Bowditch Chosen As Dean Of Students

N. S. A. Initiates Affiliation With The Delhi Polytechnique

In a bid to win the friendship of an organized group of Indian students, the M.I.T. National Student Association has evolved a program of information exchange and aid with the Delhi Polytechnique, of India. The high points of the program at Tech will include large-scale publicity of the information received from Delhi, a school-wide convocation with a prominent speaker on India, and a drive for money and equipment.

Information Exchange

The basis of the project, as stated by its chairman, Herbert I. Scher, is the foundation of a stronger Indian-American friendship through an information exchange and aid program. Through this program the Indian students will see the working of democracy on our campus and perhaps gain an insight into our way of doing things. Committee chairmen have been chosen to run the various phases

of the program in an attempt to reach every student and staff member at Tech. They are John Copenhaver and Phil Schirm, '52, co-chairmen of the Solicitation Committee; Alex Gutwurcel, '53, Information Committee; Mike Goldman, '52, Treasurer; and Martin Greenfield, '51, Convocation Committee. Publicizing of the information received from India should begin by April 2, and the convocation and drive are slated for the middle of April.

Debate Tournament Draws 25 Schools To Tech Fri., Sat.

Some of the East's leading debaters from Smith, Mount Holyoke, and twenty-three other schools, including Bates, last year's winner, will participate in Technology's Fifth Annual New England Invitational Debating Tournament. "Resolved: that the non-communist nations should form a new international organization," is the topic for discussion.

First and second rounds will begin at 3:30 and 5:00, respectively, Friday, February 23, the debates taking place in various rooms in Building 7. A dance for the debaters and chairmen will be held later in the evening. Third and fourth rounds will be held Saturday morning, and the semi-final round at 2:15 in the afternoon.

Tech men are especially invited to attend the final round which will be held in room 6-120 at 4 p.m. If history repeats itself, they will have an opportunity to see one of the Technology teams in action then.

Chairmen for the debates will be invited to the dance with dates arranged by the Debating Society. Men interested in acting as chairman-timekeeper should contact Joseph Scheller, Munroe 506, Box 537, East Campus.

L.S.C. Presents Semi-Scientific Study of Shmoos

Al Capp, Noted Creator Of the Dogpatch People, Speaks Today in 10-250

Dogpatch is described by its creator, Al Capp, as an "average-stone-age community, nestled in a bleak valley between two cheap uninteresting hills, somewhere."

Al Capp, the cartoonist-creator of "Li'l Abner" is to speak here under the auspices of the Lecture Series Committee on Tuesday, February 20th, on the subject, "Of Shmoos And Men." The lecture will be held in room 10-250 at 5:00 P.M.

In May, 1948, Capp won the Oscar of the cartooning world—the Billy de Beek Award, as the year's outstanding cartoonist. He is the only cartoonist to create a national holiday—Sadie Hawkins Day, now celebrated by some 40,000 groups throughout the country. Forty million readers follow the trials and tribulations of the Yokum family, including many who consider Capp not just another cartoonist, but find a great deal more that is significant in his cartoons, and consider him one of the great men of arts and letters in the United States.

It is said of Al Capp, that he has the best knack of naming his characters since the era of Dickens. Moonbeam McSwine, Slobberlips McJab, Lena the Hyena, and Jack S. Phogbound, a pompous U. S. senator, may substantiate the claims of the critics.

Dogpatch houses not only the Yokum family but also the Skonk Works, where concentrated skonk oil is brewed and barreled by its proprietor, Big Barnsmell; the Lonesome Polecat Indian tribe, who consider themselves technically still at war with the U. S. army; and other assorted characters.

Other creations of Capp are the shmoo, a little animal who provides all the necessities of life and drops dead out of sheer joy when looked at hungrily; Lower Slobber (Continued on Page 2)

Appointment Is Announced Of Present Headmaster Of Lake Forest Academy

E. Francis Bowditch

Appointment of E. Francis Bowditch, headmaster of Lake Forest (Illinois) Academy, as Dean of Students at the Massachusetts Institute of Technology, was announced by Dr. James R. Killian, Jr., President of the Institute, last night. Mr. Bowditch succeeds the late Everett Moore Baker, who died in an aircraft accident last August.

