## Class Of 1952 Issues Report Of JP Finances

The Junior Prom Committee of the Class of 1952 announces that the "Stars and Bars" Weekend of November 17-18th was successful enough profitwise to put the class finances into the black. According to a recently issued financial statement by the committee the net gain for the JP was \$433.20. The Sophomore Prom of the Class of '52 had recorded a net loss of \$416.52. These figures also include the Institute grants of \$200.00 for '48-'49, \$100.00 for '49-'50, and \$100.00 for '50-'51.

Total net income which includes ticket sales for the whole weekend, split ticket sales, with deduction for Federal Admissions Tax, and unredeemed options was \$3188.50. Total net expenditures which includes first night, second night, and general expenses was \$2755.30.

An important item under expenditures was Tex Beneke's Band which cost \$1500.00. Rental of the Hotel Copley Plaza came to \$400.00. Total expenses for the first night were \$2084.41, for the second night were \$553.66.

## Amer. Youth Hostels Offer Free Journey

Officials of American Youth Hostels recently announced that they are offering a trip to Europe next summer to the author of the best essay on "Why I Would Like to Go Hosteling in Europe."

The winner will spend eight weeks abroad, all expenses paid, from about June 15 to September 1, going either to the British Isles, Central Europe, or France and the Rhineland, as he chooses.

The essay must not exceed 1,000 words and the deadline for entries is April 15, 1951. Full information and application forms may be obtained from National Headquarters, American Youth Hostels, 6 East 39th Street, New York 16, N. Y.

Hostelers travel mostly by bicycle carrying their clothing and often their food in saddlebags. Expenses are low, seldom over \$1.50 a day, because of the low-cost overnight accommodations available to them.

## "India—World's Third Power" Says Sheehan in LSC Speech

"India is a third force in the world today. A force for peace that will not give up, be rebuffed or discouraged," said Mr. Vincent Sheehan last Wednesday evening.

Speaking under the auspices of LSC, Mr. Sheehan said the force was not one of physical might but that of a great moral and spiritual search for peace as was exemplified by Mahatma Gandhi. Mr. Sheehan, a recognized authority on modern India and Mahatma Gandhi's life is the author of the recent "Lead Kindly Light" a biography of Gandhi.

India, he continued, refuses to align herself with either communism or capitalism. She insists upon walking the middle line and will not sign military alliances with any nation, a policy the United States followed for its first 160 years, Sheehan pointed out. India must follow this policy for two reasons: (1) the purely practical

## HUMANITIES AIRED ON WMIT

Photo by LUTZ

Pictured above at the W.M.I.T. Humanities forum are, from left to right, Professor Douglass V. Brown, Dave Grossman, '51, Provost Julius A. Stratton, Professor Warren K. Lewis, Thomas G. Hagan, '51, Professor Walter Whitman, and Sander Rubin, '51.

"In 1947 the faculty realized that the Institute was in a new era, a different era from that of the '30s. There was a fear that sponsored research here at M.I.T. might become the tail that wagged the dog, and there was the problem of the function of a technical man in the modern world," stated Professor Warren K. Lewis in a forum broadcast over WMIT Wednesday night.

Participant in the "Lewis Report Forum" were Dr. Warren K. Lewis, Prof. Walter G. Whitman, Dr. Julius A. Stratton, Thomas G. Hagan '51, Sander Rubin '50, and David A. Grossman. Professor Douglass V. Brown was moderator.

Dr. Lewis' statement was a reply to a question by Mr. Hagan. In asking his question Mr. Hagan said, "The all embracing scope of the work of the Survey Committee indicates that this was much more than a 'post-war re-evaluation'."

Discussion continued about the recommendations of the Lewis Report and whether or not a five-year curriculum was implied.

Dr. Stratton, commenting on this, stated, "In the argument of four years of education as against five, we fall into the trap of quantizing education. In my mind an engineering education goes on for a lifetime and four-or five-year limits merely provide convenient halting places where a man can stop and take

stock of where he is going."

An opportunity for creative thought was considered by the members of the forum to be important in the education of engineers who are to attain the top in their respective fields. In the course of the discussion it was brought out that too often science leaves no opportunity for the expression of the creative talent of students since in technical courses answers to problems are either right or wrong.

