VOL. LXXII, NO. 12 CAMBRIDGE, MASS., TUESDAY, MARCH 18, 1952 5 CENTS

Fassett States "Status Quo" Concerning Frosh Residence

Associate Dean of Students Frederick G. Fassett told the Inter-Fraternity Conference last Thursday night that the Administration plans no immediate changes in policy towards fraternities and required freshman residences. Fassett said a complete study of the whole residence problem would be introduced before any changes are made.

Last spring the Administration proposed that all freshmen be required to live on campus, but its selection of an effective date was left pending. Earlier this year an indication that the policy might be changed came from Dean of Students E. Francis Bowditch as he told the IFC that the administration might consider all fraternities—even those across the River, as being "on-campus living groups," under the terms of last year's proposal.

Various reactions to Fassett's official announcement were voiced by members of the IFC, with the general feeling being one of relief. Most members speculated that the Institute had all but abandoned what had once been a clearly-formulated proposal for required freshman residence.

IFC's rushing committee—composed of Phil Chandler '54, Jonas A. Kjellburg '53, Phillip G. Sayre '54, Dale N. Strait '55, Albert B. Ward '54, and Sydney H. Hess '53 (the new chairman of the IFC) submitted a report. Included were a set of proposed rushing rules which outlaw such things as rushing before the official start of Rush Week, rushing at the same time as Freshman Weekend activities, concealing the location of a freshman from other fraternities, or telling ruseses any "gossip or hear-say" about another house.

The new rules, unlike the old, include strict punishment for violators: for the first violation of the year, a fine of \$50 is imposed; for the second violation—\$100. If a fraternity breaks the rules three times in one year, its rushing privileges will be suspended for the year.

Besides hearing speeches and reports, the IFC elected Albert Ward and John Walsh members-at-large of the Executive Committee; William Peet '53 was made head of the Investigations Committee and Anthony Turano '53 was elected chairman of the Dance Committee.

Frosh Baseball

The Frosh baseball rally will be held in Rockwell Cage Tuesday at 5:00 p.m.

"Combined Plan" Men To Visit Inst.

On Wednesday, Thursday and Friday, April 2, 3 and 4, 120 students who are participating in a combined study plan which affords them degrees from this school and another college, will assemble at the Institute.

Principal reason for the trip is the selection of a specific course, so that the students will waste little time in getting into the second phase of their two-college education.

Fifteen other colleges co-participate with Technology in the five-year plan which is designed to give a more rounded education than that which would be available at either school alone.

The conference will consist of two general meetings, a series of course lectures, a professor conference time, a tea, and a dinner.

The first general meeting will start the conference on Wednesday morning. The meeting will be addressed by Dean Frederic G. Fassett, Dr. Vernon D. Tate, and Dr. Julius A. Stratton. A short tour of the Institute will follow. The rest of the day will consist of course lectures, finished by a tea at four

(Continued on Page 4)

Money-Raising Carnival Planned By NSA To Aid War-Torn Universities

In an unprecedented effort at painlessly raising money for a worthy cause, the National Student Association has scheduled a 30-event, student-manned carnival featuring a multi-facet schedule of dancing, side shows and beer. Set for the night of April 12, in Rockwell Cage, the affair is designed to make money for the World Student Service Fund, an international organization assisting war-shattered universities in Europe and southeast Asia.

Lining the carnival midway will be thirty booths, built by the NSA and manned mainly by living groups and a few activities. The idea of the booths is to make money. However, the scheme of doing this is being left up to those running the booths. Probably the booths will stage amusing games and entertainment for the customers. A prize, two kegs of beer, will be given to the booth which collects the most funds for the organization.

Writer Contest Set As Newest Solution To Tech Show Script

Tech Show announced today that it will designate a prize of \$25 for a complete script suitable for presentation at 1952's Tech Show, next term. The prize, established by Joshua Sturdy, longtime patron of Tech Show, in memory of his wife, Henrietta, is offered under the following conditions: The prize shall be given to the writer or writers whose complete script is chosen for Tech Show 1952. "Complete Script" means all dialogue, stage directions, show situations, general scheme for settings, song situations, etc. Lyrics must be partially written or the concept of the song fully suggested. The scripts must be submitted in duplicate, typewritten, and a third copy must be kept by the author. They must be submitted not later than May 1, 1952 to be eligible for the prize. The winning script will be announced within two weeks.