In announcing Mr. Bowditch's appointment, Dr. Killian said, "The dean of students at M.I.T. has authority and responsibility for overseeing all aspects of student welfare and for the Institute's relationships with student government and recognized student activities, including athletics and fraternities. By advising and counseling with individual students and with student groups, he is in a position to promote fine morale, high standards of conduct, and the best possible conditions for personal development and educational achievement.

"Mr. Bowditch was invited to fill this important post after a country-wide search. He brings to the office broad experience in the field of education and administration and great skill in working with young men."

Since Dean Baker's death, Dr. Dana L. Farnsworth, Medical Director of the Institute, has directed the activities of the Dean's Office. Mr. Bowditch's appointment becomes effective next July.

Harvard '35

Mr. Bowditch, who is 38 years old, was born in Framingham, Massachusetts, and is the son of the late John P. and Alice B. Bowditch. He was educated at Milton Academy from which he graduated Cum Laude in 1931 with a prize scholarship to enter Harvard. During his undergraduate career there he was president of the student council and served as second marshal of his class which was graduated in 1935. During his freshman and sophomore years he was a member of the track team. He is (Continued on Page 2)

A Membership High Of 392 Enthusiasts Set By Hobby Shop

By EDWARD EIGEL, '54

In the basement of Building 2, one door is distinguished from the myriad of others by a small sign jutting from the wall above it. The sign says, "Hobby Shop." Behind the door, almost 400 members of the faculty, staff and student body are actively engaged in various types of handicraft. The results of their work are in many cases remarkable.

The Hobby Shop was started in 1937 by Dr. Bush, an ex-Vice President of the Institute. Its purpose is to encourage handicraft among all members of the Institute family. Facilities are available for woodwork, leathercraft, metalwork, photography, printing, electricity and many other fields.

20-inch Telescope Built

What can be done can be best shown by examples of what is being done. Current projects include the grinding of the mirror for a twenty-inch telescope. The mirror blank is an exact replica in miniature of the mirror used in the Mt. Palomar telescope, and was cast by the same company. When the telescope is finished, its builder hopes to mount it on the roof here at the Institute. Another project is a large corner cabinet, which is being built entirely in mahogany. Many members are making radio loud-speaker systems. Often members bring their motorcycles down to the shop to make repairs. Only lack of space prevents some from bringing automobiles. Others have built entire sets of furniture for their homes, including beds, tables and chairs. And the darkroom and printing shop are in constant use. "Anything can be made in the Hobby Shop," says Don Whiston, foreman.

The Hobby Shop is under the direction of Mr. Joseph McAllister, of the Institute staff. In addition, each type of handicraft has a committee made up of three or four members in charge of that particular craft. The committee runs its department and coaches members who desire instruction.

CLASS OF '52 RINGS

Representatives of L. G. Balfour Company will be in the lobby of Building 10 today and tomorrow from 10 a.m. to 5 p.m. to take orders and sizes for class rings.

400 Freshmen Picked To Join Senior R.O.T.C.

Three hundred and fifty freshmen have been chosen to sign the draft deferment agreement and to become candidates for senior division of the R.O.T.C. Their names, announced jointly by the Air Force and the Army on Friday, are posted on the R.O.T.C. bulletin board in building 24. Of the number, 200 are to enter the Air Force and 150 the Army.

As yet, 50 of the Army's quota have not been definitely selected. They are being rechecked by Homberg Infirmary to determine their physical conditions. They will be notified of their status by the first of the month. All those accepted have cums higher than 2.2 and have been cleared by Homberg.

Accepted freshmen must agree to take 4 years of military science, spend the summer after they graduate at an Army or Air Force camp, and to serve, if needed, as an officer for two years. Those accepted by the Army may sign the agreement in room 24-110; those accepted by the Air Force, in room 24-104. All agreements should be signed by February 28.

