Top Senior ROTC Students Chosen To Receive Awards At Review Next Thursday

ROTC awards to outstanding cadets of the 1960 school year will be presented at a review on Bragg Field, May 17, and Newton M. Lucas, 21, of Lavon, and William W. Hitchins, 21, of the Air Force ROTC, were chosen to receive Senior cadet medals.

Two contests will be awarded medals by the Reserve Officer's Association of the United States at the review, and Hitchins will receive medals from the Society of the Sons of the American Revolution. Present at the presentation will be Major General Charles G. Hopkins, commanding general of the New England Sub Area.

Herald Shashoehood Trophy

Richard Hoofield, General manager of the Herald newspapers, will present the institute rote team with the Herald trophy for the championship rifle team in the Intercollegiate Shooting Association.

The team are: Herbert 2. Voke, 21, John Thompson, 22, Ger R. Ray, 21, W. Willis, 22, and John C. Champeny, 21.

Order, Decorations, and Awards

Dr. Frederick Hopkins of the United States will speak at the review on Bragg Field at 8:00 p.m. in Room 20-306 on "The Development and Application of United Nations." The lecture is sponsored by the Foreign Service Association and English and History.

Dr. Hoops, who is Public Liability Officer with the National underwriting his post in April, 1949, after two years as Executive Director of the New York State Citizens Council, before that he was Director of the Public Education Association in New York.

The United States Mission to the United Nations is a group of experts and liaison personnel who stands between the U.S. delegation and the UN.

Intern't Association Elects

The International Association held elections last Thursday for the 1961-1962 term of office by the students at the University of New York.

Elected were Nicholas Melman, 21, Chairman; Raymond J. Jarchon, 20, Treasurer; Even Teissier, Secretary.

Graduate House Favorites To Win Baseball Playoffs

With the Intramural softball championship contest under way it looks like the Bragg House is the team to beat.

The Peanut Slugs have won seven consecutive games and have established themselves as a team to be reckoned with. Since they went into the playoffs against Sigma Chi last Wednesday, they have posted wins against Sigma Chi, 2, 4, 6, and 8 in six different games. Westgate II went against the semi-finals and an easy win over Sigma Chi in the championship round.

During the playoffs, Westgate I was eliminated and怏 Sigma Chi 3 to 1 in their semi-final game.

Aztecs also advanced to the semi-finals after going through the quarter-finals with Sigma Chi, 2, 4, 6, and 8. The final game Sigma Chi defeated House C 8-7.

Since the playoffs are over, the team at it looks as if either Pi Lambda Phi or Sigma Chi will be the Westgate II for the Intramural championship which ends next Sunday.

Dormitory Room Applications Due; Priorities Listed

Applications for room assignments to the dormitories with the fall term of '61 are now available. Room assignments will be made during the next few weeks, probably before examinations. All applications must be made by Saturday night, May 19.

Priority, which is the same as for all houses, goes first to present occupants, then to others in the same section, junior, sopho-

Now that the possibility of change is not greater than a possibility of change, these arrangements who have served in the dormitories have last priority.

East Campus will have 300 rooms available and the room rental rates will average $100 per term with some rooms going for $40 per term.

Room assignments will be made by the weekly tenant, but weekly tenants will be the weekly tenant.

East Campus room prices will be determined by the dormitory room committee in New York.

The possibility of change is that the possibility of change is that the possibilities of change are better suited to

Freshmen are required to have an average of 70 or more on the qualifying test, and have been accepted for admission to the department.

Robert Augur Dudley of Auburn- ton, New York, and Canaan, New York, will serve as a consultant to the Selective Service. The Institute is not accelerating

According to a recent announcement, the Institute's Academic Council has determined the student's summer program, which is expected to be in effect from June 1, 1961.

Summer honor courses are expected to be available in the fields of engineering, science, business, and education.

Snubbed By Readers, "Techternaries" Have Final Say In Battle Of Sexes

When Tech Men Smoke Blonde Gal Give Air

In our recent drive to acquaint Techmen with the secretaries in and about the various offices, we noticed one room in particular which was receiving more than its share of the "=looking for talent" signs. We investigated, and found the name to be a lovely lady, Miss Giffur. Miss Giffur is strictly "local" material, as she was born and raised in nearby Brookline. Graduating from high school at 16, she immediately enrolled in the Katharine Gibbs Secretarial School, and, from there, went to Tech. Now she handles the paper work for the various men in her secretarial coms, and strangely enough, today marks her first anniversary as a member of the M.T.F. family.

