

E. Campus Scene Of Action As Moon Stimulates Bonfire

The eclipse of the third moon of Jupiter was celebrated in the traditional fashion on East Campus Saturday night, and the lawn between the two dormitory units is not expected to recover until well into summer.

At about midnight Saturday night a large bonfire was started on the lawn between the two East Campus houses, and was fed with scrap wood, kerosene, and high spirits. A little after 2 a. m. Sunday morning most of the spectators had left the scene.

Firecrackers And Loud Amplifiers
In addition to the big bonfire, a number of firecrackers and an acetylene cannon kept the celebration of the "Eclipse" going. The owners of practically every powerful amplifier on East Campus turned their machines to full volume to add to the festivities. Ruth Wallis was reported coming in clearly as far away as Eastgate.

During the course of the evening, a dummy labeled "Major Moon" was brought out and thrown into the fire. Other fuel was provided several times during the affair by a long black automobile which rode up to the fire, unloaded its cargo of wooden crates and then disappeared into the darkness.

Smoke, fire, and noise rouse East Campus on Saturday night.

Audio-Visual Show Of 'Familiar Music' Now At Public Lib.

"Familiar Music" is the title of one of a series of programs now being presented in the Audio-Visual Centre of the Central Library of the Boston Public Library. On Monday, March 30, Thomas Mitchell will be heard in Arthur Miller's "Death of a Salesman," one of a number of recordings of contemporary drama being presented in the Audio-Visual Centre.

The music of Saint-Saens will be played on Wednesday, March 18, and on March 25, two compositions by Cesar Franck (including the complete Symphony in D Minor) and a piece by Bizet will be played in the Library's "Familiar Music" Series. On both occasions introductory remarks on the lives and times of the composers will precede the recordings of their music.

Both the "Familiar Music" and "Contemporary Drama" series start at 7:30 p. m. The Boston Public Library is located in Copley Square.

Dorm Social Has Hotel Discounts

Dormitory Social Committee has announced that accommodations may now be reserved at the Hotel Braemore for out-of-town dates during Dormitory Week End, April 10-11. A discount of 20 per cent was obtained for M. I. T. men, so that the cost is \$4 a night.

The Braemore is located in Kenmore Square, a short distance from the Institute. Groups of two or three girls will be accommodated in a suite of rooms. Anyone interested should contact Walter Kroy '54 (Hayden 112), so that suitable arrangements can be made.

Social Side Planned

Plans have also been made for the social side of Dorm Week End. On Friday evening, April 10, an Oriental atmosphere will prevail at Baker House. Fu Ling, famous magician, will provide intermission entertainment, with Baron Hugo and his orchestra supplying the music. The following night, Walker Memorial goes nautical with the Informal Dance. Mike Stevens will provide music for "landlubbers" and "seafarers" alike. Tickets for the Informal Dance are \$1.80 per couple, while admission for two at the formal will cost \$2.25. A combined ticket for the two events are available at \$3.75. Invitations will be ready at the booth in Building 10 on Friday.

(Continued on Page 2)

Hillel To Present New Radio Drama

M.I.T. Hillel on The Air will present a dramatization of "The Battle of the Warsaw Ghetto," over WMIT at 7:00 p. m. tomorrow night. The play is the moving story of how ten years ago thirty-five thousand Jews held off the Nazi army for over a month rather than passively submit to annihilation.

The group presenting this play is the only radio dramatic group at the Institute. Two weeks ago they presented "The Merry Jests of Hershel Ostropolier," the story of a famous jester of Eastern Europe. They have been producing plays of general interest and varied theme regularly every two weeks.

Monroe To Play Here For "Camel Caravan"

Vaughn Monroe and His Orchestra, with the Moonmaids and Moonmen and a guest vocalist, will be at the Institute next Saturday, March 21, to transcribe the "Camel Caravan" program which will be broadcast over the Columbia Broadcasting System on April 11.

The "Camel Caravan" originates from a different college or university each Saturday night. This will mark the second time that Monroe has broadcast from the Institute, the first time

having been in 1948. The broadcast will feature the main events in the history of the Institute and the accomplishments of its well-known graduates. Monroe and his group will sing "Take Me Back to Tech," "Arise Ye Sons of M. I. T." and, as the student's favorite song sung by Monroe, "Lonely Eyes."

Admission By Ticket

The program will be transcribed in Morss Hall, Walker Memorial, from 1:30 to 2:00 p. m. Following the transcription the orchestra and singers will present a concert for the students which in turn will be followed by a Smoker in Litchfield Lounge. Those attending will be given opportunities to question Monroe and members of his group. The entire affair will end at approximately 3:30 p. m.

