

Campus Laundry Approved; To Be Finished In 2 Weeks

Three years of work by the East Campus Dormitory Committee was climaxed yesterday when a contract was signed between the Institute and the Maytag Corporation for the installation of four washing machines on campus for student use.

Conversion of the "Rubbing Room" of the Barbour Field House (next to the Alumni pool) will begin next week, and the new laundry is expected to be completed within two weeks after construction begins. The construction work, to be paid for by the Institute, will entail the erection of a partition separating the laundry space and the adjacent outside entrance from the rest of the Field House, and will cost approximately \$400. The Maytag-Gray Corporation will install four washers and four driers in the new laundry.

Twenty-Five Cent Charge

A fee of 25 cents will be charged for washing with an additional charge of 25 cents to be levied for use of the drier. The user will have to furnish his own soap.

An important feature of the new laundry is that it will be restricted to students only. No Institute employees or others will be permitted to use the new installation.

Only 24 keys, six for each housing group, will be made for the new laundry. A signout system will be put into effect for all users of the installation. The keys will be distributed to East Campus, Graduate House, Baker

Secretariat Assigns More Office Space

After the past year's investigation of activities, offices and storage space, the Secretariat has suggested several new room assignments.

The investigation was brought about as the result of many requests for extra space on the part of school activities. The schedule of suggested room changes was arrived at after conferences with the administration and the activities involved. The new room assignments are:

New Room Assignments Listed

National Students Association: from 50-010 to 50-307. This change was made because the N.S.A. needed the office space provided by 50-307 more than the Public Relations Committee which previously occupied that room.

Public Relations Committee was moved from 50-307 to 50-009, which was previously occupied by THE TECH for Managing Board meetings.

Tau Beta Pi Moves

Tau Beta Pi and the Debating Society will move from 50-320 to 50-302. This move was made to relieve the crowded conditions in 50-320, which up till now has been used by four activities. Room 50-302 was previously used by the Musical Club for music storage only.

Walker Student Staff will move into 50-010. The Staff previously had no room in which to place its lockers. The room vacated by N.S.A. will be used for this purpose.

Christian Science Organization, which until this time had no office space, is being moved into 50-320, to share the room with its present occupants, the Catholic Club and Hillel.

The Interfraternity Conference was assigned office and file space in the Secretariat, 50-110.

Many Rooms Used For Storage

Many of the rooms which have been newly assigned to the various activities were formerly used by the administration for the storage of chairs and other furniture. The Secretariat, under its chairman, Paul Shepherd held several conferences with the administration and a number of the activities involved in an effort to gain the use of some of these rooms.

House, and Burton House.

T.C.A. To Regulate Use

Regulations, hours, and methods of signing up for use of the laundry will be prepared by the T.C.A. with the approval of the Institute Division of Business Administration. The T.C.A. will be responsible for the administration and enforcement of these rules when they are adopted.

It was not possible to place the washing machines and driers on East Campus because of drainage problems.

Huskies Win Finale Over Beaver Five

A dismal season for the Tech basketball team came to a close last Saturday evening in Walker Memorial as the Beaver quintet dropped a 73-54 decision to Northeastern for their sixteenth loss in seventeen games. Playing excellent basketball in the first half, the Engineers trailed by 34-32 at the gun, but failed to keep up the pace in the second half. Rebounding and shooting as well as they have at any time during the year, the Tech five kept pace with the Huskies all during the first half. The high scoring of Cahill, Northeastern's center, was offset by the excellent play of Captain Russell Kidder '53, Paul C. Van Alstyne '53, Carl F. Hess '55, and Gifford A. Weber '55.

In the third period, however, the Beavers fell behind Northeastern by nine points as the Huskies got off to a fast start after the intermission. (Continued on Page 3)

Bradford, Institute Music Clubs Give Performance Here

Fifty-five girls from Bradford Jr. College made up the visiting choral group as Technology's Musical Clubs played host last Saturday and presented a free concert to the Institute faculty and student body. Bradford's white suits and green neckerchiefs contrasted sharply with the tuxedos of the Glee Club. Resonance throughout Morss Hall was particularly favorable and both groups sang with good shading and excellent timing. Professor Liepmann had selected songs of varying tempo and shading, suppressing any suggestion of monotony. However the Bradford Glee Club seemed to betray a lack of variety in its treatment of numbers.