The choices you influenced mainly spring from the fact that people from other environments, so far as Miss Giffur has accomplished much along these lines, and finds her new friend

The NEW CONSTITUTION

On Friday, Institute Committee will vote on a new constitution. The proposed constitution will have been posted for thirty days to give students an opportunity to discuss it with their representatives.

It has been the intention of those drafting the new constitution to streamline undergraduate government into several groups. The Institute Committee would be defined as a purely legislative body with the executive functions of the Undergraduate Association being turned over to a cabinet. This would give the Committee more time to devote to policymaking.

Most controversial of the proposed changes in a reduction in the size of the Committee from its present number of 84 to 25 members. This parking would be accomplished by removing subcommittee chairman from the Committee and classifying activities into ten interest groups each with one representative.

ROTC Awards (Continued from Page 1)

Fulbright (Continued from Page 1)

The Technology man range and renovate, but they were not the only "idea" in Technology. Employment of over 700 girls among the overflowing number of males at the University is a lack of employment. Secretary girls are not uncomely.

Complications

The expansion of Technology was the result of mutual cooperation between Technology students and secretarial offices. The effect of this cooperation has been to make the Technology girl a more efficient worker.

Some Proposals Leave Miss Meet Unattached

Sure, you remember her. No longer gained as Miss Meet, she has assumed a different name, Pat, of 1951. The College of Technology's new secretary, Pat has, we can see, many qualities which make her attractive to the student body. Pat's attractive and has the ability to make up a new word if she should feel the need. Pat is completely devoted to policymaking.

We have always been interested to see how the "new" Pat reacts to the "old" Pat. In the past, Pat has always been a diligent worker, but in the present she is not the only one working. Pat is the type of person who never brings anything to the office, even if she has been called in for a reason. Pat has also demonstrated her ability to make up new words, if she should feel the need. Pat has always been a diligent worker, but in the present she is not the only one working. Pat is the type of person who never brings anything to the office, even if she has been called in for a reason.

When the Tech Men Smoke

A blonde gal who is always in the office. She is always smiling and never seems to have any trouble with her work. She is always willing to help and never seems to need help. She is always very polite and always has a smile on her face. She is always very helpful and always has a smile on her face. She is always very helpful and always has a smile on her face. She is always very helpful and always has a smile on her face. She is always very helpful and always has a smile on her face.
CALANDER OF EVENTS

MAY 16 TO MAY 22, 1951

WEDNESDAY, MAY 16
Freshman Tennis Team. Match with Harvard University. Briggs Field, 3:15 p.m.

Freshman Base Ball Team. Match with Harvard University. Briggs Field, 2:35 p.m.

Photographic Service. Gallery, Basement of Building 11, from May 14 to through Friday, 10:00 a.m. to 5:00 p.m., through June 10.

Thursday, May 17
American Society of Mechanical Engineers. Meeting. J. Calvin Brown, President, M.A.I.T., speaker. Room 3-370, 2:00 p.m.

TUESDAY, MAY 22
Freshman Track Team. Meet with Moses Brown School. Briggs Field, 3:35 p.m.

EXHIBITIONS

ART SACIRI, an exhibition of French modern religious art and architecture, featuring works by Chagall, will be held at the Hayden Memorial Library, Monday through Friday, 10:00 a.m. to 5:00 p.m., through June 10.

CALENDAR OF EVENTS

The Calendar of Events will not be published during the summer months. A series of annual events will be mailed to subscribers as usual.

THE TECH
The New England Dinghy Championships meant more than just another trophy this weekend, as the defending and Eastern champions MIT sailing Team lost the Coast Guard Alumni Bowl to a surprisingly strong Harvard team. The loss, the first this season and only the second in New England since the fall of 1949, meant little since the fall of 1949, meant little to the Engineers however, as the key to their victory was the new breed of Freshman sailors.

