Beavers To Play CCNY In New York Hoop Game

On Friday night, December 13th, The Tech basketball team will play the City College of New York in New York City. This will be the first time that a M.I.T. basketball team has played a team from the Metropolitan New York district. It will be a big basketball week end for the Engineers, since they also play the Stevens Institute of Technology in Hoboken, New Jersey the next night.

Only a few years ago the CCNY team made an unpredictable sweep of both major college basketball tournaments, but a bribery scandal resulted in the expulsion of nearly the entire squad. The de-emphasis of sports at City as a result of the scandal has brought the Beavers onto their schedule. The scandal was also marked by a complete shakeup in the athletic staff, including the dismissal of Director of Athletics Sam Winograd, whose son is basketball captain at nearby Brandeis College.

The game ought to be of great interest to many CCNY fans, for City has a large engineering school, and it will mark the first meeting between the two schools. The game will also be a highlight for the Engineers, since City is one of the very few "name" schools on the Tech schedule.

Those interested in travelling to New York to witness the game should write to THE TECH. A mass exodus to New York City for the game might succeed in making the game an annual event. It is also one of the few chances the Engineers will have of making their team well-known. The more support the team receives on this important trip, the better chance there is of it being successful.

SEEN AT THE FROSH DANCE

The Freshman Dance of the Class of 1956 was held at the Freshman Acquaintance Dance last Friday night in Walker Memorial. George Graham's orchestra and hundreds of girls from Wellesley, Simmons, Emmanuel, LaSalle, and other nearby girls colleges provided the entertainment.

During the dance several Sophomores tried to lower a "Class of '55"

banner from the balcony, and were roundly booed by the freshmen below. The banner was eventually scattered in small fragments on the audience below by a stalwart group of freshmen.

Comments heard indicated clearly that the Class of '56 had been delighted in its official acquaintance with the nearby girls colleges.

Egyptian Tours Also Offer View Of The Middle East

A series of tours to the centers of ancient civilization in the Mediterranean and Middle East will be given the summer of 1953. The principal tour is through Egypt, and this has been arranged and sponsored by the Egyptian government.

An extension tour also provides an intimate visit inside the ancient lands of Greece, Lebanon, Israel and other countries of the Middle East where Western Civilization was born.

While in Egypt for a full month, members of the tour will be received personally by officials of the Egyptian government and will be accommodated in University Clubs in Cairo and Alexandria and in first-class hotels in Faium, Luxor and Asswan, where they will have an opportunity to get acquainted with current trends of the culture of the Arab World.

Lectures will be given by Egyptian professors, which will include the following subjects:

- Graeco-Roman Egypt.
- Pharaonic Egypt.
- Islamic Egypt.
- Modern Egypt.
- Culture of the Sudan.
- Egypt-Land and Civilization.
- Egyptian Commerce and Industry
- Social Activity in Egypt
- Modern Education in Egypt.

In Lebanon, Israel, Jordan and Syria, members of the tour will be in contact with both ancient and modern cultures in these "lands of the Arabian Nights." The tour will return by way of Cyprus and Greece, the land of ancient glory and culture, home of Socrates, Plato, Aristotle and Alexander.

While the major portion of the tour will be in the countries of the Ancient World, the modern cultural centers of Europe have not been omitted. There will be stops in Europe prior to arrival in the Middle East—in Paris, Geneva, Lucerne, Rome, Naples and Capri, with a stop in Athens before arrival in Egypt. Those who wish to spend additional time abroad may take an extension tour through Spain and Portugal. These tours will be available from June 23, 1953, until September 30, 1953. Brochures containing all details will be available to you by October 15, 1952.

Several American professors will be appointed to assist in conducting the tour. A free trip in return for securing ten persons for the tour (or half-price for securing five) will be offered to them.

Following are the tours to be offered:

Main tour of Europe and Egypt, 44 days.

Main tour with Spain and Portugal extension, 58 days.

Main tour with Middle East extension, 56 days.

Main tour with Middle East and Spain and Portugal extensions, 71 days.

Egypt and Middle East, 46 days.

