And it was there that he met his future wife, Dr. Mary Steel, a prominent architect in her own right.

Communists are identical with the Nazi in their political aims, as well as with Trotskyite in their methods. They are, in fact, working for the same ends.

Communists are not friends of the people. They are agents of those who are enemies of the people. They are working for the destruction of the democratic order. They are working to overthrow the government of the people. They are working to destroy the freedom of the people.

FOUR DAY WEEKEND

We would like to go home for Thanksgiving. It happens that we view this fine old American tradition with the warmest regard, and when it comes to fine old traditions we can usually either take them or leave them alone. Home for us, however, is just a few too many train-hours away for one-day visits to be practical, and since the Institute sees fit to allow only one day for the observance of the holiday we have not sat at the family Thanksgiving table since the autumn of 1946, when all we knew about M.I.T. came from the usual popular opinions and some pictures we saw in the catalogue.

When we were finally convinced, by the school's reputation and a picture of what we took to be two-second-term Juniors working on the Van de Graaf Generator, that Technology was the place for us, the information that we would not be able to spend the Thanksgiving weekend at home did not bother us much that we can remember. We would still be quite unperturbed except that the academic calendar was shuffled last year in order to extend the Institute's brief vacation quite unperturbed except that the academic calendar was not bother us much that we can remember. We would still be

Plus or minus one day out of the whole school year is a matter (so trivial that we wonder why the Academic Calendar's final day should not be extended until about four Sundays to make possible the permanent establishment of the four-day weekend). And when it comes to fine old traditions we can usually either take them or leave them alone.

When we were finally convinced, by the school's reputation and a picture of what we took to be two-second-term Juniors working on the Van de Graaf Generator, that Technology was the place for us, the information that we would not be able to spend the Thanksgiving weekend at home did not bother us much that we can remember. We would still be quite unperturbed except that the academic calendar was shuffled last year in order to extend the Institute's brief vacation period. Everybody came back to school one week earlier, and the extra five days (not counting Saturday) were to be tagged on to various vacations during the school year. Most people expected the Institute to discontinue its almost unique practice of business as usual on the day following Thanksgiving Thursday, and a great many were disappointed to learn that this was not to be done.

Plus or minus one day out of the whole school year is a rather trivial matter (so trivial that we wonder why the Academic Calendar's final day should not be extended until about four Sundays to make possible the permanent establishment of the four-day weekend). And when it comes to fine old traditions we can usually either take them or leave them alone.

The first concert in the Boston Symphony's final rehearsal series will be given next Thursday evening, November 30. Students in the Boston area who have subscribed to this series of five open rehearsals will hear the orchestra in its last preparation for the regular Friday and Saturday programs. The Concerts of November 9th and 11th, for which the orchestra will be rehearsing this coming Thursday, have for their program Schonberg's Chamber Symphony (in a version for full orchestra, which stretches beyond the breaking point any conceivable ties the orchestra will be rehearsing this coming Thursday, have for their program Schonberg's Chamber Symphony (in a version for full orchestra, which stretches beyond the breaking point any conceivable ties the orchestra will be rehearsing this coming Thursday, have for their program Schonberg's Chamber Symphony (in a version for full orchestra, which stretches beyond the breaking point any conceivable ties the orchestra will be rehearsing this coming Thursday, have for their program Schonberg's Chamber Symphony (in a version for full orchestra, which stretches beyond the breaking point any conceivable ties

the tech's-a-poppin

varsity wrestling coach roy merriam and fresh mentor chuck barton get their first look at their respective squads this week as the teams will hold their practices this week. at 6:00 p.m. the varsity will hold theirs on tuesday and freshman will roll a day later. films of last year's new england finals and good tournaments featured both on tuesday. manager ralph baker announced both the varsity and freshman schedules today. the varsity men grapple eight times, the room six.

the only returnees from last year's varsity is tom callaghan at 145 pounds. sinclair backlauff, a transfer from annapolis who was ineligible last year, has joined the squad and is expected to be of considerable help.

most of last year's freshman squad is returning. those back include: joe myers at 121 lbs., jack teich at 133 lbs., bob schmidt at 165 lbs., and chuck bynum in the unlimited weight.

Engineers Oppose UCOnns Tomorrow

In Soccer Contest

on saturday the tech soccer squad will journey to storr's where they will meet the team from the university of connecticut. both the varsity and freshman squads will make the trip. the varsity will be shooting for their third victory of the season while the freshman will be after their second. the beavers now have two wins and two losses in the new england league standings, while the huskies sport a record of two wins, four losses and one tie.

this will present the engineers with a good chance to improve their league standing since the two wins which the huskies have were at the expense of the teams in the lower half of the standings. a win would place the beavers in a tie for fourth place.

sprint, dick landy, one of last year's better men, a 175-pounder, was in the line-up.

grapples rally, start practice, first match for tech's-a-poppin

tech rugby club will play its first game of the season this sunday at 1:30 p.m. the rugby club will play two more games this season, meeting mcgill university on november 11 and again on november 18.

engineers probably favorites

the engineers are hosts, are given a slight edge in the two-day affair to start saturday. the engineers will probably start skippers rob mcbride and howie fawcett, with rob woold, joy monroe, and harry gevinman in reserve. crews are still uncertain, but larry ludemann has done much of nicholson's crewing, and john kerrin is fawcett's usual ringer man. other possible crews include john macdonald and dave starke, as well as any of the non-sailing skippers.

new england competition for the mcgill game will run high, consisting of Yale, defending champions, boston, tufts, amherst, northeastern, and coast guard and harvard, two strong teams to be counted on for a strong title bid.

schell trophy regatta to be held on charles next saturday, sunday

scheduled next on the agenda of the tech hockey club is the new england fall open invitational, more commonly known as the schell trophy regatta. honoring mit's prof. w. m. schell, head of the nautical department, this event is the big "rewards" event of the fall season's regattas.

the regatta's coveted position in the sports calendar is reflected in its name, first, that the competitors are selected from the winners of the colleges' fall regattas, second, that the regatta takes on a true international appearance, with the participation of the best nautical colleges from the middle western district, and two schools from the middle atlantic region.

the "foreigners" will be mcgill, from toronto, tennessee from the middle western district, and george washington and the big red of cornell from the middle atlantic region.

final handicapper form

in this issue, jp ticket to be awarded tuesday.

since this issue contains both handicapper form 5 and 6, it will determine the intramural football pool. however, since the players of the intramural pool will not be finished for some time, the final results of the contest will not be available for a few weeks.

j. p. ticket to be given tuesday

due to the fact that draft picks from tickets are now on sale, we have decided to use the grand prize of the contest, a ticket to the j. p., as soon as possible. other possible crews include john macdonald and dave starke, as well as any of the remaining skippers.