Admission to the broadcast will be limited to 550 persons. Tickets, which will be free of charge, are available at the Institute Committee Office in Walker Memorial. Admission will be by ticket only. Of the 550 attending 350 will have seats, the others will have to stand. Seats will go to the first who arrive at Morss Hall. Doors will open at 1 p. m. the R. J. Reynolds Tobacco Company, sponsors of the "Camel Caravan," will distribute free Camel cigarettes to all who attend.

Broadcast April 11

In addition to the "Camel Caravan" which is now in its sixth year, Vaughn Monroe is well-known for his popular recordings, and, more recently, his motion pictures. Several of his recordings, including "There, I've Said It Again," "Ballerina," "Cool Water," "Riders In The Sky" and "Mule Train" have sold close to 1,000,000 copies.

The broadcast of the program featuring the Institute will be carried locally over Station WEEI at 7:30 p. m. on April 11.

Vaughn Monroe

Sigma Nu Captures Tech Sing Award, Co-Eds Win Egbert

In securing first place at the All Tech Sing for the third straight year, Sigma Nu retired the annually awarded trophy. They presented a quartet which harmonized in "Shine," "My Coney Island Baby" and "She's More To Be Pitied Than Censured."

Egbert, an antique stuffed Puffin, went to the Women's Dormitories for the best presentation and is now sitting on their mantle at 120 Bay State.

The presentation took the form of a short procession with the mysterious Egbert in a black trunk. Phil Untersee, chairman of the Sing, guided the proceedings and presented the stuffed bird to Marilyn Leader who directed the coeds. This was the first time the women's dorms have entered the All Tech Sing though the Women's Association of several years ago once entered the contest and similarly walked away with Egbert.

Second and third place went to Kappa Sigma and Theta Chi respectively. According to one of the judges for the affair, it is more difficult for a large group to achieve the harmony for which they were listening. The judges were Professors John B. Wilburl, Leicester F. Hamilton and Avery A. Ashdown. The master of ceremonies was Professor Theodore Wood, Jr.

Queen And Court To Highlight Ball

An honor guard equipped with sabers, and a military air in general will pervade Morss Hall on the evening of March 20 when Company G-5 of the National Society of Scabbard and Blade presents its annual Military Ball.

Highlighting the evening will be the coronation of the Queen of the Ball followed by the traditional presentation ceremony. At this time the company will be officially turned over to Joseph P. Pennimpede '54, the new captain, by David F. Rollins '53, the retiring commander.

To Choose Queen

The Queen of the Military Ball will be chosen by the entire student body from finalists selected by a screening committee composed of Colonel Glenn C. Coleman of the Air Science Department, Colonel Charles F. Baish of the Military Science Department, and Professor Earl B. Millard of the Chemistry Department all of whom

(Continued on Page 2)

N. E. Chapters Meet To Discuss Clauses

Several New England chapters of Phi Delta Theta met at the Massachusetts Gamma House at the Institute on Saturday, March 14, to discuss ways of modifying or eliminating present restrictive clauses in their national charter. Although no definite course of action for the next convention in the summer of 1954 was decided upon, the chapters presently unanimously agreed that membership qualifications as they now stand must be changed in the near future.

The question of removal of the restrictive clause was first brought up at a national convention in 1948. Since then committees have been appointed to investigate the feelings of chapters throughout the nation. The topic has been brought up at each bi-annual meeting since 1948 and has been defeated by decreasing margins each time.

In an interview with THE TECH chapter president James L. Gleason '53 stated that he expected the clause to be modified or removed by 1956 at the latest. He said that the meeting Saturday was very well attended, but declined to say which chapters or how many were represented.

Plans for the meeting grew out of an informal gathering of several New England chapters following the suspension of the Williams chapter in February for pledging a Jewish student. This contradicted a clause limiting membership to students of

(Continued on Page 3)

Beaver Trackmen Wing B. C. Eagles

Paced by several record breaking performances, the varsity and freshmen track teams ended their indoor season by defeating Boston College. Warren Lattof started off the meet on favorable terms by setting a new 45-yard high hurdle mark of :05.8 which broke his own record of :05.9 set in 1952. However in the dash Hank Olivier met his first defeat of the season against B. C.'s speedy McAllister who became the meet's only double winner by taking the 300-yard run. McAllister clocked fast times of :05.6 and :33.0.

High Nutley set the pace all the way to beat his teammate Jack Farquhar with a 4:28.5 mile. Nutley ran an even race as he returned successive quarters of :66.0, :66.6, :68.4, and :67.5. Farquhar appeared to be resting in the mile to conserve his strength for the 1000-yard run later in the day. He took the lead from the Eagles' McDonald at the 600-yard mark and was never headed despite a fast finishing spurt which almost cost him the victory. The 600-yard run was another thriller as Ian Williams beat teammate George Grenier by a stride in the fast time of 1:14.8. The meet was marred by one incident when the official lap counter lost track of the laps in the long 24-lap two mile run. Sapienza of Boston College was the clear cut victor with the other places being settled by arbitration.

