Fasset States "Status Quo" Concerning Frosh Residence

Associate Dean of Students Frederick G. Fasset told the Inter-Fraternity Conference last Thursday that the Administration plans to give no special consideration toward fresheres and retention of freshmen residence. Fasset said a complete study of the whole residence facilities is being launched.

Last spring the Administration proposed that all freshmen be required to live on campus, but its sustaining of an effective date was left pending last week. It may be recalled that the policy might be changed this spring from that of Dean of Students R. Francis Bovetti as he told the IFC that the Administration might consider all freshmen to live on campus, as being "on-campus living groups," under the terms of last year's policy.

Various reactions to Fasset's official announcement were voiced by members of the IFC, with the general feeling being one of relief. Most of their points of criticism were centered around the need for immediate action to heighten the morale of the frauded members of the IFC. True, they were against the "status quo" as presented by Fasset, but they were against any other action which would mean a "check" in the administration's "status quo" tendencies.

FRC's rushing committee—composed of Phil Chandler, '41, James A. Feeley, '32, Philip G. Hayne '34, Dale N. Stratton '34, Albert B. Wad '34, and Sidney H. Hess '35—(the new chairman of the IFC) submitted a report. Included were a set of proposed rushing rules which outlaw such things as rushing, lying-in, open house parties, and the offering of free drinks. However, the committee was unable to propose a new rushing committee into action.

"Combained Plan Men To Visit Inst.

On Wednesday, Thursday and Friday, April 3 and 4, 128 students who are participating in a combined study plan which affords them degrees from this school and another college, will assemble at the Institute.

Principal reason for the trip is to visit a 300 acre course, so that the students will waste little time in getting into the second phase of their intercollegiate education.

Frosh Baseball
The frosh baseball rally will be held in Rockwell Cage Tuesday at 5:00 p.m.

Money-Raising Carnival Planned by NSA to Aid War-Torn Universities

In an unprecedented effort at painlessly raising money for a worthy cause, the National Student Association has scheduled a 3-day, student-sponsored carnival featuring a multi-faceted and varied program to be held on the grounds of the campus. The carnival will stage amusing games and entertainments, from the bean bag toss to the prize, two legs of beer, will be given to the booth which collects the most money for the carnival.

On stages, a variety show will feature student and faculty participation, and a prized plant sale. The proceeds of the sale will be given to other faculty members present with their hair done in a variety of activities. Those faculty members who will avoid their residence will be participating in the show will be given a shave by the students.

Other attractions will include a three-legged race, also with student participation. Prizes will be a case of beer and a bottle of wine.

Varsity Rifle Team Edged Out

In Spirted Triangular Match
One point spoiled an otherwise perfect week for Tech's rifle teams. At MSU, the University of Maryland edged out the varsity last Saturday on the final day of the fourth annual tri-stater for the Middle Atlantic, Maryland, and the U. S. Military Academy, at the West Point range. The teams scored 1243, 1438, and 1350 for Maryland, Tech, and Army, respectively. Maryland won the competition of the match as the measure of their total score. Tech and Army tied for third place, and Army edged Maryland by one point needed to win the match. In spite of the split at West Point, the Engineers' game was a decided victory, for it won them the Ivy League Championship for the third consecutive season. The three other teams included in the tri-stater have been firing in a separate match at Boston University. The team scored 1240, 1439, and 1350 for Boston University, Harvard, and the University of New Hampshire, respectively.

Prior to the match at Army, the varsity team added its tenth consecutive win in shoulder-to-shoulder competition, for it took the Harvard team by a decisive 1314-1300 margin. The third place team was the New England Amateur Gunners, who were also busy during the week. Continuing undefeated in shoulder-to-shoulder competition, the varsity clinched the New England title at the annual competition in Technological Field of Study. The varsity won over the New England Amateur Gunners by a decisive 1314-1300 margin.
our rivals

"O bon jour! O marx!" said Cicero, truly lamenting the times and the morals of his day many, many years ago.