About halfway through the program the M.I.T. Logarithms assembled in front of the Bradford girls and for 15 minutes stole the show with their "Cocaine Jim" and other barber shop arrangements.

After the concert both groups enjoyed an evening of dancing and refreshments.

I.F.C. Elects Ward; Mudgett Secretary For Coming Year

Albert A. Ward '54 of Sigma Chi and John S. Mudgett '54 of Phi Delta Theta were elected chairman and secretary respectively to the Interfraternity Council in a meeting held at the Smith House on Memorial Drive on February 26. The officers were elected by the I. F. C., whose membership consists of two delegates from each fraternity at the Institute.

At its next meeting, to be held on March 12, the Council will nominate and elect two members-at-large as well as the Rushing Committee and Pre-Rush Week Committee.

Cabinet Elects Otis President Of T.C.A.; Bowis Is New V.P.

Emmanuel J. Otis '54 has been elected president of the Technology Christian Association. In this capacity he will now represent the T. C. A. on Incomm. He was formerly vice president of T. C. A., in charge of freshmen in the Boys' Work Committee, and associate editor of the T. C. A. handbook, "The Social Beaver." Since the graduation of Wallace E. Reid '53 in February, Otis has been acting president. Remarkd Wallace M. Ross, general secretary of the T. C. A., "Otis is the first president of the T. C. A. in the 30 years I've been here who has worn a mustache."

Also elected by the T. C. A. Cabinet at the same meeting, which was held Thursday night, February 26, was Frederick A. Bowis '54, vice president. Bowis was editor of the handbook, and headed the T. C. A. Fund Drive. Michael J. Wislowski '55 is the new secretary, and has previous experience on the Boys' Work Committee. Wislowski was instrumental in arranging Christmas parties at the fraternities for underprivileged children. Daniel H. Keck Jr., '54, treasurer, was director of Advisory Board Solicitations. Incidentally, Daniel H. Keck Sr., '25 was a president of the T. C. A. Thomas N. Chase '54 becomes director of Boys' Work.

These men will be installed by Chairman of the Advisory Board Percy R. Zeigler '00 at a dinner to be (Continued on page 4)

"Grand Illusion" will be the Lecture Series Committee film presentation this week. The Jean Renoir film starring Eric Von Stroheim will be shown in Room 1-190 on Thursday, March 5 at 5:00, 7:30 and 9:30 p.m. Admission is \$3.00.

Trackmen Hit Northeastern In Year's First Board Meet

By Russell Chihoski '54

A crowd of Tech and Northeastern rooters braved the icy winds to watch the Beaver trackmen defeat the Huskies by a score of 53 1-3 to 46 2-3 in their first dual board meet of the year last Saturday afternoon. Early races were close, but Tech took an early lead and held it all the way.

The freshman meet was neck and neck all the way, each race a closely fought contest. The excitement carried right up to the end as the meet came to a close with the final score Tech Frosh 49, Northeastern Frosh 49.

In a dual meet, the first three places count in the scoring and count 5, 3 and 1 points respectively. It is thus possible to minimize the loss of a first place by taking both second and third places. However, it is the first places that are most coveted.

Hurdlers started the meet off under a clear sky and with a brisk tail wind. Both Warren H. Lattof '55 and Russell A. Chihoski '54 showed excellent form in the preliminaries, and Lattof took the final in 5.9 seconds and Chihoski placed third, with Northeastern's Dressley in second.

Henry J. Olivier '55 and John F. Becker '53 led their dash heats. In the final Olivier came in first and Becker edged the Huskies' lead man for second.

After five laps of the eleven lap mile course, John Farquhar 3rd '54 and Hugh Nutley '54 were close on the heels of Ollen, last year's New England champion. At this point Ollen began to pick up speed, but Farquhar caught and passed him. In the race to the wire, Ollen and Farquhar came in neck and neck, but a last burst of speed gave the win to Ollen, with Farquhar second and Nut-

Ex Ambassador Douglas Plans Address For Commencement

Lewis W. Douglas, former U. S. Ambassador to Great Britain, will deliver the principal commencement address at the Institute this June, it was announced early this week.

