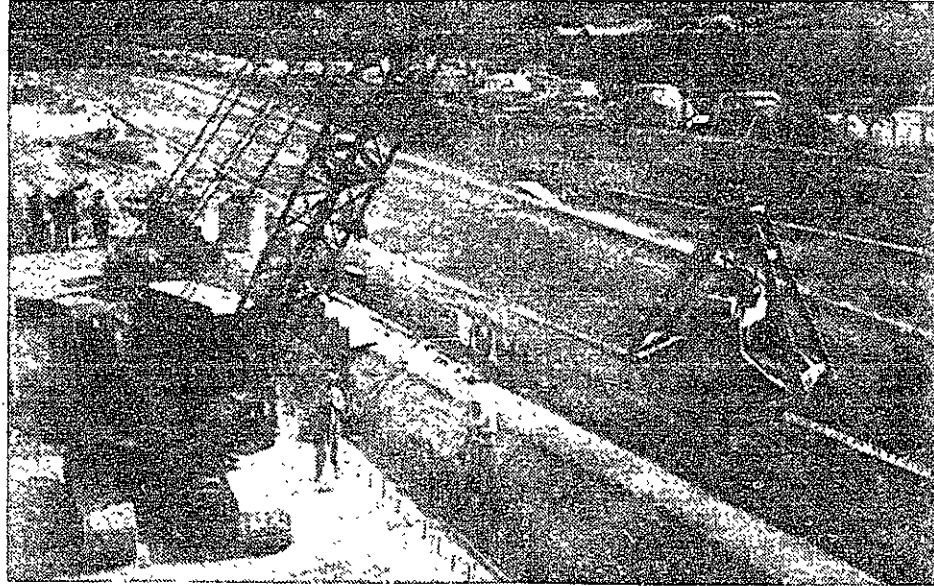

Photo by Palewonski

A view of a section of the new Embankment Highway near Harvard Bridge now under construction. On the right is shown the new road going westward, which was opened to traffic last week.

Traffic began to flow last week on the westbound lane of the James L. Storrow Memorial Drive. Undertaken by the Metropolitan District Commission of Boston, the eight million dollar development, which includes a 2½-mile length on the Boston side of the Charles River, will provide playgrounds and other athletic facilities, as well as a four-lane superhighway which is planned to relieve the congested traffic condition in Back Bay.

First work on the project began last fall when various construction firms began operations. Since then work has progressed rapidly, this being an election year, and the westbound lane is already open for use. Completion of the entire project is not expected until the latter part of next year.

NSA Has Meeting At Dartmouth; Plans Foreign Students' Tours

Six delegates from the Institute attended the National Student Association's Northern New England Regional Assembly at Dartmouth College on November 4 and 5. Over 70 delegates from the New England colleges participating in NSA activities were present.

The Assembly passed a resolution establishing a series of spring vacation tours for foreign students. It is planned to have a group of thirty students visit the important cities and colleges in New England. They will be housed on their trip by the various colleges participating with the NSA. The Institute has volunteered to take a few foreign students on tours of the Niagara and T.V.A. hydroelectric developments.

Anti-discrimination Action

At the request of the delegation from the University of Vermont, the assembly renewed its endorsement of the NSA's stand against discrimination in colleges. It was felt that this action would aid the student body at Vermont in its fight to make fraternity privileges available to all students regardless of race and religion.

Because of the lack of information on American student life in Europe and the Middle East, the Assembly voted to promote friendlier relations with foreign institutions by the exchange of information concerning student self-government, social life, activities, and publications.

Technology's delegates were Robert Arbuckle '52, chairman of N.S.A.; Frank E. Heart '51, Maurice Hedaya '51, Arthur Martin '52; Frederick Lahmann '51, treasurer of the Institute Committee; and Betty Ann Ferguson '53, the first co-ed delegate from the Institute.

Split Tickets For Prom Cost \$7.00 For Stars, \$3.00 For Bar Night

Split tickets for the separate events planned for the Stars and Bars Week-end, the Class of 1952's Junior Prom, are now on sale. A ticket for the Junior Prom formal on Friday, November 17, at the Hotel Copley Plaza is \$7.00. Highlight of the formal will be Tex Beneke and his orchestra to provide "music in the Miller Mood."

