# '55 Applications Up, Despite Draft

By NEWELL TRASK

Indications are that potential members of the class of 1955 are going ahead with plans to matriculate at the Institute, despite world and domestic conditions. The Admissions office states that the number of applicants for admissions to next year's freshman class exceeds that of last year.

B. Alden Thresher, director of Admissions, disclosed that the number of transfer students would go down next term from its usual figure, ostensibly because of uncertainty among upperclassmen in

other schools as to whether or not they would be going to school with Uncle Sam.

With regard to graduate students, Thresher announced that the number of applicants is lower than last year's but higher than the year before. He added that the number of men admitted to Graduate School will be about the same as last year.

### Institute Standards Unaltered

Admissions officials emphasized that the standards of admission at the Institute are not in any way being altered because of possible

changes in the types of students who are applying now.

Many of next year's freshmen will not have reached the age of eighteen by the time they enter in the fall. Thus if the present law regarding college students remains on the books, these men will be safe from induction until they have finished one year at college.

President Killian has pointed out that the eighteen-year-old draft bill, if and when it is passed by Congress, may not go into effect in time to effect Institute applicants due to delays in setting up the machinery for its application.

# Junior Class Caucus Selects Candidates; Sophs Named

ASS. OF TECHNOLOGY  
MAR 13 1951

Robert M. Briber of Sigma Chi has been chosen by a caucus of sixty members of the class of 1952 as a candidate for president of the class in its Senior year. Also nominated were Edward J. Margulies of

Announcements, as The Tech goes to press, indicate that the class of 1953 will nominate two independents and two parties for the forthcoming class elections.

Independent candidates are: James A. Zurbrigen, '53, running for president, and Marion C. Manderson, '53, campaigning for Institute Committee representative.

Two party slates have been announced. Heading the first slate is Gilbert D. Gardner, with running mates Martin Wohl, and Peter C. Noonan for Institute Committee, and Alex Gutwurcel, for Secretary-Treasurer.

Topping off the second slate is George Stevenson. Institute Committee candidate is Charles Kaplan, while Sidney Hess vies for the Secretary-Treasurer's office.

Zurbrigen is current president of the M.I.T. Debating team, a member of the Quadrangle Club, Freshman football team, the Freshman and Sophomore Councils, the track team, and the Interfraternity Conference.

Manderson is a member of the Quadrangle Club, the Freshman crew, Varsity basketball team, and The Tech.

Gardner was a member of both the Freshman and Sophomore Councils, Institute Committee Representative, and member of the Soccer team.

Robert M. Briber, candidate for Senior class President.

Baker House, vice-president; Stanley I. Buchin of Baker House, secretary-treasurer; and Robert M. Lurie, a commuter, and Howard C. Anderson of Beta Theta Pi, Institute Committee representatives.

The caucus, made up of delegates from all living groups, met Sunday afternoon in Room 1-190. On seven ballots, it boiled down an initial list of fifteen nominees to the slate above named.

Briber is currently vice-president

THE OFFICIAL NEWSPAPER  
OF THE M.I.T. UNDERGRADUATES

## Publishers And Critics Will View Tech Show

Monday, it was announced by Gerard Hartstein, General Manager of TECH SHOW, that representatives of Broadcast Music, Inc., the publishers of the music for the show, would be on hand to witness the opening night performance of "Call Me Mummy!" BMI is the music company that publishes the music for most of the college musicals in the country, such as the Pennsylvania Mask and Wig Club and the Princeton Triangle Club. Although TECH SHOW has invited BMI many times in previous years, BMI has never before accepted the invitation.

One possible reason given for the acceptance of the invitation by BMI, is that they were very impressed with the music. They decided, after hearing only nine of the sixteen songs written by Johnny Leffler with the assistance of Norm Telles and Bob Couliard in "Call Me Mummy!", to publish the score in folio form. According to BMI, TECH SHOW is one of the two college musicals that has ever made a success of music sales. This accomplishment took place in 1949 with "O Say Can You Sit."

In addition to the representatives from BMI, the Critics from the Boston papers and some of the Boston Disk Jockeys have been invited to attend the opening night performance.

Arthur Wasserman '51, Janet Lipson, Daniel Sullivan '51, George Marcou '53, and Jean Thomas gaze at potential mummy.

## Police Warn Dorms Against New Thefts

Cambridge police have alerted all Institute dormitory residents against the possibility that a wave of personal property thefts now sweeping the Harvard houses may spread down the river.

