VOL. LXXIII. NO. 43

CAMBRIDGE, MASSACHUSETTS, FRIDAY, NOVEMBER 20, 1953

5 CENTS

## Representation Equalized In E.C. House Comm Amendment; Add 4 More Hall Chairmen

At the East Campus House Committee meeting held last Wednesday in Crafts Lounge, the motion of Ray Fessel '54, to amend the HouseComm constitution was passed unanimously. The amendment provides for the election of five floor chairmen in each of the Bemis and Hayden units in place of the present three Hall chairmen from each. This change has been instituted to greatly equalize representation in the East Campus Houses.

The present system gives one representative to every seventy residents in the Bemis and Hayden units compared with ratios varying from 18-1 to 30-1 in other East Campus Houses. Another motion by Fessel, providing for elections in the affected houses within three weeks, was defeated.

The second principal feature of the meeting was, as several HouseComm representatives put it, "A duel in personalities" between Gerald S. Golden '54, House Committee Secretary, and Martin Lubell '54, East Campus Lounge Committee chairman. At the previous meeting a vote of no confidence in Lubell was passed together with a motion asking for his resignation. Crafts Lounge was filled with spectators who heard Lubell deliver a speech in his defense. In his address Lubell blasted Golden, calling him a "Would-be despot" and "Gerald L. K. Golden." Golden called Lubell a liar, and Lubell promptly challenged him to "Put that in the minutes!"

(Continued on page 2)

## Alpha Phi Omega Attempts To Find Tech's "Ugly Man"

Who is the ugliest man on the Tech campus? By means of a contest never before held at the Institute, Alpha Chi Chapter of Alpha Phi Omega, National Scouting Service Fraternity, will attempt to find this out in an election to be held during the week of December 7. Nominating ballots for candidates will be circulated by A.P.O. this week. The ballots will be sent to the various living groups and the chairmen of the departments and when completed, should be sent to Harris Weinstein '56, Box 3143, Burton House.

The purpose of this election is to find the one person among the students and faculty who will have the grave distinction of being named "Ugliest Man On Campus." Votes will be registered in this election by placing pennies in bottles which are assigned to the individual candidates and which will be located at the A.P.O. booth in Building 10.

The proceeds of the contest will be used to create a scholarship to send Cambridge boys to Scout camp who otherwise could not afford to go, and of course a suitable trophy will be awarded to the winner of the contest.

## Course Evaluation For EE Prepared By Eta Kappa Nu

Evaluations of some eighty subjects offered by the Electrical Engineering Department will appear in a pamphlet which is now being prepared by the pledges and members of Eta Kappa Nu, the electrical engineering honorary fraternity.

Because they believe that the description of subjects in the Institute catalog is not always particularly informative as a guide to the selection of electives, Eta Kappa Nu publishes an annually revised booklet on "Course Evaluation." The last revision is out of print; the edition in preparation will be available on request in room 4-202, the Electrical Engineering Department Headquarters about December 15. Copies will also be on file in the Vail library.

## Less Than 30% Of Students Vote; InsComm Passes Motion By 16-14 Changing Field Day Assessment

### Students Vote Against Referendum As Stated By Only 58% Majority

Elections for Senior Ring Chairman, Junior Prom Committee and Senior Week Committee were held last Tuesday, concurrently with the referendum on off-campus hazing. The result of the referendum was that the motion passed by Inscomm to prohibit off-campus hazing is allowed to stand.

More students voted "no" than "yes" on a referendum that was a verbatim reprint of the Inscomm motion. However, the referendum required a total vote of thirty percent of the undergraduate students to be effective, and this requirement was not met. Further, a two-thirds vote would then have been necessary to reverse the Inscomm vote.