Mr. Douglas, a graduate of Amherst and a member of the class of 1917 at the Institute, has had a varied career as legislator, public administrator, ambassador, and business executive.

Queen Coronation Military Ball Event

One of the outstanding events at the Military Ball to be held on Friday night, March 20, will be the coronation of the Queen of the Ball. Music will be provided by Hal Reeves and his Orchestra.

The Queen will be chosen by vote of the entire student body. Dates of advanced ROTC men are eligible. Entries may be made by submitting a photograph to any Scabbard and Blade member or by bringing a photo to the ticket booth, which will open in Building 10 on Monday, March 9. The photograph must be at least 3" x 4" and not more than 8" x 10". The contest closes at 12:00 noon on Monday, March 16.

Pictures To Be On Display

Pictures of the five finalists will be on display in Building 10, March 17 and 18, and the voting will take place on Wednesday, March 18. The winner will be Queen of the Ball and the runners-up will make up the Queen's Court. Finalists will be selected from the entries by a committee consisting of Colonel Baish of the Military Science Department, Colonel Coleman of the Air Science Department, and Professor Millard of the Chemistry Department.

Tickets will be \$3.00, obtainable from any Scabbard and Blade member or at the ticket booth. Dress will be uniform or tux.

He has been a member of the Arizona House of Representatives and the U. S. Congress. Mr. Douglas is a former Vice President and member of the Board of the American Cynamid Company and past-President of the Mutual Life Insurance Company of New York where he has been Chairman of the Board since 1947.

Commencement Day this year will be Friday, June 12. No further plans concerning the program for the day have as yet been announced. Last year the commencement exercises were preceded by Senior Week which included a cruise, an outing, and "stag" and mixed banquets.

Baccalaureate service was conducted by Dean E. Francis Bowditch on the last day of Senior Week. On the following day the graduating seniors officially received their degrees from Dr. James R. Killian, Jr., President of the Institute, who gave the traditional address of Godspeed to the class.

N. Eastern Chapters Of Phi Delta Theta Will Discuss Clause

Delegates of Phi Theta chapters in the New England area will hold an informal meeting in Boston on March 14 for an "informative discussion" looking toward possible elimination of the clause in the constitution that brought about the temporary suspension of the Williams chapter for pledging a Jewish student. The Massachusetts Gamma chapter of Phi Delta Theta at M.I.T. will be host at the meeting.

Plans for the meeting were an outgrowth of an informal gathering of members of the fraternity from several eastern colleges which was held at Williams one week after the Williams' dismissal. About six chapters from Rhode Island and Massachusetts were represented. Arrangements were made at this time to have a larger meeting of all chapters in the Alpha Province. This includes about 12 chapters in New England. The idea for this first meeting came from Rhode Island Alpha, the Brown University chapter. It was their intention "to get together with the New England chapters in order to get to know one another and discuss the issue (of the clause)."

Hoped To Organize Chapters

It was hoped to be able to organize the chapters to act as a strong group to oppose the clause and work for its repeal at the next national convention in 1954. "Southern chapters and some members of the General Council (national organization) who are trying to keep the clause in, are running the whole show," a Brown spokesman claimed. In a statement to THE TECH, the Brown member said that his chapter is "behind the Williams group 100 per cent, in their action."

Rhode Island Alpha is disturbed, he said, because the Williams chapter was placed out of national. He felt that the national chapter made a mistake and is "probably losing the strongest chapter in the province."

Expresses Opposition

James L. Gleason '53, the president of Massachusetts Gamma, expressed opposition to the clause and hopes that it will be removed at the 1954 convention. He felt, however, that the national fraternity was justified in suspending the Williams group. The clause in dispute limits membership to "men of white and full aryan blood."

(Continued on page 4)

Tyndall To Lecture On Labor Problems

The Honorable Arthur Tyndall, Judge of the Court of Arbitration of New Zealand, has been appointed as Visiting Lecturer in the Department of Economics and Social Science at the Institute.