The prize, if effective in securing a script, will solve one of Tech Show's long-standing problems. Traditionally the selection of a script and the long fight necessary to put it in presentable shape has plagued the show's management.

Persons with questions should leave a note in the Tech Show office or contact Robert Esch '53, General Manager.

On stage, a variety show will feature student and faculty participants in skits written by J. Philip Benkard, G. (Minsky, the mad scientist of Tech Show 1952). The NSA is also promising to have other faculty members present with their hair down in a variety of activities. These faculty members include Dean E. Francis Bowditch, Prof. John T. Rule, Prof. Francis W. Sears and Prof. Theodore Wood, Jr. Some of these participants will be manning a shoe-shine stand with students from their course. Others will engage in competition between courses in three-legged races, also with students. First prize will be a case of beer.

The faculty will be able to get even, at a price, by bidding for students' services such as car washing, hedge-trimming, or spring house cleaning. These students will be student government leaders.

Continuous dancing, open to couples at \$1.00 and stags at 50c, is also scheduled for the carnival. Music will be provided by a five-piece combo.

Beneficiary of all this activity, the World Student Service Fund, helps provide educational necessities such as books, living quarters, hospitals and clinics wherever

(Continued on Page 4)

Military Formal To Be Held In Walker; Hal Reeves To Play

Hal Reeves and his orchestra will play for the Scabbard and Blade Formal to be held on Friday, April 4, from 9 to 1 p.m., in Walker Memorial. Tickets, at \$3.00 a couple, are being sold for the event in the lobby of Building 10. All are invited. Either formal military dress or a formal civilian dress will be permissible for the occasion. The hall shall bear resemblance to a garden scene. Sherbet punch shall be served for refreshments.

During the intermission there will be a ceremony, when the newly elected members will be officially presented to the organization. Their dates will present them with their saber. The out-going captain will turn the company over to the newly elected captain.

The invited guests for the occasion shall consist of: All cadet captains of Scabbard Blade Companies and Commanding Generals of army groups in New England area, Colonel Baish, Major Lineham, and other Institute officials.

Dir. Of Mobilization Charles Wilson To Be Speaker Alumni Day

Director of Mobilization Charles E. Wilson will be the principal speaker on Alumni Day. His speech will be presented at the Alumni Day Banquet, on June 9, which will be held at the Statler Hotel.

Mobilization Director Wilson became President of the General Electric Company on January 1, 1940. President Franklin Roosevelt in September, 1942, asked Mr. Wilson to become the Vice-Chairman of the War Production Board. He served in this capacity until August, 1944, when he retired from the board and returned to General Electric as Director and President. President Harry Truman appointed C. E. Wilson to his present position as Director of Mobilization on December 16, 1950.

The program for Alumni Day this year has been planned to include departmental reunions in the morning. Luncheon for the alumni will be in Du Pont Court and President James R. Killian will speak. After the luncheon President Killian will hold Open House.

Goal 360 Short In Blood Drive

By March 15, 640 students, staff, and employees had made appointments to give their blood at the M.I.T. Blood Donor Clinic this week. This showing has been lauded but a total of 1000 appointments must be scheduled.

Tuesday, March 18, the first day of the clinic, is well filled, but considerable time is available during the rest of the week as follows: Wednesday and Thursday, 11:30-12:45 and Friday, 10:30-1:45.

Donors should be 21 or over unless their home is nearby and they can readily obtain their parent's permission.

