Acute Lack Of Grades Expected In Engineering

By ED LEONARD

In an interview over WMIT last Thursday, March 13, President Killian, speaking from his home in Belmont, said that he had some information affecting Technology undergraduate, graduate, and potential students. Dr. Killian stated that the Institute personnel are constantly in touch with Government officials, and frequent visits to Washington keep the Institute in close touch with the situation.

In his half-hour discussion with WMIT, President Killian added that the large reduction in the 1950 graduate enrollment in engineering is predicted for the coming year. Twenty-five hundred engineers were graduated last year, whereas the expected number for 1950 is 7,000 students. Representatives of the Technological Council of Boston, Dr. Killian said, have been in constant touch with the engineering schools and universities -re continually changing and is still ten dollars.

President Killian indicated that a critical shortage of graduate engineers is predicted for the coming year. He said that the reduction in the graduate enrollment last year, which was due to the start of the Korean War, is already evident in the number of vacancies that have been offered students.

Today's聯合 agree that the present situation is defined essentially as a shortage. All students who are in the R.O.T.C., or at some other reserve unit, are required to be in uniform until June, providing that they remain in good academic standing.

By June, new legislation will have been passed that will extend the required uniform dates, qualified entrance students.

Reserves, who are called, are (Continued on Page 1)

Tech Beats Vermont, Wins New England Rifle League

For the second successive year the Beaver varsity rifle team captured the championship of the New England College Rifle League by taking a narrow victory in the hard-fought finals. The contest was held last Saturday at the West Point in Southington, Connecticut, with eight teams taking part.

Tech and Vermont represented the Northern Group this year, while the other teams were in the Southern Group. The finals were held last week in the semi-finals. Coed Guard, Boston University, and Northeastern and Rhode Island were the Southern Group participants.

Poor Conditions

Because of the large number of shooters and the limited range capacity at the West Point, the teams were limited to four relays each. Following his usual strategy, veteran coach Jim Beckport, Capt. Herb Wendell, Boie Ballon, and Allan Thinnier on the line in the first order. Because of the very poor lighting and acoustic qualities of the range, these men were only able to turn in individual scores of 201, 235, and 244, respectively.

A Boat Cruise, Formal Dance Outing and Senior Banquet will inaugurate the festivities of Senior Week this coming Monday in conjunction with the Senior Week Committee announced that the combined ticket price of the three major events remains unchanged and is still ten dollars.

Sail Day Begins April 4

Sail Day, which begins Wednesday, April 4, in the lobby of Building Ten. Observances for Sail Day will be held in the evening on April 4. A boat committee and for use exclusively by Senior Week participants will travel throughout Boston Harbor on the second night of the festivities. Senior Week Committee chairman William Greaves presiding as Master of Ceremonies.

Tuesday evening will be the opening session of the Senior Week Committee, which will be held in the auditorium provided by the committee.

The dormitories will vote today to select a new president of the Dormitory Committee. These new rules must yet be approved by the Advisory Committee on Student Housing for final action.

The proposed new hours for open houses are as follows:

Mondays, 5 p.m. to 9 p.m.
Tuesdays, 5 p.m. to 11 p.m.

Tuesdays, 5 p.m. to 11 p.m.

Wednesday, 5 p.m. to 11 p.m.

Thursday, 5 p.m. to 11 p.m.

The new rules require that each house must enforce the new schedule. The new hours were proposed by a committee that will include professors, residents, and students. It is said that the new hours will be in effect from the beginning of the semester and will continue in effect for the duration of the semester.

The dormitories, which are constantly in touch with the government, are informed that the new hours will be in effect for the near future. Statistically, the dormitories are continually in touch with the government and the government is constantly in touch with the dormitories.