Justice Tyndall arrives in the United States on February 27 for a six weeks' visit under the sponsorship of the Institute. During his stay he will give a series of lectures based on his distinguished background of experience as Senior Justice of the Court of Arbitration of New Zealand, a post which he has held since 1940.

MARCH 3 TO MARCH 10, 1953

TUESDAY, MARCH 3

Committee on Machine Methods of Computation. Seminar: "Two Digital Computers—ACE and SWAC." Dr. W. D. Worthy, St. Johns College, Cambridge University, Cambridge, England. Room 4-231, 4:00 p.m.

Christian Science Organization. Subject: "Man is Harmonious." Tyler Lounge, Walker Memorial, 5:15 p.m.

WEDNESDAY, MARCH 4

Electrical Engineering Department. Colloquium: "Industrial Computer Control at a Supervisory Level." Professor R. J. Cypser. Room 6-120, 4:30 p.m. Refreshments in Room 6-321 at 4:00 p.m.

Catholic Club. Meeting: President's Report. Room 2-190, 5:00 p.m.

Inter-Varsity Christian Fellowship. Lecture: "Christian Love." Mr. Calvin Malefyt, Park Street Church. Room 7-103, 5:00 p.m.

Varsity Hockey Team. Game with Tufts College. Boston Arena, 7:00 p.m.

Chemistry Department. Harvard-M.I.T. Physical Chemistry Colloquium: "Introduction to Thermodynamics of Irreversible Processes." Professor I. Prigogine, Universite Libre de Bruxelles. Room 6-120, 8:00 p.m.

THURSDAY, MARCH 5

School of Architecture and Planning. Lecture: "Housing Finance and Housing Policy." Professor Charles Abrams, New School for Social Research. Room 3-311, 4:00 p.m.

Physics Department. Colloquium: "Deuteron Stripping Reactions." Professor F. L. Friedman. Room 6-120, 4:15 p.m.

Freshman Guidance Talks. Course IX: General Science; General Engineering. Room 2-390, 5:00 p.m.

Freshman Guidance Talks. Course XV: Business and Engineering Administration. Room 2-390, 5:00 p.m.

Lecture Series Committee. Film: "Grand Illusion." Room 1-190, 5:00, 7:30, 9:30 p.m. 30 cents.

English and History Department. Lecture: "Science and the Civilized Man—The Habit of Truth." Dr. Jacob Bronowski, Carnegie Visiting Professor. Room 10-250, 8:00 p.m.

FRIDAY, MARCH 6

Mechanical Engineering Department. Seminar: "Lanczos' Matrix Iteration Method for Solution of Vibration Problems." Dr. G. Horvay, General Electric Company. Room 3-270, 4:00 p.m. Coffee in Room 3-174 from 3:30-4:00 p.m.

SATURDAY, MARCH 7

Freshman and Varsity Track Teams. Meet with Boston College. Rockwell Cage, 2:00 p.m.

Freshman Wrestling Team. Match with Springfield College. Rockwell Cage, 2:00 p.m.

Varsity Pistol Team. Match with U. S. Coast Guard Academy. M.I.T. Rifle Range, 2:00 p.m.

Varsity Swimming Team. Meet with U. S. Coast Guard Academy. M.I.T. Alumni Pool, 2:00 p.m.

Varsity Wrestling Team. Match with Springfield College. Rockwell Cage, 3:30 p.m.

MONDAY, MARCH 9

School of Architecture and Planning. Lecture with slides: "Modular Coordination." William Demarest, Jr., American Institute of Architects. Room 7-437, 4:00 p.m.

Freshman Guidance Talks. Course IV: Architecture; City and Regional Planning. Room 2-390, 5:00 p.m.

Freshman Guidance Talks. Course XVII: Building Engineering and Construction. Room 2-390, 5:00 p.m.

TUESDAY, MARCH 10

Meteorology Department. Open House for Freshmen. Building 24, 5th and 6th Floors, 3:30-5:30 p.m. Refreshments at 4:15 p.m.