Three major points were brought out during the course of the evening. The Lewis Report has produced results. The formation of the committee on Undergraduate Policy, formation of the Humanities School, and more faculty interest in Institute problems.

Secondly an engineering education merely provides a background training and that acting experience provides the rest. Thirdly, that creative thought is important in an engineering education and that research is essential to provide a portion of that creative thought.

## \$5394 Donated To Baker Mem. Drive; Alumni To Contribute

The Student campaign to establish the Everett M. Baker Memorial Foundation has to date obtained contributions from approximately 1,700 people, to reach a total of \$5,394.00.

As part of the overall campaign, plans are now being made to allow faculty and alumni participation in the establishment of the Foundation. Although personal contact will not be utilized for these groups, letter contact will be made with

All contact men, team captains and division captains are urged to make their final report at 5:00 p.m. today in Room 2-190. It is very important that the student campaign be closed out tonight.

members of the faculty and alumni of recent classes. Furthermore, the M.I.T. Committee on Finance and Development has agreed to allow alumni or faculty members to earmark any portion of their CFD contribution, already contributed or yet to be contributed, towards the Baker Foundation.

The Steering Committee has announced a change in the By-Laws

(Continued on Page 4)

## Pres. Killian Heralds School Of Humanities

M.I.T.'s fourth school will have the responsibility for providing the strongest possible program in general education for students studying in the fields of science, engineering and architecture, and in addition will be a center for creative and professional work in such social sciences as economics, which are appropriate to an institute of technology, said Dr. Killian announcing the establishment of a School of Humanities and Social Studies.

This new school gives formal recognition to programs long emphasized here in general education and in social science.

Dr. Killian also announced the appointment of Professor John E. Burchard as Dean of the new school, which will have equal status with the Schools of Science, Engineering, and Architecture and Planning. Dean Burchard since 1948 has been Dean of the Division of Humanities, which is now replaced by the School of Humanities and Social Studies.

### No A.B. Degree

In making the announcement Dr. Killian emphasized that the creation of the new School of Humanities and Social Studies "does not mean that M.I.T. plans to develop a school or college of liberal arts or to give degrees in the liberal arts."

"We shall remain an institution of limited objectives, offering as we have for many years a program centered around science, engineering, architecture, and management. The new School is designed to enable the Institute to broaden and deepen its activities in these fields and to educate men who can be effective citizens as well as effective professional practitioners," Dr. Killian said.

The new School of Humanities and Social Studies and new sequences in humanities for the professional programs of M.I.T.'s other schools were both recommended by an M.I.T. faculty Committee on Educational Survey in its report made public in September, 1950.

The faculty, Dr. Killian reported, has approved plans for the integrated program of humanities in

## The Tech Holds Christmas Party, Closes 70th Year

Volume LXX of The Tech closes its activities with this issue and a staff party tonight at the Hotel Kenmore. Managing and Junior Board members will hold a banquet in the campus room of the Graduate House earlier in the evening.

Promotions to the Managing Board of Volume LXXI will be announced at the banquet and the new Junior Board will be disclosed at the party. The present Managing Board will continue to put out the paper before going out to stud at the end of the term.

To be held in the Empire Room of the Kenmore, the invitation party will feature a Christmas theme with dancing and additional entertainment. Chaperons will include several Institute staff and faculty. In celebrating its seventieth anniversary, the newspaper is distinguished as the oldest activity on the campus. At the close of Volume L, the paper banqueted at the Hotel Statler, and all the Boston newspaper editors were present.

## "Educate The Public," Says Dr. Killian In Talk To Journalists

"... Peace and freedom and individual rights go hand in hand. And freedom of information has been called 'the touchstone of all freedoms to which the United Nations is dedicated, without which world peace cannot be preserved.'"

Such was Dr. Killian's opinion on freedom of information expressed Tuesday evening during an address to the Brotherhood Temple Ohabei Shalom in Brookline.