Digby: "Old Techmen Never Die" But They Do Get Carried Away

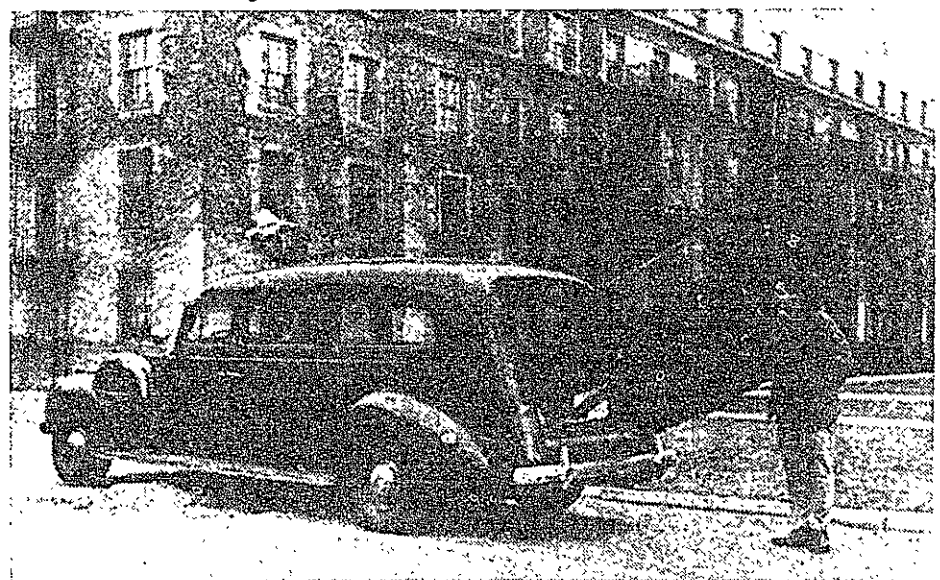

Photo by Ferrero

Another Techman having flunked out is leaving the Institute, via hearse (above). David J. Bernays, shown holding the rear door open, is the owner of the 1940 Packard which he has named "Venus."

By JOHN F. D'AMICO

M.I.T. Outing Club enthusiasts are the proud owners of a new fleet of six hearses—those utility vehicles that can be bought second hand so cheaply, about \$200, and are never too worn from use. Sporting such names as Albert, Pogo, Venus, and Paradoxides, the vehicles are used by their owners for ski and camping trips and are useful in many other such ways as the imagination can devise. One proud owner claimed that his buggy was

a nice place in which to sleep when dormitory conditions became out of hand.

"Hearses are the thing," these owners say, "but gas bills are terribly high." A hearse gets but ten miles to a gallon of gasoline.

Present owners of hearses are David J. Bernays '54—'40 Packard; Gardner Perry '53—'36 Oldsmobile; Daniel B. Schwarzkopf—'38 Packard; Bruce Henshaw '53—'37 Packard.

Varsity Rifle Team Edged Out In Spirited Triangular Match

One point spoiled an otherwise perfect week for Tech's rifle teams, as the University of Maryland edged out the varsity last Saturday on the final relay of the fourth annual triangular match between M.I.T., Maryland, and the U. S. Military Academy, at the West Point range. The team scores of 1424, 1423, and 1420 for Maryland, Tech, and Army, respectively, maintained the reputation of the match as the most fiercely-contested match of the college rifle season; each of the participating teams has won the national intercollegiate championship once since the first match in 1949, and in the 1951 match the scores of all three teams exceeded the national intercollegiate record existing at the time.

Tech, with 1423 to Army's 1418 and Maryland's 1415, led the scoring in Saturday's match at the end of the second relay. In the third and final relay, however, Army bolstered its score by two points, and Maryland's two highest scores were fired, while the Beavers' remaining shooters could not gain the single

point needed to win the match.

In spite of the even split at West Point, the Engineers' score was a decided victory, for it won them the New England College Rifle League Championship for the third consecutive season. The three other semi-finalists in the N.E.C.R.L., firing in a separate match at Boston University on Saturday, rounded out the top four teams for 1952: Boston University was second with 1399, the Coast Guard Academy was third with 1396, and the University of New Hampshire was fourth with 1371.

Prior to the match at Army, the varsity team added its tenth consecutive win in shoulder-to-shoulder competition when it journeyed to New York University for a Friday evening match, winning by a decisive 1414-1380 margin.