The informal "Bar Night" at Walker Memorial the following evening has tickets priced at \$3.00. "Bar Night" will feature free beer, gambling, and music by the Technicians.

Vassar Graduate Was First Woman Student At Institute

By BARBARA BEYER and ALYCE STAFF

Women who sought a college education 75 years ago were looked upon as curiosities, academic and otherwise, for in the turbulent sixties it was considered more important to educate men than women, and there was a general raising of eyebrows and tightening of lips among those who believed that woman's place is in the home and nowhere else. Yet, when Vassar opened its doors in 1865, a handful of pioneers who would not be turned from the path of their ambition, managed, some at great personal sacrifice, to enter the new college.

Five years later, the faculty of the Massachusetts Institute of Technology, which had opened the same year as Vassar, was astonished when Ellen H. Swallow, a New Hampshire girl, fresh from Vassar with a degree of bachelor of arts, calmly applied for admission as a student in chemistry.

Admitted As Special Student

On December 3, 1870, the faculty of the new technical school met and solemnly received Miss Swallow's application for admission, voting, after some discussion, to "postpone the question of the admission of female students until the next meeting."

Meanwhile, Dr. John D. Runkle, acting president of the Institute and one of the original incorporators, told the young woman that he considered the introduction of ladies to the Institute "a consummation devoutly to be wished." This encouraging information was followed a few days later by a letter informing Miss Swallow that the faculty had voted to admit her as

LAST WARNING

All Seniors who have not had their portraits taken for *Technique* have one last chance. Appointments can be made in Building 10 next Friday, November 10, between the hours of 10:00 a.m. and 4:00 p.m. Pictures will be taken next week.

Library Dept. Issues Instruction Booklet Available To Students

Anyone who wants a copy of a fifty page booklet on how to use the Institute libraries can now get one free of charge by merely signing his name. The books are being distributed at the Central Reference and Central Circulation desks on the second floor of the Hayden Library.

Included in the booklet are sections on reference sources, descriptions of the contents of Hayden and each of the branch libraries, and a section on who of the library staff to consult for particular information. The margins of the booklet are extra wide to provide room for making notes according to Vernon D. Tate, Director of Libraries.

One section of the booklet, describing reference sources, tells where to find patent material from the U. S. Patent Office. Listed in this section is "official gazette beginning with Volume 1, 1872."

Copies of this booklet are limited. Students are requested to take only one copy and to return it if they find that they do not desire to keep it. Copies of the booklet are to be had in each of the branch libraries for library use only.

Technology Voters Cast Their Ballots At Lafayette Square

Over 70 residents of Institute housing units are registered voters in Cambridge's Ward 2, Precinct 5. Seven are from the Graduate House, 25 from Westgate and 42 are students and their wives living at Westgate West. The fire station at Lafayette Sq. (halfway between the Institute and Central Sq.) is the polling place for this precinct. The Young Republican Club has organized checkers for the Republicans at this precinct.

In addition to the above, there are about 20 other students living in apartments and rooms who are registered in this precinct; and many others living elsewhere in Greater Boston are registered in their home precincts. Those who have moved within the last six months may vote in the place of their previous residence if they are registered there.

Five Traffic Interchanges

Designed primarily to ease traffic conditions, the 48-foot-wide roadway will be divided in the center by an elevated island strip of varied width. Five traffic interchanges of ramp-type construction will be situated at key points along the roadway and will enable motorists to enter and leave with ease. It is interesting to note that the cost of the Berkeley St. interchange is estimated at one million dollars.

One of the many tasks to be performed before the project is completed is the filling of 22 acres of the Charles River Basin in order to provide sufficient ground space for football and baseball facilities, as well as for the public swimming pool which is to be built opposite

British Laborite Will Discuss Communism

Mr. Norman Ian Mackenzie, youthful member of the British Labor Party and authority on socialism, in Great Britain, will speak in Room 1-190 Thursday, November 9, at 5:00 p.m., on "How to Really Stop Communism in Europe."

