Eccstacy' Showing Banned By Cambridge Police Not Council

Eccstacy, a controversial and highly publicized film, was to be shown on Monday at 8:00 p.m. in the Main Lecture Hall. At about 3:30 p.m., just before the movie was to have gone on the screen before an estimated 500 people, two Cambridge policemen walked in and prevented the showing.

The first indication of opposition to this film came Tuesday when a group of students went to the office of the Assistant Dean, Thomas Hilton, demanding to see him about the film. This protesting group was composed of the following students: Michael C. Chibnall, '52; John G. Welch, '53; Joseph O'Leary, '53; Dennis Gradin, '53; Francis Hyson, '52. All of the group are prominent members of the Technology Society, but were acting as individuals rather than as representatives of the club and did not represent the club as a whole.

In accordance with the policy established earlier by the Administration, the Student Council last Wednesday night voted to approve a resolution prohibiting the showing of the film and to send a memo to the Dean's office to prohibit LSC from showing any other movies. The film was banned for all seven days of the week. In Europe, the Scandinavian countries passed it but Germany and France banned it.

The State of Massachusetts has denied the appeal of the film's producer, and Boston has banned it for all seven days of the week. In Europe, the Scandinavian countries passed it but Germany and France banned it.

ATHLETIC ASSOCIATION CONDUCTS PHOTOGRAPH CONTEST FOR BROCHURE

MITAA in conjunction with Admissions is sponsoring a sports photography contest, beginning today and ending on Friday, May 15. The photographs to be used in a brochure depicting Institute athletics, which will be distributed to high schools and incoming freshmen.

The photographs should be nice, but good prints are acceptable. The pictures should depict any phase of MIT athletics, either intramural or intercollegiate.

There will be a first prize of $10, five second place awards of $3 and an additional award of $2.00 for any other photograph used in the brochure. All entries should be submitted to the MITAA office and should include the photographer's name and address.

The closing date for the contest will be May 18, and winners will be announced on Monday, May 21. All photographs not used will be returned to the contestants.

THE PROPOSAL

It is most unfortunate that the administration's recent "Proposal on Campus Living" should have been presented as it was. The proposal, because it is so inclusive, presents in one document the many separate problems and their solutions, that it is impossible for a democratic body, such as the student population of this school, to clearly judge each facet of the program in its individual merits.

Equally unfortunate is the fact that the Institute should have submitted just one proposal, and that one proposal should be so complete. Many students correctly feel that the administration submitted a package for "rubber stamp" approval. Students would rather have had the administration's problems presented to them, before the extensive proposal of the administrative problems formulated in all its completeness.

It is this method of presentation to which we must take our principal objection. Nevertheless, the proposal needs to be examined carefully. The proposal can hardly be called "all wrong," or "all right," just because the administration formulated it.

Contract feeding at Walker Memorial ought not to be introduced on a compulsory basis. We object to required contract feeding as a means of giving Walker a chance to prove itself, or as a means of introducing contract feeding. We support the student-suggested, short-trial method as the best means of introducing contract feeding and as the best means of proving just what can be done with Walker Memorial.

Freshman ought not to be required to live on campus on the basis of the information which the Institute has thus far provided. Required freshman residence is a complex problem in administration. It may be considered just what effect this order at this school would have upon people coming to this school. In no case should required freshman residence and required contract feeding for freshmen be used principally as a means of relieving the Institute's current economic situation.

While the Technology student, like all other people, wants his environment to be as pleasant as possible, he must concern himself principally with his studies. Until the Institute lowers its academic standards this will remain so. The student's idea of "the good life" is simply one that allows him the maximum freedom of thought and action, within reason. He wants the freedom to govern himself, the freedom of choice, the right to pick his own environment, his own companions, and his own style of living. He wants the freedom to be able to do what he wants to do, when he wants to do it, as long as no other person is injured.

The Technology student should demand this concept of "the good life"; he deserves nothing less.

"ECSTASY"

"Ecstasy" was "banned" in Huntington Hall last Tuesday. This action was taken by certain officials of the City of Cambridge.

Once again officialdom has decided what the majority may witness on the screen. It is unfortunate that these few did not have sufficient faith in the judgment of Technology students to adhere to its decision if they wished to view or not. We question just what harm can be done by showing college students a few glimpses of Hedy Lamarr sans clothes.

The time has long since passed when a chosen few should be allowed to determine what the majority may see. This is the Twentieth Century, gentlemen, not the Middle Ages.