The Beaver freshmen riflemen were also busy during the week. Continuing undefeated in shoulder-to-shoulder competition, the frosh downed Wentworth Institute in a two-position match at Tech on Wednesday night by a score of 914 to 868.

Burton's "Pritchett Of West Campus" Opens To Serve Student Customers

By KEVIN G. WOELFLEIN

Photo by Eckert

Pictured above behind the counter of the newly opened Burton Snack Bar is Olaf Stackelberg '55.

Among new facilities on the campus, the recently opened Burton Snack Bar is located on the ground floor, center wing, of Burton House. Construction work was started last Fall, but previous to this, the task of design was given to William H. Brown, Associate Professor of Architecture at the Institute. Somewhat delayed by material shortages, the lounge was finally completed on February 25, 1952, when the doors of the "Pritchett of West Campus" were opened.

The casual arrangement of maple tables and gray leatherette covered chairs lends to the atmosphere of relaxation, and the bar, stainless steel throughout, is fully equipped to satisfy its patrons with an assortment of sandwiches, frappes, ice cream, cake and cookies. With a schedule almost identical to

EDITORIAL

ALL WORK AND NO PLAY . . .

Over half a century ago, at about this time of the year, The Tech printed an editorial; its import seemed familiar to us, and we offer it to our readers.

It runs as follows:

"There is a prevailing impression that men at the Institute are worked so hard that they can find time for nothing but study. It is true, the courses are more severe than at other similar institutions, but students are not held in such cast-iron bonds as is generally supposed.

"The dominant influence at Tech is, of course, one of study, but, unfortunately, it has a tendency to make a man feel that he has not time for even a moderate amount of relaxation. . . . He graduates high in scholarship, but selfish and narrow-minded in the extreme, and utterly devoid of sympathy with his fellow-men.

"On the other hand, the man who takes an active interest in what is going on about him may not acquire as much technical knowledge as the grind, but at the end of his four years he will have absorbed a good deal of practical knowledge, kept in touch with the world in general, and, best of all, he will have won that which is not to be found in books, and which, in after life, he will prize more than an infinite amount of knowledge,—the love and esteem of his associates.

"Let us then be active in our own little sphere of life; attend the class meetings; try for the athletic teams; yell for the 'Red and Gray' whenever an opportunity offers. . . .

"After all, a man's college education is not reckoned wholly in the number of 'A's' he has to his credit on the Secretary's books. He should broaden himself along every possible line. At Tech we do not have the college spirit and social diversions which most colleges possess. We should, therefore, take all the more active part in such branches of student life as are open to us, and endeavor to cultivate that love for Alma Mater, which is at present so woefully lacking."

our rivals

"O tempora! O mores!" said Cicero, sadly lamenting the times and the morals of his day many, many years ago.

As Cicero, so we. Approaching the lobby of Building 10 last Saturday, we were harshly awakened from our customary coma by the sight of what looked like an overgrown dishcloth, suspended above the lobby and announcing in so many words Voo Doo's new policy for the month of March.

Intrigued, we reached the bulletin boards in order to find out more.

It appears that the low journal, bent on keeping up its unclean record, is now offering a prize to anybody who, in the opinion of its Senior Board, can paint a moustache better than anyone else.

Now we don't object to that, mind you. After all, both the word "moustache" and the name of the month begin with the letter "m," and even the collectively unproductive soul of Voo Doo was tickled by the analogy, and said to itself: "Aha! This is where we make the limelight. Heaven knows we need to." We even see Voo Doo's point in giving us the chance of an outlet for our frustrated artistic urges by getting us all to draw moustaches.

But—and may the Senior Board of Voo Doo boil in oil for the rest of their days—the moustache has to be drawn on to the beautiful, exquisite, innocent face of a girl, the face of the very flower of femininity.

This is the face which Voo Doo's plotting fiends would have us basely disfigure.

It's the last straw. Grab hold of Phosphorus, take him across the street to Larry's, and have Larry remove the disreputable feline's beer stained whiskers, so that we can experiment with our art on a Phosphorean "tabula rasa." Or give us a copy of a demustachioed Kremlin Joe, and we'll show you some efforts that will take your breath away.