Concerning the education of the

### CHEER!

To those students remaining at the Institute over the holidays, President and Mrs. Killian extend a hearty invitation to drop in at the President's House, 111 Memorial Drive, between four and six o'clock on Saturday, December 23, for a cup of Christmas Cheer.

masses, Killian said, "If the purpose of a free society is to enable men to develop as individuals and to participate in the decisions of the day, education and information are of essential importance. We have recognized this. In the United States, we have mass education and mass journalism on a scale beyond that to be found in any other country. But our very success in this respect has raised its own problems, problems with which both journalism and education are confronted. "Can we take care of the mass without a steady drop in quality? Is there perhaps a need for more

## EE Society Initiates 25 Students, Faculty At Annual Banquet

Last Friday evening the M.I.T. Chapter of Eta Kappa Nu, the National Electrical Engineering Honor Society, held its fall initiation and banquet. Both students and members of the faculty were included in the ceremony.

The initiated faculty members were: Lawrence B. Arguimbau, Gordon S. Brown, Thomas F. Jones, Jr., William K. Linvill, and William H. Radford.

The following seniors were initiated: Thomas Clark, Jr., Gilbert W. Bett, Richard G. Counihan, Daniel R. von Recklinghausen, Melvin L. Stone, William T. Peake, Julius Leonhard, Henry P. Hall, Frank E. Heart, Charles Heiken, Elliott Cutting, John W. Craig, Jr., George R. Pflasterer, Jr., and Bronislaw Smulowicz.

Also initiated were the following Juniors, and therefore "honor" members: James S. Bomba, John T. Fitch, Phillip L. Fleck, Jr., Charles W. Poppe, Robert H. Scholmann, and Herbert M. Teager.

### A SKATING RINK

Walking through the corridors of Hayden Library last week, our eye was caught by a paper sheet attached in impromptu fashion to one of the glass doors leading into the central court. Upon further scrutiny it turned out to be a petition, already adorned with fifty signatures, to utilize said court as an ice-skating rink. From the manner in which it was hung and written, it was apparent to us that the petition was instigated by the students themselves. This is the remarkable aspect of the business, for seldom if ever does any display of interest in the school's physical plant or policy come spontaneously from our usually lethargic undergraduates. Looking objectively at the proposal it struck us as being not without merit. The idea of making existing facilities function with maximum utility is a practice worth cultivating.

The enthusiasm, while commendable, is slightly misplaced. The Tech, to determine the feasibility of the project, called on the Department of Buildings and Power and others in places of authority in the Institute's administration. The results of this investigation pointed up the impracticability of converting the courtyard into the proposed rink, the major difficulty being the present susceptibility of the courts to leaks which would be injurious to the volumes stored in stacks below.

It is, however, entirely possible that if student opinion persisted to manifest itself as strongly as it has in favor of an ice-skating area a space could probably be found on the west campus to accommodate it. All that is needed is continuance of this active campaigning on the part of those interested. We may be able to enjoy ourselves on our own grounds yet.

## Letters to the Editor

Dear Sir:

If ever I read a distorted article, Ed Leonard's column about Katie Gibbs could take a prize for being the best. Not only is their yearly tuition \$300.00 less than ours, but the "chain" (four) of Gibbs schools is about as exclusive as the local A & P. The school is successful, just as any secretarial school would be, looking at the present demand for their product.

But what takes the cake, and this is where Mr. Leonard allows himself to be carried away with himself, is the reference to "social finishing which a majority of Gibbs girls have acquired." After better than four years' experience, I come to the conclusion that the vast majority of Gibbs girls are neither poised, nor sincere, and least of all have absolutely no "sense of social position." A great number of the Gibbs girls, being unable to enter college because of poor scholastic record, choose this secretarial school as a last resort. It goes without saying that the girls would rather cut off their right arm than to admit this. May this be a warning to anyone having connections with the Gibbs school. I wish I had read it a few years ago.

Peter H. Keller, '51

Dear Sir:

I am writing this letter in regard to the *Dormitory Doings* column in the December 8 issue of *The Tech* in which the breaking of the dormitories down into permanent units for sports was discussed.