In their request for vigilance, the police ask that all residents pay particular attention to the security of their rooms at all times when not occupying them.

## Housing Vacancies Loss To Institute

There are numerous vacancies in all the Institute housing units located on campus, according to Mr. Frank M. Baldwin, Director of Dining and Housing facilities at the Institute. Both Baker House and East Campus Dormitories were completely filled at the beginning of last term, and it was expected that most of the occupants of the Barracks Dormitory would move over to Riverside House when Building 22 was about to be demolished.

What actually happened was that a very large number of students moved to fraternities, from East Campus as many as 160. Also a fairly large number of students mainly freshmen, flunked out last term. Some vacancies have been filled by students who had been living in rooming houses in Boston and Cambridge but who preferred to live on campus. The remaining empty spaces, even though not requiring so much upkeep as occupied rooms, are nevertheless a source of financial loss for the Institute and, especially in the case of Riverside, where they are being used to house athletic teams and other visitors. Only the western two wings of Riverside House are now occupied, and no plans have so far been made for the possible occupation of spare lodging space by Government personnel.

## Prof. Watts, Graphics Dept. Head, Dies Sun.

Professor Earle F. Watts, chairman of the Graphics Department at the Institute, died Sunday at Quincy Hospital. He had served on the faculty for 26 years.

Watts was educated in the Quincy public schools, at Thayer Academy, and the Institute. Before teaching here, he was a member of the faculty of the University of Missouri. He was a member of many honorary engineering societies.

## Technology Trackmen Win; Sharpshooters Do It Again

The Tech varsity rifle team defeated five of New England's top college teams to win the Northern Group Championship of the New England College Rifle League.

This multi-team shoulder-to-shoulder match was fired at the Fargo Building in South Boston on the afternoon of Saturday, March 10, and served as an elimination for the finals which are to be held at the same location next week.

### To Meet Southerners

In the League championship match, Tech and second place University of Vermont will meet the winners of the southern group championship. In the finals last year, Tech edged out southern group champion Coast Guard by a narrow three point margin to take the title.

In the match last Saturday, Tech  
(Continued on Page 3)

A sweep of the first three places in the 300-yard run, final event on the program, carried the Engineer Trackmen to a 62½-45½ victory over the New Hampshire University runners last Saturday afternoon at Briggs Field. The win gave the Institute runners a final dual meet record of one win and two losses.

The key race in the meet was the 1,000-yard run. With three events, the 1,000, broad jump and 300, left to be run off, Tech held a 4 point edge. With Captain Ed Olney, favorite in both the 1,000 and the 300-yard sprint absent, Chuck Vickers was the only Beaver entry left.

### Vickers Sets Record

However, Bill Nicholson, who had already won the mile and two mile, and Bob O'Donnell, who placed third in the 600, stepped in to fill  
(Continued on Page 3)

## Lasell's Isolation Is Tech Treat

By EDWARD F. LEONARD '53 and FRANK J. O'NEIL '52

For our third expedition into the land of womankind we chose Lasell Junior College, an isolated home for 500 junior college women who study everything from business to chemistry. Lasell is located near Auburn-dale, which to the uninitiated, like us, is \$3.35 worth of cab fare, or a trolley and bus trip from Massachusetts Subway station, amounting to some fifty cents for two, one way.

### Isolation Makes Interest

Isolation seems to do things to Lasell girls. There's usually only one generalization to make about a large group of girls—their attitude. The Lasell attitude is good. They're friendly, compatible and interesting. They are, for the most part, well-mannered ladies, but they don't make you feel as if you've forgotten all the etiquette you never bothered to memorize.

The girls have a better than average knowledge of what it costs to date, and that knowledge seems to work two ways with them. When it's time for a special evening they seem to expect their date to go

"all out," but they don't expect much on a normal date. Fraternity parties, dormitory socials, small parties—they're all "swell."

The girls are, however, car-conscious. They have a sophisticated version of the high-school "car crush." Talk hovers around convertibles, the faster and louder the better.

About ninety-five per cent of the girls smoke, eighty-five per cent of them will drink, with considerably less than that figure finding it necessary to do so on a date.

### Hours Horrible

Permissions are terrible! Saturday permissions, unless a girl takes an "overnight," require that they be in at 12:45. Fridays are even worse, with the average deadline running around 11:30. Overnights, which have to be at an approved Boston hotel, bring the deadline up to 2:00.

To round out the statistics, the girls range from 18 to 20, agewise, with the majority of them coming from Massachusetts or the New York-New Jersey area.