Egypt with Spain and Portugal extension, 44 days.

Egypt with Middle East, Spain and Portugal, 58 days.

For information, contact Middle East Travel Center, Room 921, 500 Fifth Avenue, New York 36, New York.

Junior Prom Weekend Committee To Hold Formal At Hotel Statler

Highlighting this year's social calendar, the traditional Junior Prom Weekend will take place on the nights of Friday, October 31, and Saturday November 1. The Friday evening formal will be held at the Imperial Ballroom of the Hotel Statler in Boston where Charlie Spivak and his orchestra will provide the music. On Saturday night, dancing will be informal in Walker Memorial with the possibility of two orchestras providing the entertainment, final decision resting with the number of tickets sold.

The price for the weekend will be \$8.50 for combined admission for both nights. Individual night admission price will be \$7.50 for the Friday night dance and \$2.00 for the Saturday night affair. Included in the price for the Saturday affair will be free beer. Also included will be a "professional" decorating job in Walker Memorial.

Guests of Honor will include Dr. and Mrs. Killian, Dr. and Mrs. Stratton, Dean and Mrs. Brooks, Dean and Mrs. Bowditch, Dean and Mrs. Pitre, Dean and Mrs. Fassett, Professor and Mrs. Hamilton, The Honorable Robert H. Winters and Mrs. Winters, Mrs. William Carlyle Sr., and Mr. William Carlyle Jr.

Group tickets will go on sale on Tuesday, October 14, in the lobby of Building 10. They will be sold from 9 A.M. to 5 P.M. Any group of five couples who wish to sit together at a table on Friday night will be sold tickets during that week. Tickets will be sold on a first come first served basis and the best table will be reserved to those who buy their tickets early. Individual sales or sales to groups of less than five couples will start one week later on Monday October 20, at the same booth in Building 10.

Members of the Committee are: A.A. Ward; Chairman, Bob Anslow; Secretary, Michael Boylan, Wallace Boquist, Wilbur Fiske, and Robert Jones.

Carter, Class '52 Appointed Engin'r

Mr. Charles J. Carter of 61 Addison Avenue, Brockton, Massachusetts, who graduated from the Institute in June of 1952, has accepted a position as student engineer with the Long Lines Department of the American Telephone and Telegraph Company.

A business and engineering student, Mr. Carter was on the dean's list and was a member of the M.I.T. Management Association, the Technology Catholic Club, the Nautical Association, the M.I.T. Marketing Club, the Society of American Military Engineers, and the ROTC unit.

As a member of the Long Lines 1952 class of student engineers, Mr. Carter will receive a comprehensive inter-departmental training, during his first year of employment, before being given a departmental assignment. He has had two periods of classroom training in New York City, and four weeks in field construction.

At present Mr. Carter has been granted a leave of absence while he is on active duty with his reserve unit. On completion of his military service, he will continue his training schedule in Long Lines which will include assignments to many of the departments in the Company. Long Lines handles long distance telephone service, radio, television, telegraph and teletypewriter network service and overseas telephone service.

Stevenson Backers Form Organization

On October 2, the Walker Memorial Committee approved the constitution of the M.I.T. Volunteers for Stevenson. The organization, which is open to everyone connected with the Institute, was given a temporary Class B status, and will work in conjunction with the Massachusetts Volunteers for Stevenson. The first meeting of the group will be at 5 p. m. on Thursday in room 10-275. There will be short talks by Professors Blum and Kindelberger, followed by an open discussion, during which the future program of the group will be formulated. Following that, the permanent officers of the group will be elected. Officers will be open to any undergraduate student.

New Dorrance Lab Expected Finished By Christmastime

Indications are that the new Dorrance Laboratory will be completely finished by Christmas time if work continues to progress at its present rate. Some of the offices in the new building are finished, and the Institute is gradually shifting people into their new quarters. However the laboratories and research rooms will still require considerable work before they are fully ready for occupancy.

