**Adantic Union Problem To Be Osborne's Topic**

On Thursday, February 18th, the district committee met with the main committee to bring the Atlantic Union Order to the Institute to speak on the subject, "Atlantic Union — To Assumption Freedom" in room 1-309 in the building. The Atlantic Union has many prominent advocates throughout the country including B. H. Common and Professor Mechanical Engineering Joseph Keenan, both well-known figures in the Atlantic Union.

Former justice of the Supreme Court Owen J. Roberts, who is president of the Atlantic Union Committee, has also crusaded for the abolition of the western democracies. "The United States above all nations must demand immediate freedom everywhere. It must become clear that our foreign policies have the opportunity to form an organic union with our citizens and the opportunity to be our constituent welfare."

Dr. Mark Osborne, graduate at Harvard in 1919, is at present president of the American-Scandinavian Foundation. In his experience in the embassies of Berlin, London, the United States, and the Soviet Union, he has been a student of Scandinavian conditions.

**Scabbard & Blade Society Presents Annual Formal**

This month's dinner, held on Tuesday, February 21st, will be their most important event to date since the installation of the new Chaplain, Captain Byron F. Burch, Jr. for the new members.

Music for the occasion will be provided by Hal Reeves Orchestra. The dinner menu has not yet been announced for this month, but tickets will be available at the door.

"No Such Game As 'Karoso'"  
T.E.N., Many Students 'Taken'

By EDWARD F. LEONARD  
T.E.N.

Karoso? Certain communications which have been brought to the attention of this writer indicate that the late-night card game Karoso is being played on the Institute campus. This game, according to Professor Wibel, has been played at Karoso Club for several years. Karoso is a gambling drug game, which has been banned in the United States. The game is played in a similar manner to a casino, with the object being to win money. The game is played at night, and the players are usually students from Tech. Engineering students and members of the Karoso Club rate these accusations.

t. Wibel.

"An officer of the Karoso Club has told me. There is no such game as Karoso," a former student wrote in a statement to this writer. "Each of the Karoso Club members claims to have mastered it. Rather do we feel that the game does not exist. We are very much surprised at the reports which have been brought to us."

The statement distributed to the students, regarding the investigation, states that if the investigation is being continued, the game will be discontinued.

The game consists of playing cards, and the object is to win money by correctly guessing the winner of the game. The game is played in a similar manner to a casino, with the object being to win money. The game is played at night, and the players are usually students from Tech. Engineering students and members of the Karoso Club.

**The Tech Smoker**

The Tech Smoker, a committee of the Tech, has received an authorization to print and distribute one of its advisory boards that qualified engineering students should be permitted and strongly urged to complete their education. They are to be given all the necessary college courses in the military and industrial fields. The army, navy, and industry should be able to take advantage of the latter, at least, to the extent of allowing a continuous and growing supply of trained engineers to be graduated. The committee has received authorization to print and distribute one of its advisory boards that qualified engineering students should be permitted and strongly urged to complete their education. They are to be given all the necessary college courses in the military and industrial fields. The army, navy, and industry should be able to take advantage of the latter, at least, to the extent of allowing a continuous and growing supply of trained engineers to be graduated.
CALENDAR OF EVENTS

WEDNESDAY, FEBRUARY 14
Associated General Contractors of America. Meeting. Technician movie on "Construction Problems in Alaska." Our guest will be Colonel Charles F. Boeing. Room 2-587, 4:00 p.m.

Chemistry Department. Special Lecture: "Protein Structure and Its Significance to Biology and Medicine." Dr. Linus Pauling. Room 2-129, 4:15 p.m.

Electrical Engineering Department. Colloquium: "Looking Ahead in Electrical Engineering." Dr. Dr. R. M. Mahan, Transformer and Allied Product Division, General Electric Company. Room 6-120, 5:00 p.m. Tea served in Room 6-347 at 4:45 p.m.

Catholic Club. "American Foreign Policy." Professor Thomas H. M. Stearns. Room 1-303, 8:15 p.m.

Mechanical Engineering Department. Seminar: "Thermo Storage in Physics Department. Colloquium: "Some Recent Results of Experiments on Nuclear Reactions." Dr. Charles F. Baish. Room 2-287, 4:00 p.m.

Mathematics Society. Lecture: "Irrational Numbers." Mr. Harold S. Inman. Room 2-190, 4:30 p.m.

Institute Committee. Regular Meeting. Litchfield Lounge, 5:00 p.m.

Inter-Varsity Christian Fellowship, "Early Church History." Dr. Hudson T. Armstrong, College Chaplain, Wesleyan Theological Seminary. Room 3-164, 5:00 p.m.

Mathematics Society, Lecturer: "Irreational Numbers." Mr. Harold R. Jackson. Room 4-273, 5:15 p.m.

Vasa Swimming Team. Match with Union Boat Club. M.I.T. Squad. Cameron Pool. 6:00 p.m.

THURSDAY, FEBRUARY 15
Catholic Club. Application of Father Philip Murphy, S.J. Room 2-125, 12:00 to 1:00 p.m. and 3:00 to 3:30 p.m.

Physics Department. Colloquium: "Some Recent Results of Experiments on Nuclear Reactions." Dr. Bruno Rossi. Room 6-120, 4:15 p.m.

Mechanical Engineering and Naval Architecture and Marine Engineering Departments. Guidance Talks for Class of 1954. Room 2-393, 5:00 p.m.

Fencing Team. Match with Boston University. Walker Gym. 7:30 p.m.

Musical Clubs. Jazz Concert. Moore Hall, 9:00 p.m.

SATURDAY, FEBRUARY 17
Vasa Swimming Team. Meet with Remsen Polytechnic Institute, Albany. 1:30 p.m.