Techmen have a moderate rating with them. Principal competition comes from a second-rate business college with a high playboy enrollment, replete with convertibles. Boston College boys are too cold; Harvards aren't considered in the "worth-dating" class, and Boston University is just below us in a spot quiz.

### Tall Techmen Terrific

Specifically, the girls like tall dates who can dance. They should be able to hold their liquor, we're told. As we said, if they've got a car, they're in that much better, and of course that much faster.

In the way of incidental information, late dates are worth one demerit per five minutes, the dean's first name is "Ruthie," and you'd better get good directions on how to get to whichever of the twenty-odd houses you're interested in.

As with any other place, your luck, from the standpoint of looks, will depend on who gets your date for you. You've got competition, and if you don't make arrangements early in the week, it's your own fault.

## Star Hockey Player Dies In Air Mishap

Robert W. Finnegan, '52, Navy Reserve pilot and a star hockey player on this year's team, died at 8:27 Saturday morning in a Corsair Fighter plane 100 yards off Squantum Naval Air Base.

Graduated from Brockton High in '43 Finnegan immediately enlisted in the Navy. He entered the Institute in the fall of 1948, registering in Course 16. He played hockey on the Freshman team and center on the Varsity.

Witnesses to the accident said that Finnegan managed to keep the plane from hitting any buildings by swerving out to sea where he crashed in five feet of water.

## Lerner Will Talk On Minorities

In the fifth of the LSC subscription series, Max Lerner, well-known news columnist and educator, will speak Thursday, March 15, at 5:00 P.M., in Room 10-250 on "Minorities in a Democracy."

Mr. Lerner, who did his undergraduate work and later studied law at Yale University, is one of the country's foremost political analysts. Upon receiving his doctorate at the Robert Bookings Graduate School of Economics and Government, Mr. Lerner began a career in the fields of political and social sciences, both as educator and worker. In 1927, he was managing editor of the Encyclopedia of the Social Sciences, and during the depression he served the government as Director of the Consumers' Division of the National Emergency Council. In education, Mr. Lerner has taught at Harvard, Williams College and at various times was on the faculties of Sarah Lawrence College, Wellesley and Brandeis University.

As an author, Mr. Lerner is known as the author of such books as "Ideas and Weapons," "Ideas for the Ice Age," and "Actions and Passions."

General admission to the lecture is fifty cents and seats in the reserved section are seventy-five cents.

## CALENDAR OF EVENTS

### WEDNESDAY, MARCH 14

- Biology Department. Colloquium: "The Biogenesis of Adrenal Steroids." Dr. Gregory Pincus, The Worcester Foundation of Experimental Biology. Room 10-275, 4:00 p.m.
- Electrical Engineering Department. Colloquium: "Some Aspects of Air Traffic Flow." Dr. Richard B. Adler. Room 6-120, 4:30 p.m. Refreshments served in Room 6-321 at 4:00 p.m.
- Catholic Club. Marriage Series: "Medical Aspects of Marriage." Dr. Joseph B. Doyle, M.D. Room 1-190, 5:00 p.m.
- Hillel Foundation. Discussion and Lecture: "Pharisees and Sadducees." Crafts Library, 5:00 p.m.
- Mathematics Society. Lecture: "Application of the Theory of Characteristics to Supersonic Flow and Wave Propagation." Dr. Chia-Chiao Lin. Room 4-370, 5:00 p.m.
- Music Department. Haydn's "Creation" as recorded by M.I.T. Musical Clubs. Music Library, 5:00 p.m.
- Nautical Association. Lecture on Yacht Racing. Robert N. Bayer, Jr., Associate Editor, Yachting Magazine. Room 4-270, 5:00 p.m.
- Fershing Rifles. Maneuver Instruction. Room 12-182, 5:00 p.m.
- Inter-Varsity Christian Fellowship. Bible Study: "Psalms and Prophecy." Russ Fishback. Room 7-103, 5:05 p.m.