Results of the election are listed below:

- |                                  |                                 |
|----------------------------------|---------------------------------|
| Senior Week                      | Class of '54                    |
| Anslow, Robert                   |                                 |
| Bresece, Coley                   |                                 |
| Davis, John W.                   |                                 |
| Wones, David                     |                                 |
| Wilson, Richard                  |                                 |
| McAllister, Decker               |                                 |
| Brosler, Bruce                   |                                 |
| Bastis, Thomas                   |                                 |
| Hearst, Joseph                   |                                 |
| Waye, Jerry                      |                                 |
| Brosler, Bastis, Hearst and Waye | were elected by write-in votes. |

## Institute May Agree To Assume Last Year's Senior Obligations

Institute Committee last Wednesday passed by a roll-call vote of 16-14 a motion by Gene Mathot '56, reapportioning the assessment for pre-Field-Day damages last year. According to an open letter by Mathot to the Committee, financial responsibility for the damage should be distributed among the undergraduates of last year; since the seniors of last year can no longer be reached, the Institute is asked to pay their part. A member of Institute Committee told *The Tech* that the Institute has indicated willingness to cooperate in such an arrangement.

## Council Approves Proposed All-Star Football Contest

In a meeting of the Intramural Council on Tuesday, November 17, approval was given to an extramural all-star game, as suggested by *The Tech* a few weeks ago. This proposed all-star game would match the Tech all-stars against a team from Harvard, Tufts, or some other nearby college.

As yet the members of the all-star team have not been named. However, the squad will consist of about twenty men who have been outstanding in touch football at Tech this fall. Most likely the team will be announced within the next week. The game has tentatively been set for the weekend of December 5-6.

It is hoped that the Intermural all-star team and game will become a tradition at Tech and that in the future teams will be chosen in basketball, softball and other sports in addition to touch football.

### New Refereeing System

In addition to this, the Intramural Council adopted a new system of supplying referees to intramural basketball and football contests. Henceforward the refereeing will be done by paid students who have been judged competent by the council. The funds for paying these officials will come from an admission fee to be charged the various teams.

## M. E. Fellowships Established By Barium Steel Corp.

Dr. Harold L. Hazen, Dean of the Graduate School, announced last night the establishment of the Barium Steel Corporation Fellowship in Mechanical Engineering at the Institute and the election of Richard T. Salter of Havertown, Pennsylvania, to be the first fellowship recipient.

This annual grant of a one year graduate fellowship is one of three established here at the Institute in Mechanical Engineering, at the University of Pennsylvania in Metallurgy, and at Case Institute of Technology in Electrical Engineering.

Dean Hazen, commenting on the award, expressed his satisfaction "in the very real and effective support which this fellowship provides to first-class men who wish to increase their professional effectiveness by graduate study."

Mr. Salter, the recipient of the first fellowship award under the new grant,

(Continued on page 2)

