Enrollment Drops After Veterans Take Degrees

A total of 479 students are studying at the Institute this term, according to Dean of Students, R. E. Mills, Jr. This compares to 501 students graduated in the fall of last year. Of the 479, 223 are freshmen, 243 are sophomores, 74 are juniors, and 18 are seniors. This is the first time since the 1952-53 season that the number of freshmen was less than the total number of students enrolled.

Junior Prom Set For Statler Hotel

This year's junior prom is to be held on Saturday afternoon, May 12, at the Statler Hotel. The festivities will begin at 1:30 p.m., with dinner at 2:30 p.m. and dancing until 10 p.m. The Statler Banquet Room will be the site of the event. Tickets are available at the Statler Hotel for $5.00 each.

Yoss Named To NRC

Professor Walter C. Yoss, head of the department of mechanical engineering, has been appointed to the National Research Council. He is one of three new members appointed by the National Academy of Sciences. Yoss is a specialist in the field of power generation and has been associated with the Institute for many years.

Crowd Graduates

According to Thomas L. Milton, Assistant Dean of Students, this year's graduation will be held on Saturday, June 1, at 3 p.m. The exact number of graduates is not yet known, since the final count will be made after the last day of classes on June 21. However, it is estimated that there will be approximately 300 graduates.

Burton House Gets Modern Snack Room

The new snack room at Burton House is being opened to the students. The room is furnished with modern equipment and is open from 7 a.m. to 9 p.m. each day.

Instructional Improvements

As Freshman Physics Starts With Optics

For the second consecutive year, the freshman physics course has been altered in an attempt to organize the course so that the student can acquire a significant amount of material thoroughly in the first year. This year the freshmen, aided by Dr. J. W. Zenze, are being introduced to geometrical optics in the first week of the fall term. By studying geometrical optics at the beginning of the year, the freshman now has more time available for the study of mechanics.

The rest of the term will be devoted to a study of mechanics, including both theoretical and experimental work. The new text being used is "Physics," by professor Francis B. Muller, head of the physics department.

Burton House Gets Modern Snack Room

The snack bar for light meals and entertainment to be provided for residents of Burton House is being designed by Associate Professor William H. Brown of the Department of Architecture. The snack bar will be built by the same firm that built the Student Union. The administration has not yet decided how much money should be spent on the snack bar. Actual work has not yet begun. The term of the decorations and furnishings is under consideration.

The snack bar will be located on the ground floor of the third wing of Burton House. Its facilities will include a counter and a variety of meals and hours will be the same as at the Graduate House snack bar. The seating capacity will be approximately seventy-five.

CALENDAR OF EVENTS

OCTOBER 10 TO OCTOBER 16, 1951

WEDNESDAY, OCTOBER 11

American Chemical Society-Northeastern Section, Symposium: "Some Observations on Educational Engineering in Japan." Professor Hiroshi H. Hazen, Room 6-129, 4:30 p.m. Refreshments at 4:00 p.m. in Room 6-321. Catholic Club, Social meeting, Room 3-239, 10:00 p.m.

THURSDAY, OCTOBER 12

Library Club, Meeting and discussion of future trips. Room 15-007, 5:00 p.m. Everyone is welcome. Symphony Orchestra. Rehearsal. Memorial Hall, 7:30 p.m.

TUESDAY, OCTOBER 16

Catholic Club, Apologetics Class: "Principles of Man in Science." Rev. Paul Murphy, S.J., Room 5-119, 6:00 p.m. Institute of Aeronautical Sciences, Lecture: "The Air War in Korea." Lt. Col. James Ar. Forsey, U.S.M.C., Room 1-109, 5:00 p.m. Glee Club, Rehearsal, Room 5-119, 6:30 p.m. Choral Society, Rehearsal, Room 5-119, 7:30 p.m.

EXHIBITIONS

Photographic Salon prints by William P. Small of Newburgh, New York, are on display in the Photographic Service Gallery, Basement of Building 11, through October 15.