Mr. Mackenzie, a graduate of the London School of Economics, served in the Royal Airforce in 1941 and 1942. He then joined the staff of the *New Statesman and Nation* as assistant editor, a position he still holds. He took a leave of absence in 1947 and 1948 to cover the United States elections of 1948. During this time he taught British politics and history at Sarah Lawrence College in Bronxville, New York.

Political Articles

Last winter Mr. Mackenzie wrote a series of articles in the *New Republic* magazine dealing with some of the controversial issues of the British elections, such as *Farms and Food* and the *Welfare State*, and a post-election summary of the resulting redistribution of seats in Parliament. He has also written *Argentina*, a study of Argentine politics, and *A Short History of Socialism*.

His hobbies include sailing, music, and movie and book criticism. His wife, also a journalist, is now writing a book on the American way of life for British publication.

CALENDAR OF EVENTS

WEDNESDAY, NOVEMBER 8

- Varsity Soccer Team. Match with Brown University at Providence, Rhode Island, 3:00 p.m.
- Electrical Engineering Department. Colloquium: "Applications of Correlation Analysis." Dr. Y. W. Lee. Room 6-120, 4:30 p.m. Tea will be served in Room 6-321 at 4:00 p.m.
- Catholic Club. "Scholarship and Paul Blanshard." Reverend Thomas Tierney, Chaplain of Boston University. Room 1-190, 5:00 p.m. Everyone cordially invited.
- Inter-Varsity Christian Fellowship. Bible Study. "The Resurrection — Fact or Fiction?" Room 5-104, 5:00 p.m.
- Mathematics Society. Lecture. "Symmetric Transforms of Regular Polygons." Rudolph Preisendorfer. Room 4-370, 5:00 p.m.
- M.I.T. Marketing Club. "Marketing Problems of Supermarkets." Mr. Richard Spears, President, American Marketing Association, New England Chapter. Moore Room, 6-321, 7:30 p.m.

THURSDAY, NOVEMBER 9

- Freshman Soccer Team. Match with Brown University at Providence, Rhode Island, 3:00 p.m.
- Aeronautical Engineering Department, Mathematics Department, and Mechanical Engineering Department. Fluid Mechanics Seminar: "Air Foil Theory for Non-Uniform Motion." Mr. John Dugundji. Room 2-349, 4:00 p.m.
- Physics Department. Colloquium: "X-Ray Spectroscopy Applied to the Study of Electrons in Solids." Mademoiselle Y. Cauchois, University of Paris. Room 6-120, 4:15 p.m.
- Electric Railroaders' Association. Meeting. "Power in Transit." Mr. Robert H. Westcott, Metropolitan Transit Authority. Room 5-112, 5:00 p.m.
- Lecture Series Committee. "How to Really Defeat Communism in Europe." Mr. Norman MacKenzie, British Labor Party Leader. Room 1-190, 5:00 p.m.
- Silver Club. Dinner Meeting. Silver Room, Walker Memorial, 6:00 p.m. Hobby Night.

FRIDAY, NOVEMBER 10

- Biology Department. Applied Biophysics Seminar: "Air Flow Measurements in Human Respiration." Dr. J. Mead, Harvard School of Public Health. Room 3-408, 4:00 p.m.
- Mechanical Engineering Department. Seminar: "An Analysis of a Gimbal Thrust Bearing." Mr. Gerhard Reethof. Room 3-470, 4:00 p.m. Coffee will be served in Mechanical Engineering Headquarters, Room 3-174, from 3:30 to 4:00 p.m.
- Mechanical Engineering Department. Senior-Faculty Dinner. Emma Rogers Room, 5:45 p.m. Professor John A. Hrones will speak on undergraduate curricula. Tickets may be obtained from Miss Smith in Room 3-467.
- Technology Christian Association. Dance for T. C. A. and the Chandler School for Women. Morss Hall, Walker Memorial, 8:00 p.m. to 12:00 Midnight.

SATURDAY, NOVEMBER 11

- Freshman Soccer Team. Match with Brandeis University. Briggs Field, 2:00 p.m.
- Varsity Soccer Team. Match with Worcester Polytechnic Institute at Worcester, 2:00 p.m.
- Pershing Rifles. Maneuver for Members and Candidates. Downstairs Lobby of Building 24, 6:45 p.m.

