OFFICIAL NEWSPAPER OF THE UNDERGRADUATES OF MASSACHUSETTS INSTITUTE OF TECHNOLOGY

VOL. LXXIII. NO. 49.

CAMBRIDGE, MASSACHUSETTS, TUESDAY, DECEMBER 15, 1953

5 CENTS

Preliminary Planning Begun, Floor Space Need Estimated, By Student Union Committee

"In the seven years, since I have been at the Institute more than a dozen new buildings have been built." Dr. Dana L. Farnsworth pointed out to the student union committee at a recent meeting. Dr. Farnsworth went on to say that this proves that the Institute, far from standing still, is rapidly expanding, and that the building expansion of recent years clearly indicates that the realization of a student union building may not be as far in the future as is sometimes thought.

The student union committee after being set up early this fall by Institute Committee set about to determine just where the student union project ranked on the Institute's priority list, and what function the sub-committee might best fulfill. After three preliminary meetings, a four hour dinner meeting was held with Dean of the School of Architecture Pietro Belluschi, chairman of the long range planning committee; Mr. Robert Kimbal, director of Business Administration; and Dr. Dana L. Farnsworth, head of the Medical Department. One of the most important things to come out of this meeting was the knowledge that the Physical Sciences building ranks first on the Institutes Expansion list (the plans for it are presently being drawn). After it are grouped several major projects including a new gymnasium, a permanent building 20, a new Graduate house, a skating rink, and improved dining and dormitory facilities, and the student union. The order in which these will be built will be determined by the availability of funds, and the need.

Must Demonstrate Need

According to the committee, where it may be an easy thing to demonstrate the need for more dormitory space or increased gym facilities, it is much more difficult to show that the need for a student union building is equally pressing. The student union committee feels that one of its main functions will be to talk to student groups to determine if there is widespread interest in the student union project, and if a real need for the facilities of a student union building is felt by the average student.

Space Allocations

It was also pointed out at the joint dinner meeting that before any positive action could be taken on the student union project a carefully planned list of space requirements for the

(Continued on page 4)

Stufac Committee Gauges Opinions Of "Cum" System

Professor Patrick Hurley, Chairman of the Undergraduate Policy Committee, asked the Student-Faculty Committee at its meeting last Thursday to investigate student opinion concerning the entire undergraduate grading system.

The committee is trying to ascertain whether or not too much emphasis is being placed on the cumulative grade as a standard in judging students — whether they are applying for a job, seeking a scholarship or running for an office in Institute student government. It is felt that overloads and extracurricular activities may possibly not be given due consideration and that their influence on the cum is not always apparent with the present system of grading. Whether a student is improving or slipping also is not shown by the cumulative rating.

The Student-Faculty Committee has made plans to have each of its fifteen members personally interview fifty students. Members of the committee will also go to several living groups to obtain group reactions to questions

(Continued on page 4)

NOTICE

Conflict examinations or examinations not listed on the January 1954 Examination Schedule must be reported by 5 p.m., Wednesday, January 6.

Kulgein, Bryden, Logan, Sarno And Schell Promoted Last Night To Head Seventy-fourth Volume

Norman G. Kulgein '55 will be head of a new Managing Board of *The Tech* as its seventy-fourth general manager, it was announced last night. The other members of the board will be Philip Bryden '56, editor; Rodney W. Logan '55 and Frank J. Sarno '55, co-managing editors; and Allan C. Schell '55, business manager. These men will take over management of the paper at the beginning of the spring term.

Concurrent with the announcement of the new Managing Board, the Junior Board is replaced by a new group. Among the new Junior Board members are Stephen N. Cohen '56, news editor; Edward H. Kaplan '56, features editor; Frank Berryman '56, make-up editor; David Appling '57 and John Friedman '57, co-sports editors; Martin Brilliant '54 and Robert H. Rosenbaum '57, co-copy editors; Philip Gallagher '57, photography editor; and Bjorn Rossing '56, assistant features editor. The business staff of the Junior Board will include Donald Koffman '56, treasurer; Robert Kohler '55, advertising manager; Ernest Wasserman '57, circulation manager; and William Kohlbrenner '57, office manager.