T.C.A. Installs New Officers; Religious Activity Expands

Technology Christian Association held its annual dinner in the Faculty Club Lounge of Sloan Building last Friday. Dean E. Francis Bowditch was guest speaker.

After dinner, Wallace E. Reid '53, retiring president, moved the meeting to the penthouse. Reid then introduced the members of the T. C. A. Advisory Board and guests.

Chairman of the Advisory Board, Percy R. Zeigler '00, formally installed the new Executive Committee. New committee members are: Emmanuel Otis '54, president; Fred A. Bowis '54, vice president; Michael Wislowski '54, secretary; Daniel Keck '54, treasurer and Thomas Chase '54, director of boy's work. The new cabinet members were also installed.

To Expand Religious Activity

In a statement to THE TECH, Otis commented, "The T. C. A. will retain and improve its present services while expanding the religious segment of its operations during the coming year."

In his address to the meeting Dean Bowditch stated that the challenge before the new cabinet is that it must change as the Institute changes. It must keep up with the date. He held that T. C. A. has always been first to recognize human needs. Many policies since taken over by the Institute were originated by the Association.

In this modern, fast age which we describe as somewhat materialistic, the Dean explained, there is an in-

creasing yearning for spiritual satisfaction. He added that the Institute is aware of this trend and construction of the proposed chapel on West Campus will be the first large step in this recognition. He felt that T. C. A. can help most by satisfying the spiritual needs of the Institute community.

Honor Plaque Awarded

Donald H. Foster '54, ex-director of Social Action, was awarded the T. C. A. Cabinet Honor Plaque for excellent management of the Blood Drive which broke all Institute records. The award

(Continued on Page 2)

Exec. Comm. Meets; Discusses Agenda

Thomas J. Henderson '54 was approved as the Institute Committee Parliamentarian at the meeting of the Executive Committee held last Sunday. The leadership conference scheduled for April 18-19 was also discussed.

Several topics were approved for discussion at the next Institute Committee meeting. Among these is a report on room re-assignments by the Secretariat. A proposal to make election results available immediately after the votes have been counted will also be taken up. And finally, the report of the N. S. A. Investigating Committee will be read and discussed.

CALENDAR OF EVENTS

WEDNESDAY, MARCH 18

Inter-Varsity Christian Fellowship. Lecture: "Eternal Security." Dr. Charles Chilton, Sheldonville Baptist Church. Room 7-103, 5:00 p.m.

Motor Sports Enthusiasts' Club. Forum: "Building and Re-Building of Sports Cars and Specials." Room 31-164, 5:00 p.m.

Society of American Military Engineers—Student Chapter. Films: "Road Construction," "Fixed Bridge Construction," "Pipeline Construction." Room 4-270, 5:00 p.m.

Chemistry Department. Harvard-M.I.T. Physical Chemistry Colloquium: "Ion Association in Aqueous Solutions." Dr. J. H. B. George, Oxford University. Harvard University, Mallinckrodt MB-23, 8:00 p.m.

THURSDAY, MARCH 19

Electrical Engineering Department. Open House for Course VI Undergraduates. Building 10, Fourth Floor, 4:00-5:30 p.m. Refreshments at 4:15 p.m.

School of Architecture and Planning. Lecture: "Architectural Design and Planning." Mr. Fritz Gutheim, Author. Room 7-437, 4:00 p.m.

Physics Department. Colloquium: "The Use of Group Theory in Atomic and Molecular Structure." Dr. C. C. J. Roothaan, University of Chicago. Room 6-120, 4:15 p.m.

Freshman Guidance Talks. Course XIII: Naval Architecture, Marine Engineering and Marine Transportation. Room 14E-310, 5:00 p.m.

Freshman Guidance Talks. Course XVIII: Mathematics. Room 2-290, 5:00 p.m.

Lecture Series Committee. Film: "Kammeradshaft." Room 1-190, 5:00, 7:30, 9:30 p.m. 30 cents.

English and History Department. Lecture: "The Sense of Human Dignity." Dr. Jacob Bronowski, Carnegie Visiting Professor. Room 10-250, 8:00 p.m.

FRIDAY, MARCH 20

Mechanical Engineering Department. Lecture: "Engineering in General Motors." Mr. Charles A. Chayne, Vice-President, General Motors Corporation. Room 3-270, 11:00 a.m.

Mechanical Engineering Department. Seminar: "Design Problems Encountered in Air Pre-Heaters." Mr. Stephen I. Juhasz. Room 3-270, 4:00 p.m. Coffee in Room 3-174 from 3:30-4:00 p.m.

