Kilian Saves Activities Ball; Fresh Camp Put On Campus

by JAMES STUART

Activities Ball has been scheduled for this Friday, March 24, at 8:30 p.m., in a contest dance in Morse Hall on Friday, May 4, subject to final settlement of the location by the Campus Committee.

To cover expenses, President J. B. Kilian has promised $850 from a fund set aside by the Institute for the dance. This unscheduled announcement was made at Wednesday’s meeting of Inst. Comm. To finance the event, the committee has proposed honoring the activities’ heads who have not done so. It was also pointed out that this means of financing the Ball usually results in the leaders paying for an event whose purposes are supposed to be honored.

Dinner Dance Suggested

Stace Walker Memorial Committee has announced that it will run this dance that year as they had in the past. The committee feels that the attendance has declined because the dance was not run by the Student Center. Dances of Class A activities gain prestige from their positions on Inst. Comm. To increase the appeal of their events, many active workers in the larger activities.

Protests immediately against this restriction as it is very difficult to find active workers in the larger activities.

Dormitory Plans Week End Formal

First nights of Dormitory Week end will be a formal dance held in Baker House, and his orchestra supplying the music.

On Wednesday evening the Dormitory Committee voted unanimously to hold the first evening of this year’s Dormitory Week end at Baker House, and make the second evening an informal affair at Morse Hall.

Dormitory Week end will be April 20-21 with dances planned all night for all activities on the afternoons of April 21.

New Draft Proposal To Go To Congress

Clariication has come from the office of Mrs. Latz, the Institute Affairs Committee on Military and Selective Service to dispel confusion which arises from rerouted announcements in the press and from the committee. Mrs. Latz wishes to emphasize that the decision in Washington is on the broad question of the draft for the Senate and House of Representatives 15 years of age, and the question of sending troops to Europe.

No decision was reached on any of these points, and debate will not be continued before Congress meets for assignments. The House Committee will be adjourned by June 15, 1951.

The next proposal to be submitted to Congress after the Easter recess provides for a national examination of the entire young men 17 years of age or older, and it is understood that the House Committee will be adjourned by June 15, 1951.

No decision was reached on any of these points, and debate will not be continued before Congress meets for assignments. The House Committee will be adjourned by June 15, 1951.

Library Windows Caulked To Prevent Puddles On Floors

by HUGH O. GALLAGHER

All the windows on the side of Hayden Memorial Library are being checked by the J. F. Wheeler Co., of Boston.

The frames, specially designed forностью, leak after every downpour during the rainy season at the library floor. Due to the posi-

tion of the windows, the water leaks down the wall and under the floor after the rain.

The windows are made of aluminum and built by a company known for its quality.

Melissa Elected New Dorn Comman President

Nick Melissa of East Campus was elected to the position of Dorn Comman President.

Although there has been considerable rumors for weeks as to who would be selected, the choice was made from a list of candidates.

Seniors Urged To Contact Co. Repres.

by STEPHEN ELMIR

It is time that seniors urge their co. reps. to contact them.

This year’s Dormitory Week end will be a formal dance held in Baker House, and his orchestra supplying the music.

On Wednesday evening the Dormitory Committee voted unanimously to hold the first evening of this year’s Dormitory Week end at Baker House, and make the second evening an informal affair at Morse Hall.

Dormitory Week end will be April 20-21 with dances planned all night for all activities on the afternoons of April 21.

A NEW GYMNASIUM

An earnest attempt has been made in the last few years to make Technology more of a college and less of a scientific institute. One of the most important things that has been neglected was to have been the construction of a new gymnasium to increase the Institute's slightly overworked athletic facilities. While plans for a new gymnasium have been started, this building did not receive the place in the recent fund drive that it deserved.

School spirit is a very hard thing to develop in an institution like Technology. But athletics can go a long way towards promoting it. The present facilities are inadequate for the number of students who wish to participate in sports, and sixty-three per cent of the student body does.