Smith House Dinner

These appointees, along with a number of new permanent staff members who are listed below, were announced at *The Tech's* annual dinner last night at the Smith House. The announcement was made by Edwin G. Eigel '54, retiring general manager. In addition to the staff of *The Tech*, the dinner was attended by various members of the faculty and administration, and by the general managers of *Technique*, *Tech Engineering News* and *Voo Doo*.

Elevated to the rank of permanent staff members were Robert Berg, Benson Chertok, John Kretzer, Robert Kline, Peter Richards, Philip Schaffer, Alvin Drake, Daniel Schneider, John Christian, Harry Gildea, and Alan McKittrick, all of the class of 1957; David Kleinman, Joseph Bromberg, Paul Abrahams, Anthony Turrissi, and Morton Cohan, all of the class of 1956. Raymond Szerda '54 and Edward Kaplan '56 were commended for their unusually fine work during the past year in the circulation and copy departments, respectively.

"Take Advantage Of Fellowships": Students Urged

Attention of the undergraduate students as well as graduates has recently been called to an exceptionally large number of student fellowships and scholarships which are available in a number of fields. The Office of the Graduate School has compiled a large list of these offers which, it suggests, should be taken under consideration especially by this year's seniors, who may be entirely unaware of their numerous opportunities, both financially and scholastically.

Over 75 different fellowships, in engineering, the sciences, and liberal arts, are on record, and available for individual inspection at the Graduate School office. It has been stressed that the closing dates for application are almost all near the beginning of the year. All students have been strongly urged to take advantage of these fellowships.

Further information can be obtained from Professor Ernest Huntress, Room 7-101, or Professor Harold L. Hazen, dean of the Graduate School, Room 3-108.

W.M.I.T. Plans Review Of News Events Of 1953

"This Happened This Year" will be the subject of a special program to be presented on WMIT tomorrow night, at 7:30 p.m. The half-hour broadcast will replace "This Happened Today," WMIT's daily news and discussion program. In contrast to the usual style of "This Happened Today," the special program will have a humorous format, and will attempt to satirize certain phases of life at the Institute.

The program will poke fun at such topics as the handling of Junior Prom ticket sales, the Institute's tree-planting policy, and certain drinking investigations. Also included will be a song about the missing mobile from Building Seven, and a verbal exchange between the President of the Class of '57 and the President of the Quadrangle Club, an organization of the Class of '56. There will also be a Spike Jones-type treatment of the Ugly Man Contest which took place recently.

The program will be presented by the M.I.T. News Department, and the announcers will be Eldon Reiley '55, Oliver Johns '56, and Lee McGuire '56. According to one staff member, the program represents 54 man-hours of preparation.

deSantillana And Edgerton To Give Talks For L.S.C.

Two members of the Faculty have been scheduled by the Lecture Series Committee to deliver talks this week. On Tuesday, December 15, at 5:00 p.m., Professor George de Santillana of the Humanities Department will lecture on "The Future of Africa" in the Library Lounge. His discussion will be based on the trip he made last summer to Africa.

Professor Harold Edgerton, M.I.T. Stroboscopic light expert, will lecture on Wednesday, December 16, at 5:00 p.m. in Room 10-250. He will talk about his trip last summer to the Mediterranean with Jacques Cousteau, noted deep sea expert whose lecture at the Institute last year drew a crowd of 700 persons.

Fifty-Five Children Attend Christmas Party At Burton

Last Sunday afternoon between 2:00 and 5:00 p.m. Alpha Phi Omega and the Burton House Christmas Cheer Committee co-sponsored a Christmas party for 55 underprivileged children in the Burton House Lounge. Financed by voluntary contributions of Burton House residents, the party is an annual event of Alpha Phi Omega, joined this year for the first time by the Burton Committee.