It is true that the Intramural Vice-President, Bill Shenkle, has requested that some system of dividing the dormitories into units be recommended to the Intramural Council by the Dormitory Committee Chairman, Don Schlatter, and myself. However, the statement that, "The Intramural Council attributes this move to the recent upsurge of power of Dormitory teams," is a misrepresentation of the facts. The council is not trying to break the power of dorm teams by dividing the dorms into small units as the column implies but rather is trying to set up an equitable system whereby the intramural points won by a dormitory team will accrue to the team itself and not to the House (such

as Baker House, East Campus House, and Riverside House) which the team represents. Under the present system—that of allowing any group within a House to play ball together—it is difficult to distribute intramural points to any definite team since a group of fellows who participate in one sport together do not necessarily participate in all sports together. Since each fraternity usually fields only one team for each sport while each dormitory house fields several teams, the chances for the several House teams to win points for the House which they represent are theoretically much greater than are the chances of one fraternity team to win points for the fraternity. The above reason is, to the best of my knowledge, the only reason for this breakdown of dormitory houses into smaller units. It is, I believe, a thoroughly justified reason.

The Dormitory Committee did pass the motion that it, "... refuse to permit the Houses to be divided into permanent units for the purpose of competition in the intramural athletic program," as was claimed, but the words "permanent units" should have been emphasized since they were the crux of that motion which I proposed. While I feel that a breakdown of the Houses into smaller units is in order, I do not think that it is fair to the dormitory residents to set up a permanent breakdown. I believe that the opportunity to play ball with fellows one knows and likes is an important part of the intramural program and the setting up of permanent groups within dormitory houses would deprive dorm men of this opportunity since it is not always possible for a group of friends to obtain rooms on the same floor or even in the same unit. I think a fairer system would be to have dorm residents submit a roster at the start of the school year of say thirty or forty men who would like to play ball together. These rosters would be in effect for the entire school year and one team for each sport would be fielded from each ro-

ter. This system would still give dorm men the chance to play ball with men of their own choosing and intramural points (when won) would be awarded to the group. Under this system, the intramural managers would be able to plan their schedules earlier since the number of dormitory teams participating in each sport would be determined from the original number of rosters submitted.

The increased interest of dormitory residents in intramural sports and the success of the Senior House and Baker House teams are very encouraging; I think it is time that the dormitories took an active part in intramural sports. However, I think it is ridiculous to say, "It is too bad to have to bring this up just when we started winning." There was no need to bring the matter up previously since the dormitory teams were never serious contenders for intramural points. Now that the teams are winning the problem of how to apportion the intramural points has presented itself. It should be clear that without winning teams there is no problem.

Since Bill Shenkle, Don Schlatter, and myself were the three individuals most directly concerned with this matter, I was very surprised that none of us was contacted for information. If this had been done, any one of us would have explained the facts and avoided the present disputes and ill feelings in dormitory and fraternity circles which were brought on by the

By STAN BENJAMIN

The East Campus has a white elephant in the form of its thousand-odd dollar television set. Originally located in the Burton Room, the set was recently moved to a position in Ware East to leave the spacious Burton Room available for dancing (and to cut down the havoc wrought on the furniture by the heedless T-V viewers.) But the inhabitants of Ware, annoyed by the noise and crowds that accompany the set, have relegated it to its present position in the basement of Crafts. And where next? The following is an excerpt from the minutes of the December 7 meeting of the East Campus House Committee:

"Moved that the East Campus television set, now located in Crafts basement, shall be moved to a permanent location in the Ware West Lounge.

Seconded.

Move to Amend to read 'In the Burton Room'.

Defeated.

Move to Amend to read 'Shall be left in Crafts provided the room be painted, suitably furnished, and adequately ventilated.'

Moved to table the entire discussion until a report from an investigational committee be obtained.

PASSED.

Investigational committee ap-

### Beaver Squash Team Blanked By Powerful Harvard Squad 9-0

On Wednesday the squash team from Harvard came downriver and took over the Tech aggregation by a score of 9-0.

The Crimson squad is one of the strongest in this part of the country. In three games not one of their members has lost a match. The Johnnies have taken over both Dartmouth and McGill by scores of 9-0 and 7-0, respectively.

Included in the Crimson lineup is Foster who is ranked as the sixth best squash player in the entire state of Mass. He was able to down Rudzinski, Tech's number one man, in three straight encounters.