## Institute Players Present Mystery Early Next Month

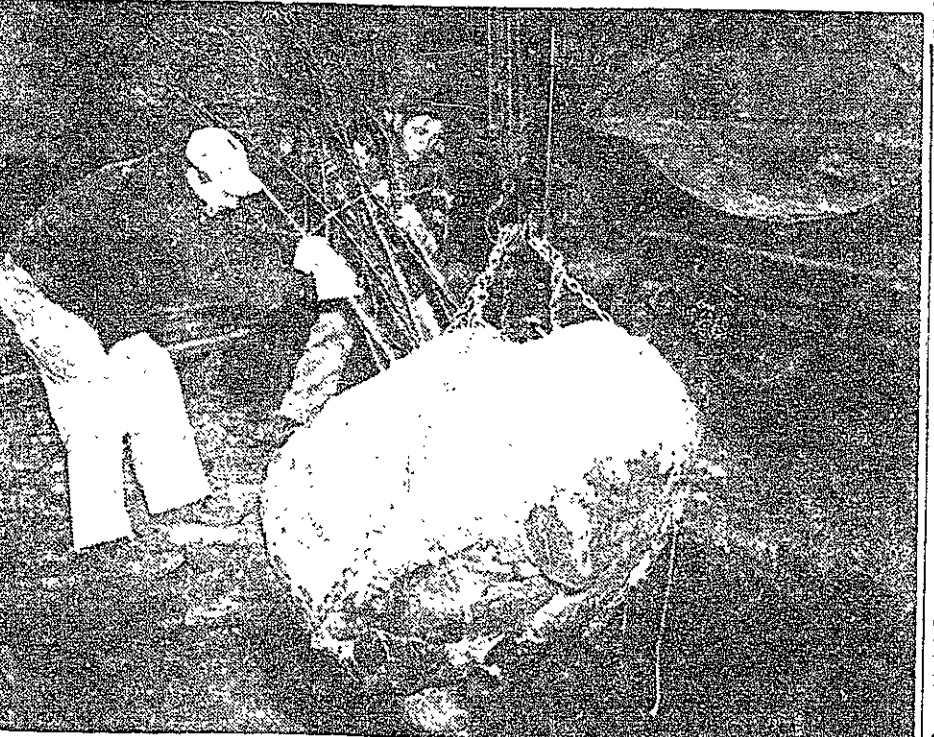

A. A. Milne's "The Dover Road," a mystery-comedy will be presented on December 3, 4, and 5 in room 10-250 by the M.I.T. Staff Players as their fall production. The play will be under the direction of Professor Jack Woodruff of the Department of Drama and Speech at Tufts College.

The story revolves around the whimsical Mr. Latimer and two eloping couples who, as unwilling guests, are forced to share his hospitality for a brief period. David Goldstein, Ph.D., candidate in Chemical Engineering, who has appeared in two previous plays for the Staff Players, will appear as Mr. Latimer, while his "aide-de-camp" will be played by Roger Ladd, M.I.T. alumnus.

Lee Karney, fifth year Architecture student, and Heni Wenkart, editorial assistant in the Office of Publications, will portray one of the couples, and the other couple will be played by Tina Sitton, Digital Computer Laboratory, and Lacey B. Smith, Department of Humanities.

Tickets for the three performances are on sale at the T.C.A. office and in Building 10, and will also be available at the door. The cost is ninety cents for undergraduates.

## Tree Planting Commences In Courts Around Library

New Trees Being Planted On East Campus

The program of landscaping the areas around Building 14, the Charles Hayden Memorial Library, is now well under way. This program is part of a long-term plan to beautify the Institute by increasing the areas of grass and trees, thus giving the campus a more natural appearance, making it look more like a college campus.

The work was begun several months ago, when Eastman Court, formed by the Library, Building Six, and the Biology Building, officially known as the Dornance Laboratory, was covered with wooden stakes, denoting the future locations of trees and bushes. The actual planting, however, was delayed, due to a lack of rain at the nurseries which supplied the plants.

In addition to the work on Eastman Court, planting is now in progress in the court between the Library and Walker Memorial. Work will also begin shortly in the court between the

(Continued on page 2)

The motion as passed provides "that the members of the classes of 1954, 1955, and 1956 be assessed for the pre-Field Day damage of last year as per the motion of October 28, 1953, except that it is requested that approximately one-quarter of the total cost be paid by the Institute to cover the proportionate share of the Class of 1953."

The following is the body of a memo distributed at Wednesday's meeting in support of the motion.

"Many students disagree with the theory of the assessment and others doubt its validity, but all, realizing that there is little that can be done in view of the facts, request that the Institute Committee at least be fair in the proposed manner of the distribution.

"Most believe that the Class of 1957, not being here at the time the damage was done, should be exempted; but neither they nor I can understand the reasoning that we use to assess the Classes of 1954, 1955, and 1956 for the share that should be, but obviously cannot be, collected from the Class of 1953.

"They see no reason why every student should pay 4/3 times his rightful amount, just so the Institute Committee can 'make a favorable impression' on the Administration.

"Their point is well taken.

"There is only one alternative by which the Institute Committee can correct its previous mistake and fulfill its obligation to the student body and that is to request that the Institute cover approximately 3/4 of the total cost—the proportionate share of the Class of 1953.