SATURDAY, MARCH 21

Varsity Rifle Team. New England Collegiate Rifle League Finals. Arlington (Mass.) Rifle Range. 9:00 a.m.-5:00 p.m.

Modern Languages Department. Graduate Language Examination: German. Room 1-245, 10:00 a.m.-12:00 noon.

Modern Languages Department. Graduate Language Examinations: French and Russian. Room 1-245, 2:00-4:00 p.m.

Varsity Pistol Team. Match with U. S. Coast Guard Academy. M.I.T. Rifle Range, 2:00 p.m.

SUNDAY, MARCH 22

Society of Arts. Popular Science Lecture: "Mechanical Vibrations—Their Control." Professor J. P. Den Hartog. Room 10-250, 4:00 p.m.

MONDAY, MARCH 23

Electrical Engineering Department. Orientation Meeting for Course VI-A Sophomores. Freshmen invited. Room 10-250, 4:00 p.m.

Freshman Guidance Talks. Course VI: Electrical Engineering. Room 2-390, 5:00 p.m.

Freshman Guidance Talks. Course XIX: Meteorology. Room 2-390, 5:00 p.m.

TUESDAY, MARCH 24

Aeronautical Engineering Department. Seminar: "Aircraft Structural Design Problems." Mr. Charles R. Strang, Douglas Aircraft Company, Santa Monica, California. Room 35-225, 4:00 p.m. Refreshments in the du Pont Room from 3:30-4:00 p.m.

Christian Science Organization. Subject: "Spiritual Progress." Tyler Lounge, Walker Memorial, 5:15 p.m.

School of Humanities and Social Studies. Lecture: "New Zealand's System of Settling Industrial Disputes by Conciliation and Arbitration." Mr. Justice Arthur Tyndall, Judge of the Court of Arbitration, New Zealand. Hayden Library Lounge, 8:00 p.m.

EXHIBITIONS

An exhibit entitled "Greece: VI-V-IV Centuries" will be on display in the New Gallery of the Charles Hayden Memorial Library from 9:00 a.m. to 5:00 p.m., Monday through Friday, through March 23.

A technical exhibit of photographic salon prints by the Photographic Society of America will be on display in the Photo Service Gallery, Basement of Building 11, through March 23.

"Eliel Saarinen Memorial Exhibition" will be shown in the Lobby of Building 7, through March 27.

CALENDAR OF EVENTS

The Calendar of Events appears in The Tech on Tuesday with announcements for the following week. Notices, typewritten and signed, must be in the office of the editor, Room 7-204, not later than noon on Thursday, prior to the date of publication. Material for the Calendar of March 25-31 is due March 19.

through the mail

To the Editor of THE TECH:
We would like to thank the members of the Class of 1953 who participated in the recent elections, and being mindful of the responsibilities of the offices to which we were elected, announce our readiness to serve you in any way possible.

A reminder—your secretary will be writing monthly articles for the Technology Review and would appreciate your forwarding to him any newsworthy items concerning new jobs, additions to the family (children, wives, etc.) and any other notes about yourselves or any other members of the class.

George Stevenson '53, President.
Vinson Bronson '53, Sec.-Treas.
March 15, 1953.

All letters to the Editor must contain the author's name which will be withheld upon request—Ed.

T.C.A. Meeting

(Continued from Page 1)
is made annually to that member of the T. C. A. Cabinet who has performed the greatest service and most efficient work for T. C. A. and the Institute body during the past year.

Have Financial Deficit

In the treasurer's report Anthony Turano '54 called attention to deficit of \$385 amounted during the year. Frederick H. Bowis '54, director of the Fund Drive, added that the past drive was not very successful since the income including pledges outstanding fell short of the budget by \$700.

Frederick W. Lupton, '55, spoke briefly on the success of the lectures and discussions on religion that were sponsored by the Religious Action Committee.

The non-profit Ticket Service sold \$18,000 worth of tickets, reported Jack Gradijan '54, while the Book Exchange handled several thousand dollars worth of books, drawing sets, and slide rules. Gradijan added that Tech House had been in almost constant use throughout the year.

The College Press

Procuring that degree requires some work at the Institute but according to Pageant Magazine there are at least 19 ways to get through college without trying. We reprint them here for the student's perusal.

1—Bring the professor newspaper clippings dealing with his subject. If you don't find clippings dealing with his subject, bring them in at random. He thinks everything deals with his subject.

2—Look alert. Take notes eagerly. If you look at your watch, don't stare at it unbelievably and shake it.

3—Nod frequently and murmur "How true!" To you, this seems exaggerated. To him, it's quite objective.

4—Sit in front, near him. (This applies only if you intend to stay awake).

5—Laugh at his jokes. You can tell. If he looks up from his notes and smiles unexpectedly, he has told a joke.