- Foster (H) defeated Rudzinski (M.I.T.) 15-8, 15-7, 15-7
- Clarke (H) defeated Rumpy (M.I.T.) 15-5, 15-12, 18-17
- Nawi (H) defeated Potter (M.I.T.) 17-14, 15-7, 15-9
- Clifford (H) defeated Malani (M.I.T.) 15-5, 15-4, 15-10
- Watts (H) defeated Geisler (M.I.T.) 15-11, 15-7, 15-7
- Hoar (H) defeated Ruangleck (M.I.T.) 15-10, 15-5, 15-5
- Muganeth (H) defeated Vaughn (M.I.T.) 15-8, 15-6, 15-12
- Flagg (H) defeated Silveston (M.I.T.) 15-7, 15-11, 15-7
- Symes (H) defeated Geisler (M.I.T.) 15-3, 15-3, 15-3

### Tech Sharpshooters Take On Coast Guard

The scheduled rifle match with B.U., last Saturday, was forfeited to Tech. The next scheduled match will be this Saturday at the Coast Guard Academy. On Friday night the Beaver squad of Voelcker, Tarnier, Bower, Hartung, Champeny, McCoy, Stuart, Zartarian, Auer and MacDonald will leave for New London, where they will see the Beaver basketball team in action that night. On Saturday morning the big match of the New England loop will be fired. Tech is the favorite for this match which they won by two points last year to break a long Coast Guard winning streak.

### TRACK PARTY

The Institute track team will hold its annual Christmas Party tomorrow at Briggs Field House. The party will include a handicap meet, refreshments, and a "grab bag" of gifts. Members are requested to bring a twenty-five-cent gift of some kind.

### Intramural Results ...

In league I, Baker House, who was tied with Phi Kappa Sigma for first place lost to Delta Kappa Epsilon 18-12, to put the Phi Kap's in the league's top slot. Kappa Sigma beat Delta Tau Delta 12-8, while Phi Kappa Epsilon overcame Kappa Sigma 23-12. In league II, the tie between Theta Chi and the Chinese Club for first place was broken when the latter dropped their last game to Phi Mu Delta 33-20.

In league III league leader Sigma Nu took an easy one from Bemis-Hayden by default, Sigma Chi won two games, one by forfeit from Bemis-Hayden and the other 42-17 from the 5:15 Club. In league IV Dorclan dropped two games, one to Alpha Tau Omega 38-28 and the other to the Grad House 29-17, who is still in this league's top slot.

In league V the Student House defeated Riverside 29-13 and league leader's Sigma Alpha Epsilon overcame Phi Kappa 48-16. In league VI there was a double default in which Phi Sigma Kappa and the Riverside Staff both lost.

## Six Technology Athletic Squads Will See Action In Contests Before Xmas

A total of ten athletic contests are on tap for Technology's six winter sports squads these next few days before the start of Christmas vacation.

The basketball team has three games scheduled including a two-game trip to New York. On this trip, the Tech hoopsters will engage the Coast Guard Academy at New London tonight, will sleep over in New London and then travel to Hoboken, N. J., to tangle with Stevens Tech tomorrow night. However, on Tuesday the cagers will be back on home grounds taking on Northeastern. The game will be broadcast by WMIT starting at 8:15. The basketball team's record to date is one victory against two setbacks.

### SPORTS SHORTS

Coach Roy Merritt, head coach of the wrestling team, has started a "wrestler of the week" competition. Roy picked Dave Findlay for the honor in the Springfield meet and gave it to Chuck Seymour for his work against Harvard.

When Tech takes the court tomorrow night against Stevens, it will be the eighth game between the two schools.

Tech's hockey team will also be seeing plenty of action. Tonight the pucksters will hook up with Northeastern at Boston Garden starting at 7:00 in an attempt to rack up their first win of the season. They have lost twice. On Monday BU will supply the opposition for the Tech sextet at Boston Arena also starting at 7:00.

### Swimmers In Action

Another squad that will be looking for its first victory of the season will be the swimming team. The mermen take on Wesleyan tomorrow at Alumni Pool starting at 2:00. Thus far the natators have been downed twice, once by Amherst and the other time by Brown.

Tech's grapplers will travel to Medford to take on Tufts tomorrow. The wrestlers also are looking for win number one after dropping two close decisions to Springfield and Harvard.

The rifle team which has yet to taste defeat will travel to New London to take on the Coast Guard in one of the most important matches of the season. On Monday Tech's sharpshooters will be back at the Institute taking on Vermont at the rifle range starting at 3:30.