"There are those of you who will reply, as before, that the Institute Committee also has an obligation to the Institute: that we must show leadership in accepting the responsibility which is ours.

"I think that we have shown responsibility by the very act of passing the assessment, but we also, strangely enough, have a responsibility to the

(Continued on page 3)

## M.I.T. Hillel Will Hold Oneg Shabat Tonight At 8:00

"What My Heritage Means to Me" is the title of a panel discussion which will be featured at an Oneg Shabat tonight at 8:00 p.m. in the Library Lounge on the third floor of Hayden Library. Six students from Simmons College and the Institute will present their views.

The affair is sponsored by M.I.T. Hillel in cooperation with Simmons. It will begin with sabbath services and after the discussion will conclude with folk dancing, refreshments, and a social hour.

## Editorials

### OR GET OFF THE POT

When a junior senator from Wisconsin, two weeks ago, accused Harvard University of being "a smelly mess", where students were subject to Communist philosophy by members of the Communist Party currently on the faculty, we noted with more regret than surprise that students were apparently successful in avoiding serious controversy on the matter. Now a great awakening of political interest is evidently not forthcoming at the Institute; nor are we going to attempt to call for an all-out movement in that direction. But it appears to us that matters of this nature—of apparently unjustified attacks on a university—should be of grave concern to the student. Mr. McCarthy's charges, and his subsequent failure to support and substantiate them with concrete evidence are an indication of serious and reckless irresponsibility.

McCarthy has created for himself a reputation for indiscriminate charges and he has, in this case, cast serious aspersion upon a university of high intellectual caliber and academic integrity. In light of the gravity of the charge the *Harvard Crimson* has rightly requested Mr. McCarthy to "put up or shut up," or by his refusal to do so, admit that he has consciously slandered the university with his sweeping statements. And representatives of several student organizations and the Harvard Student Council met this week to prepare a reply to the Senator's charges.

An open mind has forced us to look upon undistinguishing cries of "McCarthyism" with just as jaundiced an eye as promiscuous accusations of "Communism." That McCarthy, however, is guilty of making broad, all inclusive charges without producing facts in their support is now apparent.

McCarthy has said that there are Communist professors at Harvard. Both Presidents Conant and Pusey and the Harvard Corporation have refuted these charges. If McCarthy is referring to Professor Wendell H. Furry (who recently refused testimony before a closed session of the Senate Permanent Investigations Sub-Committee) he has yet to disprove a sworn statement by Furry that he has not been a Communist for at least two years; and McCarthy is further belied by a Corporation statement that Furry "has at no time . . . tried to influence the political thinking of his students." If McCarthy is referring instead to other "Communist" teachers at Harvard it is incumbent upon him to name names; to put up the information to substantiate his allegations. If not, then it's time that he shut up—an experience which will be novel for the senator.

### AMELIORATION IN VIEW

The announcement, at Wednesday's Institute Committee meeting, that suggestions have been received and discussions planned for consideration of the question of "open" Judicial Committee meetings is certainly a hopeful indication that Judcomm and other parties involved may soon come up with a satisfactory solution. That the suggestion came from Judicial Committee itself is further indication that that body may well be on its way out of a period of lethargy, senility and self complacency. It is indeed gratifying to note that, although the question of the presentation of testimony at a public meeting is still to be resolved, Judicial Committee has, this year, been willing to make public its decisions once they are reached. This is much more than can be said of past policy. Nevertheless, Judcomm, though successful in discarding decadent precedent, ought to go further in the liberalization of its policies.

There is, at present, much reason to hope that they will.

## Captain Sullivan Given Farewell At Hotel Banquet

Last Thursday night, Captain William J. Sullivan was honored at a farewell banquet held in the Murlin Room of the Hotel Vendome.

Captain Sullivan, who has been with the Institute since 1951, will be leaving his position as Assistant Professor of Air Science to assume the responsibilities of a civil service position in New York.

The Captain was given a gift at the dinner which was attended by upwards of 40 persons including Colonel Glen Coleman who delivered the farewell address and several officers from the Air University, an agency determining all R.O.T.C. curricula.