Colonel Baisch, head of R.O.T.C. at the Institute, suggests that the approved freshmen notify their draft boards of their change of status. The Institute will send a letter of confirmation to the respective draft boards. They are required by law to defer those in the advanced course of R.O.T.C. or approved candidates. Col. Baisch feels that, unless there is a Third World War, the freshmen signers may be sure of an uninterrupted four years of schooling.

Because the Institute has both an Air Force quota and an Army quota every eligible freshman who applied was granted a deferment.

D. P. Flees From Communists; Joins Technology Students

By STEPHEN KLIMENT, '53

"The day we met them at the boat or railroad station, they were foreigners. Before long—except for memories—they will be as American as you and I." These words appear in the introduction to a pamphlet issued by the Displaced Persons Project Committee, which under the chairmanship of Henry Hahn, '51, operates within the framework of the NSA.

And so Jan Filip, who was still in a DP camp in Germany just over a fortnight ago, is now among us, studying to be a Mechanical Engineer. Jan is the seventh to be brought to MIT under the Committee's plan.

Studied at Czech College

In 1948 Jan was studying at the Czech Technical College in Prague and would have been more than astonished had he known where he would be three years later, but the Communist coup in February 1948 started a train of events that only ended two weeks ago. In the fall of 1948 all students had to appear before a commission which

Photo by Cohen

Jan Filip

investigated their political background and expelled them if this proved unsatisfactory. Jan liked freedom to the extent that rather than risk being expelled and thus becoming a marked man, he left his family, and made his way to (Continued on Page 2)

"Call Me Mummy!" Stars Sarcophagus

Last Friday night, Paul A. Lux, publicity manager of TECH SHOW 1951, announced that the title for this year's production will be "Call Me Mummy!" The setting of the show is in Africa, principally in the desert areas and Egypt, and the plot centers around a search for a sarcophagus, the contents of which will prove whether the ancients were matrilineal or patrilineal.

Tickets for the show will go on sale at 9:00 A.M., Monday morning, February 26th. This year, due to the tremendous demand for medium priced tickets in other years, 350 additional \$1.80 seats have been made available in the orchestra for the Friday night performance, and about 200 extra for Saturday night. Seats will also be available at \$2.40 and \$1.20. A group purchase plan is again being followed, and any group of 12 or more will qualify for seats in the group sections.

EDITORIAL

Criticism can and should be constructive. As an organ of free speech **THE TECH**, under the auspices of the present Managing Board, has taken upon itself to offer open criticism of those student institutions, on campus, which we feel have especial room for improvement. We feel such a policy is of benefit to the Technology Student Community.

We wish to apologize to Ralph F. Romano '51, Chairman of the Dormitory Social Committee, for any statements in our recent editorial that may have been misconstrued to the effect that he was at all incompetent in his position as chairman. Our criticism was directed at his recent policy in handling the Social Committee, wherein he did not formally meet with his committee on the question of a Baker House Dance. The question was fundamental and open-group discussion was called for.

CALENDAR OF EVENTS

WEDNESDAY, FEBRUARY 21

- Faculty Meeting. Huntington Hall, Room 10-250, 3:00 p.m.
- Richard C. MacLaurin Lodge, A. F. and A. M. (The Tech Lodge) Meeting. Masonic Temple, 1950 Massachusetts Avenue, Cambridge, 3:00 p.m. All Masons at M.I.T. are cordially invited to attend.
- Mathematics Department. Lecture Series: "Function Theory on Manifolds." Professor Andre Weil, University of Chicago. Room 2-333, 4:00 p.m.
- Varsity Swimming Team. Meet with Tufts College. Alumni Pool, 4:00 p.m.
- Catholic Club. Important Elections of New Officers. Room 1-190, 5:00 p.m. All members urged to attend.
- Inter-Varsity Christian Fellowship. "Christ's Teaching Concerning the Church." Dr. Robert McQuilkin. Room 5-104, 5:00 p.m.
- Mathematics Society. Lecture: "Irrational Numbers." Mr. Harold Shapiro. Room 4-370, 5:00 p.m.
- Tech Model Aircrafters. Elections and Spring Contest Schedule. Du Pont Room, Building 33, 5:00 p.m.
- Freshman Basketball Team. Game with Northeastern University. Northeastern University, 6:30 p.m.
- Chemistry Department. Harvard-M.I.T. Physical Chemistry Colloquium: "Recent Crystal Structure Determinations." Dr. H. M. Abrahams. Harvard University, Mallinckrodt MB 23, 8:00 p.m.
- Varsity Basketball Team. Game with Northeastern University. Northeastern University, 8:00 p.m.
- Music Department. Informal Concert. Music of George Washington's Time. Music Room, Charles Hayden Memorial Library, 8:15 p.m.

