This is a growing recognition that our world is (in an ever recurring phrase) growing smaller, and that there is a marked difference between our moral beliefs of equal opportunity for all men and what we actually practice.

This realization manifested itself this week in a “spring housecleaning,” in an opening of doors to let fresh air in, when the Boston University Chapter of Phi Sigma Kappa repudiated the discriminatory policy of its national fraternity and pledged a Negro student to its membership (see page 1).

At its national convention last year, Phi Sigma Kappa fraternity adopted a resolution which cannot be mistaken for anything but a violation of American principles. It was decided that no chapter would pledge a Negro student without notifying the national fraternity and without obtaining the consent of all members.

In spirit this is nothing more than a discrimina-
tory clause.

We heartily commend the action of the Boston University chapter of Phi Sigma Kappa for its fine action. We are sure that the younger generation, however, for our own M.I.T. group which hypocritically claims to be non-discriminatory in spirit, this is not enough.

This action stands in glaring contradiction to the statements by the I.F.C. and the Institute chapter of Phi Sigma Kappa which assure us that they are both opposed to discriminatory practices.

The M.I.T. Interfraternity Council has constantly maintained that its members be allowed to conduct discrimination within their organizations and that is about as far as it is likely that the I.F.C. can prove by action what it advocates on paper. Fraternity leaders must realize the moral stigmatization which results from the group, which are unable to live with their fellow men. Enlightened fraternity members when bound by outmoded clauses must change them.

The stand of the M.I.T. chapter of Phi Sigma Kappa is along with Worcester Polytechnic Institute, in FAVOR of retaining the tradition of housecleaning; in an opening of doors to let fresh air in, when the Boston University Chapter of Phi Sigma Kappa repudiated the discriminatory policy of its national fraternity and pledged a Negro student to its membership (see page 1).

The stand of the M.I.T. chapter of Phi Sigma Kappa is along with Worcester Polytechnic Institute, in FAVOR of retaining the tradition of housecleaning;

Come Out Of Hiding

In February, Institute Committee made provisions for a sub-committee on the question of granting and if there were ever a "prav- ional" a report on the situation of discriminatory practices in the fraternities and the progress made by individual groups to- wards working out a program that is about as far as it is likely that the I.F.C. can prove by action what it advocates on paper. Fraternity leaders must realize the moral stigmatization which results from the group, which are unable to live with their fellow men. Enlightened fraternity members when bound by outmoded clauses must change them.

The stand of the M.I.T. chapter of Phi Sigma Kappa is along with Worcester Polytechnic Institute, in FAVOR of retaining the tradition of housecleaning; in an opening of doors to let fresh air in, when the Boston University Chapter of Phi Sigma Kappa repudiated the discriminatory policy of its national fraternity and pledged a Negro student to its membership (see page 1).

Murray Stars In Lacrosse Victory Over WPI, 5-4

After absorbing five straight goals, the Beavers' lacrosse team came from behind to capture a close 5-4 victory over WPI in a game played at Worces-
ter last Wednesday afternoon. Two goals in the final period, the second coming just over two minutes from the end of the game, brought victory to the Engineers.

Driving from the start of the game, W.P.I. took an early 3-0 lead in the first period, before the Techmen be-
came accustomed to the strange field. However, the Beavers, paced by Bruce Murray '53 and James R. Bartsch '55, came back with three markers of their
own in the second quarter to tie the game. W.P.I. took the lead again in the third stanza, but two Tech goals in the final period clinched the game. Although the Worcester boys could boast greater depth than the En-
geners, their substitutes were inex-
perienced, and the regulars tied in the final half.

Besides Murray and Bartsch, John Trevitt '53, who assisted on three Beaver goals, charged on attack. The defense was paried by veterans Wil-
liam G. Nance '54, and Aristides Miliotes '54.

The score by periods:
M.I.T. 0 1 2 0 - 5
New Hampshire 1 0 0 2 - 3

Lacrosse Victory

Murray shines as the star for the Techmen, as he
has scored twelve goals, an aver-
age of two per game. Other high-
scorers are John R. Brown '53, with four goals and four assists, and John Tre-
vitt, with a goal and seven assists.