The entire affair, including cocktails and a turkey dinner, was arranged by Jack Preschlack '54 and Thomas Cain '55 and was sponsored by the Arnold Air Society.

### Barium Steel Fellowships

(Continued from page 1)

came to the Institute in the fall of 1949 and in 1952 was elected to the Honors Course in Mechanical Engineering. A member of the student branch of the American Society of Mechanical Engineers, he has been elected to two honor societies in engineering, Tau Beta Pi and Pi Tau Sigma. He is an active member of the Tech Model Railroaders Club.

### Tree Planting Commences

(Continued from page 1)

Library and Building Two, facing on Memorial Drive. According to Mr. Carl M. F. Peterson, superintendent of Buildings and Power, most of the planting will be done this fall. However, the landscaping will not be completed until spring, since some species of shrubs to be used can not be transplanted in the fall.

Professor Herbert Beckwith, of the School of Architecture, is in charge of the Institute's landscaping program. Up to press time, Professor Beckwith was not available to supply details on the exact number and varieties of shrubs to be planted.

## Fraternities, Clubs To Again Sponsor Children's Parties

Ice cream, cake and Christmas presents at a Christmas party are joys most children look for eagerly come the month of December. In past years many groups of students on the Institute campus have helped perpetuate the fable of Santa by arranging parties for children from community houses throughout the Boston area.

The Technology Christian Association has been instrumental in obtaining children ranging in age from five to twelve years for many of these groups in the past. Their present aim is to extend that service to more living groups and activities, in particular the dormitories. The East Campus House Committee recently decided to plan such an affair this year.

Among the fraternities sponsoring Christmas parties last year were: Phi Kappa, Phi Gamma Delta, Lambda Chi Alpha, Beta Theta Pi, Phi Mu Delta, Phi Sigma Kappa, Delta Psi, Phi Delta Theta, Sigma Alpha Epsilon, Delta Upsilon, Phi Delta Epsilon, Delta Epsilon, Phi Kappa Sigma, Delta Tau Delta, Chi Phi, Phi Beta Epsilon and Sigma Phi Epsilon.

Also sponsoring parties were Student House, Catholic Club and Alpha Phi Omega, the Scout Service Fraternity.

## Frosh Hoopsters Begin Practice, To Open Dec. 8

Freshman basketball coach Leroy "Roy" Rogers has selected a twenty-four man squad for the oncoming season. Although in his first year at Tech, Mr. Rogers still has a strong tie to Engineer basketball, having been a varsity mentor Whitelaw's high school coach.

Coach Rogers was unwilling to speculate on the future of his freshman squad. He did, however, point out that the team is lacking in two vital qualities, experience and height. Only three members of the squad played varsity basketball in high school, and the tallest men on the squad stand but six-one.

### Frosh Attack Outlined

Mr. Rogers plans to employ an attack similar to that used by the Tech varsity, a single pivot with two men outside and two corner men. He cited the difficulty of molding the green frosh squad into his offense and teaching them the fast break which is an integral part of it before the opener December 8 against Trinity.

Asked to pick an outstanding player, coach Rogers named Charles Arledge, six-foot guard from Texas, as one of the better prospects. The remainder of the squad consists of: Olaf Kirsten, Al Richman, Pete Horst, Stan Clark, Bill Brandon, Pete Ammann, Kirby Gowan, Briggs, Bonner, Dickenson, Fey, Givan, Muraski, Pogaron, Rosenstein, Duff, Stater, Flanagan, Zachs, Chesly, Baird, McIver, McLaughlin and Smith.

## Institute Committee

(Continued from page 1)

student body, a responsibility to express their will and enact legislation which, if nothing else, is agreeable in some small way with their interests.

"Some of you will say that the difference in the per-capita fee will be only 10 or 15 cents; 'Why worry about it. If they'll pay 45 cents, they'll pay 60.' The students, however, will reply that maybe we ought to base some of our decisions on principle rather than on expediency; expediency seeming to be the primary motive in the minds of many Institute Committee members.