MONDAY, NOVEMBER 13

- Cross Country. New England Intercollegiate at Franklin Park, 2:00 p.m.
- Aeronautical Engineering Department. Seminar: "Problems in Hypersonic Aerodynamics and Testing." Dr. H. Guyford Stever. Room 33-319, 4:00 p.m. Coffee will be served in the du Pont Room from 3:30 to 4:00 p.m. Open to Graduate Students and Staff.
- Meteorology Department. Seminar: "Heat Budget of the Earth's Surface." Dr. Heinz Lettau. Room 12-182, 4:00 p.m.
- Lecture Series Committee. "Human Relations in Industry." Mr. Joseph N. Scanton. Room 10-250, 5:00 p.m.

(Continued on Page 4)

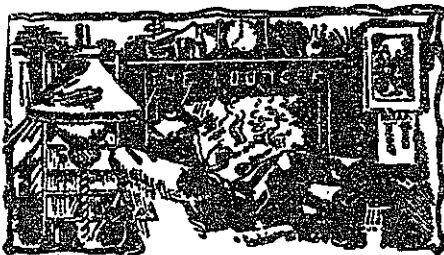

EXHIBITIONS

Lithographs of Toulouse-Lautrec will be on display in the New Gallery of the Charles Hayden Memorial Library until November 30.
 An Exhibition of Domestic Architecture of the San Francisco Bay Region will be shown in the Lobby of Building 7 through November 18.
 Photographic Salon prints by J. Elwood Armstrong of Detroit, Michigan, will be on display in the Photographic Service Gallery, Basement of Building 11 through November 19.

CALENDAR OF EVENTS

The Calendar of Events is published weekly on Tuesday in THE TECH, and contains announcements for the following week. A separate listing of the Calendar of Events can be obtained for one dollar a year, payable in advance at Room 7-204.

Announcements, typewritten and signed, must be in the Office of the Editor, Room 7-204, not later than noon on Thursday, prior to publication date. Material for the Calendar, November 15-21, is due Thursday, November 9.

By STAN BENJAMIN

Scenes that make us wonder—Several Techmen sailing balsa wood gliders of the two-for-a-nickel variety in the gathering dusk on the lawn of Hayden Memorial Library. A few had rubber-band-propeller models, less versatile, but more professional. Seemed to be having a jolly time, too. Join Course XVI today!

Give the Walker Memorial kitchen staff credit for a lot of imagination. According to a sign displayed there at dinner recently, they have cooked a "Welsh rabbit." Wonder if it's anything like Horse d'oeuvres.

Some cities run their street numbers into the hundreds of thousands, but old Boston doesn't mess around! Ask anyone from the downtown store of Joseph Antell's, marchand of fashionable shoes for ladies. Antell's address is simply Zero Newbury Street. Just zero. Well, that may be one way to try to beat the property taxes. Or was the building built for the Little Man Who Wasn't There?

Woman Grad

(Continued from Page 1)

lic service, the data from which was later used in similar investigations in all parts of the world.

Chemical Lab Established

But Ellen Swallow was not content to have the advantages of scientific education alone. She saw in the growing demand for teachers of science in high schools an opportunity for other young women, and she led the movement which in 1874 finally resulted in the establishment of the famous Woman's Chemical Laboratory at the Institute.

Technology Opened to Women

In 1877, chiefly through Miss Swallow's influence, all departments of the Institute were opened to women students. In announcing the news, Miss Swallow in a letter to the Woman's Education Association said: "Greater results have accrued from the opening of the Woman's Laboratory than could have been thought possible a year ago, since every department of the Institute of Technology is open to young women, and anyone who can pay her fees and pass the test examination can there obtain scientific education."

From that day to this, women have been welcome as students at the Institute. Many who followed Ellen Swallow in seeking scientific education, even in the face of much early prejudice, have become famous for their achievements in science.

Reviews & Previews

By SANDER RUBIN

Moliere, we understand, is a big name in French drama. No Shakespeare he by any means, his *Imaginary Invalid* is nevertheless an amusing way-stop in the rise (and/or fall) of the art of comedy. The action takes place in 1673, contemporary with Moliere, and is chiefly a vehicle for poking some not-always-good-natured fun at the medical profession of the day.

