A petition is being circulated among the members of the student body at large, for the reconsideration of the Undergraduate Association's resolution, the purpose of which is to endow the Undergraduate Association with a voice in the allocation of a president of the Institute.

The actual motion that effects this change is two-fold: (1) to separate the voice of the Student Senate, and (2) to endow the Undergraduate Association with a voice in the allocation of a president of the Student Body.

The petition is reproduced by· ditto machines and signed by the three organizers: Albert A. Ward, '54, Eldon H. Bailey, '54, and Edward D. John, '54.

The petition states that the purpose of the motion is to reorganize along more modern lines as Vail Librarian, and Miss Barlow of the stack ranges will supplement open and reading cartels at the end exit. Electrical Engineering periodizing and Naval Architecture and Engineering and Construction, Civil Library system of the Institute.

The Student Association is part of a long range plan to improve the student body to force the Institute to give more freedom to young men.--it is of particular importance.

This latest renovation of a key Institute has been underway for a number of days. Mr. Ralph McNay of the Engineering Library Under Dome has been hammering till 3:00 a.m. while trying to get the house opened.

The history of this house goes back to 1947 when a group of young men from Mt. Vernon Street Church founded the Coop--as it is called. The first house was located on Mt. Vernon Street in Boston. Most of the boys were from New England, and very often their sisters, cousins, and friends were from Boston to stay in the house. This developed into the idea of having on Coop members, thus, together, a long time, the men have stood for equality of sex.

On Bigelow Street in Cambridge, there is a house shared by boys and girls, without any chaperone. They share the house work as a cooperative basis and man the house by themselves.

The house stands for complete equality of sex, race, nationality, and creed. Students from Holland, Norway, Belgium, and later from all parts of the world, are removed to the house.

Mr. Levin's office is the mainten-ance of Mr. Levin's office is the maintenance of the Institute's solid radioactive waste which has been safely stor-

Work Begun On Rehabilitation Of Engineering Library Under Dome

Great Dane Gets A Free Lunch

Work has started on the renovation of the Engineering Library in Building Ten. During the following two to three months, the main reading room will be closed and temporary entrances to the library will be taken over the rooms 10-50.

A work schedule and attendance will be in effect for the period of renovation. Administrative and general reference questions are being handled in room 10-50.

The administration and attendance will be in effect for the period of renovation. Administrative and general reference questions are being handled in room 10-50. The main reading room will be closed and temporary entrances to the library will be taken over the rooms 10-50.

Periodicals: New Starrs

Current periodicals for Building Engineering and Construction, Civil Engineering, and Naval Architecture and Marine Engineering will be filed in the stacks near the new conglomerate section. Electrical Engineering periodicals will be filed at the temporary circulation desk. The stacks will be open and reading carrels at the end of the stack maps will supplement seating, the temporary reading room. The Clark Collection will be closed during the period of construction.

Coincidentally, Mr. McNay will assume complete administrative, circulation, and reference duties for the Engineering Library, with Mrs. Ruth M. Hall of the Engineering Library Department at the time. He has announced that the library is an assembly line equipped with two infusion machines and a statistical properties of speech signals, and production of natural and synthetic speech. Properties of signals in audio communication systems in the medical and biological fields. (As speakers and listeners we will be super-vised by Edward D. John, '54.