WALKER MEMORIAL COMMITTEE AGAIN

Two years ago at about this time, The Tech criticized the Walker Memorial Committee for the preponderance of fraternity representation among its members. At the same time, we pointed out the argument that men from other living groups were showing no interest. At last Thursday's smoker, nineteen fraternity residents and one dormitory man appeared to compete for positions on the Committee. The deadline for any men interested in this work has been extended to Friday of this week by the Committee.

SPONSORED RESEARCH

Because the Report of the Committee on Educational Survey made a profound effect on the basic policies of the Institute in the years to come, every member of the Technology community should be aware of its recommendations and comments. Of particular interest at this time of national emergency is the less publicized section on sponsored research; an excerpt from which is printed below.

Many of the Institute laboratories have undertaken research projects for industry and for the government. In fact, most of our research work is sponsored, and the budget for such work has now been extended to Friday of this week by the Committee.

DORM ELECTIONS

Lewis W. Crump—Having served on the Dormitory Committee and as a secretary of a House Committee, I feel that I fully understand the responsibilities of the position and would like to serve you in this capacity.

"Under its new constitution the Dormitory Committee will delegate more of its functions to the House Committees. I have great faith in the success of this system, and shall work to make it serve the best interests of the residents."

"I will always strive to secure and maintain the best possible living conditions, and do my best to insure a full, balanced program of social, athletic, and other events for the residents."

"Kneel me and make efficient, responsible service from the President of your Dormitory Committee."

James J. Davidson—I feel that the Dormitory Committee should concern itself with only one House. House Committee should cooperate through the Dormitory Committee on any affairs that concern the Dormitory as a whole.

"The Dormitory Committee has one other function. This is to see that the House Committees live up to their various responsibilities to their residents and to the M.I.T. community. I wish to do what I can to make the Dormitory Committee an efficient functioning organization doing what it can to give the residents a better place to live in..."

Two Records Fall

The class of '54, which held third in the annual indoor meet, closed out the indoor season run two weeks ago, came from behind last Saturday to win an easy 745-48 victory over the class of '53, State Intercollegiate. The seniors were third with 43 points, while the juniors fourth with 20, and the freshmen third with 43 points.

The closest race of the day was the 60-yd. hurdles, in which Carl Swanson, '53, put on a "Gehman" finish to nip Carl Swanson, '53, for the victory. This meet was the last for the freshmen in New England. The team is now priming for the next season, the National Intercollegiate meet, to be held in Ann Arbor, Mich. in April.

Summary of Saturday's results:

Girls:

Two Records

The track meet postponed one day due to cold weather, was finally put off in heavy rain. In spite of the adverse weather conditions, 5,000 runners entered. One new freshman record was set. George Grenier, '53, won the 1,500-yard race with this plate-out time of the 890-yard run with a time of 1 min. 14.2 sec., almost a full second under the old record of 1:15.2. On April 20, '53, breaking Grier's freshman record set last season, the new world record was set.

The match Saturday was the last for the Trojans in New England. The team is now priming for the climax of the college rifle season, the National Intercollegiate, which will be held on April 7th.

NOTICES

Lerner Lecture
The Lecturer Series Committee announces that the lecture on "We cannot be hoped for in our Democracy" by Max Lerner, which was to have been presented on Thursday, March 15, has been postponed until Thursday, May 3. Any LC subscription series ticket holder who finds this rescheduling inconvenient will be refunded the admission price to this lecture any time between now and May 3.

Study Tours
The Study Tours Commission also sponsors many travel tours lasting six weeks to two months and generally covering three countries. Besides these travel tours, NSA has study tours of Europe from New York to Amsterdam via Iceland, and of Europe from New York to Amsterdam via Preswick, Scotland. Some room may be available at $340 per month. For further information, contact John Depenhover, 42 Baker House.

N.S.A. Plans Study Tours thru European Countries
Each year the NSA sponsors a group of students interested in going abroad during the academic year. Transportation, meals, and work camp etc are the principal items under discussion. This year's meeting will be held Thursday, March 22, at 5:00 p.m., in Room 4-270. Everyone is invited.