6—Ask for outside reading. You don't have to read it. Just ask.

7—If you must sleep, arrange to be called at the end of the hour. It creates an unfavorable impression if the rest of the class has left and you are left there alone.

8—Be sure the book you are reading during the lecture looks like a book from the course. If you do math in psychology class and psychology in math class, match the books for size and color.

9—Ask any questions you think he can answer. Avoid announcing that you have found the answer to the question he couldn't answer (and in your little brother's second reader at that).

10—Call attention to his writing. This produces an exquisitely pleasant experience connected with you. If you know he has written a book or article, ask in class if he wrote it.

You can't miss.

Tremors

By Sarno

Communications in the Institute were once the favorite bone for picking of a former editor of THE TECH. He said they were 'lousy.' To this day, in this electron emporium called the Institute, communications remain messy. Try calling a friend on an Institute phone. You are first asked whether you are calling from inside or outside the Institute and then you may be asked to hang up to talk to your party.

There is the electric eye conveniently controlling the doors at the main entrance for the public (and the students) but when it comes to something the public will probably never use, we find inefficiency and intricacy rather than convenience involved in the system. It is actually simpler and quicker to call that friend via the Kirkland exchange rather than via the Institute phone system. But that of course is what someone not connected with the Institute would be expected to use.

For the person who does call the Kirkland number does not have to know that the student has to go from one phone to another if he lives on East Campus; or that one late phone call may wake up several persons on a floor if the student lives in Burton House where all the phones are in the halls.

If the Institute is public relations conscious, perhaps it is forgetting that its greatest source for favorable publicity is the student. Let's have an up-to-date system which will keep the operator busy at most, not the student.

Committee Offers New Type Dance To Burton House

This Friday, March 20, an experimental Acquaintance Dance will be held by the Burton House Social Committee. The committee has selected 20 men at random from Burton House residents and has invited 20 Radcliffe girls to the affair, which will be held in the new Burton Lounge. Although \$25.00 will be spent on refreshments and decorations, the dance is free to those attending.

Since all the girls will know each other, it is expected that a more informal, friendly atmosphere will be generated than that which is common to most acquaintance dances. The equal number of males and females is supposed to eliminate an element which is considered by many to be a "rat race." If successful in its first endeavor, the committee may sponsor more such gatherings.

The debate has been heavy as to whether or not it is proper or advisable to use House funds for this type of recreation, with many arguments pro and con.

Military Ball

(Continued from Page 1)
are associate members of Scabbard and Blade. Applications and photo (minimum size: 3 by 4 inches) must be submitted by noon, Monday. Voting will take place on Wednesday, March 18. The winner will be crowned queen at the dance and runners-up will comprise the queen's court.

Hal Reeves Orchestra will furnish the music and the Pershing Rifles will provide the honor guard and some intermission entertainment. Dress is formal; either military uniform or a tuxedo.

Members of the Military and Air Science Departments will be in attendance as will a number of faculty members and other dignitaries.