The MIT sailing team added another win to its impressive list of victories in a pentagonal meet on home waters, Sunday, April 29. Facing the Varsity "B" team against top competition from four other schools, the outcome was never in doubt as the Engineers showed their mettle by scoring 56 of a possible 60 points. In the A division, Bob Maloney and John Nieman came through handily with three firsts and two seconds, winning top scoring honors for the day with 28 points. Not to be outdone, Phil Alden swept all six division races of Jake Kevrin and Mitt Almquist, took the firsts and the seconds in steam for division honors. Final score for the regatta was: MIT 56, Boston College 48, Northants 31, Hobart 14. The Varsity "B" team -against top competition from four other schools, the outcome was never in doubt as the Engineers showed their mettle by scoring 56 of a possible 60 points.

"Who do they think they're kiddin'? I invented double talk!"

More People Smoke Camels than any other cigarette!
NOTICES

Dean Contest
Want to win some Chesterfields?
Easy! Just stop in at the CAF this week or next and try your luck at guessing the number of beans in the fishbowl. Here are the rules:
1. Submit each guess on the back of a Chesterfield wrapper with your name and address.
2. Contest closes 5:30 p.m., May 17.
3. No limit to the number of entries.
4. No integrating will be allowed.
5. Closest guess will win two cartons of Chesterfields. The next closest will win one carton.

Technique
President Killian will speak at the TECHNIQUE Smoker to be held next Monday, May 7, at 5:00 p.m., in Tyler Lounge. The purpose of the meeting is to select new men for the year book staff. Refreshments will be served.

TCA Scholarships
TCA will award several scholarships to the Summer Institute for Social Progress at Wellesley College, July 7 through 21, 1951. The problem this year will be East and West, Grids and Challenges. Scholarships cover expenses for tuition, room and board but not travel. Applicants should apply in person to the TCA Office. Both students and Faculty are eligible.

Student Tutors
Applications to become a student tutor are now available in the Dean's Office. Deadline for their return is May 24.

Freshmen
(Continued from Page 1)
fail that the restrictive living proposal is put into effect. This would give the freshmen three rush weeks to build up their houses in order to successfully carry on through the lean year when no freshmen would be living in the fraternity houses. However, pledging, with the exception that no pledges would live in the houses until the following year.
The IFC representatives brought out the point that all fraternities at MIT operate on a narrow financial margin between the black and the red and that the loss of six or eight men is enough to put most fraternities into the red. Because of this fact advance notice should definitely be given.
The question was then asked, "What financial support could the fraternities expect from the Institute," to which Dean Farnsworth answered, that if the case warrants and if the treasurer warrants, and if the Institute feels that it is a sound investment, then serious consideration would be given.
The IFC then went on to state that they feel the fraternities do much more for the freshmen than the dorms do—socially, activity-wise and socially—and that the present proposal would not greatly change that. Fraternities being a group can offer a greater degree of guidance than the dorms are able to at the present time.
Dean Farnsworth answered by stating that in the future, dorms would be built on a smaller scale so that the spirit the dorms now lack could be built up.

Opposition To New Undergrad Const.
Leading opposition to the proposed constitution for the Undergraduate Association at Wednesday's IFC, meeting, Robert Stewoairnauer, 23, representative of Veo Don, attacked revision in selection of activity representatives by election of one from each of ten general groups instead of the present system of automatic representation for the heads of Class A activities.
Maintaining that elected men are not necessarily the best legislators, he said that some of the representatives should be non-elected to give an impartial feeling among Class A activities elect their leaders. In response to Arthur Wasserman's statement that some Class A leaders are primarily interested in their activities and are not anxious to serve on Inst. Committee, Schumanhauer suggested that these men let interested members of their activities assume their seats. However, it was pointed out that this is illegal under the present constitution.

"Ecstasy"
(Continued from Page 1)
Mr. Peterson, Supt. of Building and Power, and told him that "the movie definitely could not be shown because it had been banned." This apparently was incorrect. Morever, Mr. Peterson took Harrington at his word and informed the President's office that the film had been banned by the City of Cambridge. Assistant Dean Thomas Hilton then informed LSC that the Mayor had telephoned the office of the President to inform M.I.T. that in a special session the Cambridge City Council had passed an ordinance forbidding the showing of "Ecstasy." This apparently was a mistake, as no ordinance had been passed nor an ordinance that regards the law, where or when the film was shown, the film and projectors would be confiscated, the sponsors arrested, and the audience fined. In view of this and the fact that police had already been dispatched to room 10-250, LSC decided that discretion was the better part of valor.