Children Treated

The 55 children (ages three to ten) were first given candy, ice cream, fruit punch and sandwiches. They then played a traditional Mexican Christmas game which involves striking a clay jar, a pinata, to obtain the presents concealed inside. The highpoint of the day came when Santa Claus entered and distributed a Christmas present to each child.

Concert Band Will Give Performance Tonight In 10-250

A concert of original band music will be presented on Tuesday, Dec. 15, by the M.I.T. Concert Band under the direction of John Corley.

The program will include works by Wagner, Mendelssohn, Holst, Persichetti, Piston and Milhaud, all composed originally for concert band.

The concert, open to the public without charge, will begin at 7:30 p.m. in Huntington Hall, Room 10-250.

Beaver Grapplers Whip Tufts; 16-13, In Close Struggle

Trailing by an 8-1 score in the last period of the 177-pound match, Hal Becker '56, reversed his man and then proceeded to pin him, to give the Beaver varsity wrestlers a 16-13 victory over Tufts, last Saturday afternoon, in the Rockwell Cage. The victory evened the season's record at one win and one loss, and was the first win for new coach Roger Leathers.

Kennaday, Hirschi Get Pins

In the opening match, David Nasitir '55, fell victim to an early pin by a more experienced opponent, but the Engineers began to move. At 130, Dick Dangel '55, outclassed his opponent throughout the match and coasted to an easy decision. Captain Jack Kennaday '55 and John Hirschi '56, both pinned their men to give the Engineers an 11-4 lead. These two men, both undefeated, looked exceptionally good in hanging up triumphs.

At 157, Walt Lawson '56 was outclassed for the first few minutes, but prevented his opponent from scoring against him. In the final period, Lawson had the advantage and held it throughout the period, thereby giving

(Continued on page 4)

Warshawer Wins Ugly Man Contest In Closing Seconds

With what amounted to an eleventh hour action, Bob Warshawer '54 was pushed ahead to first place in Alpha Phi Omega's Ugly Man contest in the closing minutes of the voting last Friday, December 11.

Early Friday morning, eight dollars worth of pennies were dumped in Warshawer's bottle, bringing him from a distant to a close second, and making him a dangerous competitor for first place candidate Major F. B. Moon. From then on the race was nip and tuck, reaching almost a dead heat in the hour before 5:30 p.m., the contest's closing time.

Suddenly, at 5:29½, the crowd which had been gathering in front of the A.P.O. booth since 5:00 p.m. surged forward and began stuffing money into both candidates' bottles. However, the crowd's sentiment was with Warshawer and a five dollar bill found its way into his bottle during the crush.

This saturnalian voting put Warshawer way ahead in first place with 5058 votes. Major Moon came in a distant second with 4306 votes, while Klaus Kubierschky '56 ran third with 986 votes. The UMOG trophy will be presented to Warshawer by A.P.O. in the lobby of Building 10 at high noon on Wednesday, January 6, 1954.

About \$125 was collected which will be used to send ten Cambridge scouts to scout camp next summer.

Tech Downed By A. I. C.; Schultz New Hoop Captain

Despite a determined second half bid by the Tech basketball men, a well balanced American International College contingent easily vanquished the Cardinal and Grey for their first victory in five attempts, 63-48, last Saturday at Springfield.

Beavers Lack Rebounding

Not one Tech man was able to hit double figures in the game. Giff Weber '55, tallied 9 points, three field goals and three foul shots, to lead the scoring. Defensively, AIC definitely outshone their opponents, retrieving many more rebounds, not so much due to an advantage in height as to superiority in speed and position. In the latter department, especially, the Beavers seemed very weak.

The first period ended 13-8, AIC ahead. The Engineers displayed a shooting average much lower than par, sinking but three out of 19 attempts from the floor. The second stanza saw a slight percentage improvement, offset, by a strong defensive surge by AIC that left them ahead 37-17 at the half.