THURSDAY, FEBRUARY 22

Washington's Birthday. Holiday.

FRIDAY, FEBRUARY 23

- Mechanical Engineering Department. Seminar: "Gas Turbine Regenerators Using Liquid Coupled Systems." Mr. N. V. Le. Room 3-270, 4:00 p.m. Coffee served in Room 3-174 from 3:30 to 4:00 p.m.
- The Society of the Sigma Xi. M.I.T. Chapter. Lecture on "The Brookhaven Nuclear Reactor—for Research in All Sciences." Mr. Lyle B. Borst, Brookhaven National Laboratory. Room 6-120, 4:30 p.m.

SATURDAY, FEBRUARY 24

- Rifle Team. Match with University of Maine. Rifle Range, 1:00 p.m.
- Freshman Swimming Team. Meet with Dean Academy. Alumni Pool, 2:00 p.m.
- Varsity Basketball Team. Game with American International College. Walker Gym, 8:15 p.m.

SUNDAY, FEBRUARY 25

Lowell Institute Cooperative Broadcasting Council. **SCIENCE ON TRIAL.** "What is Matter?" Dr. George R. Harrison and Dr. Nathaniel H. Frank, M.I.T.; Dr. George Wald and Dr. Edwin B. Newman, Harvard University; Reverend Merrill F. Greene, S. J., Weston College; and Michael Dukakis and Mark Leipman, seniors at Brookline High School. WHDH and WHDH-FM, 6:00-6:30 p.m.

MONDAY, FEBRUARY 26

- Aeronautical Engineering Department. Seminar: "Test Rockets versus Wind Tunnels." Dr. Hugh L. Dryden, Director, National Advisory Committee for Aeronautics. Room 1-390, 4:00 p.m.
- Architecture and Planning and Economics and Engineering Departments. Guidance Talks for Class of 1954. Room 2-390, 5:00 p.m.
- School of Humanities and Social Studies and Lecture Series Committee. Subject: "The United States and the United Nations—Leadership or Cooperation." Speaker: Mr. Saville Davis, distinguished commentator, Christian Science Monitor. Interlocutor: Professor Walt Rostow, M.I.T. Huntington Hall, Room 10-250, 5:00 p.m.
- Agenda. Regular Business Meeting. East Campus, Ware West Lounge, 8:00 p.m.

TUESDAY, FEBRUARY 27

Christian Science Organization. Meeting. "Christian Science Theory." Tyler Lounge, Walker Memorial, 5:15 p.m. All are welcome.

(Continued on Page 4)

L.S.C. Presents Flesh And Fantasy

Continuing with its series of outstanding film presentations of the past, the Lecture Series Committee will present "Flesh and Fantasy," a 1943 production featuring Robert Benchley, Charles Boyer, Robert Cummings, Edward G. Robinson, Barbara Stanwyck, and Betty Field. Principal historical worth of the film is its contribution to the development of the psychological drama. Specifically, the film deals with man's struggle against superstitions.

Uniquely, directed, it makes its mark three times; each of three separate episodes, each characterized by a surprise ending, make up the presentation.

Life, naming *Flesh and Fantasy* its movie of the week said, "shrouded in the eeriness of ghost-like figures, prophecies of murder; and the nightmares of a circus high-wire performer, *Flesh and Fantasy* is an exciting departure from the Hollywood pattern."