The Tech - Page Three

Towy Game Saturday

This Saturday afternoon, the Beav-
ers will journey to Madison to meet
Tufts College. The Tufts team is not
on an outstanding one this year, but they have enough to give the Engineers a battle, and the game should be close
all the way. The freshmen will play
New Hampshire at Durham, N.H.

Test CAMELS
for 30 days
for MILDNESS
and FLAVOR

There must be a reason why Camel is America's most popular cigarette—leading all other brands by billions! Camels have the two
dings smokers want—mere—rich, full
flavors and cool, mild taste. Only time
will tell—test Camel for 30 days
and see how mild, how flavorful,
how thoroughly enjoyable they are
as you smoke Camels!
Laundry Service Brings Complaints

Because of the complaints of many dormitory residents about the quality and speed of the existing laundry service offered at the dormitory desks, the Burton House Improvements Committee undertook the job of investigating these complaints.

All the residents of the undergraduate houses were issued a questionnaire. The purpose of this questionnaire was to see how many students were opposed to the existing laundry service and how many wanted a change in the laundry. The questionnaire consisted of four major questions and spaces for comments. The results of this questionnaire are as follows:

1. To the question: Have you ever used the laundry and or the valet service at your dormitory desk? 74% answered yes.
2. To the question: Do you still use the laundry and or the valet service at your dormitory desk? 74% answered yes.
3. To the question: Does the quality of the present service warrant a change in laundry service? 54% answered yes.
4. To the question: Would you be willing to pay 20% more for better service? 74% answered yes.

Of the 422 questionnaires that were returned, 84% answered yes.

THE BRAINS OF THE TEAM

Teamwork can work miracles. In a football game the man who sparks these miracles is the quarterback. He's the man who calls the signals. There's a man who calls the signals and the plane flying, too! The man who controls the plane in the air. He's the one who pilots the plane and keeps its nose in the wind. He's the man who controls the plane at the wheels. He's the man who keeps the plane flying, the man who knows his plane inside and out, who keeps it fit for the skies and seas that it stays there.

If YOU can accept a challenge like this, you'll take your place beside the best—you'll find your future in the skies.

To BE QUALIFIED you must be single, a citizen, between 19 and 35 years old, have had at least 2 years of college and be in tip top physical shape. If this describes you, then YOU, too, can qualify, Today!

AND THEN, AFTER GRADUATION, you'll win your silver wings, and earn more than $5,000 a year as an Air Force Lieutenant. You'll enjoy an adventurous, exciting career with a hand-picked crew of real men. You'll be the BRAINS OF THE TEAM, the greatest pilot of all, as a Bombardment Officer, as a Navigation Officer, as a Radar Officer, as an Aircraft Performance Engineer.

THE SOONER YOU APPLY, THE SOONER YOU FLY!

Get the Details: Visit your nearest Air Force Base or Air Force Recruiting Office. Or write to Director of Training, Headquarters, USAF, Washington 25, D.C., Attention: Aviation Cadet Branch. If you are in a school that has an Air Force ROTC program, see your Professor of Air Science and Tactics.

U.S. AIR FORCE

TRIPLE THREAT MAN!

AIRCRAFT OBSERVER

THE AIRCRAFT OBSERVER is the SOMEBODY WHO: As Bombardment Officer, is number one man on a bombing run, the man who controls the plane in the target area! As Navigation Officer, is the pilot's guiding hand on every flight! As Radar Officer, is master of a new science and operator of the device that sees beyond human sight! As Aircraft Performance Engineer, is the one who "keeps the plane flying", the man who knows his plane inside and out, who keeps it fit for the skies and seas that it stays there!

IF YOU can accept a challenge like this, you'll take your place beside the best—YOU'll find your future in the skies!

TO BE QUALIFIED you must be single, a citizen, between 19 and 35 years old, have had at least 2 years of college and be in tip top physical shape. If this describes you, then YOU, too, can qualify, Today!

HERE'S WHAT YOU'LL Gm! The world's best training. Good food and plenty of it. Uniforms, flight clothes, equipment, Medical and dental care. Free insurance. Flight training in Uncle Sam's greatest aircraft.