The ingredients of the farce are a hypochondriac, a hypocritical wife waiting to inherit his fortune as soon as the sick man dies, and a daughter (step-daughter to the wife) who is, of course, clandestinely in love with the wrong man. The right man, her father believes, is Thomas Diafoirus, son of a doctor and himself something of a simple-minded interne, but not without ulterior motive. A doctor in the family, Argan thinks, would be just the thing to cut down his fantastic medical expenses, health insurance not being available in that age. The step-mother, however, would like to see her daughters in a nunnery where they would have no use for their fathers' fortune. Naturally, the good people, which include Toinette and Beralde, are all for aiding Angellique's and Cleante's efforts to marry; the bad people, nearly everyone else

THE IMAGINARY INVALID

A FARCE IN THREE ACTS BY MOLIERE (PSEUD. OF JEAN BAPTISTE POQUELIN), presented by the Drama Shop at Feabody Playhouse, November 3 and 4. Argan, the invalid. Marty Miller
 Toinette, the maid. Gloria Montalbano
 Angellique, Argan's elder daughter. Kathy Peters
 Beralde, Argan's wife. Becky Wysock
 M. De Bonnetot, the notary. David Newton
 Cleante, Angellique's lover. Nicholas Markoff
 M. Diafoirus, a doctor. Benjamin Haysom
 Thomas Diafoirus, his son. Philip Bonnard
 Louison, Argan's youngest daughter. Ricki Werblow
 Beralde, Argan's brother. William Buhner
 M. Fleurante, the apothecary. John L. Bennett
 M. Furgon, another doctor. Allan Elstaz

excepting the innocuous Louison, are out to get something from the invalid.

Moliere's characterization of doctors is hardly one of the old family physician with the AMA seal of approval. Diafoirus was an ingratiating charlatan, and his son, the son-in-law-to-be was just a plain simpleton who presented his fiancée with his thesis disproving in principle, the modern theory of the circulation of the blood.

Argan did well, if a bit dramatically, with a long and difficult part; and Toinette was very good, especially when impersonating a doctor in an attempt to frighten Argan out of his hypochondria.

Soccer Team Plays UConns To 2-2 Tie

Last Saturday the Beaver varsity team battled through the mud to a 2-2 deadlock despite overtime periods while the frosh were set down 2-0.

Playing on a sloppy field covered with puddles, the Engineers drew first blood when Aguirre scored at nine minutes of the first period. The next goal came in the third quarter when the Huskies broke through to tie the game. Both teams scored in the fourth frame with the Huskies goal coming first to give them a short-lived lead until Tech hit the nets four minutes later.

Both teams battled through the rain in two overtime periods of five minutes each but neither was able to score. Aguirre, who scored both of the Tech goals now has a total of four goals this season to place him among the top ten scorers in the New England League.

The Tech lineup for the game was as follows: g, Silveston; rf, Drucker; lf, Barginiski; rh, Gutwreel; ch, Saban; lb, Eckart; or, Moran; ir, Aguirre; c, Rahmatallah; fr, Saragga; or, Chin; subs, Medal; Austen; Gonzales.

Rugby Club Plays Harvard To Scoreless Tie In Opener

In spite of uninviting weather, a considerable number of hardy spectators turned out to watch Tech and Harvard battle to a scoreless draw, in the MIT Rugby Club's first game of the season on Briggs field last Sunday afternoon. Competition was keen and although technical skill was not conspicuous, the hard-fought game provided thrills for all.

Harvard Dominates Early Play

Harvard won the toss and elected to play with the wind. Their forwards, led by Captain Granting Saleeby took the initiative against a lighter Tech pack and Pete Laxen, Tech Captain and scrum-half was hard put to get the ball to his backs. Harvard kept the ball in Beaver territory throughout the first half, in spite of good line movements by Finian and Munck.

Beaver Control Second Half

With the wind behind them, the Tech forwards began to take the

offensive in the second half. There was plenty of rough play in Harvard territory, and twice Tech was within inches of the Crimson try-line as a result of strong line movements by Finian, Munck, and Franklin. Only a spectacular tackle by the Harvard center, Adams, saved a certain score as Franklin streaked for the corner post.