One important feature of the new building is that it is so constructed that gas, water, and electricity are readily available in any room on any floor, if these services are desired. Some of the older Institute buildings do not have this versatility of operation. The large floor-to-ceiling windows in the new building are set in removable panels, so that they can be replaced with opaque metallic panels, at the occupants discretion. Of the buildings nine floors, the lower four are devoted primarily to the Food Technology Department while the upper five floors are designed for the use of the Biology Department.

In the basement, a small aquarium is being constructed to house marine specimens for the Biology Department, and an animal house, with appropriate cages, will be located on the top floor. Future occupants of the animal quarters will include a collection of rats, rabbits, hamsters, and a few dogs and cats.

The Institute has announced no definite date as yet, for the dedication of the new building, but it will probably be delayed until late spring or early summer.

Fire Extinguishers To Be Demonstrated On Field Wednesday

A demonstration on the proper use of fire extinguishers is being sponsored tomorrow by the M.I.T. Safety Committee, it was announced by Mr. Mark J. Dondero, Safety Engineer at the Institute.

The demonstration will be held at 10:00 a. m. on Briggs Field. It is expected to last approximately one hour. In the event of inclement weather, the exhibition will be postponed to the same time on Thursday.

Mr. Francis R. Brannigan, from the Atomic Energy Committee, will serve as master of ceremonies. The demonstrations will be handled by Mr. Daniel MacKay, of the General Equipment Company, and Mr. T. P. Sanders of Walter Kidde and Company.

Included in the exhibition will be demonstrations on the correct procedure for extinguishing different types of fires, including wood, paper and trash fires, kerosene and oil fires, a running stream of burning gasoline, propane fires, and metal fires. Following the show, there will be a question and answer period.

NOTICE

In accordance with the Institute's policy of keeping costs for students as low as possible in a period of rising costs, it has been decided to serve oleo instead of butter in all Institute dining rooms. This move, which represents a large saving, has already been made successful by many other educational institutions in the country.

E. FRANCIS BOWDITCH
Dean of Students

CALENDAR OF EVENTS

OCTOBER 8 TO OCTOBER 14, 1952

WEDNESDAY, OCTOBER 8

Economics Department. Lecture: "Problem of National Security in the Pacific Area." Ambassador Leslie Munro of New Zealand. Room 1-190, 10:00 a.m.

Metallurgy Department. Electrochemistry Colloquium: "Determination of Isoelectric Point of Silver Iodide in Aqueous Solutions." Professor Jan T. G. Overbeek, University of Utrecht, Holland. Room 4-231, 4:00 p.m.

Electrical Engineering Department. Colloquium: "Engineering Aspects of Nuclear Energy Machinery." Professor M. S. Livingston. Room 6-120, 4:30 p.m. Refreshments at 4:00 p.m. in Room 6-321.

Catholic Club. Elections. Lecture by Father Nugent. Room 2-190, 5:00 p.m.

Lecture Series Committee. Lecture: "United Nations and World Unity." Leslie Munro, Ambassador from New Zealand. Hayden Library Lounge, 5:00 p.m.

THURSDAY, OCTOBER 9

Lecture Series Committee. Film: "The Baker's Wife." Room 1-190, 5:00, 7:30, 9:30 p.m. Admission 40c.

FRIDAY, OCTOBER 10

Economics Department. Lecture: "Geography and the Defense of Europe and the Mediterranean Area." Professor Jean Gottman, Institute for Advanced Study, Princeton, N. J. Room 1-190, 1:00 p.m.

Chemistry Department. Harvard-M.I.T. Physical Chemistry Colloquium: "Electron Transfer Process in Water, with Special Reference to the Generation of Hydrogen Atoms." Dr. Fred Dainton, University of Leeds, England. Harvard University, Mallinckrodt MB-23, 4:00 p.m.

Mechanical Engineering Department. Seminar: "New Design Methods for Closed Chain Automatic Control Systems." Professor Sidney Lees. Illustrated with experimental equipment. Room 3-370, 4:00 p.m. Coffee from 3:30-4:00 p.m. in Room 3-174.

Dormitory Committee. Fall Acquaintance Dance. Morriss Hall, 8:00 p.m.-12 midnight.