But do not, we beg of you, expect us to besmear the face of innocence. We were not brought up that way. We don't feel up to it. We can't do it. We just can't.

3 Records Fall As Freshmen Win Intramural Track Meet For Fifth Successive Year

Three new records marked last weekend's Indoor Interclass track meet, won by the class of '55 with a 67 point total. The sophomores finished a distant second with 48 points, followed by '53 with 44 and '52 with 33 points. It was the fifth straight interclass meet won by a freshman class.

Baker Stars

Clyde Baker, '52, set a new meet record and tied the M.I.T.A.A. indoor record in winning the 1000 yd. run in 2 minutes, 18.6 seconds. Sid Klein, '54, and Ken Childs '52, both topped Klein's Rockwell cage mark of 20' 9 3/4" and the meet record of 20' 5". Klein hit 20' 10" on his best effort, but Childs topped that mark with a 21' 7/8" leap.

Antoine Sets Record

Bill Antoine '55, set a new cage and meet record in the high jump by clearing the bar at 8' 1 1/2" to win the high jump. Warren Lattof of the Frosh cut a tenth of a second off his Institute record of 5.9 seconds in winning the 45 yard high hurdles, but the record was disallowed because of a strong tailwind.

Geisler High Scores

Chris Geisler, '54, was high scorer for the meet with a total of fifteen points on first places in the dash, low hurdles, and 300 yard run. The freshmen won only 3 first places, Lattof's in the high hurdles, Antoine's in the high jump, and Bob Sukenik in the pole vault, but amassed enough points from the other four scoring places to win the meet, with sixteen men contributing to their point total.

Summary:

16-pound shot put—L. Carpenter '54; 2. Zoller '55; 3. Rothberg '52; 4. Bernstein '55; 5. White '55. Distance: 41' 11 1/2".
Broad Jump—L. Childs '52; 2. Klein '54; 3. Antoine '55; 4. Shapiro '55; 5. Alexander '53. Distance: 21' 7/8". (New meet and Rockwell Cage record.)

ander '53. Distance 21' 7/8". (New meet and Rockwell Cage record.)

30-yard dash—1. Geisler '54; 2. Childs '52; 3. Hollister '53; 4. Frewitt '55; 5. Alexander '53. Time: 5.4 seconds.

45-yard high hurdles—1. Lattof '55; 2. Chiboski '54; 3. MacPherson '55; 4. Chaudler '52; 5. Coe '53. Time: 5.8 sec.

60-yard low hurdles—1. Geisler '54; 2. Lattof '55; 3. Chiboski '54; 4. Alexander '53; 5. Shapiro '55. Time: 7.0 sec.

300 yard dash—1. Geisler '54; 2. Hollister '53; 3. Grenier '53; 4. Shapiro '55; 5. Lovasz '54. Time: 3:4.1 sec.

600-yard run—1. Grenier '53; 2. O'Donnell '53; 3. Lovasz '54; 4. Coe '53; 5. MacPherson '55. Time: 1:16.7.

1,000-yard run—1. C. Baker '52; 2. Grenier '53; 3. Schreiber '55; 4. Bengston '55; 5. Rownd '53. Time: 2:18.6. (New meet record, ties indoor MITAA record of 2:18.6)

One-mile run—1. Nicholson '53; 2. Nutley '54; 3. Farquhar '54; 4. Forbes '52. Time: 4:37.6.

Two-mile run—1. Towne '53; 2. Swanson '53; 3. Lory '55; Kay '52. Time: 10:42.2.

35-pound weight throw—1. Rothberg '52; 2. Chestna '55; 3. Griffith '55; 4. Leary '55; 5. White '55. Distance 38' 10 3/4".

High Jump—1. Antoine '55; 2. Coe '53; 3. K. Baker '55; 4. Edgerton and Shapiro '55 and McGrew '54 (tie). Height: 6' 1 1/2". (New meet and Rockwell Cage record.)

Pole Vault—1. Sukenik '55; 2. Edgerton and Shapiro '55, and McGrew '54 (tie). Height: 19' 6".