AND THEN, AFTER GRADUATION, you'll win your silver wings, and earn more than $5,000 a year as an Air Force Lieutenant. You'll enjoy an adventurous, exciting career with a hand-picked crew of real men. You'll be the BRAINS OF THE TEAM, the greatest pilot of all, as a Bombardment Officer, as a Navigation Officer, as a Radar Officer, as an Aircraft Performance Engineer.

Leadership Conference Report Shows Positive Action Taken

This year's Leadership Conference, aided by the experience of two such previous conferences, has resulted in fairly tangible results. "The fruits of our labors are clearly evident," Dr. Jacoby, president of the Interfraternity Council, said in a letter of introduction in the program. The Student Press Association, which was one of the official sponsors of the conference, has agreed to publish a series of articles dealing with a series of student government, and then went on to say that the new leadership of the Interfraternity Council did not properly represent the students and was not acting effectively. The conference was charged with a plan for recognition that is now in operation.

Discrimination

The panel on discrimination received a great deal of publicity because it was the first to remove discrimination from the program, and, on the whole, it should be expected to be the last. The feeling was that too much power would give discrimination undernourished, within offices of discrimination, while little attention would be paid to the issue. It was recognized that local chapters are somewhat powerless to take immediate action, while the question of power and interests interest the audience.

The keynote address by Dr. Haff

This gave little hope of what was to come, and I should have been pleased to see the personal qualities of the leader, the social interest, and the importance of open channels of communication. This was followed by a two simultaneous panel discussions.

Spheres of Influence

The panel on "Theory of Student Government" was charged with the problem of setting up a student government that would be effective and responsive to the needs of the students. The panel of discussion was introduced by Dr. Haff, who said that he was not sure that a student government could be set up in any form that would be open to all the students and that a student government could not be expected to fulfill the needs of all the students.

An Interfraternity Council meeting was then held, and the members of the Interfraternity Council were then introduced by Dr. Haff.

A.I.C. Outslugged By Beaver Team In Extra Innings

On Saturday evening in Springfield, the A.I.C. club was visited by the Beaver club. The A.I.C. club was defeated by the Beaver club in the first set by a score of 4-3. In the second set, the A.I.C. club was defeated by the Beaver club in a score of 6-3. The A.I.C. club was defeated by the Beaver club in the third set by a score of 4-1. The A.I.C. club was defeated by the Beaver club in the fourth set by a score of 6-1. The A.I.C. club was defeated by the Beaver club in the fifth set by a score of 6-1.

One Thousand Attend TechDance

The TechDance was a success, with approximately 250 couples spending a delightful evening dancing to the music of Jerry Wald's sixteen-piece band. Continuous entertainment was provided during intermission, including a discussion of the latest developments in electrical engineering, and a game of "I Spy" with the judges.

Jumps Off Bridge, Entropy Saddens Him

Muttering "Entropy, its creeping over me" an Institute Freshman leaped off the Harvard Bridge last Saturday evening in a suicide letter left in the water to end his life because he could not face the imminent prospect of the ever-increasing entropy of the universe. "It's too much to think about." However, all ended well, as the prospective "suicide" was picked up by passersby just before the bridge was crossed.

The Freshman, an unidentified student, was found floating in the Charles River near the Charles Foot Bridge. He was able to swim to a nearby boat and was taken to a hospital where he died later. The Freshman was a first-year student in the School of Engineering.

A car parked near the end of the first half of the bridge was driven off the bridge by a second-year student, who jumped into the Charles River along with the student's car. The car was later recovered and the student was rescued by the Boston Fire Department.

Logarithms Produce Long Playing Record

This MIT Logarithms, working through two recording sessions, managed to produce a new long-playing record. The 10 in. disc contains four selections, and the orchestra accompanied the disc with an arrangement of "I've Got a Crush on You." The disc was recorded in the Charles A. Farnsworth Laboratory, and was produced by the Hollis Brothers.

Volleyball

Stafinni, a member of the volleyball team, played a great game on the court. The team was able to hold off the strong opposition of the other teams and won the game with a score of 25-15.