The Harvard three-quarter backs, while having good material in fly-half Hutchinson, center Adams, and scrum-half Cotter, had obviously had very little practice in playing together and apart from some long individual runs failed to gain much ground. Adams, Harvard center, very nearly scored in the second half when he intercepted a pass from Munck and took the ball the length of the field to be finally caught by Whillier. Neither team could score in the closing minutes, and the game ended with no score.

Unbeaten Harriers Vie For Top New England Honors, Rally Thursday

Annual Intramural Swim Meet Will Be On J P Weekend

The MIT Swim Club will hold its annual intramural swim meet at Alumni Pool, at 2:00 p.m. the afternoon of Saturday, Nov. 18, as a part of JP week-end, Club President Dick Baker announced today. The event is not restricted to members of the club, but is open to all Tech undergraduates.

Anyone wishing to participate in this meet should contact their team Captain (see below) by 6:00 p.m. November 15th. Any number of men may enter in any given event; points will be awarded to the first five finishers in each event. In the individual events, the scoring will be on a 6, 4, 3, 2, 1 basis, while the relays will be scored 12, 8, 6, 4. Medals will be awarded to first place winners.

Last year's meet was a real thriller, with the class of '50 edging '52 by the score of 53-52½. The Juniors don't appear to be in such good shape this year, however, and on the surface the pick would seem to be the frosh, who showed a sample of their power when they squashed the class of '53 in Field Day action.

The events will be the standard ones for interscholastic meets, 50, 100, and 200 yd. freestyle events, 100 yd. breast and back stroke, diving, and two relays, a 200 yd. freestyle and a 150 yd. medley.

The team captains to contact are as follows: Freshmen—Evan Colton, Kappa Sigma. Sophomores—Tom Perkins, Delta Upsilon. Juniors—Chuck Sorenson, Fegis Club. Seniors—Bob Pelletier, Beverly, Mass.

Tech's Cross Country team will enter the NEIC3A Meet next Monday with an unblemished record, exceeding all last year's expectations. Only two veterans from last year's squad were still around when Oscar Hedlund started giving workouts last September, but with Bill Nicholson and Chuck Vickers serving as a nucleus, Oscar gathered one senior and several Sophomores to round out his team.

Nicholson Sets Record

At the end of last season Nick was elected Captain. This year he has proven to be worthy of that title, for on three different occasions he has led the team to victory. Twice he led the field at Franklin Park, when the Harriers beat Tufts and U. of Mass. At New Hampshire a week ago Friday he set a new record of 22:32.5 for the 4.2 mile course. This is traveling along at the rate of one mile in 4 minutes and 58 seconds, which is quite creditable for any cross country runner. In the New England's Nick ought to finish among the first ten.

Next Year's Prospects Good

Chuck Vickers, who, like Nick, is a junior, Carl Liswith, a senior, and two sophomores, Jerry Tiemann and Carl Swanson, have scored points for Tech in all the meets. Since the team will only lose Liswith this year, all the others should help to field one of Tech's strongest teams next season.

At the New England's next Monday Tech should place much higher than last year's twelfth. On paper only four teams, Brown, B.U., Connecticut, and Maine are favored to top the Beavers. If Tech lives up to expectations, they have something to feel proud about, since pre-season estimates branded them a poorer team than last year.

The varsity runners who will compete in the NEIC3A meet are:

Bill Nicholson
Chuck Vickers
Carl Liswith
Jerry Tiemann

Carl Swanson
Bob O'Donnell
Myles Towne
Ed Olney

The freshman runners are:

John Avery
John Farquhar
Ian Williams
Bard Crawford
Hugh Nutley
David Wones

David Howes
Tony DeCastro
Tom Gibbs
John Klingler
David Dennen

Jack Teagarden, Cozy Cole, Arvell Shaw, Barney Bigard, Earl Hines, Velma Middleton

(Continued from Page 1)

chalked up a record of seven firsts, one second, and a third place totalling 114 points to top both their division and the entire regatta for high scoring honors. In class A Nickerson, Buckley, and Moroney came in second with 91 points, four points behind Harvard ace Frank Scully.