Score:	'55—67 points
	'54—48 points
	'53—44 points
	'52—33 points

Merritt To Post Final Cut Soon

The baseball team has been rounding into shape for the past month, under the guidance of Coach Roy Merritt. Roy is depending heavily this year on veteran pitcher Amos Dixon, the captain of the squad. Lack of experienced players is most heavily felt in the outfield, while some veterans are bolstering infield positions.

Practice has, of course, been limited to the cage so far, with most of the emphasis on the newly-acquired pitching machine. Roy hopes to have continuous practice during the spring holidays, contingent on the turnout. Regular season competition will start sometime early in April, with Brandeis as our first opponent.

Barbell Club Outlifts Univ. Of California

Burton

(Continued from Page 2)

Pritchett Lounge in Walker Memorial, Burton Lounge is open seven days per week from 11 a.m. to 12 p.m. Twenty-two of the Burton House Student Staff work the various shifts, under the supervision of Staff Captain John Clemens '52, formerly of Walker Staff.

A cheery atmosphere, maintained by light colored and stained panelled walls in contrast to dark blue supporting columns, pervades the air-conditioned snack bar. With a finishing touch provided by a lighting effect that is quite simple—ordinary incandescent bulbs surrounded by perforated shading cylinders—the Burton Snack Bar is another realization of an Administration objective, a more enjoyable campus life for all.

The M.I.T. Barbell Club met and defeated the University of California on Saturday, March 8, in a postal weightlifting contest by the score of 26 to 22.

B. Augusta executed a perfect 170 lb. snatch for a new club record. His 560 lb. total is also a new record for the 165 lb. class.

Any and all those interested in lifting should come out to the team training session on Monday, Wednesday and Friday at five in the Barbour Field House.

123 lbs.	R. Gittleman (M.I.T.)	280
132 lbs.	A. Roberts (M.I.T.)	330
148 lbs.	E. Thompson (M.I.T.)	440
	Bequette (Calif.)	290

	Kubik (Calif.)	500

INTERESTED in YOURSELF?

WE HOPE YOU ARE, because it takes an engineer with self-interest to meet challenging problems and we have engineering problems as tough as any you'll find.

WE LOOK FOR MEN interested in themselves because healthy self-esteem makes a man want to show what he can do. People who merely want a job won't give us the fresh ideas that are the life's blood of our industrial instrumentation business. It's the ambitious, driving engineers that are solving today's complex industrial process problems through automatic controls and systems. Why don't YOU put your self-interest to work solving tomorrow's problems in this varied, challenging, interesting field?

IF YOU ARE AN ENGINEER—Electrical, Mechanical, Industrial—or a Physicist, ask your college placement office for more information about BROWN INSTRUMENTS DIVISION, MINNEAPOLIS-HONEYWELL REGULATOR COMPANY, then be sure to see our representative who will visit your campus very soon.

NORTHEASTERN UNIVERSITY SCHOOL of LAW

Admits Men and Women Day, Evening and Graduate Programs

Registration—Sept. 9-16, 1952

Early application is necessary

47 MT. VERNON ST. BOSTON 8, MASSACHUSETTS Telephone COpley 7-6600

CENTERPOISE POWER

Vibration and power impulses are "screened out" as engine is centered and rubber-cushioned between new high-side mountings.

LARGEST BRAKES

Big 11-inch brake drums apply more leverage for more stopping power. Stops are smoother, safer, with less effort.

WIDEST COLOR CHOICE

26 rich new colors and two-tone combinations... widest choice in Chevrolet's field. New De Luxe interiors are color-matched.

BODY BY FISHER

Fisher Body sets the standard—for styling, for craftsmanship, for comfort! Fisher Uni-steel construction is extra strong.