Harvard has a rowing tank to help its crew practice during the winter season. Our crew needs one to enable it to compete on a more even basis with the Crimson, and with Western crews that do have such facilities. A rowing tank is included in the plans of the new gymnasium. Attendance at basketball games would increase many fold if the team played on a court where the spectators wouldn't get all stiff necks from peering around pillars. Unless the hockey team is provided with a practice rink in the near future, Technology's seasons of competition in intercollegiate hockey are numbered. There is also the ever-present demand of students for more locker space. The proposed gymnasium would supply all these needs and many more.

After years of inactivity, the hockey team is not likely to do much better in the future than it did this year. A stronger team is needed, and we hope that the staff will work towards this goal.

Letters to the Editor

Dear Sir:

This note is in reference to the review of Tech published in the Tuesday issue. It is unfortunate that Messrs. Leonard and Steinberg tried to take the role of expert critics. Their uncalled for criticisms are not only uncomplimentary but indicate their lack of taste and judgment in reviewing such a production.

The criticisms are not in the least bit constructive, for in passing the lesser part of the show, the weakness of the plot, and the discontinuities of the book, they have forgotten that these are minor factors in a musical production. Have the critics ever analyzed the plot of a typical Broadway or Hollywood production for such "pointless" parts as the introduction of the Parisian hotel? ... No mention was made in the review of the superior quality of the acting voices, an outstanding attribute. Jean Thomas, a very good combination of Old Vic talents and Ethel Merman, and also Janet-Lee... (Continued on Page 6)

Barton Conant Ends Season As Tech Wrestling Captain

When Barton C. Conant became captain of the varsity wrestling team near the end of the season, he became the captain of a team that was all but disbanded. It certainly was not an enviable assignment, nor was it one which had possibilities of gaining him wide recognition.

Those who had followed the activities of the wrestling team during the course of the year knew that it didn’t do so well because of the lack of enough good men. The team never talked, however, and came back to make an exceptional showing of the wrestling teams during the course of the year, knowing that it didn’t have enough good men. The team never talked, however, and came back to make an exceptional showing of the wrestling teams during the course of the year, knowing that it didn’t have enough good men.

Barton Conant, a transfer student from Williams College. After graduating from Garden City High School in Long Island, he entered Williams in 1941. His college career was interrupted by two years service in the Navy, and came back to make an exceptional showing of the wrestling teams during the course of the year, knowing that it didn’t have enough good men.

Ends Season As Tech Wrestling Captain

The initiative regards with the winner of the Cambridge-Oxford meet has now been made definite. The two foreign teams will race in England this coming Saturday, the 24th.

The winner of this race will travel to this country to meet Harvard and Tech on the 26th of April. This race should prove an exciting experience for all those varsity teams and a good chance for the foreign students to work our college functions.

Lossing on the Fresh

A freshman crew is as good as a varsity coming up for the spring; if the Frosh look good you are assured of a good future varsity.

In an interview with Coach Chuck Jackson, today, we learned that although the weather has been hampering the progress of the men in the crew, thus making it hard to determine definite boating, the coach plans to get a lot accomplished this spring vacation. He will work the crew in the mornings.

The Freshmen Crew Record

Anyone interested in joining the crew should contact William Sellor, 91, Bernard 100.

Technology Oarsmen And Harvard To Meet English Shell In April

Now we know that spring is really here. The Tech baseball squad of twenty-two players will leave tomorrow for a five game spring vacation trip. The squad will travel by automobile to Lexington, Virginia, to meet Washington and Lee on the 27th. The team will be comprised of players games with Maryland, Howard, George Washington, and Georgetown.

Amao Dixon, Norwood right hander, who showed great promise as a sophomore hurler, will carry the Engineers’ hopes for a successful season. Coach Roy Merritt will cast upon two veteran pitchers for supporting roles in Cliff Bowdoin and Wade Greer of Beloit.

Captain Gene Lubarsky is a masterful Thomson's teammate, Pete Phillips at third base and Mike Johnson in center will return to familiar positions.