Photographic Salon prints by Thomas J. Newett of Park Ridge, Illinois, will be exhibited in the Photographic Service Gallery, Basement of Building 11, from October 16 to October 29.

CALENDAR OF EVENTS

The Calendar of Events appears in THE TECH on Tuesdays with announcements for the following week. Notices may be typewritten and signed, must be in the Office of the Editor, Room 7-202, not later than noon on Thursday prior to the date of publication. Material for the Calendar of October 16 October 22 is due October 11.

**3 Elected To IRE**

Three members of the Faculty have been named Fellows of the Institute of Radio Engineers, an international society of over 30,000 members. The award of Fellow, the highest membership grade of I.R.E., is annually bestowed on scientists who have made outstanding contributions to radio or allied fields.

The recipients of the Fellow award, which becomes effective January 1, 1952, are:

Dr. Leo L. Beranek, Associate Professor of Communications Engineering and Technical Director of the Acoustics Laboratory; Dr. Lee J. Chu, Associate Professor of Electrical Engineering; Dr. Jerome B. Wiesner, Professor of Electrical Engineering and Associate Director, Research Laboratory of Electronics.

**TUG OF WAR**

All freshmen who are interested in participating in the Tug-of-War on Field Day are asked to attend a Tug-of-War rally today at 6:00 p.m. outside of Briggs Field House. John Shornick is coach.

---

**Eng. Sailors Victorious; Frosh Win Their First**

The Engineer Sailors had their first taste of victory this season by beating Brown, University of Rhode Island, and Babson Institute at a quadrangular regatta sailed on Point Judith Salt Pond under the auspices of the University of Rhode Island Boat Club. The regatta was sailed in class "C" dinghies for a puffy, northeast wind accompanied by rain squalls. Ed Molina, with John Riemann as crew, won easily the first two races in class A division, Adam Riemann, with John McDonald crewing won the first two races in B division up-even greater margins -- even though he had never sailed class D dinghies before.

John Riemann skippered the final two races in a division taking a second and a third. John McDonald raced the last two races in B division taking two second places.

Final scores were:

**Campus Interviews on Cigarette Tests**

**No. 23 THE AARDVARK**

After all the tests... aardvark a mile for a Camel!

This campus camer-cutter got his smooch of cute cigarette tests. It didn't take his long to dig out the fact that cigarette mildness can't be determined by a mere single puff or quick-niff experiment! Millions of smokers, on and off the campus, have discovered there's only one true test of cigarette mildness. **IT'S THE SENSIBLE TEST... the 30-day Camel Mildness Test, which simply asks you to try Camels as your steady smoke -- on a day-after-day basis. No snap judgments. Once you've tried Camels for 30 days in your "T-Zone" (T for Throat, T for Taste), you'll see why...**

After all the Mildness Tests — Camel leads all other brands by billions

(Continued from Page 3)

Information is passed on in the hope that there are others who have never learned the meaning of this word, and are now enlightened. While we're on the subject of words in headlines, we think we should comment on one which en joys great favor here in Boston, but one which we have never seen in wide usage in the midwest. The word is often, since it is so well used, most of us probably realize that it means a legislator, or more commonly and specifically, a Senator. However, this is only half of the definition. Fenon also connotes a wise man. Hence, we think local editors should be a little more prudent in their bandying-about of the term.

Down with the old! Up with the new! With this as its battle cry, the Institute has torn down all of the old bulletin boards, and put up three monsters in their place. These new boards are to give the Institute a less sloppy appearance, we are told, and to keep student activities' posters under control. Under the new order, each activity or event will be allowed one poster on each board. No longer will more quantity suffice when it comes to advertising an activity. Posters now must be eye-catching to attract notice. There are two distinct advantages to this new system, however. The first is an advantage for the poster paint industry. The second is that since only three posters are now allowed, only three have to be made, instead of thirty as before. And of course, the Institute will now be a much more colorful place in at least three locations. When we brought this subject up, we were going to argue against the new order, but after having put down the facts in black and white, we have seen the light. Vive la Institute!
NOTICES