The film will be presented on Wednesday, February 21, at 5 p.m., in Room 10-250. The admission fee is thirty cents.

D.P.

(Continued from Page 1)

the frontier secretly crossing over into the U. S. Occupation Zone in Bavaria. He arrived at Regensburg, where he received official DP status and was assigned to the DP Camp at Murnau.

Jan spent more than three years in various camps in Germany. He filled the time by devoting a great deal of work to the organization of Boy Scout units in the area, and in the end he attained the rank of Group Leader. After working as a secretary for the International Refugee organization and after spending some time at an improvised vocational school, Jan became a Mathematics Instructor at a Rehabilitation Center at Luttensee.

Masaryk Fund Provides Crossing

In the meantime he had been in contact with the Masaryk Fund in New York, and through that organization arrangements were made for him to come to the U. S. A. so that he could go on with his studies. He had been selected by the DP Project Committee at the Institute to come to Tech but his departure from Germany was delayed for a whole term by a spiteful and entirely false denunciation made by another inmate of the Camp. On January 31st, 1951, however, he was at Bremen and on February 14th, Jan arrived at Tech.

The fact that Jan Filip and other ex-DP's are able to come to the Institute is the result of close cooperation on many sides. First of all the Corporation was approached by the DP Committee as well as by Professor Paul M. Chalmers, Adviser to Foreign Students and the late Dean Baker. The Corporation agreed to grant tuition waivers to ten DP's. Various fraternities proffered board and lodging free of charge. Pocket-money, clothing, and book expenses are taken care of by various church and lay organizations, one of which recently promised a contribution of \$1,200.

a member of the A. D. Club and the Hasty Pudding Club.

During his junior and senior years at Harvard, Mr. Bowditch taught at the Shady Hill School, and upon his graduation returned to Milton Academy where he taught Latin and English, and coached in football from 1935-37. He left to accept appointment as assistant dean of freshmen at Harvard College and served in that position from 1937-39 when he was appointed headmaster of the Parks School in Indianapolis. He went to his present post as headmaster of Lake Forest Academy in 1941.

Administrative Leader

Mr. Bowditch has been a member of the Headmaster's Association since 1942, and served two terms as president of the Mid-West Preparatory Conference from 1943 to 1945. He was president of Private School Association of the Central States from 1948-49, and has been Chairman of the National Council of Independent Schools and the National Preparatory School Committee.

In 1935 Mr. Bowditch married Miss Anna M. Hale who was born in Haverhill, Massachusetts, and is the daughter of Mr. and Mrs. Edward R. Hale. She was graduated from Bradford Academy in 1930 and from Wellesley College in 1934. They have two sons and a daughter. Mrs. Bowditch has been active in Wellesley College affairs as well as in various philanthropic organizations.

Sinizer Will Head Technical Liaison

Appointment of Dr. David I. Sinizer as Technical Industrial Liaison Officer has been announced at the Institute by Robert V. Bartz, Industrial Liaison Officer.

In his new post, Dr. Sinizer will assist in liaison with industrial firms contributing through general grants-in-aid to strengthen M.I.T.'s program of basic research and education.

A graduate of Columbia University, Dr. Sinizer has been at M.I.T. since 1946 and became Assistant Professor in Mechanical Engineering in 1950.

Photo by Herzfeld

Pictured above are a group of Tech's intrepid oarsmen working out on the rowing machines in the Beaver boathouse. The crew has been training in the boathouse all winter under the watchful eyes of "Big Jim" MacMillan. Last Friday some of the boys took a boat out on the cold waters of the Charles in open defiance of the elements. If the river remains open the boats will be going out steadily starting next week. Coach Tom Bolles of Harvard could not be reached for comment.

Varsity Track Team Loses In Close Meet With Northeastern U.

A surprise victory by Captain Jack Shea of Northeastern in the 300-yard run carried the Huskies to a 57-51 win over the Tech trackmen last Saturday afternoon.