For a while it seemed as though the Beavers might gain lost ground as they edged within 10 points of AIC midway through the third period. The hope faded again and at the three quarter mark the score stood at 52-35. One bright note in the game — the second Team handled themselves far better than in any previous contest to date. The game ended in a 63-48 AIC win.

Schultz Elected Captain

Before the game Al Schultz '54 was elected captain for the season. Schultz is a veteran of three Tech teams, as a forward.

The next game will be played this evening against New Hampshire, at Durham, N. H. It will be the final game for the team until January.

Squashmen Rout Wesleyan 8-1; Harvard Next

The Tech squash team crushed an over-rated Wesleyan nine, at Middletown, Connecticut, as they looked forward to their match with Harvard this Wednesday. Only Paul Goldin '54 failed to contribute a win as the racket wielders ground out an easy 8-1 victory.

Beavers Register Six Shutouts

Except for two matches, all the Tech wins were via the whitewash route. Co-captains Paul Rudzinski '54 and Hossein Nasr '54, Hugh Harriman '54, John Melavas '54, Walt Stahl '56, and Raphael Morales '55, all played excellent squash in registering 3-0 shutouts. Bob Warshawer '54 easily defeated his opponent 3-1, while Dick Lane '54 reeled off nine straight points in the fifth game to take a 3-2 decision.

This year's team, composed mostly of seniors, is the best Tech has seen in a long, long time. The squashmen have an extremely powerful first five, and a group of five experienced players occupying the 6-10 slots.

Play Harvard Tomorrow

Undoubtedly playing the toughest schedule of any team in the Institute, with such powerhouses as Harvard, Army, Yale, Dartmouth, and Prince-

BEAVER SCOREBOARD

- Basketball: American Internat'nal 63, M.I.T. 48 Exeter 70, M.I.T. Frosh 45
- Swimming: Wesleyan 50, M.I.T. 34 M.I.T. Frosh 50, Dean 25
- Wrestling: M.I.T. 16, Tufts 13 Tufts Frosh 16, M.I.T. Frosh 14
- Squash: M.I.T. 8, Wesleyan 1
- Hockey: Tufts 9, M.I.T. 7

ton on the agenda, the Summersmen can move a notch closer to the intercollegiate crown by whipping Harvard at the Harvard courts. This will be no easy task as Harvard, last year's intercollegiate champs, boasts a well-balanced team from top to bottom. Nevertheless, Coach Summers is conceding his boys a good chance to pull the upset of the year in squash circles.

The results of the Wesleyan Match:

MIT 8 — WESLEYAN 1
Rudzinski (MIT) defeated Hopkins (W) 15-13, 15-10, 13-11. Bowers (W) defeated Goldin (MIT) 18-14, 18-16, 15-12. Harriman (MIT) defeated Falcon (W) 15-7, 15-9, 15-9. Nasr (MIT) defeated Chittenden (W) 15-13, 15-9, 15-13. Melavas (MIT) defeated Marshall (W) 15-3, 15-13, 15-11. Morales (MIT) defeated Umpleby (W) 15-11, 15-8, 15-8. Stahl (MIT) defeated Loos (W) 15-11, 15-8, 15-12. Lane (MIT) defeated Phelps (W) 15-10, 15-16, 15-10, 13-15, 15-12. Warshawer (MIT) defeated Jackson (W) 15-12, 12-15, 15-14, 15-9.

Jumbo Pucksters Nip Tech Six, 9-7 Wells, Kiley Star

A third period rally by the Tech hockey team was halted by the clock, as Tufts edged the Beavers 9-7, in a hockey game at Lynn Sports Arena, last Saturday.

The score at the end of the first period was 3-2 in favor of the Jumbos. Harry Wells '55, Tech's scoring ace, slapped in both goals assisted by Joe Sullivan '56. Tech was outscored 4 to 1 in the second period with Jack Duffin '54 scoring the Beaver goal

assisted by Jim Bartsch '55. Behind by a score of 7-3, the Martinmen began to roll. Wells pulled the hat trick by scoring his third goal of the game whereupon the second line of Fred Culick '56, Gus Schwartz '55 and Joe Sullivan '56, put on a terrific exhibition of teamwork. Thrice they skated the length of the ice for scores. Schwartz scored twice with assists from Sullivan and Culick, and Culick tallied with both Sullivan and Schwartz assisting. However, Tufts managed to score twice in this last frame to give them their margin of victory.