### THURSDAY, MARCH 15

- Technology Christian Association. Red Cross Blood Drive. Tyler and Litchfield Lounges, Walker Memorial, 10:00 a.m. to 4:00 p.m.
- Catholic Club. Apologetics Series: "Philosophy of Catholic Education." Father Paul Murphy, S.J. Room 2-135, 12:00 Noon and 1:00 p.m.
- Civil and Sanitary Engineering Department. "Graphical Solutions of Differential Equations, Part II." Henry M. Paynter. Room 1-236, 4:00 p.m.
- Mechanical Engineering Department. Lecture: "Some Engineering Applications of Probability and Significance Testing." Professor Rogers B. Finch. Room 3-270, 4:00 p.m.
- Physics Department. Colloquium: The Robert S. Williams Lectures: "Order-Disorder Transformations in Alloys." Professor G. Borelius, Royal Institute of Technology, Stockholm. Room 6-120, 4:15 p.m.
- General Science, General Engineering, and Business and Engineering Administration Departments. Guidance Talks for Class of 1954. Room 2-390, 5:00 p.m.
- Lecture Series Committee. Subscription Series Lecture: "Minorities in a Democracy." Max Lerner. Room 10-250, 5:00 p.m.
- Outing Club. General Meeting. Room 10-275, 5:00 p.m.

### FRIDAY, MARCH 16

- Technology Christian Association. Red Cross Blood Drive. Tyler and Litchfield Lounges, Walker Memorial, 10:00 a.m. to 4:00 p.m.
- Fencing Team. Eastern Intercollegiate. West Point, New York, 12:00 Noon to 9:00 p.m.
- Mechanical Engineering Department. Seminar: "Measurement of Supersonic Velocities by Ion Transit Time Methods." Mr. W. C. Cooley. Room 3-270, 4:00 p.m. Coffee served in Room 3-174 from 3:30 to 4:00 p.m.
- Hillel Foundation. Sabbath Dinner, 6:00 p.m.; Services, 8:00 p.m. The Hillel House, 5 Bryant Street, Cambridge.
- Tech Show 1951. Musical Comedy entitled "Call Me Mummy!" Cambridge High and Latin Auditorium, 8:30 p.m.

### SATURDAY, MARCH 17

- Fencing Team. Eastern Intercollegiate. West Point, New York, 9:00 a.m. to 9:00 p.m.
- Modern Languages Department. Graduate Language Examinations: German, Room 1-245, 10:00 a.m. to 12:00 Noon; French and Russian, Room 1-245, 2:00 p.m. to 4:00 p.m.
- Rifle Team. New England College Rifle League Finals. Fargo Building, 1:00 p.m.
- Tech Show 1951. Musical Comedy entitled "Call Me Mummy!" Cambridge High and Latin Auditorium, 8:30 p.m.

### SUNDAY, MARCH 18

- Society of Arts. Lecture: "The March of Earth Time." Dr. Patrick M. Hurley. Huntington Hall, Room 10-250, 4:00 p.m.
- Lowell Institute Cooperative Broadcasting Council. SCIENCE ON TRIAL. "Evolution. Part II." Dr. George R. Harrison and Dr. Joseph C. R. Licklider, M.I.T.; Rev. Joseph G. Doherty, S.J., Boston College; Dr. Cecilia H. Payne-Gaposchkin, Harvard University; Dr. William C. Boyd, Boston University; and Robert Mirak, senior, and Richard Rush, junior, both of Winchester High School. WHDH and WHDH-FM, 6:00-6:30 p.m.
- Hillel Foundation. Brunch, 10:30-12:30 p.m.; Acquaintance Dance with Simmons and Wellesley Colleges, 8:00 p.m. The Hillel House, 5 Bryant Street, Cambridge.

### MONDAY, MARCH 19

- Drama Shop. Tryouts for play, "Light Up The Sky." Tyler Lounge, Walker Memorial, 4:00-6:00 p.m.
- American Society of Mechanical Engineers. "Magnesium and its Alloys." Mr. John F. White, Dow Chemical Company. Room 1-190, 5:00 p.m.
- Physics and Geology Departments. Guidance Talks for Class of 1954. Room 2-390, 5:00 p.m.
- School of Humanities and Social Studies and Lecture Series Committee. Fifth in a series of lectures on THE WORLD AND YOU. Subject: "What Are We Fighting For?" Speaker: Mr. Erwin D. Canham, Editor, Christian Science Monitor. Interlocutor: Professor Duncan S. Ballantine, M.I.T. Huntington Hall, Room 10-250, 5:00 p.m.
- Agenda. Smoker for Election of Prospective Members. Ware West Lounge, 8:00 p.m.
- Hillel Foundation. Annual Purim Festival. Agassiz Theatre, Radcliffe College Quadrangle, 8:00 p.m.

