Junior Prom To Study Fund Drive Problem

I- -- made by organizations of various sorts. By Edward Margulies '52, to study a five man group, headed by DrivasProbl. It was announced that the Red Sox, would provide funds, at the discretion of Inst. Comm., to go to the various groups which seek financial aid. Questions relative to this are under the leadership of a series of bothersome collection committees, not related to anything of a worthy cause.

Other members of the group are: Joseph Rosenberg, 92; Robert Oliver, 91; Stanley Butdin, 91; and Mark Shoplins, 91.

Bowditch To Speak At NSA's Smoker

Dean Bowditch will speak at the National Student Association smoker this evening at 8:30 p.m. in Tyler Lounge. The new president will announce the permanence of the student's role in his administration, and will relate between schools in the United States, and in relations between students of the different nationalities of these other countries.

Treasurer's Report Cites Need For More Endowment

Need for increased endowment, co-operation with Professor John B. Chermayeff, one of the leading architects this year, and on Thursday a.m., April 24, 1951. These are Hunter College in New York, University of Southern California, Fine Arts Museum, Kansas, and Georgia University.

By JOE KOZOL

Freddy Martin and his orchestra, featuring Merv Griffith and the Freddy Martin Men. One of the leading dance and show emanating from New York.

Freddy Martin and his orchestra will be the featured band at this year's Junior Prom Weekend. It was announced today by the Junior Prom Committee. The weekend, which will be known as "Town and Country," will be held on Friday night, November 16, at the Hotel Statler, and an informal the following night at Walker Memorial.

Members of all classes are invited to attend Friday and dance to the music of Freddy Martin and his orchestra, featuring Merv Griffith and the Martin Men. Of the leading orchestras in the country for more than ten years, Freddy Martin and his band now have a television show and record contract.

On Saturday night the scene will shift to Walker Memorial and a taste of "The Old Country." The Weekend will include more of的特点, such as music to informally seated audiences, and an effort to counteract the bogeyman of college presidents' nightmares throughout the country.

Options Sales October 22

Options for the weekend tickets will go on sale October 22 at the lobby of Building 10. Options will cost $5.00, and constitute a participation in the proceeds. November 5, regular tickets will go on sale, and prices will be $3.00, and will not include tickets available in limited quantities. Thereafter, tickets will be determined until the total number of couples in attendance is established. Only eight hundred of five couples is a table on an assumption of an average weekend.

Lowered Price, Novel Gloves At Field Day Dance

Field Day on October 27 will end with the traditional dance held every year, and is the first official announcement of the vector. will be made along with a presentation of the Field Day cap.

This dinner will be held in Marsh Hall. Wadsworth Hall will be limited to about 80 couples. The dinner will begin at 7:30 p.m. and end at 11:00 p.m. The price of Tickets has been lowered from the customary $2.50 to $2.00.

Decorative Scheme

The decorations will be in keeping with "Field Day" and the old American touches, such as two giant gloves painted with "Murphy's Law" and lighted with ultraviolet light, will be added. The tickets, too, will have a touch of novelty, as they will resemble the freshman ties in pattern and design.

Ticket sales will start next Thursday. A booth will be located in the lobby of Building 10. Dorm chairmen will also have tickets available for sale. As a rough estimate, it is said that all tickets will be available by mid-week.

Gilliland Tackles New Job
As Head of Department

By NORMAN G. GILLILAND
Professor Norman Gilliland was appointed head of the Institute's NEW YORK, N.Y.

Gilliland returned to teaching chemical engineering at his first available opportunity.

Professor Gilliland, in addition to his regular duties as head of the department, is an active member of the Institute's Undergraduate Policy Committee. At meetings of this organization he expresses the view that the Institute should adopt a more flexible humanities program. By this he means that students should be allowed to choose courses in which they have a genuine interest. Professor Gilliland is afraid that, under the present humanities program, all students are being pressed into the same educational mold. An example of this is the uniform humanities program for the first two years. He opinion is, of course, only one of the many competent views that have been expressed on this subject.

