I am trying to find men for jobs, I have suspected that the good man sporting proposition. Since I have had later experience in taking to operate the chemistry department for the year and also absence, plus the amounts which we were then receiving as allowed for filling the chemistry professor's position in his time gaining both experience and a little money as substitute. I had taken and enjoyed all the chemistry courses offered at the College. Furthermore, the young man who had subbed. I was living in our home, I saw the bulletins which he re-...
CALENDAR OF EVENTS

APRIL 12 TO APRIL 18, 1950

WEDNESDAY, APRIL 12

Admissions Office. Guidance Conference for Combined Plan Students. Speakers at opening meeting: Dr. Julius A. Stratton, Dean Everett Moore Baker, and Dr. Vernon D. Taise. Library Lounge, 9:45 to 10:15 p.m.

Technology Matrons. Tea. The Matrons will be guests of Dr. Vernon D. Taise in the new Hayden Memorial Library from 5:00 to 5:30 p.m.

Admissions Office. Guidance Conference for Combined Plan Students. Tea for conferees and faculty department representatives. Moore Room, 4:00 to 4:30 p.m.

Meteorology Department. Seminar: "The Distribution of Horizontal Dust Industries." Room 2-355, 5:10 p.m. Open to members only.

American Institute of Chemical Engineers. Student Chapter. Panel discussion: "Soil Solidification." Dr. T. William Lambe. Color film of field tests and test specimens will be shown. Room 1-39, 6:00 p.m.

Library Lounge, Hayden Memorial Library, 5:00 p.m.

Fighting Midgets. Meeting of team. Room 1-087, 5:00 p.m.

American Institute of Chemical Engineers. Seminar: "Coal," with Dr. Samuel J. Sands. Room 6-120, 8:30 p.m.

THURSDAY, APRIL 13

Technology Dance. Guided tour through Harvard University buildings and grounds, followed by tea at the University Club. Meet at Massachusetts Avenue entrance to M.I.T., 2:00 p.m.

American Society of Civil Engineers, Student Chapter; Graduate Students' Association. Seminar: "Soil Solidification." Room 6-120, 5:00 p.m.

American Institute of Chemical Engineers. Seminar: "The Chemistry of Industry." Center for Advanced Study in the Behavioral Sciences. Room 2-390, 6:00 p.m.

American Institute of Chemical Engineers. Students' Chapter. Panel discussion: "The Chemical Engineer in Industry." Center for Advanced Study in the Behavioral Sciences. Room 2-390, 6:00 p.m.

Library Lounge, Hayden Memorial Library, 5:00 p.m.

Fighting Midgets. Club meeting. Colorad Room, Room 1-250, 5:30 p.m.

Musical Club. Installation banquet. Campus Room, Graduate House, 6:00 p.m.

FRIDAY, APRIL 14

Lecture Series Committee. A lecture on "The English Drama" by Peter Viereck, Professor of English, St. Rokeby College and 414 Pullitzer Prize winner. Room 10-315, 1:30 p.m.

Debating Society. Varsity debate with City College of New York. Resolved: "That the United States Nationalize the Basic Non-Agricultural Industries." Room 2-134, 7:00 p.m.

Admissions Office. Guidance Conference for Combined Plan Students. Speaker at evening meeting: John J. Burkhart, and Professor Ivan J. Geiger. Library Lounge, 7:30 to 9:30 p.m.

Saturday, April 15

Walker Memorial Student Staff. Informal dance. Walker Memorial, 7:30 p.m.

SUNDAY, APRIL 16

Monday, April 17

Technology Dances. "Children's Rooms." Mrs. Gregory Kogos, Emma Rogers, Room, 10-135, 6:00 p.m.

Mechanical Engineering. Department. Moving Picture. "Magic of Steels." Room 1-338, 4:00 p.m.

Meteorology Department. Seminar: "The Distribution of Horizontal Dust Industries." Room 2-355, 4:00 p.m.

American Institute of Chemical Engineers. Seminar: "Gas Dynamic Flows." Dr. Jacker H. Shapiro. Room 6-120, 4:00 p.m. Coffee will be served at Headquarters, Room 3-174, from 3:50 to 4:30 p.m.

Tuesday, April 18

Elections (continued from Page 1)

Candidates for Class of '51 offices may be identified as follows: President: (1) Robert W. Mann; (2) Donald A. Cherry, Secretary: (3) Henry Simmer, Jr. (4) John T. Weener; (5) Sander Rubin; (6) William D. Barcan, Jr.