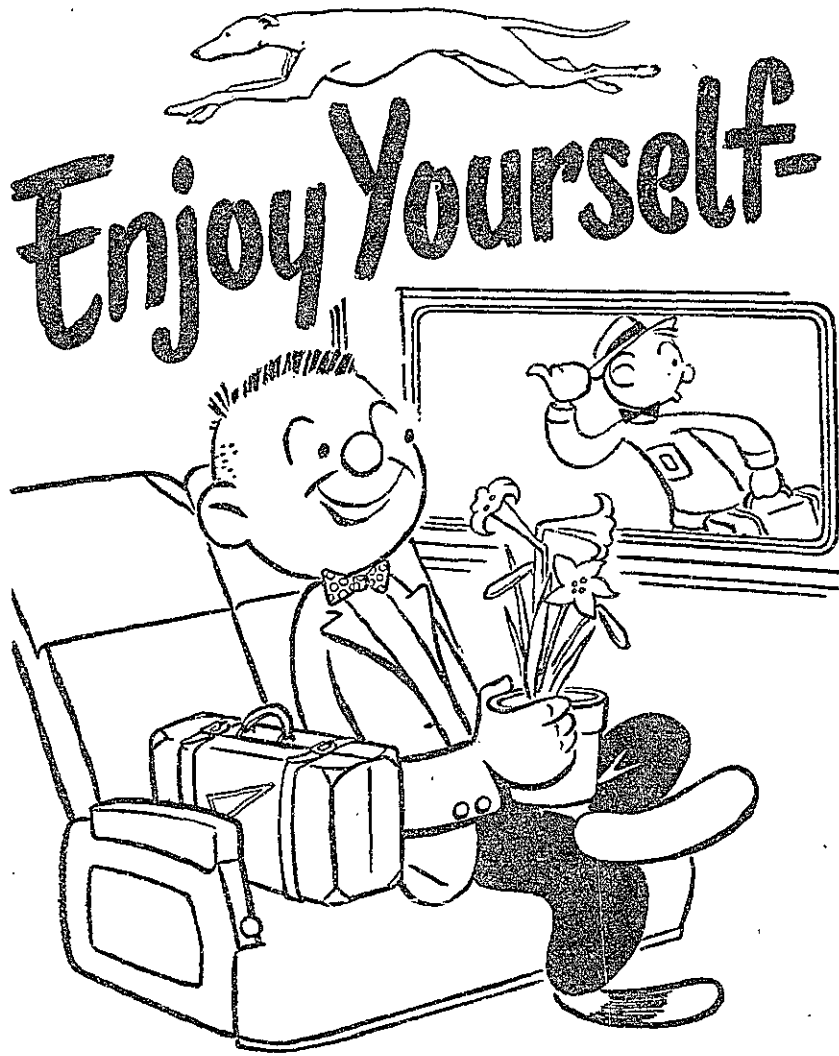

Tickets are being sold in Building 10. The price is \$3.00.

Dance Committee consists of: Edward F. Leonard, '53, chairman; Vinson W. Bronson '53, Arthur L. Kaplan '54, Richard I. Linde '53, Joseph P. Pennimpede '54, and Ralph Sievers '53.

Other newly elected officers of Scabbard and Blade include: Robert Murphy '55, first lieutenant; David Borenstein '54, second lieutenant, and George Filak '54, first sergeant.

Dorm Weekend

(Continued from Page 1)
To round out the festivities for the week end, a lacrosse game between M. I. T. and the University of Delaware will be held at Briggs Field on the afternoon of Saturday, April 11.

Seymour Captures Wrestling Laurels In New Englands

Despite the outstanding efforts of heavyweight Charles F. (Chuck) Seymour '53, the Beaver wrestlers could do no better than place sixth in the recent New England Intercollegiate Wrestling Championships, held at Williamstown, Massachusetts last weekend. Seymour pinned all rivals in taking Tech's only championship. Jack D. Graef '54 and John Kennaday '55 took thirds to account for the Engineers other points.

Seymour Outstanding

Seymour, undefeated in intercollegiate wrestling, easily outclassed his three rivals, pinning Al Sotir of Springfield, who had given him trouble the week before, in the third period. Chuck was the only champion to pin all opponents in the tourney.

In the 123 pound class, Techman Jack Graef surprised by winning the consolation round and placing third. Graef recovered from an early-round pin to whip his man decisively in the consolation battle.

Kennaday Scores

Jack Kennaday, after pinning his first opponent, ran into Springfield's Olympic alternate, Sam Coursen, wrestling 130 for the first time this year, and was himself pinned. Kennaday came back after this defeat to win the third place contest.

The Beaver wrestlers in the other classes were unable to contribute to the Engineer's score, and Tech could accumulate only 14 points. Springfield, the defending champion, took four championships and easily placed first with 37 points. Wesleyan was second with 21, followed by Amherst with 19, Williams with 18, Coast Guard with 16, and M.I.T., Tufts and Boston University trailed far behind.

Award To Chase

The award for the tournament's outstanding wrestler went to Wesleyan's 177 pound champ, Corky Chase, with the Beaver's Chuck Seymour a close second.

The wrestlers closed the season,

Phi Delt

(Continued from Page 1)