Many of us have wondered how it is possible for Tech, or any other

Gilliland Tackles New Job
As Head of Department

By NORMAN G. GILLILAND

Professor Norman Gilliland was appointed head of the Institute's Undergraduate Department when Walter Whitman was called to the presidency of Washington University. Professor Gilliland will serve as head of the department for only one year, the customary length of the term.

It seems that there's just too much red tape involved in the running of the fourth largest department in the Institute.

Professor Gilliland came to the Institute by a rather indirect route. He received his bachelor's degree from the University of Illinois; a master's degree from Penn State, and finally a doctor's degree from M.I.T. In 1954, upon the urging of Professor Warren Kendall Lewis, he accepted an assistant professorship in the Chemical Engineering Department.

Deputy Dean of Engineering

During that time he was also the Institute's most important people were summoned to Washington to aid in the war effort. Professor Gilliland's contribution consisted of two years as service advisor to the government's synthetic rubber program and one year as a member of the National Defense Research Committee. After the war he returned to Tech in the capacity of deputy Dean of Engineering. Since the education of students was his primary interest, Professor Gilliland returned to teaching chemical engineering at his first available opportunity.

Professor Gilliland, in addition to his regular duties as head of the department, is an active member of the Institute's Undergraduate Policy Committee. At meetings of this organization he expresses the view that the Institute should adopt a more flexible humanities program. By this he means that students should be allowed to choose courses in which they have a genuine interest. Professor Gilliland is afraid that, under the present humanities program, all students are being pressed into the same educational mold. An example of this is the uniform humanities program for the first two years. His opinion is, of course, only one of the many competent views that have been expressed on this subject.

(Continued on Page Two)
top grade technological institutions, to maintain professional departments staffed by the best men in their fields. To the casual observer it would seem that these men could obtain more lucrative positions in industry. Why, then, do such men stay on as teachers? Professor Gilliland explains this by saying that most of our staff hold positions as consultants to industry in addition to their regular teaching duties. In this way they make a sum equal to what they would earn in industry. Professor Gilliland is himself a consultant to The Mead Co., a large chemical concern.

The institute encourages this practice, for it feels that the staff members will always become acquainted with new methods of industry and will pass these new methods on to the students. It also feels that men more like the freedom that goes with being a professor, and the opportunity to be with students. Although head of a department, Professor Gilliland still finds time to teach his classes. Many students come to discuss their choice of course with Professor Gilliland. He usually offers this bit of sage advice to them:

"Pick the course in which you have a real interest. Do not fear that any course will hold you back--keep you from becoming a grandee of a large concern--if that's what you want. In about twenty years only 20 per cent of Tech graduates will be in their original professional field. Choose your course without any mental preconceptions."

Ex-Celtic Ace To Coach Tech Basketball Team

As a replacement for Gene O'Donnell, Beaver basketball coach last year, the M.I.T. Athletic Association has announced that Edward Leede, former star of the Celtics and All-divisionee from Dartmouth, will assume the fine this fall.

Now a graduate student at Harvard, where he is majorging in Business Administration, Leede will coach in the three afternoon classes during the day.

Attended Dartmouth

While at Dartmouth College, Ed was quite active in inter-collegiate athletics, excelling in tennis and track and throwing the javelin. He found the geographical distances of 180 feet, besides breaking all basketball scoring records at Dartmouth.

In a stint in the Marines for one-and-a-half years, Ed played on the Northeastern Championship service team from Quonset Naval Station.

Stood for Celts

After graduating Dartmouth, Leede played with the Celtics for two years as a first string guard. Born in New York City 24 years ago, Ed attended Baypath High School, playing varsity ball there, and graduated when 16 years old.

The entire student body welcomes Leede to the Tech family and hopes that his stay will be a happy one.

### Notices

#### WMIT Programs
WMIT presents two new programs on its schedule: the Tuesday and Thursday from 9:45 p.m. to 10:00 p.m., Dolly Cohen of Emerson College will do a program patterned after the "Lassanne Gall" series. From 2:00 a.m. to 7:00 a.m., the station will present "Music from Heaven" six evenings a week.