Candidates for Class of '52 offices are: President: (7) Arthur A. Winquist, '53; (8) Thomas S. Higgin; (9) Walter J. Johnson, Secretary: (10) Margaret E. Ford; (11) Arthur M. Roseburg; (12) Stanley J. Marocwitz.

Candidates for Class of '53 offices may be identified as follows: President: (1) Robert W. Mann; (2) Donald A. Cherry; (3) Edward J. Margulies; (4) Waldo Newshouser, Secretary: (5) Kenneth A. Janssas; (6) Stanley L. Barron.

Candidate for Class of '54 offices are: President: (7) Mildred O. Blower; (8) William E. Perreuel; Secretary: (9) Betty Ann Ferguson; (10) Richard M. Jeffs.

CANDIDATES FOR '50 AND '51

For Permanent Secretary
John T. Weener, Cum, 3.36; William Memorial Student Staff; M.I.T. Catholic Club (Secretary, Treasurer, Vice President); A.S.A.E.; Chairman, Junior Mug-Lift; Senior Mug-Lift Comm.

Henry Simms, Jr., Cum, 3.70; President, Deltacs; Student Announcer, Voo Doo; Treasurer, Propeller Club.

CANDIDATES FOR '52 AND '53

For Permanent Secretary
Robert W. Mann; Donald A. Cherry; Edward J. Margulus; Waldo Newshouser; Kenneth A. Janssas; Stanley L. Barra.

CANDIDATES FOR '54

For President
(1) Donald A. Cherry; (2) Edward J. Margulies; (3) Waldo Newshouser; (4) Kenneth A. Janssas; (5) Stanley L. Barron.

For President
(7) Mildred O. Blower; (8) William E. Perreuel; Secretary: (9) Betty Ann Ferguson; (10) Richard M. Jeffs.

Elections (continued from Page 1)

For President
(7) John T. Weener, Cum, 3.36; William Memorial Student Staff; M.I.T. Catholic Club (Secretary, Treasurer, Vice President); A.S.A.E.; Chairman, Junior Mug-Lift; Senior Mug-Lift Comm.

Henry Simms, Jr., Cum, 3.70; President, Deltacs; Student Announcer, Voo Doo; Treasurer, Propeller Club.

For Permanent Secretary
Robert W. Mann; Donald A. Cherry; Edward J. Margulus; Waldo Newshouser; Kenneth A. Janssas; Stanley L. Barra.

Herbert D. Limmer, Cum, 3.64; Fall Chairman, Dirrr. Comm.; Asst. Features Editor, The Tech; Voo Doo; Tau Beta Pi.

For President
(7) John T. Weener, Cum, 3.36; William Memorial Student Staff; M.I.T. Catholic Club (Secretary, Treasurer, Vice President); A.S.A.E.; Chairman, Junior Mug-Lift; Senior Mug-Lift Comm.

Henry Simms, Jr., Cum, 3.70; President, Deltacs; Student Announcer, Voo Doo; Treasurer, Propeller Club.

For Permanent Secretary
Robert W. Mann; Donald A. Cherry; Edward J. Margulus; Waldo Newshouser; Kenneth A. Janssas; Stanley L. Barra.

For President
(7) John T. Weener, Cum, 3.36; William Memorial Student Staff; M.I.T. Catholic Club (Secretary, Treasurer, Vice President); A.S.A.E.; Chairman, Junior Mug-Lift; Senior Mug-Lift Comm.

Henry Simms, Jr., Cum, 3.70; President, Deltacs; Student Announcer, Voo Doo; Treasurer, Propeller Club.

By JIM STOLEY

The intramural sports program is racing down the home stretch with several frenzies in hot pursuit of the coveted intramural trophy. The program, including football, basketball, track, swimming, bowling, and frisbee, provides an excellent chance for Tech men to get out of the classroom and enjoy outdoor activities. We wish to emphasize that this will definitely not replace the classroom.

Dear J. Parnell,

We have found just the biggest little shop in the whole wide world, and we know you'll just love it! It's a quaint little shop in the back of the store that calls itself "New England's Best..." There's only one catch—it's illegal.