Disappointing and surprising to the onlookers was defending champion Yale's showing. Graduations hit the Bulldogs hard last spring, though, and eleventh was the best they could do. Dark horse of the regatta was the Husky team from Northeastern. Generally conceded, although a fairly strong team in their own respect, to finish in the bottom half against the cream of the New England competition, the Huskies put on a surprising show of strength, finishing third with a score of 161.

Following the third-place Huskies were: Coast Guard, 154; Tufts, 145; and the Big Red of Cornell, with 140. On down the line on the scoring charts were Amherst, Mid-western champion Michigan, George Washington, McGill's Canadian visitors, Yale, and Middlebury.

the Massachusetts General Hospital.

When the project was first commenced, Technology fraternities facing the Charles River and other property owners on the water side of Beacon Street voiced a protest against the disfigurement of the old Esplanade. Back Bay residents may be consoled however by the extensive athletic facilities and a 60-foot wide canoe way which have been included in the blueprints of the project by the architect, Mr. Louis Moore. The canoe way will run parallel to the river bank from the Harvard Bridge to the music oval.

Reviews

(Continued from Page 2)

Some of the best acting was in the two minor parts of Louison and M. Purgon. Unfortunately, the apothecary had only one line and a fiendish laugh to perform, but he did so in a respectably sinister manner. Well-cast, and also quite well acted, were Beline, Angeliqne, and M. Diaforus. As a simpleton, Thomas Diaforus simply acted simple.

Calendar (Continued from Page 2)

Economics and Social Science Department. Graduate Economics Seminar: "Who Controls the American Economy?" Mr. Paul M. Sweezy. Library Lounge, Charles Hayden Memorial Library, 8:00 p.m.

TUESDAY, NOVEMBER 14

"EASIEST TEST IN THE BOOK"

COMPARE CHESTERFIELD WITH ANY OTHER CIGARETTE!

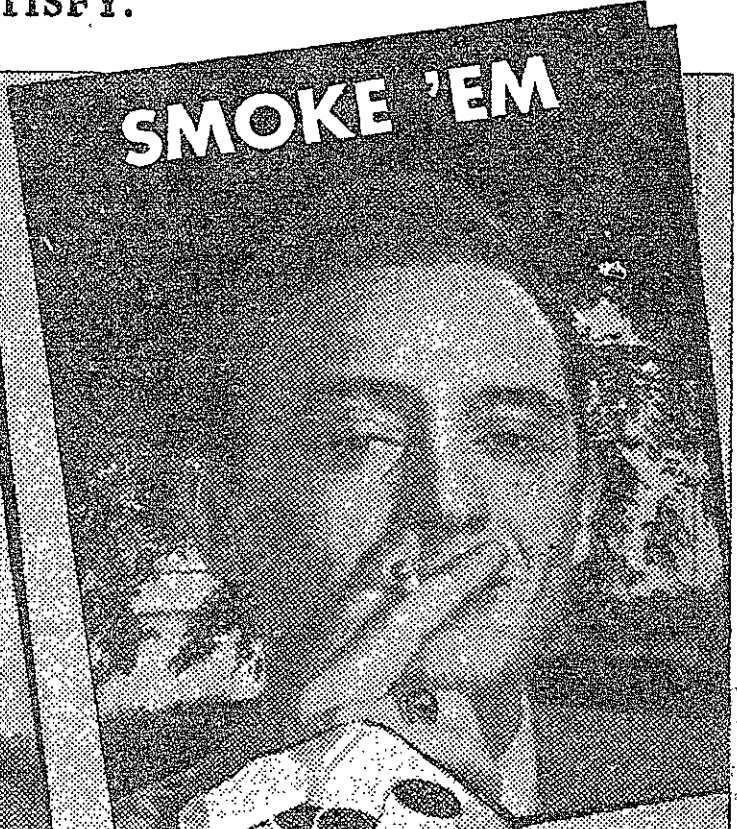

BEFORE YOU SMOKE THEM

...you can tell Chesterfields will smoke milder, because tobaccos that smell milder smoke milder.

AFTER YOU SMOKE THEM

...you have no unpleasant after-taste.

WHILE YOU SMOKE THEM you get more pleasure than any other cigarette can give you — *that's why millions of smokers say: THEY SATISFY.*