Freshman Swimming Team. Meet with Middlesex School. Alumni Pool, 5:00 p.m.

Indoor Track Team. Meet with Northeastern University. Rockwell Cage, 5:00 p.m.

National Opera Association. Lecture on Yachting Design. Professor Emeritus George Owen. Room 6-323, 2:15 to 3:00 p.m.

SUNDAY, FEBRUARY 18
Society of Arts. Lecture: "The Global Circulation of the Atmosphere." Dr. Charles F. Baish. Room 2-287, 4:00 p.m.

Physical Education for Women. Lecture: "Minimum Elements of Exercise." Mr. Austin Whillier. Room 3-270, 4:00 p.m. Coffee served in Room 3-216, 3:30 p.m.

Fencing Team. Match with Boston University. Walker Gym. 7:30 p.m.

Musical Clubs. Jazz Concert. Moore Hall, 9:00 p.m.

MONDAY, FEBRUARY 19
Mathematics Department, Lecture Series. Mr. Andre Weiss, Wellesley College. Chicago. Room 2-323, 4:00 p.m.

American Association of Mathematics. Moving Picture: "Electronics at Work." Room 1-310, 1:00 to 3:00 p.m.

Civil and Sanitary Engineering and Building Engineering and Construction Departments. Guidance Talks for Class of 1954. Room 2-393, 5:00 p.m.

School of Humanities and Social Studies and Lecture Series Committee. Subject: "Far Eastern Problems." Speaker: Professor John King Fairbank, Harvard University, Instructor. Dr. Robert K. Lamont. M.I.T. Huntington Hall, Room 10-250, 5:00 p.m.

TUESDAY, FEBRUARY 20
TechnologyMatrons. The Bridge Group. Room 11-225, 4:00 p.m.

Mathematics Department. Lecture Series. Mr. Andre Weiss, Wellesley College. Chicago. Room 2-323, 4:00 p.m.

Alpha Phi Omega. Freshman Speaker. Speaker for New Members. All interested Scouts and Seestens invited. Faculty Lounge. Walker Memorial, 5:00 p.m.

Letter to the Editor

DEAR SIR:-

I feel that your editorial on "The Baker House Announces Dance," which appeared in The Tech on Friday, February 9, constitutes a somewhat frivolous oversimplified interpretation of the case in question. You have not, in my estimation, presented a complete or fair statement of the facts. The following items should, I think, be brought to your readers' attention:

1. The statement that the Dormitory Social Chairman (Ralph Romano) was appointed without previous experience on this committee is not true. It seems that the committee would not include that fact to indicate that he had no previous experience whatever. The committee would very much need a person of that kind, for a more expensive dance, was submitted by the Dormitory Committee, in order that the admission price might be kept at a low value.

2. Those members of Dormitory Committee who voted against the motion to allow Baker House to hold an announcement dance on February 9 are the ones who have had the most experience in carrying out campus activities and who believe that the one whose judgment should be most reliable in this case.

3. I am very sorry that you should question any matter of student interest which you deem unsatisfactory. However, you should recognize the effect of the omission in your editorial. As printed, the editorial is nothing more than an unwarranted attack upon Ralph Romano.

I know of no student at Tech who was more interested in the dormitories and who is more earnestly concerned with the interests of the dorm residents than Mr. Romano. The committee which you have attacked so unmeritously neglected its duty.

It is my hope that you will take the necessary steps to correct the impression which must almost unavoidably have been derived by the readers of your editorial.

Robert S. Ochoo, '51

Engineer Rifle Team Sets West Point Range Record

On Saturday, February 16, the one-defeated M.I.T. varsity rifle team traveled to West Point to shoot against the rifle team that last year won the intercollegiate championship. The meeting was the second with the cadets, for the two teams had met two weeks previously at Maryland in a triangular match with the Turks. At that time, Tech defeated Army handily, but succumbed to the record-breaking Marylanders' 1460 team tally.

In this most recent contest, the Beaver riflemen fired a team score of 1451, which was only 13 points below the excellent total they previously set at Maryland. The team captured the range record at West Point, and now holds it as well as the records at Const Guard, NYU, Rutgers, Duquesne, and many other schools.

Hurlin Tuesday

The Tech team is scheduled to fire against Norwich University at the Tech range on Tuesday, but no contest is expected with this match. It should serve as an excellent "dresser" between tough matches, and prime the Techmen for the coming District of Columbia Championship match on Feb. 22.

**Philosophy of the Game**

Tech-Beaver Match

The Tech-WPI match will be a strong one, according to Manager Allan Talner and Coach Paterson. The Techmen are looking for a victory after losing to the Engineers in their only prior meeting this year. Coach Paterson feels that the Techmen will have an excellent chance of pulling a victory if they can control the distance between Medicine and Engineering, where the Beavers have shown no weakness.

In the match, the Techmen are expected to use .22 caliber ammunition throughout the contest, except for the final match, in which competitive .223 caliber ammunition will be used.

Events Reminder
Student Service By Alpha Phi Omega

Alpha Phi Omega, Institute Chapter of the National Service Committee, has printed an events reminder for the Spring Term, 1951, as an experimental service project. Each activity was requested to submit a complete schedule of all meetings and activities for this term. Almost 90% of the activities, including the Athletic Association, responded, and their programs are now compiled in this calendar.

The Alpha Phi Omega feels that the variety of dates will indicate whether the project is worth repeating.

Wrestling

(Continued from Page 3)

More points to the score. After B.U. had picked up thirteen points on a forfeit, a pin, and a decision, Bob Adams scored a decision over his opponent to make the final score 19-13.

The concert hall was filled with students and faculty of the Institute, and a few from the Tech, Walker Memorial, and drop it in any Institute mailbox. We'll take over from there.