TUESDAY, OCTOBER 14

Christian Science Organization. Subject: "Expressing Confidence." Tyler Lounge, Walker Memorial, 5:15 p.m.

EXHIBITIONS

Photographic Salon prints by F. Eliot Westlake of Cincinnati, Ohio, will be on display in the Photographic Service Gallery, Basement of Building 11, through October 15.

CALENDAR OF EVENTS

The Calendar of Events appears in THE TECH on Tuesdays with announcements for the following week. Notices, typewritten and signed, must be in the Office of the Editor, Room 7-204, not later than noon on Thursday prior to the date of publication. Material for the Calendar of October 15-October 21 is due October 9.

One of the most persistent rumors to sweep the Institute in recent days concerns the present freshman class. A secretary in the admissions office made a clerical error, so the story goes, and this resulted in the unexpectedly large Class of '56. The rumor, however, has been emphatically and categorically denied by both the Admissions Office and the President's Office. While the Institute admits that this year's Freshman class is larger than had originally been planned, the size of the class as was reported in THE TECH, is due to the fact that not as many dropped out after having been accepted as Freshmen as were expected.

A shower of yellow paper, each sheet decorated with a large black "A", descended on the dormitory freshmen last Friday evening. Since then, most of the first-year men have been vainly trying to ascertain which group on the campus was responsible for the barrage. Not only this, the freshmen apparently don't know what the whole thing means. After all, a piece of paper with nothing on it but a black "A" shoved under one's door can be disconcerting (particularly to an apprehensive freshman). Therefore, to start the Class of '56 off in the right direction, we suggest that there is an organization, a large part of which is composed of Sophomores, called Agenda.

If you happen to know one of the Simmons' girls residing in Evans Hall, one of their senior dormitories, and have tried to call her at the number listed in the T.C.A. Freshman Handbook this year, you have no doubt been disappointed. The number listed in the handbook, LO 6-8957, is the number of a local gentleman who is in no way connected with Simmons College. He has begged us to announce this fact, with the correct number, in order that he might have a little peace and quiet. Therefore, to straighten out the records, the phone number of Evans Hall is LO 6-9857. May you have peace, sir.

"Don't worry about her... just remember the Angostura® in her Manhattan!"

*P.S. Angostura carries the ingredients of your Manhattan—and many another cocktail, too. Angostura is the dash you put in—to make the flavor come out!

The College Press

BY SHELDON DICK, '54

In response to a series of sensation provoking editorials which last week openly endorsed the candidacy of Governor Adlai Stevenson for President, The Columbia Spectator (Columbia University, N. Y.) received both congratulations and condemnations from individuals all over the nation. News of the editorial went out over A.P. and U.P. newswires and resulted in a number of telegrams to both the Spectator and Grayson L. Kirk, Vice-President and Acting Head of the University, some of which questioned the propriety of "the only daily voice of opinion on campus" endorsing a candidate.

Last Wednesday was the date of the first editorial which was entitled "The Great Disenchantment" and which described the Editorial Board's opinions on why they were against General Eisenhower, the Republican nominee for President. Thursday followed with an editorial lauding Stevenson (and on Friday, in response to the numerous correspondence they had received, there was printed the third editorial explaining and defending their stand. The editorials were signed by all eight members of the Editorial Board of The Spectator.

The paper was accused, by some; of overstepping their bounds; that their position might imply that the majority of students at Columbia held the same views; that their opposition to General Eisenhower (who is Columbia's President-on-leave) was merely an attempt to exploit the publicity potentialities of the situation. The Columbia Alumni for Eisenhower attacked The Spectator for "taking advantage of the greater news possibilities in endorsing the presidential candidate of the Democratic Par-

ty," and criticized the lack of a proportional amount of space given by the paper to activities of pro-Eisenhower groups.