At Coast Guard saw a close fight for the National Championships this June. As a result, Harvard and MIT will represent New England in the National competition for the Morris Bowl. A close regatta

The summary follows:

Varisty Diamondmen Beaten By American International; Beavers Held To Three Hits

Last weekend the Tech Diamondmen went down to defeat 5-0 in their game with American International. Rounds gave up 10 hits for the afternoon's total, 3 hits off Geoffrey from A.I.C. Two of the hits given to the men from Springfield were home runs.

A.I.C. was held scoreless till their half of the fifth inning when singles, a balk, and an error together accounted for two of their runs. Respect led off their half of the sixth with a 400-foot homer over Dougherty's head in left field.

A.I.C. finished their scoring in the 7th with Zordan timing a home run past Lenard in right field. A hit batman, an error, and a single brought in the other runs.

The Engineers played good ball, but they failed to connect with men on base. Cliff Rounds pitched a good game all the way through this best of the season, walking no men and striking out seven. A.I.C. has lost only one game this season, a home game against Springfield College, while beating MIT, Harvard, and Boston University. MIT, Harvard, and BU.

This Wednesday the Engineers will have a game with Harvard at Harvard Yard.

The Engineers, however, have to face the other teams in division B, Harvard's 54 and BU's 49 with 661/2 points out of a possible 72. The Engineers, however, have to face the other teams in division B, Harvard's 54 and BU's 49 with 661/2 points out of a possible 72.

**NEW HYGIENE LABORATORY OPENS**

New facilities at the Institute for the Occupational Medical Service will open on June 16. The new laboratories are under the direction of Dr. Hardy, assistant medical director, who has joined the staff recently. The new lab will allow the Institute to expand its services and provide more comprehensive care for workers.

**BEAVER BARKS**

By GIL STEINBERG

It is no secret to anyone by now that the Beavers have the best rifle team in the country. Last week another honor was added to their long list. The first three places on the All-American rifle team are filled with Techmen. Congratulations to Captain Herb Voelker, Mel Dowers, Al Turner and their coach Sergeant Jim Brae.

Another of Technology's powers is the sailing team. Not only have our teams been among the best since the sport started but also the boats themselves. We are connected with Tech because of the USAA. Several technologists have been instrumental in the development of the sport, and many have joined the ranks of us all. The first place team, the World Class Regatta team, have been consistently successful and are among the best in the nation.

The team won the Regatta at Marietta, Ohio, on June 16, 1961. Definite lineups for the junior varsity and freshman races have not yet been determined. Only two changes will be made in the lineup of the varsity race. Rugg and Mano have been chosen as the team's entries. The team won the race by a margin of 22 strokes.

The only team that won the championship at Marietta was the varsity team, which has accepted the invitation to race its varsity shell in the New England Intercollegiate Rowing Association Regatta at Marietta, Ohio, on June 16. Definite lineups for the junior varsity and freshman races have not yet been determined. Only two changes will be made in the lineup of the varsity race. Rugg and Mano have been chosen as the team's entries. The team won the race by a margin of 22 strokes.

on behind her, to some foreign
language. Having had some back-
ground in Spanish and French, she
could easily translate enough
to understand what was being said.
Quite often she could hardly keep
the chuckles down, but there were
also moments of embarrassment.

When Miss Guiffre was new here,
there was the “September
Affair,” when an undergraduate
fell in love with her. She
admitted that various groups formed
clubs, such as the softball team,
and that some fellows could manage to
manage to whistles and howls.

This incident prompted
her introduction to the
secretaries. She admitted that
she would try to bluff her way into an
introduction. The student came
into the office, and began to make
conversation, claiming he was plan-
ing to study 6.605 that semester.
He went on a long spiel about his
introduction. The student came
to the Institute this Saturday,
May 19, at 2:00 p.m. in the Harvard
Field House Club Room. Anyone
in the Institute community is eligible.

Industrial Hygiene

(Continued from Page 6)

related to the job are carefully
investigated through interviews and
appropriate tests. In all the activi-
ties, the Service will work closely
with the Institute’s safety com-
mittance, of which Professor Edward
R. Schwartz is chairman, and with
Mark J. Dondero, safety engineer.

An additional responsibility of
the Occupational Health service
will be to show Techmen how to
protect themselves and those who
work with them from unnecessary
occupational hazards. This, Miss
Hardy believes, is an important
class in the education of future
scientists and engineers. In addi-
tion to special departmental seminars, she plans a course in
Occupational Hygiene.