Sincerely yours,

[Signature]

THE LOUNGER

Renault's "master-mincer" carburetor breathes gas more avidly than your rich man's platinum band. We should all put our salt and pepper shakers to the study. We should all put our salt and pepper shakers to the study. We should all put our salt and pepper shakers to the study. We should all put our salt and pepper shakers to the study. We should all put our salt and pepper shakers to the study. We should all put our salt and pepper shakers to the study. We should all put our salt and pepper shakers to the study.

A penny postcard brings the lurid details how you, too, can join the/renderer fraternity. Renaults to your classmates, professors and local merchants...at the lowest price of any four-dozen, four-passenger sedan in America. Invest a penny in your future and mail an inquiry card today!
The Theorists

By Mort Bosniak

Last year during the football season, the Sports Editor of The Tech decided that he would predict the outcome of some of the football games of the week. He met with only moderate success.

If the number of wrong predictions during any one particular week was a bit high, many readers seemed to remember these mistakes as a poor sports editor too often making bad predictions. That is why I am a little hesitant in making my predictions of the final standings in the Major League pennant races. However, I do have the safety factor of time working in my favor. Very few people will remember who I predict for the final standings by next September and if I'm wrong, well perhaps no one will remember my bad judgment. However, if by some stroke of good fortune my predictions are correct, then you can be sure that if you forget what I have predicted, I'll most certainly remind you of my success.

With this in mind, here are my predictions for the 1950 Major League campaigns.

National League

Brooklyn—It’s in the bag—they’ll take the flag.
Boston—The batting of Gordon and Municchi one must fear, and Johnny Sain will have a better year.
St. Louis—Musial, Slaughter, and Pollett they still hold—but the team is getting mighty old.
Philadelphia—Plenty of speed and hustle they’ll show—but fourth is as high as they will go.
New York—Durocher got Stanky and back on his decision but Leo will only get a first in the second division.
Pittsburgh—Mighty Ralph Kiner is his name. He’ll win for the Pirates many a game.
Cincinnati—-Chicago and this Blackwell hitter will keep the Reds out of the cellar.
Chicago—Poor old Franchise Frisch will have a red face, as he sees his boys landing in last place.

American League

Detroit—I’m sticking my neck out on this one. I hope I’m not sorry for what I’ve done.
Boston—Pitching is still keeping them from the top. If McDermott comes through the pennant they might cop.
New York—The Yanks also appear to be strong, and they may very well prove that I am wrong.
Cleveland—It looks like Feller is through. The same with Kiner and Gordon too.
Philadelphia—The A’s want to win for old Connie Mack, but weak batting punch will hold them back.
Washington—The Nats have improved in pitching and hitting, but at the end of the year in their last game in Washington—There is plenty of hot stuff in Washington, so there should be no reason, for the Senators to have a cold team this season. The same with Keltner and Gordon too.
St. Louis—The saddest team in the majors, the Browns are called. It will be a pity to see them manhandled.

Calendar of Events

(Continued from Page E)

Physics Department, Spectroscopy Laboratory, Research Laboratory of Electronics, and Laboratory for Nuclear Science and Engineering, Sixth of a series of ten lectures by Hans Oppenheimer, University of Goettingen. Room 4-231, 4:30 p.m.

TUESDAY, APRIL 18

Technology Matrons. The Bridge Group. At the home of Mrs. Clair N. Majors, the Brownies are called. Room 4-170, 4:00 p.m.
Mechanical Engineering Department. Moving picture: "Magic of Steam." Sawyer, 451 School Street, Belmont, 1:00 p.m.
Institute of Aeronautical Sciences. "Airports for Jet Liners." Colonel Creek, St. Louis, Missouri, Massachusetts Aeronautics Commission. Room 1-194, 4:00 p.m.
Christian Science Organization. Meeting: "Healing." Ware Lounge, 5:15 p.m. All are welcome.

NAUTICAL ASSOCIATION

Shore School will be held daily at 5:00 p.m. in the Sailing Pavilion from April 10-15.

EXHIBITIONS

The Japanese bird prints by Hakunen Tsuchiya, internationally known Japanese painter, will be shown in the New Gallery of the Hayden Memorial Library until April 25. Photographic slides prints by Axel Bohnen of Yellow Springs, Ohio, will be on display in Photo Service Gallery, Basement of Building 11, until April 16.

CALENDAR OF EVENTS

The Calendar of Events is published weekly on Tuesday in THE TCH and contains announcements for the following week. It is sent without charge to all members of the staff, heads of D.C.C. projects, as well as to the leaders of various organizations. A separate listing of the Calendar of Events will be mailed to others for one dollar a year, payable in advance at Room 7-204.