## The Beaver Barks About . . . INTRAMURAL CONFLICT

By GIL STEINBERG

Intramural Athletics faces a pretty knotty question in whether or not to break up the dorm teams. A meeting is on tap for tonight in an attempt to reach some sort of a conclusion. Bad feeling which might wreck intramural athletics could result if both sides lose sight of the fundamental objective of the Intramural program.

Participation by the greatest amount of students is the goal which the program attempts to

accomplish. For the good of the Institute both sides should forget their differences and try to develop the best method to insure maximum participation.

We dropped in to see Professor Geiger about this problem the other day. We came to the conclusion that both sides have a legitimate gripe.

He agreed with the fraternities in one respect when he said, "It is not a good plan to pack all the good players from the larger

houses on one team." We concur because not only unfair to the fraternities is also the surest way of diluting their active participation.

On the other hand he said it was unfair not to divv up dormitories in such a way to allow them to compete on an equal basis with the fraternities.

The best situation for an intramural contest to insure maximum participation is for every player to be of equal ability. The closer we come to this mark the more is insured.

Therefore what is needed tonight's meeting is not a compromise between the dorms and the fraternities for supremacy but a method by which the dorms can be equitably distributed.

This distribution is going rather hard to accomplish. Fraternities around Tech are composed of from 30 to 60 members which they pick their team it is unjust to expect the dorms to split up into groups this is the purpose of athletics. Fraternities expect and get a percentage of their men out for intramurals not only because they are more close but also because they try to get a good percentage of athletics in their houses. The dorms do not get much of a percentagewise turnout.

However, this problem is surmountable. Some method should be tried to put all on an equal footing. It may take a few seasons of trial and error to determine the right division will be worth the effort in the long run.

### TUESDAY, MARCH 20

- Technology Matrons. The Bridge Group. At the home of Mrs. Avery A. Morton, 182 Standish Road, Watertown, 1:00 p.m.
- Drama Shop. Tryouts for play, "Light Up The Sky." Tyler Lounge, Walker Memorial, 4:00-6:00 p.m.
- American Institute of Chemical Engineers. General Business Meeting. Room 6-321, 5:00 p.m.
- Christian Science Organization. Meeting. "Finding Man's True Selfhood." Tyler Lounge, Walker Memorial, 5:15 p.m.

### EXHIBITIONS

An exhibition of "Serigraphs," silk screen prints loaned by the Serigraph Galleries in New York, will be on display in the Lobby of Building 7, from March 5-25, 1951.

Photographic Salon prints by Thomas Limborg of Minneapolis, Minnesota. Photographic Service Gallery, Basement of Building 11, from March 5-18. Beginning March 19 and ending April 1, there will be an exhibition of commercial photographs by John Christian Hansen of Cambridge, Massachusetts.

### CALENDAR OF EVENTS

Because of spring recess, March 28-April 1, the Calendar will not be published for the next two weeks, March 21 to April 3. Material for the Calendar, April 4-10, is to be in the office of the Editor, Room 7-204, not later than noon on Thursday, March 29.

### T.C.A. Elects Pres.

At a meeting held February 27, Robert M. Oliver, '52, was elected to the presidency of the Technology Christian Association for the coming year. Bob has been active in the TCA since his freshman year, and served as President of the Freshman Cabinet.

Other officers elected to next year's Executive Committee include: Wallace E. Reid, '53, vice-president; Sheldon G. Thorpe, '52, secretary; William E. Moss, '52, treasurer; and Arnold G. Kramer, '52, director of Boys' Work.

### Juniors

(Continued from Page 1)

of the class, chairman of the Junior Mug Lift Committee, and advisor to the freshman Council. He has served on the Walker Memorial, Student-Faculty, and Honor System Committees, and as representative of the Institute at several conferences in the New England area.

Margulies has served as president of the class this year, as representative to Institute Committee last year, as chairman of the Junior and Soph Prom Committees, and on the Field Day, Elections, and Finance Committees.

Buchin has been Secretary-Treasurer of the class this year, on the Junior and Soph Prom Committees, the Public Relations Committee and the Junior Mug Lift Committee. Anderson is president of his house and has served as I.F.C. representative and on the Baker Memorial Committee. He has played varsity hockey and lacrosse and this fall coached the freshman football team. Lurie is currently business manager of The Tech and has worked on the Junior Prom and other dance committees.

### The TECH

Dear Sir:

Any one of us who chanced to see a serious accident on the street would rush to the rescue and do what he could to care for the injured. The truth is that we are face to face with such an accident on a country-wide scale in the form of the present national emergency and our help is urgently needed.