Committee on Machine Methods of Computation. Seminar: "The Monte Carlo Method for Non-Stochastic Problems." Dr. John H. Curtiss, Harvard University. Room 4-231, 4:00 p.m.

Metallurgy Department. Robert S. Williams Lecture: "Precipitation Phenomena in Super-saturated Alloys." Dr. Andre J. Guinier, National Conservatory of Paris. Room 6-120, 4:00 p.m.

Christian Science Organization. Subject: "Christian Science Healing." Tyler Lounge, Walker Memorial, 5:15 p.m.

EXHIBITIONS

An exhibit entitled "Greece: VI-V-IV Centuries" will be on display in the New Gallery of the Charles Hayden Memorial Library from 9:00 a.m. to 5:00 p.m., Mondays through Fridays, through March 23.

"Eliel Saarinen Memorial Exhibition" will be shown in the Lobby of Building 7, through March 27.

A technical exhibit of photographic salon prints by the Photographic Society of America may be seen in the Photo Service Gallery, Basement of Building 11, from March 9 to March 23.

CALENDAR OF EVENTS

The Calendar of Events appears in The Tech on Tuesday with announcements for the following week. Notices, typewritten and signed, must be in the office of the editor, Room 7-204, not later than noon on Thursday, prior to the date of publication. Material for the Calendar of March 11-17 is due March 5.

through the mail

WANTS SILENCE

To the Editor of THE TECH:

I want to start this letter with a small qualification. I rarely write letters to complain about anything. I prefer to go right to the cause of the trouble and see if anything is going to be done to correct the particular matter that bothers me. However, there are times when this type of approach is ineffective and the printed word is the appropriate method to use.

The entire grievance is this: The Institute and Buildings and Power seem to abandon all concern for the student welfare when M. I. T. has to do certain things.

I live at East Campus on the side of the Hayden unit that faces the parking lot. One day last week between 6:00 a. m. and 7:00 a. m. an hour when almost everybody was asleep, the B & P boys rolled out their bulldozer and began knocking over trees. Once the trees were felled, the merry men of B & P began to chop and saw away at their woody victims. The entire drama was being performed with maximum noise, directly beneath my window. I do not like to get up at 6:00 a. m. or 7:00 a. m. when the first class is at 9:00 a. m. or 10:00 a. m. Many of the fellows living here go to sleep after midnight and they do not expect to awaken at sunrise. Almost all of the busy B & P beavers returned home shortly after 9:00 a. m.

After a recent snowstorm there were many complaints about the operation of the snow plow. The plow, a 10 wheeler with four wheel drive, was raced in reverse around the parking lot. The engine was roaring but the truck was not really going any place. We were told that future snowstorms would be less noisy. As a matter of fact, the next storm was considerably quieter. I don't know whether or not

Several Fraternities Change Hell Week Plans In Initiation

By Martin B. Brilliant '54

For some time the trend in fraternity initiations has been toward shorter "hell week" periods, toward more constructive activity during these periods, toward less of the traditional, sometimes infantile and degrading stunts. Many fraternities have included work in the house, such as necessary repair work, as part of the initiation program.

A few have eliminated hazing completely from their initiation programs and some have, since last year, instituted a program of constructive activity outside the house to initiate their members.

Leader in this program has been Alpha Tau Omega, which last year began a program completely different from the usual hell week procedure. Their "Help Week," as they call it, is an organized three-day program of work, such as cleaning and painting, at a hospital. Both pledges and actives take part in this work which replaces hazing. Their initiation procedure this year will follow the same pattern as last year. According to Paul Vasques, this year's pledge-master, the program is expected to

the lack of noise was due to our complaints, but the quiet snow removal was appreciated.

I had hoped that Buildings and Power was going to extend a quietness to all of their dawn operations. The early bird performance last week smashed all hopes that they had become aware that there are real people called students, living in the buildings that are occupying part of their precious parking lot.

What is the matter with B & P? What happened to the Institute claims of a policy designed to make

(Continued on page 4)

"intergrate the house and provide more fraternal feeling," and to lead to less differentiation between the new initiates and the old members.