And finally the Freshmen Squash team will engage the Union Boat Club this afternoon on the opponent's home courts.

differentiation among institutions, especially among those that attempt a mass coverage, and those that are the pace-setters, the standard bearers, and the small quality institutions? Are we succeeding in our job of helping our citizenry to become well enough informed and well enough educated to carry out their responsibilities in a free society?"

**Great Responsibility**

Dr. Killian went on to reflect that American voters have a tremendous responsibility and should be better informed on all major issues . . . issues which have effects far beyond the local community.

He elaborated on the point in saying, "I am inclined to believe that one of our great troubles today, one of the causes of a general loss of faith in man's ability to meet the demands of freedom, lies in our slowness in solving the enormous problems of information and communication which the rapid increase in specialization and our progress in all directions has posed."

Concerning an institution's responsibility concerning freedom of information, Dr. Killian said: "Our scholars and specialists have an urgent responsibility to make themselves understood, to translate the jargon of their specialties into negotiable ideas and language. In a democracy, scholarship should come out of its ivy tower."

"On matters of public concern we must try in every possible way to increase discussion and exchange of views. We need more of such devices as convocations and Colum-

professional technical curricula, to include:

1. A two-year sequence of courses in humanities and social science, to be a required part of the freshman and sophomore years of all professional courses.

2. Four additional courses in these fields during the junior and senior years of all professional courses, with provision for six such courses for students who wish to devote more time during those years to the humanities and social sciences.

"Our purpose," Dr. Killian summarized, "is to give men professional competence and at the same time an insight into the society in which they live and to which, as scientists and engineers, they will have great responsibilities."

"We hope," he said, "to make significant contributions in those fields which require the close relationship between science and engineering and social science and the humanities which exists here."

of the Foundation. The effect of the change is to remove the restriction that the Graduate member of Baker Memorial Foundation Committee (yet to be picked for this year) must have been an undergraduate at Technology. Any Graduate student can now fill this post.

Any students who have not, for one reason or another, been personally contacted by a member of the campaign staff by this evening will be reached by mail in the near future.

**TECHNIQUE PORTRAITS**

Size of Picture	Price
3 1/2 x 5 1/2	\$10.00 1 dozen 8.50 1/2 " 7.50 1/4 "

4 1/4 x 6 1/2	\$14.00 1 dozen 12.50 1/2 " 10.50 1/4 "
5 x 7	\$17.00 1 dozen 14.50 1/2 " 12.50 1/4 "
6 x 8	\$22.00 1 dozen 17.50 1/2 " 13.50 1/4 "
8 x 10	\$32.00 1 dozen 22.50 1/2 " 17.50 1/4 "
Application prints (If with an order)	\$4.00 1 dozen 3.00 1/2 "
(If not with an order)	\$5.00 1 dozen 4.00 1/2 "

Sitting fee deducted on orders of \$10.00 or more. Coloring \$2.50 per print. If you have paid any variation from these prices, call Sargent Studios and they will correct the error.

**NOTICES**

**All Students**

The International Association of M.I.T. invites you to its open meeting at 5:00 p.m. on Friday, December 15, 1950, in the New Faculty Lounge, Hayden Memorial Library. Dr. Karl T. Compton will speak on, "Science Is International."

Refreshments will be served.

**Students From Memphis**

Southwestern-at-Memphis is holding the annual Intercollegiate Forum on their campus December 27, 1950, the subject of which is "Education East and West." All those interested notify Erlene Downs, Chairman of Intercollegiate Forum, Southwestern-at-Memphis, Memphis 12, Tennessee.

**M. E. Dept.**

The second Mechanical Engineering Dept. Senior-Faculty supper will be held in the Emerson Room Monday, Dec. 18, 1950, at 6:00 p.m. A discussion of "course spirit" will be led by a panel of students and faculty. Tickets may be obtained from Miss Smith.

reason that her neighbors are too strong for her to risk a conflict with them and (2) India is dedicated to peace or whatever peace may be obtained by the principles with which she gained her independence from Great Britain. Prime Minister Pandit Nehru has said that his government will judge each question on the basis of its own merits and will not be swayed by Russian or U. S. influence.

This policy, says Sheehan, offers "some 'ray of hope' in the present world situation."