To supply the demands of the Korean battlefronts and of the civilian preparedness program the Red Cross is requesting a one hundred per cent increase in blood donations. Here is the opportunity for each of us to contribute directly

to our Armed Forces and to our home defense. M.I.T. has been asked to give 400 pints of whole blood as a minimum.

Yours sincerely,  
J. A. Stratton  
Provost

# Crew Prepares For Coming Races

By MARK CAPLAN

Spring is knocking on our back door and with it comes the cry of "stroke" from the Charles as the Cardinal and Grey oarsmen whip themselves into shape for the coming rowing season. Tech crews have always been a threat in any regatta and this year will not be an exception.

Nine boats are out this year including Frosh crews. No permanent seatings have been announced as yet by the coaches. However the temporary varsity lineup features seven veterans of last year's competition.

### Captain Jim McMillin

The varsity crew is under the coaching of Jim McMillin, a 6 1/2 footer from Seattle. Jim came to Tech in 1940 and is another in the long line of U. of Washington graduates in American coaching ranks. In his undergraduate rowing days Jim achieved a fine record as no. 5 man in the varsity shells of '35, '36 and '37 and was captain of his crew for the last two years.

He had the honor of leading the boat that won the trials and put the West Coasters in the Olympics of 1936. This crew was undefeated throughout the period of Jim's reign. He works his boys hard and with the material and time he has he does an excellent job.

The Frosh are coached by "Chuck" Jackson who came here in '46 after leaving the Air Force. Previously he rowed for U. of Washington as did Jim, and coincidentally, he also rowed no. 5 position. His boat was one of the fastest known. With his coaching the engineer Frosh came in second in the Eastern championship two years ago. Incidentally, he is pretty confident of his new material and looks for an optimistic future.

### Two Big Events

The winners of the two big events of the season are both rewarded by cups from Tech. The first is the Compton cup given to the winner in the annual struggle between

Harvard, Rutgers, Princeton, and Tech. The second is the Rowe Memorial cup and is engraved, "Presented By Charles Hayden." This cup is awarded to the winner of the eastern championships, a regatta involving all of the 12 big Eastern colleges.

Last year the Engineers' varsity record looked like this: In the first scheduled race they placed second, (behind Harvard), out of three boats; Their second try they again took second position (behind Harvard) in a 4 shell race. In their third crack, the Eastern sprint championship, they were the victors, beating out 2 other competing boats. The Marietta Regatta gave them fifth position when they came up against strong opposition of the western crews.

### Start April 21

The mile and three quarter races will start on April 21 when the Engineer Varsity will tackle B.U. (Continued on Page 4)

# Buckstaff, Pollinger Win Intercollegiate Wrestling

By GENE OSTER

This year it looks like Sigma Chi, Sigma Alpha Epsilon, and the winner of the Theta Chi-Grad. House tilt on March 22 at 6:10 P.M. will be in the championship round robin playoff starting April 3rd. Another sure bet is Phi Gamma Delta for winning league F.

The best week of games will be March 20-22 when Phi Delta Theta will probably meet Baker House A for the championship of league C; Theta Chi-Grad. House for league D; Sigma Chi-Alpha Epsilon Pi for league A; while probably the winner of league B, either Alpha Tau Omega or Pi Lambda Phi will be decided March 14th.

II. STANDING FROM LEAGUE PLAY

Sinclair Buckstaff and Paul Pollinger came through for Tech's varsity and frosh squads respectively to take first place in their weight classes at the annual New England Inter-Collegiate wrestling championships last Saturday.

The meet lasted for two days with the trials on Friday and the finals on Saturday. The Techmen had to compete against Williams, Springfield, Amherst, Coast Guard, Boston University, Tufts and Wesleyan.

Buckstaff, wrestling in the 137-pound class, won three straight by scores of 2-0, 4-2, and the finals by 6-0. During the regular season he won only four out of seven matches, tied one. This record, while not spectacular, is quite understandable considering the fact that he was wrestling above his proper weight class. Buckstaff, a Junior in course XVI, is a likely choice for next year's Captain.

Pollinger throughout the season has been a consistent winner for the frosh team. He won four out of his five matches, losing only to a member of the powerful Brown squad. Pollinger's future as a wrestler here at Tech is very promising. The team is badly in need of reinforcement in the lower weight classes and he wrestles at 130 pounds.

Other men to score for the Varsity squad were Captain Barton Conant and Dick Landy. Conant took third place in the 167-pound class, losing a very close bout on a referee's decision. Dick Landy took fourth place in the 177-pound class.