Succession

With this issue the Managing Board of Volume LXXIII takes its leave of THE TECH. One of its most gratifying tasks during the past year has been the work of following closely all issues affecting our student life and placing them with clarity before the Institute community. It is true that several difficult questions have arisen. Early in the Spring Term the problem of discriminatory clauses in fraternity charters was brought up in a form for the first time, and a measure is at the present moment under consideration to deal with the situation. Later in the Spring the young men's fussy lightly turned to thoughts of riots in which the remarkable ingenuity of the Techman came to the fore. At about the same time, the discussion was under way between various student and Faculty groups about the advantages of having a few days between end of classes and exams in order to review the term's work. Such a reading period has been granted to us and we are glad that THE TECH has become a part of that change. The freshman advisory system whose machinery had been creating some malcontent in September has functioned much better and more efficiently with basis very happy results. The close of the Spring term saw the announcement of a $10,000 raise to go into effect this fall. The measures have been effected and others are under way to make our student government more efficient in its operation, and more active in its expression. Personal and property damage resulting from the last Field Day has led to a reorganization of the Institute committee concerned and its replacement by an All-Tech Weekend has been supported by this necessity. The University Office in its handling of student complaints. The Institute Dining services have been making a great attempt to improve themselves but much effort is still required. The Freshman report appearing in the fall pointed out very clearly the restrictive effect of government-minded research on private technical research. The idea of a student union for M.I.T. was brought up for the first time in more than a year, and the Associated General Contractors—M.I.T. has made a great attempt to improve themselves. The President's report appearing in Volume LXXIII with just confidence this time spent on THE TECH with much satisfaction and steps will be taken when the House Un-American Activities Committee comes in. The Struik case lay dormant. The student union for M.I.T. was brought up for the first time this year and much effort is still required. Matmen Lose To Amherst; First Defeat Of Season

The Beaver wrestlers lost their first match of the season bowing before Amherst, 29-8, last Saturday at the Rockwell Cage. Each team scored one pin but Amherst could claim five decisions to only one for the Beavers. However, the match was closer than the score indicates, since the matches could have gone the other way.

In the 123 pound class, Jack Faith lost a close decision to Davee Tank. Although the score was tied at the end of the match, Tank had a time advantage and was awarded a 6-4 win.

Coach Kennedy, last year's New England freshman 193 pound champ, lost to Amherst's Schellenburg, the New England Interscholastic champ, 20-8. The match was hard fought all the way, but Schellenburg scored two near pins in the final period to take the victory.

Chuck Dear, at 137, was wrestling for the first time this season, and lost to Dougherty, 9-6. At 147, Larry James lost for the first time this year in a close match with Ed Tung. Tung was a class, existing match, and a heart-breaker for Beamer to lose.

At 157, Dick Crowell became the first Defeat Of Season Tech scored the most convincing vic-

CAMPUS INTERVIEWS
Wesleyan Boys, 8-1, To Tech Squashmen; West Point Wins, 6-3

The varsity squash team split in two engagements over the week end, defeating Wesleyan easily on Thursday, 8-1, before bowing out to Yale on Saturday. The Tech fresh took an easy 7-2 win over the Wesleyan team. In the West Point match, the only loser was Capt. Hugh Harrington. Rudzinski and Malani, the first two, both won easily. Some of the other matches were close, but the Engineers won out in all of them.

The first five members of the freshman team were tired, having played an NCAA meet earlier in the day, but nevertheless won their matches easily. Only the first two men, Bryden and Gende, were defeated, while others won with ease.

On Saturday morning, West Point defeated the Bears in a close, hard-fought match. Rudzinski and Mazzen were the Tech victors, while Goldin was on default. The other matches were close, but the more experienced Cadets prevailed in the end.

Arranged to Coach Jack Bemvenuti, the squashmen have been coming along well. Although they have won only one of four intercollegiate matches, they are near to the Squash Racquets Association. Members of the varsity and lightweight men have begun their workouts in preparation for the spring season.

10 Varsity Squash Schedule Contests

Each of the ten varsity teams that compete during the winter season has an extensive schedule. For the benefit of the readers, THE TECH prints the program guaranteed for the remainder of the winter. Heavy type indicates home games, and all times indicated are P.M.

TUESDAY, JANUARY 19

SUNDAY, JANUARY 18

Society of Arts, Popular Science Lecture: "Aerostatics and Professor Raymond C. Byrd at Bishops Hoff, Room 18, 2:50 p.m.

Monday, January 19

Squash Racquets Association. Summer Tourney. Barnum, Bristol, 7:00 p.m.

Varsity Team Meets. Men's League with U. S. Coast Guard Academy. Coast Guard Gymnasium, New London, Connecticut, 8:35 p.m.

TUESDAY, JANUARY 20

Christian Science Organization, Meeting, Subject: "The Universe Is Subjective." Tyler Lounge, Walker Memorial, 5:15 p.m.