The Spectator replied in their Friday editorial that "no paper," including this one... claims at all times to represent the dominating opinions of the community it serves." "The student is free," it continued, "to turn to any (other) paper supporting... Eisenhower." The Spectator's defense of its actions went further to claim that they were entitled to cover a topic not "directly" concerned with University and College news. "When students are preparing to serve their country they are entitled to discuss... the man they want as their Commander-in-Chief." Attacks labeling them as publicity seekers were regarded as "smears" by the editor which could not be rationally answered. "Freedom of the Press is an empty concept... when cries for its curtailment come as a result of hitting a controversial issue."

Vice-President Kirk stated the University's "official position" by declaring that "Columbia believes in freedom of speech and freedom of the press and in the responsible exercise of those freedoms in connection with all political and governmental matters."

Irving Dillard of the St. Louis Post Dispatch wired his "heartiest congratulations on your clarity and independence of thought" and requested a copy of the editorial. One writer who signed his name merely as "Your generation" wired the following: "Dear Sensationalist—Everyone knows that your school has been overwhelmingly pink for years. You can't change our opinion with one headline. Ike tried to get you out of the Red. Sincerely—"

The Barnard Bulletin, student newspaper of Columbia's "sister college" also backed Stevenson's candidacy in an anticlimatical editorial, "We Take Sides."

"Represents education that continues,"

says GEORGE GALLUP

Founder of the American Institute of Public Opinion; formerly Professor, Pulitzer School of Journalism, Columbia U.

"A serious weakness of the American educational system is the missing link between what we are taught in school and what we learn after leaving school. The Reader's Digest represents education that continues. It arouses and satisfies keen interest in the vital issues of the day and in varied fields of lasting knowledge."

Look at the wide range of subjects in any issue—The Reader's Digest is designed for the well-rounded individual who cultivates interests far wider than the confines of any particular field.

From the wealth of material that is published each month, the editors select those outstanding articles no thoughtful person would want to miss. Each article is condensed to present the essentials clearly, yet preserve the full content and flavor of the original.

The Reader's Digest offers a continuing liberal education for millions of men and women with alert, open minds.

In October Reader's Digest, you'll be interested in *Catal: 60*—how an offshoot of A-bomb research is being used to fight cancer; *Watch Out for the Weather*—how its changes affect your physical and mental behavior; 29-page book condensation: *Windows for the Crown Prince*—an American woman's precedent-shattering experience as tutor to Japan's future Emperor.

Ferris Will Speak To Seabury Soc. At First Meeting

The Rev. Theodore P. Ferris, D.D., will be the speaker at the first meeting of the M.I.T. Seabury Society on Wednesday, October 8, at 5:00 p. m. in Tyler Lounge of Walker Memorial. Dr. Ferris' subject should be of particular interest to Tech Men: "The Claims of Christianity on the Scientist." Dr. Ferris, a native of Portchester, New York, is a graduate of Harvard College, and of the General Theological Seminary of New York. This fall he celebrates his tenth anniversary as Rector of Trinity Church in Copley Square. Last month he was a delegate from Massachusetts to the Episcopal General Convention.

The Seabury Society was organized last spring to augment the spiritual and social life of students at the Institute. It was able to present three extremely interesting and unusual talks as well as sponsor a well-attended reception for Bishop Nash, Episcopal Bishop of Massachusetts.

In addition to Dr. Ferris' dissertation, the Society has tentatively scheduled talks by James Garfield, Chancellor of the Diocese of Massachusetts and a prominent lawyer, also the Rev. Jonathan Mitchell, who will give his views on the extremely pertinent, though oft-avoided subject: "The Role of the Church in Politics," with a commentary on the conduct and substance of the present Presidential

Mr. Leslie Munro Will Speak Oct. 8

Mr. Leslie Munro, Ambassador from New Zealand to the United States will be the guest of the Massachusetts Institute of Technology on Wednesday, October 8.

Under the auspices of the M.I.T. School of Humanities, Mr. Munro will speak before several student groups on the effects of geography on international affairs. The M.I.T. Student Lecture Series Committee will sponsor a discussion of this subject by Mr. Munro in the Charles Hayden Memorial Library Lounge at 5:00 p. m. to which all M.I.T. students are invited.