"The principle involved here is that someone may unrightfully pay someone else's portion of the damage, just because that someone else had the opportunity of graduating before the situation could be resolved.

"I'm sure the Institute understands the question which we must answer and realizes our obligation to the student body and I do not hesitate to think that they will respect our decision even more, if it shows not only the acceptance of responsibility, but also, and more honorable, some regard for the interests of those whom we represent."

The memo was signed by Gene Mathot.

## East Campus HouseComm

(Continued from page 1)

In the opinion of many present, the meeting soon deteriorated into a mud-slinging contest. Golden's proposal to impeach Lubell was never brought to a vote, and the meeting was closed without a solution to the Lubell case.

## Basketball Squad Warming Up For Heavy Schedule

Six days a week in the Walker Memorial Gym, Coach Scotty Whitelaw puts his Basketball squad through brisk and concentrated drills in preparation for the fourteen-game schedule coming up this season.

Physical fitness, alertness and team cooperation are the basis for the optimism which pervades this year's entire team. Of the sixteen players on the squad, fourteen played basketball at the Institute previously. Six sophomores have moved up from last year's Freshman team, while eight veterans returned to make up the core of the team. Three seniors departed, all of them guards: Russ Kidder, last year's captain; Dave Marciano and Paul Van Alstyne. Otherwise, this year's squad retained eight lettermen.

### Schedule Lightened

Although, with the elimination of such opposition as Brandeis and CCNY, the previously very heavy schedule reduced itself to fairer rivalries, the seasons nine home and five away competitions certainly promise some potentially excellent games. The contests between the Beavers and Trinity, AIC, BU and Northeastern each should show some good basketball technique.

Coach Scotty Whitelaw recently released a schedule of pre-season scrimmages:

B.C. Stonehill	Thurs., Nov. 19	home
	Tues., Nov. 24	home

## After Hours

(Continued from page 2)

red in this dramatic version of the Civil War Epic. Boston Opera House until November 21.

## Beavers Fifteenth In IC-4A Meet At Van Cortlandt

The IC4A Cross-Country Championships were held last Monday, Nov. 16, in New York City at Van Cortlandt Park. Tech placed fifteenth in a field of 22 in the varsity race, led by Captain Jack Farquhar who finished 42 in a field of 162. The first five colleges in scoring were Michigan State, Pittsburgh, Penn State, Syracuse, and Cornell.

From the very start, John Kelley of B.U. took the lead in the five mile race. At the end of the fourth mile on Cemetery Hill, he pulled ahead of John Joe Barry and Ray Osterhout, who were breathing down his neck, to cross the finish line with a forty yard lead in 24:51.7 minutes. Barry and Osterhout ultimately finished second and fourth, separated by Bob Holien of Penn State, and followed by Lamont Smith of Penn State in fifth place.

This meet brings a relatively successful season to a close, a season which saw the varsity team win all its dual meets and place third in the New England Champs, and saw the freshmen lose every dual meet and place ninth in the Champs. The harriers are already working out on the track in preparation for the coming indoor track season, which will be with us in December.

## AFTER GRADUATION...

# What kind of a job do YOU want?

If you still haven't made up your mind, here's how to get practical information that may help you decide

All over America there are thousands of young men and women in college who are genuinely uncertain about this question of a business career.

Perhaps you are one of them. Perhaps you've talked with your placement bureau about prospects in transportation, in engineering, or in one of the new, fast-growing industries like electronics or plastics.

Only you still find it hard to make up your mind when you've had no personal experience in considering the kind of facts and figures that might decide your whole business future.

As advertising representatives for over 700 college newspapers, we've long been aware of this campus problem. And, since we deal with some of America's biggest companies, we also know that there is a good deal of authentic business data available that would be very helpful to college students considering a career.

So if you'd like to be better informed about a particular field, fill in the coupon and turn it over to the business manager of this paper. He'll send it to us.