Other Methods Used

Theta Delta Chi started last year on a somewhat different program, of community work. Without eliminating the house work and the hazing, they have included in hell week eight hours in which the pledges are to go outside the house and do some helpful and constructive work of their own choosing, calling on to the house every hour to report on their activities. Some went to Sancta Maria Hospital; some to Massachusetts General Hospital; some shoveled walks and other odd jobs; and one man sold papers on the street for a bedraggled-looking newsboy. This is a constructive twist on the practice of hazing.

Other fraternities have started programs of varied nature along the same line this year. Phi Gamma Delta has eliminated hazing, and though their "hell week" included no work done outside the house, their pledges spent three hours each in the house addressing envelopes for T. C. A., a job in which some of the actives pitched in. Chi Phi included in their pledges' work program the project of painting the kitchen of the South End Settlement House, in addition to work on the fraternity house. Sigma Phi Epsilon had a work week one day of which the pledges spent at the Boston Dispensary where they cleaned the food clinic and painted chairs and tables in the childrens' waiting room.

The fraternities instituting these changes are all satisfied with the results and plan to continue or extend their programs of outside work next year. Many other fraternities, are expected to follow this progressive trend next year.

When Grover talks to his dreamboat—something clicks

A call from Dreamboat always clicks with Grover. And an Automatic Message Accounting machine has been clicking too—down in the telephone office—busily punching impressions on a paper tape.

You may be interested in what this ingenious recorder does. It keeps track of what telephone number you called, how long you talked, and records this information in such a way that another machine can automatically prepare a monthly bill.

The development of this new automatic accounting machine is the result of team-

work by Bell Telephone Laboratories, Western Electric and the telephone companies. Telephone people working on this and other interesting and important projects were in college just a short time ago. Perhaps you'd like to join them.

Your Placement Officer can give you details about employment opportunities in the Bell System. Or write to American Telephone & Telegraph Company, College Relations Section, 195 Broadway, New York 7, N. Y., for a copy of the booklet, "Looking Ahead."

Bell Telephone System

Seymour, Kennaday Pin Rivals But Matmen Bow To Coast Guard

With undefeated Richard A. Landy '53 sidelined by an ankle injury, and two men wrestling their first varsity matches, the Beaver matmen dropped a 19-13 decision to the Coast Guard Academy at New London. Both John T. Kennaday '55 and Charles F. Seymour '53 scored first period pins for the Engineers.

The Techmen started fast as Jack D. Graef '54 whipped Kozlowski in the first match by score of 7-4. Kennaday's pin in one minute and thirty seconds gave the Beavers an early 8-0 lead, but they were unable to hold it.

Coast Guard Captain Amy Faucher pinned Tech Richard Crowell '53 in six seconds for the first victory for the Cadets.

In the 147-pound class, Lawrence Berman '55 lost a close 12-11 decision to Reif in a match that was marked by eight reversals in the nine minutes. Richard B. McCammon '55, wrestling his first varsity match, fell victim to his inexperience and was pinned in the first period.

Captain Robert W. Ebeling, Jr., '53 lost a 6-2 decision in the 167 pound class, and Frank Koch 2nd, '54 was defeated 9-0. It was the first varsity match for Koch, who was subbing for the injured Dick Landy.

In the unlimited class, Chuch Seymour turned in his usual sterling performance as he pinned his man in 1:10 of the first period. This was his fifth pin and sixth consecutive victory for Seymour this year.

TRACK

(Continued from page 1)

Olivier of Tech became the only two-time winner of the day with a 33.2 effort in the 300.

Northeastern scored firsts in the pole vault, weight throw, and broad jump, but William L. Antoine '55 took the high jump with a good jump of 6 feet, 13-16 inches.

Prior to the varsity match, the freshman team was defeated by the Coast Guard yearlings, 21-13. Harold Becker and Walter Lawson scored pins, and Peter Morgan won a decision to account for the Beaver scoring.

The defeat for the varsity brings the season's record to 3 wins and three losses. The wins have come against Boston U., Williams, and Tufts, the losses to Amherst and Wesleyan, besides Coast Guard. There are still three wrestlers with outstanding records for the Beavers. Seymour and Landy, who are undefeated, and once-beaten Jack Kennaday.

