Field Day Investigating Cites Dorms Cause Of Trouble

As a result of many complaints expressing the advisability of keeping Field Day activities from encroaching on dormitory space, a Field Day Investigating Committee was set up to study the situation. The committe, composed of four seniors and three juniors, was granted permission by Samuel Weil, Jr., of theAdministration Committee, to hold their investigation.

This year activities connected with Field Day resided in the $800-$900 damage to the dormitories—mostly in East Campus. In addition, several students received injuries requiring hospital treatment, and many, for the moment, the mayhem that occurs, do not know much about it.

"One cannot understand what is going on here if one doesn't know that there exists a little community that prevents continous mayhem with a rather excessive amount of damage to the dormitories. In the dormitories, the lack of effective police action and the dormitory's lack of power to enforce house rules before November, the fact that most dormitory students are very fond of the Institute, and that it is done to the dormitory unless it is done, retards the progress of the situation. It is easy to see that the situation is somewhat unfortunate to those who are interested in keeping the dormitories and their rooms in a safe and orderly condition.