Tech's Varsity squad came out of the meet in seventh place and the frosh in sixth place. The varsity, however, was five points down to start with due to the necessity of having to forfeit one weight class.

## Track Teams Victorious Against New Hampshire

(Continued from Page 1)

The gap, Vickers took an easy first, setting a new Institute record of 2 min. 20.4 sec. O'Donnell came from behind with two laps to go to take second place. The previous record of 2:20.5 was set by Olney only three weeks ago.

The Beaver squad stood up amazingly well in the field events, led by a sweep in the high jump. George Thompson took first with 5'10 3/8", with Dave Freeman and Ken Bjork tying for second. Jerry Connor added a close second in the shot put, coming within two inches of the winning distance.

New Hampshire fell rather badly in the mile and two-mile races where Bob Bodwell and Dave Webber had been rated as strong contenders, respectively. Nicholson breezed to easy victories in both races, with Carl Swanson taking second for Oscar Hedlund's men in the mile.

### Grenier, Childs Also Win

Tech's other first places were taken by George Grenier and Ken Childs. Grenier won the 600 in 1:15.3 and Childs took first in the dash. The two tied for first place with identical times of 34.4 sec. in the 300-yard run.

The Beaver Frosh made it a double victory by walloping Huntington Prep by a 56-25 count. The Prepsters were hampered by the absence of several men, who were taking College Board exams, including national Prep School broad jump champion, Fred Collier.

### Williams Sets Record

Ian Williams of the Tech Frosh took advantage of Collier's absence by setting a new Freshman Cage record of 20' 6" in the broad jump. The old record of 20' 5" was set last year by Dick Segien. Earlier Williams came within a tenth of a second of the Freshman 600 record, winning the event in 1:16.6. He also tied for third in the high jump.

Sid Klein of the Beaver Frosh upset New England Prep champion Dick Gleason in the 300-yard run, capturing the event in 34.2 sec.

The following teams are subject to penalties of forfeiture of one game for failing to produce volleyball referees on given dates:

- Phi Sigma Kappa—March 1
- Sigma Chi—March 1
- Lenox Club—March 1
- Sigma Nu—March 6
- Pi Lambda Phi—March 8

If these penalties are levied then the results of league play given above will be altered. The following make-up games are announced: Theta Chi vs. Phi Mu Delta, Thurs., March 22, Court 3, at 6:10 p.m., and Phi Kappa Sigma vs. Phi Kappa, Thursday, March 22, Court 4, at 5:15 p.m.

## Rifle Team Winners Over 5 Top Squads

(Continued from Page 1)

racked up a team total of 1407 as opposed to Vermont's 1387, Norwich's 1377, New Hampshire's 1360, Dartmouth's 1346, and Harvard's 1337.

### Adverse Conditions

Though the team score is far from the highest that Tech has fired this season, the fact that it was fired under adverse range conditions together with a comparison of the scores of the other teams will show that the victory margin was considerable.

Herb Voelcker's individual score of 287 was high for the team and for the entire match. All-American Tom Breen from the University of Vermont was second high in the match with a 285, while Tech's Arthur Auer was third with another 285.

### Finals Saturday

The coming weekend will be a full one for the team. On Saturday the League finals will be fired, while on Sunday Tech will send a crack four man team to defend in a shoulder-to-shoulder match the title which it won in the Civilian Hearst Trophy match. On Monday, Columbia's team will journey to Tech for a match which will serve as a primer for the Intercollegiate Championships for both teams.

# WE DARE THEM ALL!

PHILIP MORRIS challenges any other leading brand to suggest this test

HUNDREDS OF THOUSANDS OF SMOKERS, who tried this test, report in signed statements that PHILIP MORRIS IS DEFINITELY LESS IRRITATING, DEFINITELY Milder!

1. . . Light up a PHILIP MORRIS Just take a puff—DON'T INHALE—and s-l-o-w-l-y let the smoke come through your nose. Easy, isn't it? And NOW...

2. . . Light up your present brand Do exactly the same thing—DON'T INHALE. Notice that bite, that sting? Quite a difference from PHILIP MORRIS!

Other brands merely make claims—but PHILIP MORRIS invites you to compare, to judge, to decide for yourself. Try this simple test. We believe that you, too, will agree . . . PHILIP MORRIS is, indeed, America's FINEST Cigarette!

# NO CIGARETTE HANGOVER

means MORE SMOKING PLEASURE!