After Shea's win, with George Grenier and Ed Olney taking second and third, Northeastern's Sal Mazzoca won as expected in the broad jump with a leap of 21' 2 3/4". That night he cleared 23' 1" to take fourth in the Indoor A.A.U. meet at New York.

Records Set

Two new Tech records were set during the meet. Beaver Captain Ed Olney edged teammate Chuck Vickers to take the 1,000-yard run in 2:20.5, cutting three tenths of a second off the old record of 2:20.8 held by Nestor Sabi, '37. Chris Geisler set a new Freshman record of 5.5 seconds in winning the 50-yard dash.

Bill Nicholson was high scorer for Oscar Hedlund's squad, winning the 2 mile in 9:56.5.

Beaver Basketeers Beaten By Bowdoin, Colby Squads

Engineer Aquamen Trounce RPI Team

Taking firsts in eight out of nine races the Tech varsity finmen mauled RPI 53-21 Saturday afternoon in the Alumni pool. This was the second win in four meets for the Techmen and showed a definite improvement in the squad.

The frosh swimmers downed St. George High School Wednesday afternoon at their pool by the count of 43 1/2 to 31 1/2 for their third victory in four tries.

The varsity summary is as follows:

300-yd. medley relay: M.I.T. (Cornwell, Pelletier, Perkins). Time: 3:09.9
 220-yd. free: 1st, Hubbard (M.I.T.); 2nd, Loveday (R); 3rd, Carroll (M.I.T.). Time: 2:28.0
 50-yd. free: 1st, Coombs (M.I.T.); 2nd, Gattone (R); 3rd, Higson (R). Time: 25.0
 Diving: 1st, Guthe (R); 2nd, Mitchell (M.I.T.); 3rd, Munro (M.I.T.). Points: 83.7
 100-yd. free: 1st, Baker (M.I.T.); 2nd, Higson (R); 3rd, Gattone (R). Time: 55.2
 200-yd. back: 1st, Cornwell (M.I.T.); 2nd, Damon (M.I.T.); 3rd, Schmidt (R). Time: 2:31.4
 200-yd. breast: 1st, Pelletier (M.I.T.); 2nd, Skiz (R). Time: 2:33.0
 40-yd. free: 1st, Sorenson (M.I.T.); 2nd, Daniels (M.I.T.); 3rd, Curtis (R). Time: 5:23.0
 400-yd. relay: M.I.T. (Baker, Perkins, Walsh, Coombs). Time: 3:45.8
 Total: M.I.T. 53; R.P.I. 21.

On Friday night the Engineers dropped a tough decision to a Bowdoin College aggregation by the aggravating score of 64-62. However, on Saturday night, it wasn't too close as the Beavers were downed 73-55 by a good Colby College team.

Bowdoin Game Close

The Bowdoin game was a tough one to lose for the Engineers. Leading by seven to eight points throughout the game, Tech fell apart in the final two minutes of the contest and the home team took good advantage of the lapse and walked off with the victory. Herb Glantz led the Beaver scoring with 13 points and was followed closely by Larry Garthe and Hank Hohorst, each of whom put 12 points through the hoop. However, high scorer, for the game was Bowdoin's Jordan who chalked up a total of 20 markers.

Colby Takes Early Lead

The following night at Waterville the game was not very close. After a tight first five minutes, Colby with a sudden spurt opened up a ten-point lead. The Maine entry then continued to increase this spread until half time when they held a lead of more than 15 points. The Engineers played some good ball in the second half but were not able to dent Colby's early lead.

Leading the scoring for the Engineers was lanky Hank Hohorst who hit the cords for 17 points. He was followed closely by Mandy Manderson and Mike Nacey who scored 15 and 14 points, respectively. High man for the game again was an opponent. Colby's Shiro with 24 points took the honors.

SPORTS RESULTS

Bowdoin 64	Basketball	Technology 62
Colby 73		Technology 55

CLASS OF '52

L. G. Balfor representatives are now at M.I.T. to take your order for a class ring. Rings ordered now will be delivered on or before May 15.

You have your choice of sterling silver, or 10 or 14 carat gold in four different finishes—dark brown, light brown, green and yellow. All rings come in large, medium and miniature sizes.