UNITIZED KNEE-ACTION RIDE

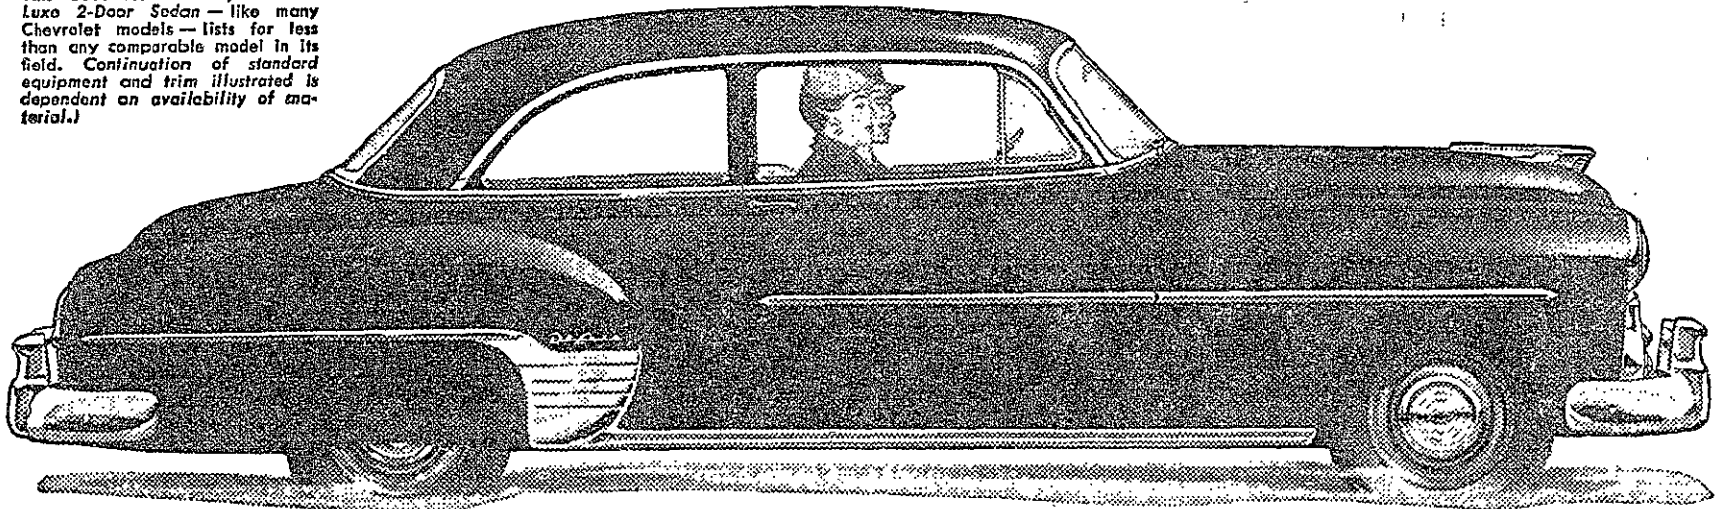

Chevrolet's famous Knee-Action ride is now even softer, smoother. New shock absorbers give even finer ride control.

WIDEST TREAD

Chevrolet measures 58 3/4 inches between centers of rear wheels—a broader base to give you more stability, less sway!

Lowest priced in its field!

This beautiful new Styleline De Luxe 2-Door Sedan—like many Chevrolet models—lists for less than any comparable model in its field. Continuation of standard equipment and trim illustrated is dependent on availability of material.

4-WAY ENGINE LUBRICATION

Chevrolet's exclusive engine lubricating system supplies exactly the right kind and amount of lubrication to each moving part.

CAST IRON ALLOY PISTONS

The same material as the cylinder block, pistons expand and contract at same rate. This reduces wear, lowers oil consumption.

SAFETY PLATE GLASS ALL AROUND

Chevrolet alone in its field gives you safety plate glass in windshield and all windows, for a clearer, truer all-round view.

POWERGLIDE AUTOMATIC TRANSMISSION

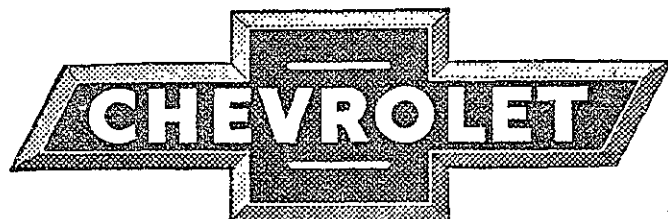

Simpler with fewer parts to wear. Smoother—no complicated intermediate gears. Optional on De Luxe models at extra cost.