6 feet, 13-16 inches.

With one victory under their belts, the trackmen are now ready to take on the University of New Hampshire next Saturday.

Summary of the varsity meet follows.

varsity Results: M. I. T. 53 1-3, N. E. 45 2-3
High hurdles:
1—Lattin, (MIT)
2—Dreselly, (NE)
3—Luboski, (MIT)
Winning time: 5.9.
50-yard dash:
1—Olivier, (MIT)
2—Becker, (MIT)
3—Loyes, (NE)
Winning time: 5.5.
One mile run:
1—Olien, (NE)
2—Farquhar, (MIT)
3—Nudley, (MIT)
Winning time: 4:26.5
600-yard run:
1—Grenier, (MIT)
2—Connell, (NE)
3—Rownd, (MIT)
Winning time: 1:17.1
Two mile run:
1—Johnson, (NE)
2—Shea, (NE)
3—King, (MIT)
Winning time: 10:24.9
1000-yard run:
1—Schreiber, (MIT)
2—O'Donnell, (MIT)
3—Kalmes, (NE)
Winning time: 2:20.1
300-yard run:

1—Olivier, (MIT)
2—Dreselly, (NE)
3—Grenier, (MIT)
Winning time: 33.2.
Pole vault:
1—King, (NE)
2—McGrew, (MIT); Shapiro, (tie), (MIT)
Winning height: 11 feet.
35-pound weight:
1—Bellin, (NE)
2—Siler, (NE)
3—Schwenzl, (MIT)
Winning distance: 43 feet 3 inches.
High jump:
1—Antoine, (MIT)
2—Cook, (NE); Mackay, (NE); Freeman, (MIT) (tie)
Winning height: 6 feet 13 1/2 inches.
Broad jump:
1—Dreselly, (NE)
2—Shapiro, (MIT)
3—Cline, (NE)
Winning distance: 19 feet 5 inches.
Tech Fresh 49, N. E. Fresh 49
High hurdles:
1—Pendleton, (NE)
2—Blodgett, (MIT)
3—Baum, (NE)
Winning time: 6.4.

NOTICE

The Tech Model Aircrafters Club will elect new officers at its meeting tomorrow, Wednesday, March 4, to be held at 5:00 p.m. in the Dupont Room.

Are you Engaged?

Then prepare for your honeymoon now. Most resorts will be full if you wait. Thousands of collegians from all over the United States have happy memories of a little cottage all their own, terrific meals and friendly folk met here. Mention dates, and we'll send our helpful Three Honeymoon Plans.

BASKETBALL

(Continued from page 1)

The Northeastern subs outclassed the Tech reserves in the final period to give N. U. its final nineteen point margin.

The Beavers shooting was far off the target in the second half and the standard of play generally much poorer. Despite the wide margin, the Beavers were never really outclassed until the final period, despite their mediocre play after intermission.

Top scorer for Tech, and the only Beaver to hit double figures, was forward Gif Weber with 11 points. Northeastern's Cahill was the game's top scorer with a total of 23 points. By missing the two last period foul shots, Cahill failed in his bid to break the Northeastern season scoring record.

Summary of the game follows:
Northeastern (73)

	FG	FLS	TP
Costello, rf.	2	4	8
Eastman	1	1	3
Wetzler, lf.	0	0	0
Dalrymple	4	3	11
Cahill, c.	8	7	23
Holland	0	0	0
Wakeford, rg.	1	0	2
Tierney	1	1	3
Clancy	1	0	2
Burkhardt, lg.	4	6	14
Ayres	3	1	7
Totals	25	23	73

M.I.T. (54)

	FG	FLS	TP

HERE IT IS!

PHILIP MORRIS
KING-SIZE

...the only leading King-Size cigarette made an exclusively different way to avoid the main cause of irritation!

NOW! PHILIP MORRIS is available in the new KING-SIZE for longer smoking enjoyment.

Remember, you'll feel better when you change to PHILIP MORRIS. In case after case, coughs due to smoking disappear... parched throat clears up... that stale, "smoked-out" feeling vanishes!