Let us make it plain that we're not establishing either an employment agency or an information bureau. But we will do our best to see that your inquiry is referred to the proper source.

In some cases you may hear directly from companies in the field you designate. In others you may receive an industry-wide report. It is entirely possible that in some fields no information will be readily available.

But we do know that American business is keenly aware of its responsibility to American youth and constantly on the alert for promising prospects. So send in your coupon today. You have nothing to lose—and a great deal to gain.

# Dr. Carmichael States That Man Must Be Well-Rounded

"Let us have the courage to act as though we believe the golden age is ahead and not behind," said Dr. Carmichael, Secretary of the Smithsonian Institute and former president of Tufts College, in the seventh Arthur Dehon Little Memorial Lecture.

The lectureship was established at the Institute in 1944 with funds donated by Arthur D. Little, Inc., in memory of its founder, with the purpose of promoting interest in the social implications of scientific development.

### Pessimism Seems Dominant

Speaking on "Psychology, the Machine, and Society," Dr. Carmichael pointed out that society is being slighted for the machine and systematized methods. He felt there must be in all schools an attitude toward the well rounded society such as the Institute's humanities program.

Dr. Carmichael suggests more emphasis on the psychology of man so that man's goal in life may be better realized.

The following is a recapitulation Dr. Carmichael gave in the conclusion of his address.

"As we think of psychology, the machine, and society, a few basic conclusions emerge. Science in a most general sense has given great sections of modern men a high standard of living and an opportunity to provide themselves a life of health and comfort undreamed of in any ancient utopia. Further progress of this kind

may be confidently expected if social and international disorder does not prevent it. Modern psychology, although still far from being able to provide final answers to all relevant questions, does show that man's understanding of his inborn and acquire make-up is important for technology and an understanding of society.

"In spite of these demonstrated advances, pessimism about society is a dominant attitude of many thoughtful people in our day. Recent social upheavals aggravate this gloomy stand. Is it not conceivable, however, that in their faith in the possibility of social progress, Victorian intellectual leaders were nearer the truth than are some of our modern writers?"

### Golden Age is Still Ahead

"Man's mammalian characteristics are millions of years old, but man as a free intelligence is built to live in the future. The pilots of the atomic-powered airplanes of the year 2000 will have essentially the same conservative brain and muscles that our fathers possessed. Nevertheless, our growing knowledge of psychology, the machine, and society seems ready to help us make such future pilots and others of their generation ethically and socially wiser and more satisfied with life than we are. If we are to approach this better state it seems clear that we must be prepared to spend more money and thought than in the past on improving the quality

## W MIT Schedule Of Classical Music

SUNDAY, NOVEMBER 22  
4-6 MUSIC OF THE 20th CENTURY  
The Red Poppy ..... Gliere  
Piano Concerto ..... Khatchaturian  
Scheherazade ..... Rimsky-Korsakoff  
6-8 MUSIC ROOM  
Te Deum Laudamus ..... Bruckner

of the instruction we offer to all the youth of our race. If we hope to have a finer and more achieving society, education fitted to the aptitudes of each individual is a most promising tool. As we plan for the future place of education in our social order, let us have the courage to act as though we believe that the golden age is ahead and not behind!

# CHOICE OF YOUNG AMERICA FOR THE FIFTH STRAIGHT YEAR —

## CHESTERFIELD BEST FOR YOU

## CHESTERFIELD

IS THE LARGEST SELLING CIGARETTE IN AMERICA'S COLLEGES...

by a 1953 survey audit of actual sales in more than 800 college co-ops and campus stores from coast to coast. Yes, for the fifth straight year Chesterfield is the college favorite.

CHESTERFIELD IS THE ONLY CIGARETTE EVER TO GIVE YOU PROOF OF LOW NICOTINE, HIGHEST QUALITY

The country's six leading brands were analyzed—chemically—and Chesterfield was found low in nicotine—highest in quality.

This scene reproduced from Chesterfield's famous "center spread" line-up pages in college football programs from coast to coast.