Tech Captain Jack Kiley '54 and Harry Wells '55 both played good games. Kiley was outstanding on de-

SELLING THE CAREER THAT OFFERS TODAY'S GREATEST BUSINESS OPPORTUNITIES

If you are undecided what to do after college, ask your placement bureau about the many advantages that a selling career offers. Nowhere else can a young graduate earn so much money, earn it so quickly and without specialized college training.

Business leaders throughout America agree that the dearth of good salesmen has never been so acute. That is why management is willing to offer sound training, good pay, and exceptional financial incentive to men who can make the grade as a salesman. Frequently no experience is necessary for beginners; no special aptitudes required other than a genuine enthusiasm for selling.

In large companies and small, excellent sales openings exist for college graduates in virtually every type of American business. If you would like to know more about these companies and the opportunities they offer, fill out this coupon and turn it in as directed. The business office of this paper will forward it to us. Inquiries welcome from men of all classes.

As advertising representatives of more than 700 college newspapers, we are in frequent contact with leading companies throughout the nation seeking prospective salesmen from college ranks. We will do our best to see that your inquiry reaches the proper source so that interested companies can contact you directly. No replies guaranteed but filling in this one coupon may lead to a number of fine job offers.

Institute professors who were brought in for the occasion.

Had the violin section been fuller and stronger, it is probable that a better performance would have resulted. Professor Laurens Troost, who did a fine job in carrying, and perhaps being, the second violin section must be given a great deal of credit.

It is gratifying, however, to be able to add that there were many passages in which the orchestra probably surprised itself. In practically all of the sections where large orchestral volume was called for, they responded admirably, losing their shyness and "digging in" to produce the full richness desired.

The soloists, Phyllis Curtin, soprano; Eunice Alberts, alto; Donald Sullivan, tenor; James Clancy, tenor; and Paul Matthen, bass; turned in excellent performances, well worthy of the fine support they received from the choral groups. The passages for solo quartet stood out as being the best moments of the concert.

It was well worth the evening to hear the soloists and vocal groups, as an enthusiastic audience readily demonstrated.

Student Faculty Comm

similar to the ones asked of individuals.

The Student Faculty Committee then plans to submit a report to Professor Hurley the first week after the Christmas recess. Revision or replacement of the present grading system will not be considered until an impartial student opinion is obtained.

All students who remain at the Institute during the holidays are cordially invited to a Christmas party at the President's house from 3:30 to 5:30 p.m., December 23.

In extending this invitation, may we also wish every member of the student body a happy holiday, a Merry Christmas, and a New Year of peace and good will.

President and Mrs. J. R. Killian, Jr.

building should be drawn up. Work on this task was immediately begun by the committee. The presidents of all student activities who indicated they desired space in the new building were personally contacted. Their space requests were sorted, and a list of recommendations for activity space allocations was made up. This will be available to anyone interested after the first of the year. In addition, recommendations for commercial space allocation are being drawn up. Finally the committee will attempt to formulate some recommendations on social space requirements, (i.e., lounge space, dancing area, libraries, snack bars, restaurants, game rooms, etc.)

Here it is again felt that these questions can be answered only by the students themselves. During the month of January representatives

The Record I'm most proud of —

Chesterfield is the largest-selling cigarette in America's colleges for the FIFTH straight Year

Again, in 1953, they've made a survey audit of actual sales in more than 800 co-ops and campus stores from coast to coast. And again, Chesterfield tops 'em all.

Only Chesterfield gives you proof of highest quality — low nicotine. Proof that comes from actual "tobacco tests" in which all six leading brands were chemically analyzed.
