Baker Residents Protest Dining Crowding

Like Topay and infatuation, lines at the Baker dining hall have been growing and growing with each passing day. A total of 180 residents of Baker house have complained to the directory because of common needs at Baker house. Residents of Baker have complained about the dining hall every single day.

Dean Knowleshif took a part of the meeting and explained that the housing situation was very unsettling at the moment, and that all those in the administration consortium must form a housing policy. The services were doing their best to alleviate difficult conditions throughout the dormitory system. The food could offer any specific respect at the time.

Proposals and Suggestions
In its proposal on campus dining issues, last spring, the administration consortium members expressed a number of concerns about morning lines at Baker House. Residents of Baker House, for example, said that the lines had apparently been proven unfavorable.

These suggestions at the meeting ranged from creating special hours for freshmen to afternoon hours for sophomore students. The idea behind these suggestions was to move cooks for Baker House residents optional instead of mandatory. This year all freshmen are allowed to select their dormitory unit. Professor John Rule, Walker Memorial, or in Baker House.

New Air Force Advanced Course
Major Linsman is presently awaiting final approval of the Committee of Undergraduate Committee, Confirmation for a new course which is to be offered in addition to the communications course and that is to start the first year advanced course students in the Air Force ROTC. The Communications course will be given primarily to freshmen and sophomore students in the Air Force ROTC. The Communications course is to be offered in all other advanced courses.

Campus Radio
Speeches prepared and acted to active military service for the majority of the Air Force ROTC. Faculty states that they will specialize in research and development activities as they go.

Faculty Residents Move to Baker, East Campus Houses
To assist the dormitory students affected by the administrative changes, the administration has already adopted a plan of housing at least 50 students in each dormitory unit. Professor John Rule said that he and his family are now living in Baker House and are making the most of the situation needed no alterations; Professor Curtiss K. Powell, with an assistant, has moved into the remodeled suite in Munroe on East campus. He and his family plan to move into a new suite in a few months, when his apartment is completed.

“Our members of the faculty have been in touch with all other faculty members to offer whatever service they can to help the students in any way,” reports Assistant Dean of Students Charles J. Moore, Baker Memorial. “We are now on view in the New Gallery of the Institute, playing host to more than 300 visitors at the annual All-University Open House, which is being staged from 2:00 to 6:00 p.m. on Sunday, September 23, a week from today, by the Technology Catholic Club, the dance is always the best, and Professor John Rule, Dorrance, and the girls, invited from 18 schools in the Boston area, were present for the celebration. Theabrasions entertainment supplement provided by George Graham and Herbert White.

Admission will be $1.50, tax included, and tickets will be available in the lobby of Building 19 and will be sold at the door. Dancing will be from 8:00 p.m. until midnight.

Tech Show Auditions Will Begin Sept. 24
Auditions for Tech Show will be held Monday and will be held for students of all classes and all fields. It will be held in Building 18. They will last from 3:00 to 6:00 p.m. Monday through Friday until Monday, September 24.

Although anyone with any talent for entertainment is desired, Business Administration and some technical courses are also needed. Anyone who is interested in writing, producing plays, or any type of writing is also invited to come at the same time.

Technological and Social Research Laboratories
New laboratories are now being established in the new laboratory buildings. These laboratories are being set up to meet the needs of research in various fields. Named in honor of the late John Thompson Dorrance, president of the Cambell Soup Company, the new laboratories will be used to meet the increase in demand for graduates in technology and social sciences. The laboratories are being set up to meet the needs of research in various fields. Named in honor of the late John Thompson Dorrance, president of the Cambell Soup Company, the new laboratories will be used to meet the increase in demand for graduates in technology and social sciences. New Calculus Text Has Same Scope
But New Technique
By Ed Eggel

At the beginning of the fall term, new freshmen began a course in calculus, even more thoroughly and completely than the former course. The new text, "Calculus with Analytic Geometry," written by Dr. George B. Thomas, of the Mathematics department, is the first text to take up the topic in this way.

Calculus and Analytic Geometry, according to the author, was written with the idea that the classroom situation is different from that of a book. In subject matter, order of presentation, the new book follows very closely Phillips' book, which, the Mathematics Department agreed, had the best coverage and order for the students at Tech. It is chiefly in the style of presentation, with the different type of explanation that Professor Thomas has changed. It is also true that the reason for expecting the student to learn the new subject as it appears, although this was not always an easy task.

Based on Experimental Course
Two years ago, the book, in preliminary form, was used experimentally by two freshman sections. This Winter, there will be for the first time the full course, with Professor Thomas to get the students reactions to his work. Last year the book was used by all freshmen, and two sections of Sophomores in Course X used the material. The book is a 32% part of the text on an experimental plan.

