One of the entries in the first Danish regatta in 1943 was com- posed of Danish nations from Copenhagen's crew.

This year is the first year that the event has not had the international flavor which characterized it since its beginning. The two Canadian representatives that participated were not able to enter and were forced to cancel the trip. Selected as replacements from among the New England schools were Yale and Dartmouth. An international touch was given the regatta, however, by the appearance of King's Boat and Cornell, both from the Middle Atlantic district.