As Cicero, so we. Approaching the lobby of Building 10 last Saturday, we were hardly awakened from our customary coma by the sight of what looked like an overgrown dishcloth, suspended above the lobby and announcing in so many words that it had won that which is not to be found in books, and which he will have absorbed a good deal of practical knowledge, kept in touch with the world in general, and, and best of all, he will have won that which is not to be found in books, and which, in after life, he will prize more than an infinite amount of knowledge, the love and esteem of his associates.

Let us then be active in our own little sphere of life; attend the class meetings; try for the athletic teams; yelling for the moustache has to be drawn on to the beautiful, exquisite, innocent face of a girl, by getting us all to draw moustaches.

This is where we make the limelight. Heaven knows we need to." We even see our nightly efforts that will make you wonder.

"After all, a man's college education is not reckoned wholly in what is going on about him may not acquire as much tech-

mien. But-and m.

On the other hand, the man who takes an active interest in such branches of student life as are open to him will have absorbed a good deal of practical knowledge, kept in touch with the world in general, and, and best of all, he will have won that which is not to be found in books, and which, in after life, he will prize more than an infinite amount of knowledge, the love and esteem of his associates.

Let us then be active in our own little sphere of life; attend the class meetings; try for the athletic teams; yell for the 'Red and Gray' whenever an opportunity offers.

"After all, a man's college education is not reckoned wholly in the number of A's he has to his credit on the Secretary's books. He should broaden himself along every possible line. At Tech we do not have the college spirit and social diversions which most colleges possess. We should, therefore, take as much as possible in such branches of student life as are open to us, and endeavor to cultivate that love for Alma Mater, which is at present so woefully lacking."

"On the other hand, the man who takes an active interest in what is going on about him may not acquire as much technical knowledge as the grind, and, but at the end of his four years, he will have absorbed a good deal of practical knowledge, kept in touch with the world in general, and, and best of all, he will have won that which is not to be found in books, and which, in after life, he will prize more than an infinite amount of knowledge, the love and esteem of his associates.

Let us then be active in our own little sphere of life; attend the class meetings; try for the athletic teams; yell for the 'Red and Gray' whenever an opportunity offers."

Records Fall As Freshmen Win Intramural Track Meet For Fifth Successive Year

Three new records marked last weekend's Indoor Intramural track meet, won by the class of 56 with a 97 point total. The place-holders finished a distant second with 48 points, followed by 33 with 44 and 32 with 30 points. It was the first straight intramural meet won by a freshman class.

\section{Sculpture Board}

Chris Baker, '55, set a new meet record and tied the M.I.T.A.A. indoor record in winning the 500 m. run in 2 minutes, 18.6 seconds. Dick Klein, '52, and Ken Childs, '51 both topped Klin's Rockwell cage mark of 20' 9 3/4" and the meet record of 20' 10". Klin hit 20' 10" on his best effort, but Childs topped that mark with a 20' 11" leap.

\section{Anselmo Soft Record}

Bill Antokul, 56, set a new cage and meet record in the high jump by clearing the bar at 6' 10" to win the high jump. Warren Lastof in the Pole vault cut a tenth of a second off of his Institute record of 9.3 seconds in winning the 60 yard hurdles, but the record was disallowed because of a starting foul.

\section{Grosh Line Hawk}

Chris Gosten, '54, was high scorer for the meet with a total of fifteen points on first places in the dash, low hurdles, and 300 yard run. He set meet records in his first places, Lastof's in the high hurdles, Antokul's in the high jump, and Bob Babich in the pole vault, but amassed enough points from the other four scoring places to win the meet, with sixteen men contributing to his point total.

\section{3 Records Fall As Freshmen Win Intramural Track Meet For Fifth Successive Year}

The baseball team has been going strong for the past month, under the guidance of Coach Roy Merritt. Roy is dependent upon veteran pitcher Amos Dixon, the captain of the squad. Lack of experienced players is most heavily felt in the outfield, while some veterans are bolstering infield positions.

Practice, has, of course, been limited to the cage as far as of the newly-acquired pitching machines. Roy hopes to have continuous practice during the spring holidays, contingent on the weather. Regular season competition will start some time early in April, with Brandeis as our first opponent.