MOST POWERFUL VALVE-IN-HEAD ENGINE

Teamed with Powerglide is the most powerful valve-in-head engine in its field and an outstanding performer in any field!

No other car in Chevrolet's field offers you a single one of these features. Yet you'll find many of them in America's most costly cars. Here's proof that you're value ahead with Chevrolet... again in 1952 the lowest-priced line in its field! Come in and look it over.

MORE PEOPLE BUY CHEVROLETS THAN ANY OTHER CARS!

The Only Fine Cars PRICED SO LOW!

SEE YOUR CHEVROLET DEALER FOR ALL YOUR AUTOMOTIVE NEEDS!

NOTICES

L.S.C. Lecture

Karl Taylor Compton, chairman of the corporation, will speak this afternoon on, "The Origin and Role of Polytechnic Institutes." This L.S.C. sponsored lecture will be held in Room 10-250 at 5:00 p.m.

Combined Plan

(Continued from Page 1)

in the afternoon. Both the tea and the general meetings will be held in the Library lounge. The rest of the course lectures will be on Thursday. Dinner Thursday evening. Former students of the Combined Plan will be invited.

The second general meeting will be held that evening in the Library lounge and will be addressed by Dean John E. Burchard, Prof. Ivan J. Geiger, and Dean Thomas K. Sherwood. Friday will wind up the course lectures and most professors will be available for conference. During this time certain laboratories will be opened for the inspection of the students.

NSA

(Continued from Page 1)

it feels the need most urgent. Fund-raising campaigns held on the college campuses of each of the twenty-two participating nations are its only source of funds. All such funds are pooled by the central organization and then distributed solely on the basis of need.

In recent years the NSA has held this fund-raising drive by solicitation with the cooperation of the Technology Christian Association. This year's goal is approximately \$1,500. If the carnival, the first of its kind held by the NSA, is a success, it will become a permanent part of the NSA program and solicitation will be discontinued.

Co-chairmen of the carnival committee are Bernard Werthan, '52 and Alexander Gutwurcel, '53. Other members of the committee are: Robert L. Baker, '55; J. Philip Benkard, g; David Cooper, '53; D. Paul Foote, '55; George J. Fuld, '53; Eugene A. Leary, '54; William P. Schirm, '52 and David N. Weber, '52.

The L.S.C. Committee will present "Call Northside 777" with James Stewart on Thursday, March 20, in Room 10-250 from 5:00 to 8:00 p.m. Admission will be \$4.00.

Bubble Ball

Friday evening, March 21, there will be a dance in the 5:15 Room at Walker Memorial. Admission will be \$1.00 either couples or stag.

Catholic Club

Mr. William Cashman will address members of the Technology Catholic Club and anyone else who is interested in the Vatican at the club's weekly meeting tomorrow. Mr. Cashman's topic will be, "The United States and the Vatican." The meeting will be held in Room 2-190 at 5:00 p.m.

Elections Committee Smoker

Freshman Smoker for the Elections Committee will be held Tuesday, April 1, at 5:00 p.m. in the Tyler Lounge.

SORRY
 IF WE MISSED YOU
BUT...

If you were unable to get together with our representatives, we'd like you to know about the excellent openings available to qualified engineers, mathematicians and physicists. Our brochure points out and pictures the history, development, progress, organization, expansion, facilities, programs, benefits, and opportunities open to you at Bell Aircraft, a leader in the Research and Development of Supersonic Aircraft, Rocket Power Plants, Guided Missiles, and Electronic and Servo-mechanisms equipment.

(Aeronautical Engineering Training NOT Required.)

Schaefer BEER

*HERE'S PROOF that clear, dry Schaefer has what practically everyone wants in a beer. In an independent survey among people who drink beer, 12 out of every 13 who tasted Schaefer liked it. No wonder more people are drinking Schaefer—America's oldest lager beer—than ever before in Schaefer's 110-year history.

Make it clear...make it Schaefer