Sophomore Ben Hanlon will be at first base and two other second-year men, Phil Bouchard and Joe Bouchard, will fight it out for the varsity spot at second.

The Engineer’s Schedule

This will be Tech’s second spring baseball trip. The schedule: March 25, at Washington and Lee; March 28, at Maryland; March 30, at Howard; March 31, at George Washington; March 31, at George-town; April 1, at Tulane; April 1, at Wesleyan; April 1, at coast East Academy; April 19, North-eastern; April 27, Colby; April 28, Bowdoin; May 2, Providence; May 5, Tulane; May 8, at Boston College; May 12, at American International; May 14, at Harvard; and May 19, Boston University.

Thomas Jumps 125’

Other Records Set

Boards started coming down this weekend marking the close of the indoor track season. Although team had a record of only one win as against two losses, the season was a competitive success, especially considering the way the squad was hit by graduation last year.

Chuck Vickers set a new varsity record of 2 minutes 10.4 seconds in the 1,000-yard run. George Grenier added the intervarsity 440-yard run record to his collection by running the distance in 1 minute, 34.2 seconds, but lost a record when Ian Wheaton of Mass. of 54 ran in 1 minute, 18.6 seconds. This topped Grenier’s frosh mark of 1:18.6. Wheaton also set a new frosh broad jump record of 20 feet 6 inches. Frank McKeet set a new varsity record of 27 1/4”.

Probably the outstanding performance of the season was the 12 1/2” frosh record jump of Kathy Thompson in the pole vault. He might have surpassed this effort except for a wrist injury which kept him from competing the week after the set the record.

Red Cross Life-Saving Classes

Red Cross Senior Life-Saving and Instructor certificate will begin on April 2nd and will be held on Monday, Tuesday, Wednesday, and Thursday from 4 p.m. to 6 p.m. at the Allison Pool. The six-week course will cover all the necessary material that must be learned in order to take the Red Cross official exam. Those completing the course will be certified as instructors.

Letters to the Editor

(Continued from Page 2)

Dear Sir: Your review of the Tech Show has failed to list all the songs of his concert, or as for that matter, Dan Sullivan, or Peter Noonan. . . .

Dear Sir: Your review of the Tech Show has failed to mention the wonderful voices and emotional delivery that Art Wasserman gave to the show. It will certainly be the highlight of the concert. One cannot forget the laugh-producing antics of Georges Morin, as for that matter, Dan Sullivan, or Peter Noonan. . . .

Activities Ball

(Continued from Page 1)

dance open to all men recommended by the activity leaders, be held instead. Because of the expenses involved in adjoining a formal, Allen Odian of the 5:15 Club suggested that the dance be informal instead. His motion was defeated. The feelings of the leaders of Class of '52 activities on this issue are not known.

Oarsmen

(Continued from Page 2)

The second boat outdistanced the first by almost 4 lengths. However, this is a healthy situation. It indicates that the men in the second boat don't want to stay there and the men in the first have not yet decided how long they want to stay there.

Record Shop

(Continued from Page 1)

but uncommon for mass dealers throughout the country, Mr. Schwartz expressed the opinion that the funds could be used for more worthwhile purposes. After a half dozen members volunteered to contribute to the request, another motion was made with the same effect. It should be mentioned that at least one representative of Class of '52, is expected to be appointed chairman of the Red Cross committee.

PHILIP MORRIS challenges any other leading brand to suggest this test

HUNDREDS OF THOUSANDS OF SMOKErs, who tried this test, report in signed statements that PHILIP MORRIS is DEFINITELY LESS IRRITATING, DEFINITELY MILDER!

1. . . light up a PHILIP MORRIS and blow it across the room and note the direction it takes. . . .

2. . . light up your present brand and blow it across the room and note the direction it takes.

Other brands merely make claims—but PHILIP MORRIS invites you to compare, to judge, to decide for yourself.

This is something you, too, will agree . . . PHILIP MORRIS is, indeed, America's FINEST Cigarette!