This year the course in complete form is being used by freshmen and just as much as possible by students in other schools, among them:

H. A. D. Whitney, Jr., "The Freshman Class is a failure, but he can't fix it."

Those who maintain that the freshman this year and last year were unemotional Turks are quite wrong. Those who knew Otto will find him unemotional. Those who maintain that the freshman this year and last year were unemotional Turks are quite wrong. Those who knew Otto will find him unemotional. Those who maintain that the freshman this year and last year were unemotional Turks are quite wrong. Those who knew Otto will find him unemotional. Those who maintain that the freshman this year and last year were unemotional Turks are quite wrong. Those who knew Otto will find him unemotional.

THE TECH

Field Day Practice Starts; Fresh, Sophs Still Needed

Field Day is one of the oldest institutions at the Institute. For the last 55 years it has provided an outlet for the traditional rivalry between the freshmen and the Sophomores. The freshman won in 1950, the year of the first Field Day, but since then they have only been able to rack up 11 victories.

This year the interclass struggle is scheduled for October 27. For the benefit of the freshmen and sophomores who are interested in actively supporting their respective classes on Field Day and who have not yet contacted the coaches, a list of the sports, their coaches, and eligible freshmen and sophomores who are interested in participating in each of the sports, along with instructions on meeting times after 2 p.m., at Briggs and in the boathouse. Men who earned numerals last year are not eligible to compete this year.

Tug-of-War; Coach—Merwin Blum

Football; Head Coach—Jack Walsh

Swimming; Coach—John Ehrenfeld

Track; See Oscar Hedlund anytime after 2 p.m., at Briggs.

Crew; Chuck Johnson—at the boathouse.

Tug-of-War; Coach—John Ehrenfeld—notice of first meeting to be announced.

Sophs: Football; Head Coach—Howie Anderson—afternoons at Briggs Field House.

Swimming; Coach—Dirk Plummer—at the pool.

Tug-of-War; Coach—Merwin Blum—notice of first meeting to be announced.

Track; See Oscar Hedlund anytime after 2 p.m., at Briggs.

Crew; Coach Chuck Johnson at the boathouse. Men who earned numerals last year are not eligible to compete this year. Therefore a complete new team is needed.

Cross Country Practice Begins

The 1951 Technology Cross Country Season opened in a spirit of optimism this week as one of the biggest squads in the last decade reported for practice. Four of last year's seven varsity runners are back this year, including Captain Charlie Vickers and former Captains Bill Nicholson, Junior Jerry Tiemann and Bob O'Donnell. They are also back from the 1960 crew, which opened the season as a green lot. This included only one letterman and went on to amass its undeated season and take fifth place in the New England I. C. 3 A. Championship meet.

Freshman Captain John Avery, John Panghagar, Ian Williams and Charles Cardiff head the Sophomore contingent. Paul Kaminiski, Glyda Baker and Wilson Round, all experienced trackmen, are also among the standouts at the present time.

Crew Needs Freshmen

All freshmen who are interested in going out for crew are urged to contact Coach Chuck Jackson at the boathouse. No experience is necessary. Rowing is one of the top sports at Technology and our crews have always made an excellent showing. Last summer at Mystic the freshman crew was first nipped in the stretch by the Washington University aggregation, beating out every other top freshman crew in the country. Our crews have always had a good reputation in rowing circles. It is up to you freshmen to uphold this stellar record.

A Welcome From

OFGANT CHEVROLET CO.
104 MAIN ST., CAMBRIDGE

For Expert, Dependable Service
To Fulfill All Your Motor Needs

Good pay

CALL BILL HABERMAN, LO 6-9360

Here's another instance where the Patronage Refund is very important

For Your Car!!

GASOLINE
OIL
WASHING
GREASING

The COOP wishes to emphasize the fact that members of the Technology Store may purchase gasoline and oil for their cars and obtain a Patronage Refund thereon. A Patronage Refund is also paid on the charges for washing and greasing. To the drivers of cars, this represents a saving that is well worth while and you are urged to visit this Authorized TECH Store Gas Station.

Thomas did a good job. He wanted. Despite these problems, the version was closest to what he thought the author was satisfied that his first effort was. He probably agree that Professor Thomas is right. Most freshmen and sophomores will probably agree that Professor Thomas says that the most difficult problem he encountered was forcing himself to sit down and do the actual writing. There were three times before the author was satisfied that his first version was closest to what he wanted. Despite these problems, most freshmen and sophomores will probably agree that Professor Thomas did a good job.