So take your choice, but make your choice PHILIP MORRIS—America's Most Enjoyable Cigarette!

KING-SIZE or REGULAR
you cannot buy
any other cigarette
of equal quality!

KING-SIZE or REGULAR

YOU'LL FEEL BETTER
smoking PHILIP MORRIS

CALL FOR PHILIP MORRIS

"... and this device protects you from patrons when you forget the Angostura* in their Mannhattans!"

ANGOSTURA
AROMATIC BITTERS
MAKES BETTER DRINKS

*Angostura sharpens your taste and adds zest to Mannhattans. And the piquancy it adds to apple pies and baked hams is beyond belief!

LETTERS

(Continued from Page 2) student life attractive? All we want is our rightful measure of sleep.

Name withheld on request.

February 19, 1953.

ELECTION COVERAGE

To the Editor of THE TECH:

On behalf of the Secretariat I would like to thank and compliment the Editors of THE TECH on the splendid coverage given to the class elections and statements of the presidential candidates in the last issue.

Paul Shepherd '53.

Chairman of the Secretariat.

March 1, 1953.

The story was written by Arthur Haines '54, Managing Editor of THE TECH.—Ed

THANKS CLASS

To the Editor of THE TECH:

I would like to express my sincerest thanks to my friends and to all those people who have made this year a memorable one for me.

John Seiler '55.

President Class of 1955.

March 1, 1953.

All letters to the Editor must contain the author's name which will be withheld upon request.

T.C.A. ELECTIONS

(Continued from Page 1) held around March 15. The outgoing five officers and the incoming five men will select together the other officers, directors and division managers.

PHI DELTA MEETING

(Continued from Page 1) Meanwhile, it is reported that the Williams chapter has received about 300 pledges of support or letters of praise for its stand, including one from a Justice of the United States Supreme Court.

Y.

McDONNELL AIRCRAFT CORPORATION Graduate Plan For MASTER OF SCIENCE And DOCTOR OF SCIENCE DEGREES

PURPOSE To assist outstanding BS graduates in obtaining their Master of Science and Doctor of Science Degrees while employed in industry and making a significant contribution to national defense work.

ELIGIBILITY June 1953 graduates receiving BS Degrees in the following fields:

- Aeronautical Engineering Civil Engineering Electrical Engineering Electronic Engineering Mechanical Engineering Physics

Those chosen to participate in this Plan will be from the upper portion of their graduating class and will have evidenced unusual technical ability. They must also have evidenced imaginative ability and possess personality traits enabling them to work well with others.

CITIZENSHIP Applicants must be United States citizens who can be cleared for "Secret."

PARTICIPATING UNIVERSITY Washington University in St. Louis will participate in this program and candidates for Master of Science and Doctor of Science Degrees must meet entrance requirements for advanced students at this university.

PROGRAM Under this Graduate Plan the candidate will work full time at McDonnell Aircraft Corporation until September 1953. From September 1953 to June 1954 candidates will work at M.A.C. from 28

to 36 hours per week, attending Washington University on an individually arranged schedule. A Master of Science Degree should be obtained within a maximum of two calendar years. Under this arrangement it will be possible for a candidate to earn approximately 85% of a normal year's salary and to attend the university during regular semesters while working toward his advanced degree.

COMPENSATION Compensation will be commensurate with the individual's ability and experience. Compensation growth will be on the same basis as the full time members of the engineering staff. In addition, the candidate will be eligible for all other benefits accruing to full time employees.

TUITION Tuition covering the required number of units necessary to obtain an advanced degree will be paid by McDonnell Aircraft Corporation.

SELECTION OF CANDIDATES Candidates will be selected by officials of McDonnell Aircraft Corporation and Washington University.

DATES FOR APPLYING June 1953 graduates should make informal applications prior to March 15, 1953. McDonnell Aircraft Corporation will then forward formal applications which should be returned by April 15, 1953, accompanied by up to date grade transcripts. All replies will receive full consideration and selections will be made during the month of May, 1953.

ADDRESS CORRESPONDENCE TO Technical Placement Supervisor McDonnell Aircraft Corporation Post Office Box 516 St. Louis 3, Missouri