Prices, tax not included are as follows:

	10 CARAT	14 CARAT	STERLING SILVER
large	\$19.60	\$24.10	\$7.25
medium	\$16.90	\$20.40	\$6.00
miniature	\$10.50	\$13.50	\$5.00

For the additional charge of \$.30, your ring will be fire hardened to resist wear. A deposit of \$3.00 must accompany each order.

NOTICES

Library Concert

There will be an informal concert at the Hayden Memorial Library in the Music Room on February 21 at 8:15 p.m. Music of George Washington's time will be presented and will include selections by Scarlatti, Telemann, Ficooco, and Scheibe. Arthur Loeb, treble recorder; Helen Williams, violin; Roslyn Henning, violin; Joseph Watson, violoncello; and Elna Sherman, harpsichord, will be the performers.

Photo Exhibition

"The New Landscape," an exhibition of scientific photographs organized by Gyorgy Kepes, Professor of Visual Design at the Institute. Open to the public, Monday thru Saturday, 10:00 A.M.-5:00 P.M.

Law School Forum

"The Struggle in Europe" will be the subject of a Harvard Law School Forum, Friday, Feb. 23, at Rindge Tech High School, Cambridge. The program, beginning at 8:00 P.M., will have author William Henry Chamberlin, radio commentator William L. Shirer, Congressman Chester E. Mellow (R., N. H.), and the deputy Foreign Minister of Yugoslavia, Dr. Ales Bebler, as speakers. Donald C. McKay, Professor of History at Harvard, will be the moderator.

Pershing Rifle Smoker

All who are interested in becoming members in the National Honorary Society of Pershing Rifles are invited to attend a smoker in the Moore Room, 6-321, at 5 P.M. on Wednesday, February 21. The activities and candidate program of the Society will be outlined by the members. Refreshments will be served.

Flying Club

Last Saturday, Feb. 17, the M.I.T. Flying Club moved its base of operations to the Bedford Airport, just outside of Bedford, Mass. The new location is considerably more accessible than the club's old location at Beverly, Mass. Buses leave every hour from Harvard Square and arrive at Bedford Airport thirty-five minutes later.

For those members of the Tech family interested in flying, a Membership Rally will be held today, Tuesday, Feb. 20, in room 4-370 at 5:00 P.M. Sound movies in color from the McDonnell Aircraft Corp. will be shown.

MIT Safety Council

Copies of the pamphlet, "Protection From The Atomic Bomb," have been secured by the M.I.T. Safety Council. Arrangements have been made to provide a copy for everyone of the Institute family except the commuting students. Commuting students, or anyone else desiring copies, may secure one at the information desk in Building 7.

Calendar of Events

EXHIBITIONS

An exhibition of scientific photographs collected and organized by Professor Gyorgy Kepes entitled THE NEW LANDSCAPE will be on display in the New Gallery of the Charles Hayden Memorial Library, Monday through Saturday, 10:00 a.m. to 5:00 p.m. through March 8, 1951.

Photographic Salon Prints by Boyden W. Hindman of DeWitt, New York. Photographic Service Gallery, Basement of Building 11, through March 4, 1951.

CALENDAR OF EVENTS

The CALENDAR OF EVENTS, published weekly on Tuesday in THE TECH, contains announcements for the following week. Announcements, typewritten and signed, must be in the office of the Editor, Room 7-204, not later than noon on Wednesday, February 21, for the Calendar of February 28 to March 6, as Thursday is a holiday.

Bring A Monster— Says '51, For Dance Beer, Entertainment

The Class of 1951 MONSTER RALLY, including an informal dance, beer party and entertainment, will be held tomorrow evening at 8:00 P.M., at the Ritz Plaza Hotel. The Dinner Music Society will provide both dance music and dixieland during the evening. TECH SHOW will present its first public previews of CALL ME MUMMY.

The Ritz Plaza is located on Huntington Avenue, and is readily accessible by M.T.A. Tickets will be sold at the door at the regular admission of \$1.80.