Announcements, typewritten and signed, must be in the Office of the Editor, Room 7-024, not later than noon on Thursday, prior to publication date. Material for the Calendar, April 19-25, is due April 13.
Boston Lacrosse Club Subdues Engineers 12-8; Ayrcigg Shines

Last Saturday afternoon at Briggs Field, the Tech lacrosse team traveled to Ann Arbor, Michigan, to take on the University of Michigan Wolverines. The game was a thrilling contest, with both teams competing fiercely for the victory. The final score was 12-8 in favor of the Cardinals, with a dominant performance by the Cardinals' star player, Ayrcigg. The Cardinals' defense was particularly strong, limiting the Wolverines to just 8 goals throughout the game.

Engineers Lead At Half

The Cardinals took the lead in the first half, scoring 12 goals to the Wolverines' 8. The Cardinals' defense was particularly effective, allowing only a few goals from the Wolverines. The Cardinals' star player, Ayrcigg, was instrumental in securing the lead for the team.

Tech's baseball team will make its first appearance at Harvard Stadium this year. The Cardinals are expected to perform well in the upcoming season, with a strong lineup of players.

Results

Cardinals win 12-8 over the Wolverines.
Pulitzer Prize Poet To Speak On Revolt In American Poetry

Peter Viereck, Pulitzer Prize-winning poet and historian, will lecture Friday, April 14, at 8:00 p.m., in Room 10-250. The talk, sponsored by the Humanities Division and the Lecture Series Committee, will be on the subject Mid-Century Revolt In American Poetry.

Mr. Viereck's book of poems, 'Terror and Determination', won the 1941 Pulitzer Prize for poetry, and a new volume of verse, 'Strike Through the Mask!' has just recently been published. Viereck believes in poetry that people can understand, and that is the revolt he will refer to in his lecture. He has achieved wide acclaim for his work as a political theorist as well as for his poetry. His other books are 'Metapolitics' and Conservatism Revisited. The former is the only book I have ever held for which I applied.

Toward the end of that year came my application for a postgraduate fellowship at Princeton. In this I was unsuccessful, being informed that there were other applicants whose claims to a fellowship appeared superior to mine. I was, however, offered a half-time teaching, half-time graduate student position, which I accepted. In my second and third years at Princeton, I was awarded very generous fellowship aid. The most astonished young man in Princeton was I when, near the end of my first year there, the head of the physics department came into a laboratory class which I was conducting and, with the very stern look on his face which I later learned was the mask that concealed his excitement, informed me that the faculty had awarded me the most prized fellowship in the institution. I thought at first he must be joking, for I had had the misfortune to lose all the results (except experience) of my first year's effort at research when an oversight in the classroom laboratory completely wrecked my experimental apparatus just before its final test.

At last, with my Ph.D. degree practically assured, I began looking around for a teaching position. No college scouts in search of budding talent came to Princeton for young physicists, and I began to get desperate. Finally I made out a list of forty colleges or universities, with any one of which I would have gladly cast my lot, and to each I wrote the best letter of application I could compose. Having mailed these letters, I anxiously awaited the results. When they came, I was sunk. Out of the entire list came only one offer—an instructorship at six hundred dollars per year. I could not get married on that salary, and this event had already been long-over postponed.

In Friday's installment, Dr. Compton recalls his experiences as a student and physicist at Princeton, where he became head of the Department of Physics.

Compton

(Continued from Page 1)

Princeton, provided I might be fortunate enough to be awarded a fellowship. Incidentally, this job of teaching chemistry at Wooster is the only position I have ever held for which I applied.

Job Prospect

(Continued from Page 1) where there are now the horizons of teachers.

In engineering, the number of graduates will exceed the number of openings in the early 1960's; after the next 4 or 5 years, the employment situation for new graduates is likely to improve in this rapidly growing profession.

In competition in chemistry will also be keen during the next few years among persons without graduate training. There will also be an oversupply of business administration and accounting graduates.

Through the Mask! has just received the Pulitzer Prize at Mount Holyoke College. It will be presented to Mr. Viereck, now associate professor of history at Mount Holyoke College, by the Humanities Division and the Lecture Series Committee, will be held Friday, April 14, at 5:00 p.m., at the University Club.