Skiers On Gnarly Tufis, Win Eighth Race Of Season

Skiing season is in full swing, with the major and traditional O'Bergren on the Charlestown River. This brings the season's open-air skiing to a close. The ski team, which has been heavily promoted, had a successful season and won several races. The ski team's performance was highlighted by a win in the ski race at the Harvard-MIT meet.

The Beaver rugby team won a close game over the Tech team last Saturday afternoon. The game was hard-fought, with the Tech team scoring a try early in the first half. The Beaver team then scored two tries in the second half, and won the game with a score of 25-15.

This year's Leadership Conference, aided by the experience of two such previous conferences, has resulted in fairly tangible results. "The fruits of our labors are clearly evident," Dr. Jacoby, president of the Interfraternity Council, said in a letter of introduction in the program. The Student Press Association, which was one of the official sponsors of the conference, has agreed to publish a series of articles dealing with a series of student government, and then went on to say that the new leadership of the Interfraternity Council did not properly represent the students and was not acting effectively. The conference was charged with a plan for recognition that is now in operation.

EXHIBITIONS

Photographic Salon prints by Doris Martha Weber of Cleveland, Ohio, will be on display in Photo Service Gallery, basement of Buildings 11, through May 18.

Photographic Salon prints by Mrs. and Mrs. H. D. Archer of Great Falls, Montana, will be on display in Photo Service Gallery, basement of Buildings 11, from May 19 through June 1.

Pinnash paintings, sculpture, arts, and crafts will be exhibited in the New Gallery of the Charles Hayden Memorial Library, through June 15.

CALENDAR OF EVENTS

The Calendar of Events appears in THE TECH on Tuesday with announcements and reminders daily. Notice, typewritten and signed, must be in the office of the editor, Room 7-204, not later than noon on Thursday, prior to the date of publication. Material for the Calendar of Events must be in by May 22, 1953.
Field Day Football

Tech Tennis Men Bowl To Crusaders

By Steve Edelstein '56

The TECH Sports Department, having declined to plan a series of matches on the status of Field Day football at M.I.T. it should be stated at the outset that the paper is not advocate varsity football.

The Sports Department has already resolved encouraging varsity teams from Princeton, New York, and Chicago to the big 220 yd. dash. The major event of the day will be the 220 yd. dash, taking place in the second period of the day.

The results:

The MIT tennis teams lost its third match of the season to the Crusaders of Holy Cross by a 7-6 count.

Only Captain John Meade and Paul Goldwen were able to win a game. Meade, with particular ease, captured 34 points in the 880 yd. run. With victory possible only through the sweeping of the 880 yd. dash, the teams went down to defeat as only John Meade and Dick Lane were able to gain a victory.

The next match will take place on Tuesday, at 230, when a strong Amherst team visits Tech.

Other field day teams are considered "intercollegiate" except the sophomore crew, and any other pertinent information.

A $1000 east TECk AGENCY WANTED

We are looking for an agent to sell nationally advertised drawing instruments used in teaching tennis and water sports. The product is featured in the fall, winter, and spring. The agent will receive a commission of 5% on sales, and will be provided with a display of the product.

The simultaneous discussion on leadership came to the conclusion that since Tech students are quite able to logic, organize and come up to logic, organize efficient and time-saving plans of action, responsibility, and overcome student apathy. This group also decided that leaders should be found in their school career.

COACHER ISOMS

Three following panels discussed an Activities Council that would organize the school's activities, an informal Cabinet of chairs of sub-committees of Inscomm, and the function of Class Representatives. This last group decided that the value of representation by classes was questionable, and also discussed improvement of communication between students and government, the problem of student apathy, and the idea of a smaller Institute Committees.

The panel discussion on Reorganization, held concurrently with the panel on Orientation, followed up the ideas brought out in the previous dimensions. The final result was a plan for a smaller Institute Committee, consisting largely of representatives from living groups, but included the first-class presidents and the president of the Activities Council, with the Inscomm President elected by the student body at large.

I. D. C. DANCE

An I. D. C. Dance will be held this Saturday. Tech, May 16 from 8:30 p.m. until 12:00 midnight in Walker Memorial. The price for the dance, refreshments, and entertainment will be $1.00 per couple.