CALL FOR PHILIP MORRIS

**NOTICES**

**Republican Club Meeting**

The Young Republican Club will meet to select delegates to the New England Council of Young Republicans today at 5:00 p.m. in Room 5-122. Candidates for offices on the Massachusetts Council will also be chosen. All interested students are invited.

**Science Fiction Society**

The Science Fiction Society of M.I.T. will hold a meeting on Friday, March 16, at 4:30 p.m. in the Jewett Moore Room, 6-321. An election will be held, followed by an address by Isaac Asimov.

**Metallurgy Lectures**

Under the joint sponsorship of the Departments of Metallurgy and Physics Professor G. Borelius of the Royal Institute of Technology in Stockholm will give a series of three lectures today, tomorrow, and Thursday at 4:00 p.m. in Room 6-120. The subject for today's lecture will be "Calorimetric Methods for the Study of Transitions in Alloy." Tomorrow's lecture will be on "Precipitation in Metallic Systems" and Thursday's on "Order-Disorder Transformations in Alloys."

**A.I.Ch.E. Films Correction**

The A.I.Ch.E. will show two films today at 5:00 p.m. in Room 10-275 instead of the room previously announced. The films are "The Long Road," which deals with automobile engines, and "The Underseas Search for Oil."

**Chemical Society Meeting**

Professor J. C. Slater will be guest speaker at today's meeting of the M.I.T. Chemical Society in Room 6-321 at 5:00 p.m. The subject will be "The Solutions Provided by Modern Physics to Chemical Problems." Refreshments will be served. Everyone is welcome.

and Harvard on the Charles. Then on the 28th, the lights will meet Harvard and Dartmouth here while the varsity races Rutgers at their home port. On May 5th the Compton Cup match will be held here, while on the 19th the Eastern Association Regatta will be held at Princeton while the lights battle it out here.

The temporary lineups this year are as follows:

<b>Varsity</b>	<b>J. V.</b>	<b>3rd</b>
(Heavy) Weiss	Buntschuh	Larks
Fonda Forman	Schroeder	Spracher
Christensen Lindstrom	Guthrie	Knight
Semple Stern	McGinley	Maltoy
Smith Erickson	Schurman	Monkman
Casson Gleckman		
Trinble Inrie		
Underwood Jans		
Simmons Schurman		
Monkman		
<b>Light I</b>	<b>Light II</b>	<b>Frosh</b>
Heselton Stanfield	(Heavy)	Molnar
McFique Newhaus		Lukshin
Ayers Cocarni		James
Rogers Rempert		Kolodkin
Brink Torti		Riedinger
Kukes Mitchell		Swisher
Huss Young		Wood
Adams McKay		Schmell

**PLACEMENT INFORMATION**

16	Minn. Honeywell Reg.	II, VI, VIII, XV
16	R.C.A. Victor	VI
16	Prudential Ins.	XIV, XV

**Student-Faculty Enlists New Aid**

The Student-Faculty Committee held a very successful dinner meeting in the Graduate House last Thursday evening. Several problems were discussed and two very important decisions were reached.

First, the committee decided to actively encourage the organization of Student-Faculty committees in every department of the Institute. Several courses already have these departmental committees and they have proved to be excellent channels for transmitting criticisms and suggestions as well as excellent means to establish good social contacts between students and instructors.

**Investigating Subcommittee Formed**

A subcommittee has been organized which will examine Student-Faculty committees in courses where they already exist and investigate those departments which do not yet have individual committees. Further plans call for inviting groups of interested students and faculty members to form new departmental committees.

The committee also resolved to acquaint the M.I.T. family more fully with its activities, especially its function of investigating complaints or suggestions from any student or group of students and requesting faculty consideration of worthwhile problems.

**Soderberg Awarded Honorary Doctorate By Swedish Institute**

Professor C. Richard Soderberg, head of the Department of Mechanical Engineering at the Massachusetts Institute of Technology, has just returned from Sweden, where he was awarded the honorary degree of Doctor of Technology by the Chalmers Institute of Technology, one of Europe's most distinguished technical institutions.

Chalmers Institute of Technology was founded in 1830, beginning as a school of naval architecture and expanding to become an outstanding institution of higher learning. In recent years it has become one of the world's centers of important developments in communications theory.

Dr. Soderberg was graduated from Chalmers Institute in 1919, and the honorary degree which was awarded to him was the first of its rank to be given by the institution.

Dr. Soderberg joined the staff of M.I.T. in 1938 and is widely known as an authority on turbine design.