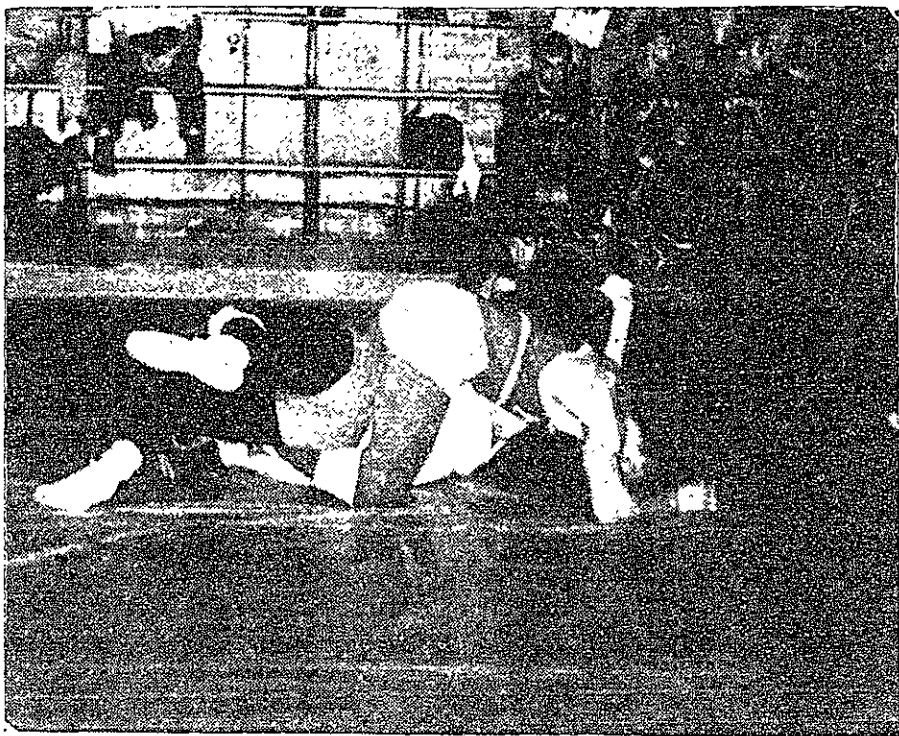

"white and full aryan blood." The chapter's insistence in retaining the Jewish pledge was upheld by a three-quarters vote of alumni and student members of the fraternity.

COURSE XX TOURS

The Department of Food Technology will hold an open house on Wednesday, March 25, at 4:30 p.m. Tours will start in Room 16-118. Refreshments will be served.

I. D. C. DANCE

The March I. D. C. Dance will be held this Saturday in Morss Hall from 8:00 to 12:00 midnight. The price will be \$1.00 per couple for dancing, refreshments and entertainment.

Seymour In Action

their first under Coach Sinclair Buckstaff, last year's varsity captain, with a record of three wins and four losses. Seymour compiled the outstanding record, winning all but two of his matches by pins. Richard Landy '53, was undefeated at 177, but injuries kept him out of action during the last month of the season. At 130, Jack Kennaday lost but once, other than his loss in the finals.

Freshmen

Taking three seconds, the frosh

grapplers placed fifth, behind champion Amherst. Walter Lawson, John Hirschi and Harold Becker, all '56 accounted for the Beaver points.

Lawson, at 147, pinned his first two rivals, before losing to Coster of Williams in the finals, 6-2. Hirschi's loss in the finals of the 157 class was his first loss in and otherwise brilliant season. Becker, down to 167, lost a furious 17-12 decision in the finals. All three of these men will be excellent varsity prospects next year.

Williams Triumphs In N. E. Swimming

Five records fell as the undefeated Williams powerhouse swept to victory in the New England Intercollegiate Swimming meet at Alumni Pool last Friday and Saturday. The Ephmen were paced to their eleventh championship in 17 years by star freestyler Dick Martin, who broke records in both 50 and 100 yards events.

Diver Manfred Tidor '54 placed fifth to account for half of Tech's four points. The varsity and frosh relay teams took sixth place for the other two points. The Engineer men placed tenth in team competition.

Springfield, with Bill Yorsyk scoring two firsts, including a record-shattering performance in the 440 freestyle, placed second to Williams. Bowdoin was third and Trinity fourth in the field of 14 teams.

In most events, the Beavers were completely outclassed by the swim-

Losh House Ch'man As Dorm Residents Pick New Officers

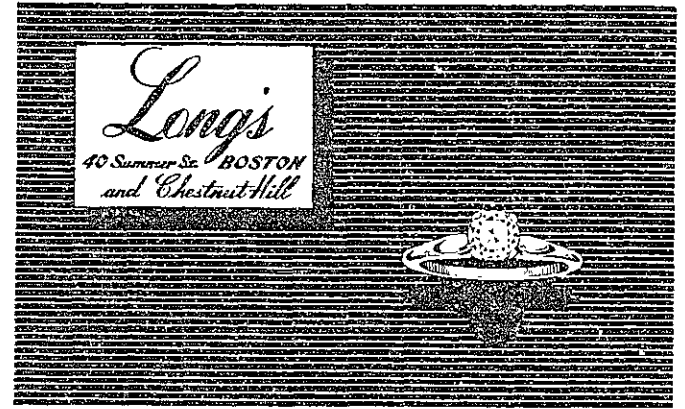

Samuel J. Losh '54 was elevated to the position of chairman of the East Campus House Committee on March 10. He was formerly House Treasurer. Sixty-five per cent of the East Campus residents voted. Losh has been acting-chairman since Harry Taylor '54 left the dormitories at the beginning of the term. His victory over Melvin Barkan '54 and Alfred Gough '54 was decided by a redistribution of votes under the preferential ballot system.

Losh formally took over the Committee at its meeting last Wednesday night, March 11.

Members from Williams, Springfield, Bowdoin, et al. Tidor was the only individual on the Engineers to qualify for the finals.

Nothing-no, nothing-beats better taste

and LUCKIES TASTE BETTER!

Cleaner, Fresher, Smoother!