EXHIBITIONS

An exhibition entitled "The Changing Contours and Coastline of Boston" will be on display in the lobby of Building 7 throughout January 20.

"Art of Indonesia" will be shown in the New Gallery of the Charles Hayden Memorial Library, Mondays through Fridays, January 18 through February 16, from 9:30 a.m. to 5:00 p.m.

CALENDAR OF EVENTS

There will be no Calendar of Events until February 11. Meetings of Kappa Zeta's executive body may be scheduled at the discretion of the Editor, Room 7-204, not later than noon on Thursday, Feb.,

**Installs New Racks For Bicycle Riders**

During the past few months there has been a marked lack of parking facilities for bicycles on Institute grounds. This has resulted in the leaving of bicycles in various places throughout the buildings. The Department of Bicycle and Powers has recognized this need by ordering installation now racks near the interior pool and behind Building 30. The most racks to the rear of Building 9, and at the end of Building 9 will be replaced with enlarged facilities. Other locations for new racks are being considered. Further announcements will follow in the near future.

"LIMELIGHT"

The Duke University Chronicle has finally uncovered evidence of the existence of a student-run gambling syndicate which observers claim have all the attributes and earmarks of the nationwide bookmaking setup. Local bookmakers are alleged to supply the campus' extracurricular organizations with "spread sheets," or pari-mutuel slips, which state favorites and long shots. Under full operation the campus syndicate has reported to realize a personal profit of up to $200 in addition to the commission awarded to nearly a dozen runners who cover the downtown bookies. Punters of the Judicial Board action against this, however, cut down the group's activities.

While folklore through college newspapers is often covered with articles which have cryptic or ambiguous meanings and which allow the mind to wonder. The following are a few examples which clint not comment on the explanation but may offer some remarks. Remember he who laughs last has his doubles sound.

319 Senior Cadets Given Appointments

Three hundred and nineteen Army ROTC cadets have been given appointments within the R.O.T.C. Regi- ment under the program of rotation. All appoint- ments were made on the basis of scholarship, in- terest and leadership. Now heading the Cadet Regiment in the Institute is George G. Karl, Class '54, Course 10. Other appointments follow: 

Appointments of the cadet constituent Col- leges were: 

John W. Madsen, '54
Donald B. Miller, '53
Rudolph M. Ohlsson, '53
Herbert S. Richardson, '53
Robert S. Scholten, Graduate Student.
Ralph H. Stevens, Jr., '53.

Two men were named as Cadet Majors:

Robert F. Caplan, '53
Richard S. Strzelecki, '53

M.I.T. was also mentioned briefly in the de- cision of the principals of the Institute. 

Mrs. Dodd: "Could you tell us some of the reasons for investigation of Communist school- 

Subversion (Continued from Page 1)

Letters

(Continued from Page 4) not its beliefs coincide with that act.

The proposal states that organizations with clauses must make a constructive
effort to remove these clauses. Such "freeing" must be justified.

There is no denying that any group whatever with any restrictive clauses whatever has a right to be there. But there is also no reason why M.I.T. must recognize and accept such a group into its midst, when these restrictive clauses are a denial of the right of minority membership. (Indeed the committee's proposal provides that no new organization with restrictive clauses shall be recognized in the future.) However, we must face the problem that such organizations are already an established part of the Institute. We should have no justification in evicting them to get rid of their clauses—or else, now. But can we not request that they make an effort to remove the clause in order to conform with the principles long enunciated by M.I.T. and confirmed by the passing of this proposal? We speak a great deal of protecting the rights of minority groups, yet we are in-

reasonable and logical. M.I.T. must accept such restrictions.

New Aviation Cadet Training Classes Begin Every Few Weeks!

HERE'S WHAT TO DO:

1. Take a transcript of your college credits and a copy of your birth certificate to your nearest Air Force Base or Recruiting Station. Fill out the application they give you.

2. If your application is accepted, the Air Force will arrange for you to take a physical examination.

Where to get more details:

Visit your nearest Air Force Base or Air Force Recruiting Office.

OR WRITE TO: AVIATION CADET HEADQUARTERS, U. S. AIR FORCE, WASHINGTON 25, D. C.