#### Mahough Movie
On Thursday, Oct. 18, the Lecture Series Committee will present "The Ranger's Edges." The first showing of the movie will be at 4:00 p.m. (and 5:00 p.m. in Room 10-235), two other shows, one at 7:00 and one at 9:00, will be held in Room 6-126. Admission will be 50 cents.

#### Farnsworth Lecture
Dr. Dana L. Farnsworth, Medical Director of the Institute will give a lecture entitled "Psychiatry" on ext. 2459. At present, the club does not have gun available for training use, so it will be necessary for prospective applicants to provide their own firearms. Only 2.2 cal. guns may be used at the M.I.T. Range.

#### Lounger
Continued from Page 3, mass meetings in the Great Court, others rewards to Sophs who will "tail" on their fresh-anorning buds, and generally tries to make life miserable for the second-year men.

### Financial Report
(Continued from Page 1)
from gifts and investments were used for current expenses to offset this reduction.

Total salaries and wages of $14,759,000 made up 68% of all expenses, lower plant expenses reflected a decrease in special charges for alterations and maintenance, but the cost of normal plant operations increased over that of the previous year.

Endowment funds were moving in the right direction as they increased by $1,066,000 during the year. Total invested and other funds came up $263,721,000 from the $252,519,000 figure of June, 1950. The Institute's plant was worth $251,071,000, and construction in progress will bring the value of the educational point to well over $300,000,000.

### Selective Service
(Continued from Page 1)
Administrative officials at the Institute feel that all students 18 years and over who wish to seek deferment as students and have not already done so should take advantage of the opportunity to take the examination even if they are members of the R.O.T.C. and the A.P.R.O.T.C. and regardless of their class standing.

It is requested that eligible students take the early test—Thursday, December 12, 1951. Students who become 18 and register for Selective Service between November 6 and March 12 should take the examination. Veterans and married men with a child need not take this test as they have lower classifications than 2-A (B).

Congress provided in the recent amendments to the draft law that any registrant who is in a deferred classification on June 19, 1951, or who after that date received a deferment, shall remain liable for training and service until he reached the age of 35. Therefore, students who are 26 years of age and over to whom the above applies should take the examination if they wish to continue their education.

#### How to Apply

Obtain an Information Bulletin, an application card (SSS Form No. 106 and attached SSS Form No. 107), and a mailing envelope from any Selective Service Local Board.

Fill out the application in exact accordance with instructions and mail it immediately in the envelope provided, but you must fill in your own name and return address in the upper left-hand corner and affix a stamp. It might be advisable to send it by registered mail. Do not mail more than one application, as a Ticket of Admission to the test will not be issued to any student filing more than one application.

When you report for the test, you must bring with you an official document showing your Selective Service number and the exact description, number, and address of the Selective Service Local Board having jurisdiction over you. Apply to your own local board now if you do not have this information.

### NEW STUDENTS

The Medical Department reminds all new students including graduate students that they must have a physical examination at the laboratory before the fifth week of the term so for any almost half of those required to take the exam have completed with this rating.

Two weeks of the college life of a Wellesley freshman. One of the reasons this young lady chose Wellesley as her school is that she was told, is because of its location near Boston and several major colleges. After reading the rest of the article, however, one can easily see that the word "relax" must have been a misprint.

### Tidy

Dormitory Committee is sponsoring dancing lessons to begin this week. Intermediate lessons will be held on Monday and Wednesday nights; advanced lessons will be given on Thursday night. For more complete information, see these handbills.

### Student Rifle Club

The M.I.T. Faculty Pistol Club offers an opportunity for any M.I.T. Faculty, D.L.G. Staff, or employee to join a group with the following aims: learning proficiency with handguns, qualifying for nationally recognized classificiaons, engaging in competitive target shooting.

If seriously interested contact H. Hodgson on ext. 2459. At present, the club does not have guns available for training use, so it will be necessary for prospective applicants to provide their own firearms. Only .22 caliber guns may be used at the M.I.T. Range.