Ask yourself this question: Why do I smoke?

You know, yourself, you smoke for enjoyment. And you get enjoyment only from the taste of a cigarette.

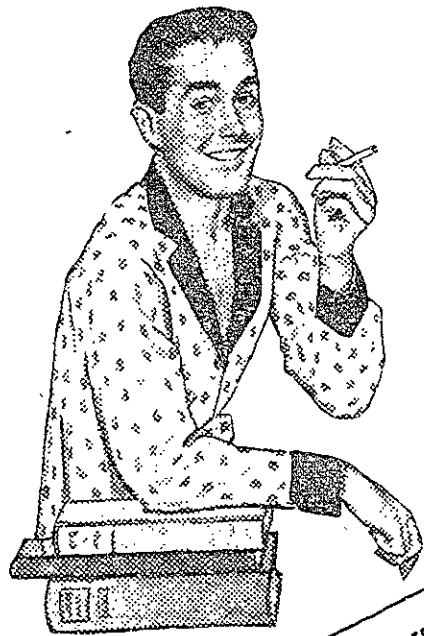

Luckies taste better—cleaner, fresher, smoother! Why? Luckies are made better to taste better. And, what's more, Luckies are made of fine tobacco. L.S./M.F.T.—Lucky Strike Means Fine Tobacco.

So, for the thing you want most in a cigarette... for better taste—for the cleaner, fresher, smoother taste of Lucky Strike...

Be Happy—GO LUCKY!

When cramming for a test it takes A pack or more for me; But still my mouth feels clean and fresh— They're Lucky Strikes you see!

Arthur A. Leff Amherst College

All round our ivy-covered halls You'll hear the students say, "For real deep-down enjoyment, Get Lucky Strike today!"

Al Cavalari Michigan State College

COLLEGE STUDENTS PREFER LUCKIES IN NATION-WIDE SURVEY!

Nation-wide survey based on actual student interviews in 80 leading colleges reveals more smokers prefer Luckies than any other cigarette by a wide margin. No. 1 reason—Luckies' better taste. Survey also shows Lucky Strike gained far more smokers in these colleges than the nation's two other principal brands combined.

From coast to coast in campus votes, We've found what students like— For cleaner, fresher, smoother taste, They go for Lucky Strike!

Want to travel and study abroad?

Take a university-sponsored tour via TWA this summer and earn full college credit while you travel

Visit the countries of your choice... study from 2 to 6 weeks at a foreign university. You can do both on one trip when you arrange a university-sponsored tour via TWA. Itineraries include countries in Europe, the Middle East, Asia and Africa. Special study tours available. Low all-inclusive prices with TWA's economical Sky Tourist service.

For information, write: John H. Furbay, Ph. D., Director, Air World Tours, Dept. CN, 80 East 42nd St., New York 17, N. Y. Be sure to mention countries you wish to visit.

Track Team

(Continued from Page 1)

After Bill Antoine quit the high jump at 5 feet 10 inches, Dave Freeman gave a startling exhibition as he cleared the bar at 6 feet three-quarter inches, missing Antoine's cage record by seven-eighths of an inch. The Eagles got on the bandwagon when Connelly threw the 35-pound weight 57 feet 1 and one-eighth inches to establish a new Boston College record. The freshmen, not to be outdone, set two new records. John Morefield continued his record breaking streak by shattering his week old shot put record of 51 feet 7 and one-quarter inches by heaving the 12-pounder 52 feet, 3 and one-half inches. John missed another record in the 35-pound weight throw when he let fly with a prodigious toss of 47 feet, nine and one-quarter inches. The only reason for not allowing the record was that records are not kept for this rare event on the freshmen level. Mozzicato contributed a new mark in the broad jump with a leap of 20 feet nine and three-quarter inches, which broke the old record of 20 feet, six inches.

"Nuclear Power" Discussed By SF

"Nuclear Power" was the topic of an address by Professor Thomas H. Pigford of the Chemical Engineering Department, when he spoke before the Science Fiction Society last week. Professor Pigford gave a relatively non-technical account of progress in this new field, and discussed the economic feasibility of various applications of nuclear power. It was his opinion that nuclear reactors will not be used for general power generation for some time, but will find their

Only time will tell about an idea! And only time will tell about a cigarette! Take your time...

Test CAMELS for 30 days for MILDNESS and FLAVOR

THERE MUST BE A REASON WHY Camel is America's most popular cigarette—leading all other brands by billions! Camels have the two things smokers want most—rich, full flavor and cool, cool mildness... pack after pack! Try Camels for 30 days and see how mild, how flavorful, how thoroughly enjoyable they are as your steady smoke!

R. J. Reynolds Tobacco Co., Winston-Salem, N. C.

More People Smoke CAMELS than any other cigarette