Later Mr. and Mrs. Munro will be honored at dinner at the Club of Odd Volumes by Dean and Mrs. John E. Burchard.

Mr. Munro, whose appointment as ambassador was announced late in 1951, served for nine years as editor of the New Zealand Herald, a leading New Zealand daily newspaper. He was a member of Council of Auckland University, the Senate of the University of New Zealand, and the Auckland Grammar School Board, of which he later became chairman.

A graduate of Auckland University, Mr. Munro has served as lecturer in Law, and in 1938, as Dean of the Faculty of Law at that Institution.

campaigns. The Society also plans to sponsor classes and discussions dealing with Christian marriage and courtship, and if possible certain aspects of the Prayer Book and Bible.

'55 Gridsters Lack Depth But Show Great Precision Frosh Squad 50 Strong

Nineteen Fifty-Two Intramural Season Is Off to Good Start

BY STEPHEN N. COHEN

Saturday and Sunday marked the opening of the '52 intramural football season. This was the first opportunity for judging the strength of the competing teams. The ATO, Theta Chi, and Sigma Nu Grad House nines appear to be the most powerful and the ones to beat. The scores for this first series of games were:

- Sigma Alpha Epsilon, 25, Alpha Epsilon Pi, 0.
- East Campus, 6, Delta Upsilon, 0.
- Sigma Phi Epsilon, 0, Alpha Tau Omega, 26.
- Phi Kappa Sigma, 25, Theta Xi, 0.
- Walker Stiff 13, Delta Kappa Epsilon, 9.
- Phi Delta Theta, 25—Chi Pi, 0.
- Beta Theta Pi, 6, Baker House, 0.
- Sigma Nu, 32, Phi Mu Delta, 6.
- Kappa Sigma, 12, Phi Sigma Kappa, 0.
- Phi Gamma Delta, 16, Pi Lambda Phi, 0.
- Burton House, 6, Delta Tau Delta, 0.
- Theta Chi, 32, Lambda Chi Alpha, 0.
- Graduate House, 28, Lenox Club, 0.
- M.I.T. Student House, 13, Sigma Alpha Mu, 0.
- Phi Beta Epsilon, 6, Sigma Chi, 15.
- Delta Psi forfeited to Theta Delta Chi.

With Field Day less than a month away, the Freshman and Sophomore football teams are gradually working into shape. Both teams held their initial scrimmages last week, with reasonably good results.

The Class of 1956 now has nearly fifty men out for their football team. At the moment the line play is quite ragged but there are a few outstanding players, among them Calvert at tackle, Layson at center, and Gouhin at end. Sen is a good defensive tackle. In the backfield Becker and Roberts are outstanding ball-carriers. According to Coach Dan Lickly, the team will run most of their plays from the straight T-formation, with either Sawyer or Sroelov running the team from the quarterback position. The team is now readying for an informal game scheduled against the Tufts Freshmen next Wednesday, October 15.

Although the Sophomores do not have the numbers that the Freshmen do, they looked very good in their first scrimmage session last Saturday. The backfield was running off its plays with something close to precision, despite their lack of practice. Kraner and Dave Scott have been sharing the quarterbacking duties in a T-formation offense. Wahl, Cole, Ryan, Thellman and Kissinger, all look good carrying the ball. In the line, the play is a bit more ragged, but there are several holdovers from last year. Among the better linemen are Rush, Watts, and Storey, ends; Foster, Wiot, and Don Scott, tackles;

IMPORTANT ANNOUNCEMENT

COLLEGE STUDENTS PREFER LUCKIES IN NATION-WIDE SURVEY!

Nation-wide survey based on actual student interviews in 80 leading colleges reveals more smokers prefer Luckies than any other cigarette -- and by a wide margin. No. 1 reason given -- Luckies' better taste. Survey also shows Lucky Strike gained far more smokers in these colleges than the nation's two other principal brands combined.

STUDENTS!

Hurry! Hurry! Hurry! Mail your Lucky Strike jingles. We pay \$25 for every one we use. Send as many jingles as you like to: Happy-Go-Lucky, P.O. Box 67, New York 46, N.Y.
