Incomm Group Discusses Discrimination Questionnaire to All Institute Fraternities

In a move to ascertain the position of the College in respect to the questionnaire on discrimination to all Institute Fraternity members, the questionnaires, previously distributed to the twenty-six Institute fraternities through the hands of the Committee, will be returned to the Committee.

The present Discrimination Committee, which was formed last fall in a motion proposing the formulation of a questionnaire to be distributed and publish information regarding discrimination in the fraternity questionnaires, is a term that will void the committee.

According to R. Chidlaw '58, the chairman of the committee, plans are extending its investigation to other schools and hope to establish a reference file on the subject of discrimination in fraternal organizations which will be available throughout the country.

One member of the Discrimination Committee is Richard J. O'Brien '56, 4th Schreiber '55, William Layton '56, and Eugene Mathias '60.

The questionnaire is being requested to answer the following questions:

1. If there are no discriminatory clauses, what is the basis for the restricted status?
2. If there are discriminatory clauses, is there a co-operative or selective policy?
3. If there are discriminatory clauses, is there a basis for the restricted status?

Any resolution or motion that is not dismissed by the questionnaires will be presented to the student body at a later date. The committee feels that fraternity status has been passed by your fraternity either locally, socially, or by-law. It must be noted that there is no such clause within the fraternity itself.

The committee is not interested in the local organization. If your fraternity has any resolution or motion that is not dismissed by the questionnaires, it will be presented to the student body at a later date.

New Promotions Announced on Institute Faculty

Recent faculty appointments and promotions at the Institute were announced by Dr. F. William Kilner, Jr., President of the Institute.

Promoted to the rank of assistant professor will be William I. Laquerre of Boston and Robert W. Whitman of Cambridge, both in the department of electrical engineering; Henry C. Bearn of Cambridge and Leonard A. Gould of Boston, both in the department of electrical engineering; Ralph G. Gekeler of Cambridge, department of mechanical engineering; Douglas W. Fawcett of Cambridge, department of mechanical engineering; Sidney D. Dirello of Brookline, department of physics; Robert W. Nicholas of the department of aeronautics and astronautics; Visiting Professor in Chemistry, J. C. W. Pollock, received a leave of absence from the University of Pennsylvania, department of industrial science and technology; and Edward Robinson, fellowship recipient.

New promotions include Daniel H. Leder, visiting professor in the department of economics and social science; and James E. Mathieson, visiting professor in chemistry.

John H. Vincent, professor in the department of electrical engineering, will receive a leave of absence from the University of Pennsylvania, department of industrial science and technology. Helen Joseph A. Erickson, visiting professor in the department of chemistry, will receive a leave of absence from the University of Pennsylvania, department of industrial science and technology. Peter Blau and David A. Hoffman, assistant professors in the department of electrical engineering, will receive a leave of absence from the University of Pennsylvania, department of industrial science and technology. The faculty of the School of Education, New York, will receive a leave of absence from the University of Pennsylvania, department of industrial science and technology.

Guest tickets for the lecturers can be obtained from the Department of Humanities and the English and History Library.

The Rifle Team Smoker

Tonight 10-250: Classes Start Friday

The Rifle Team will open its season tonight at 8:00 p.m. at its annual smoker in Room 10-250. The team has had a happy season, and the rifle team is looking forward to the upcoming season.

Rifle Team Scorer

The rifle team will be scored by Capt. Richard D. Tiley '57, the last man elected to be scored.

Trophies for the rifle team's annual smoker will be awarded to the winning team. The trophies will be awarded to the winner of the annual smoker.

Professor Gaster Gives Lectures

Professor Theodore Gaster, historian in Semitic languages, will give a lecture on the history of the East Roman Empire. The lecture will be given on Thursday, October 21, in the cafeteria of the M.I.T. Club.

Professor Newton Jr. Awarded Levy Medal by Franklin Institute

For his outstanding paper, "Commercialization of Feedback-Control Systems," Professor Newton Jr., Associate Director of the Scientific Research Laboratory, at the Franklin Institute, will be awarded the Louis E. Levy Medal by the Franklin Institute of Pennsylvania. The article will appear in the October and November issues of the Franklin Institute. The article will appear in the October and November issues of the Franklin Institute.

Dr. Newton's paper provides a valuable contribution to the field of control theory, and it is a worthy recipient of the Levy Medal. Dr. Newton has made significant contributions to the field of control theory and his paper is an exceptional contribution to the field of control theory.

The Levy Medal is awarded annually to the best paper published in the field of control theory. The award is presented to the author of the best paper published in the field of control theory.

Negotiations were completed early this week for the purchase of another 47 Cesna 140 to again make the airplane available to Institute Flying Club. According to the club, the purchase is necessary to continue the flying program.

The Flying Club was organized shortly after the student organization purchased a comparable part of the Institute Flying Club, and has been flying since then.

The club members are eligible to buy an airplane at a reduced price, and the club is not a nonprofit organization over expenses. Members are open to all persons who are interested in flying and have previous experience in flying. The club is an active and important part of the Institute Flying Club.

Small monthly dues are charged to take care of the non-flying expenses of the club. A flat rate is charged per hour for flying, and the club is open to all persons who are interested in flying and have previous experience in flying.

The planes are based at Bedford Field Airport, under the supervision of Flying Club. The airplanes are available to all members of the Institute Flying Club.

For more information, please contact the Institute Flying Club at Bedford Field Airport.

WEDNESDAY, OCTOBER 7

Electrical Engineering Department, Colloquium: "Transistors in Digital Computers." Donald J. Ecll, Room 6-120, 4:30 p.m. Refreshments in Room 6-321 at 4:45 p.m.

Catholic Club, Lecture: "Material in the Far East," Professor Thomas H. D. Mahoney. Room 2-190, 5:00 p.m.

Staff Players of M.I.T. Supper meeting. Faculty Club, 6:30 p.m.

Concert Band. Rehearsal. Moser Hall, Women's Memorial, 7:30 p.m.

THURSDAY, OCTOBER 8

Physics Department. Colloquium: "Experiments with Positrons." Professor C. W. Adams, Room 6-120, 4:30 p.m. Refreshments in Room 6-321 at 4:45 p.m.

Glee Club. Rehearsal. Room 2-190, 7:30 p.m.

Outing Club. General meeting: fall trips. Room 18-007, 5:00 p.m.

FRIDAY, OCTOBER 9

Freshmen and Varsity Cross Country. Meet with Tufts College at Franklin Field, 3:00 p.m.

Mechanical Engineering Department. Seminar: "Dynamic Loads on Great Ships." Ernest James, Room 4-170, 4:30 p.m. Coffee in Room 4-347 from 4:30 to 4:45 p.m.

Electric Radiation Association. First meeting. Exhibition of the M.T.A. and other transistor lines. Room 5-108, 5:00 p.m.

Glee Club. Rehearsal. Room 2-190, 5:00 p.m.

Levers andScrew Committee. Film: "Under the Paris Sky" (French film with English titles). Room 10-250, 7:00 p.m., and 9:30 p.m. Admission: 50 cents.

SATURDAY, OCTOBER 10

Van Ayer Tour. Crew with Boston University, Briggs Field, 12:00 a.m.

Nautical Association. International Invitation Dinghy Regatta for the Danmark Trophy. Sailing Pavilion, 10:00 a.m.

SUNDAY, OCTOBER 11

MONDAY, OCTOBER 12

Symphony Orchestra. Rooms 106 and 108, Memorial Hall, 7:30 p.m.

TUESDAY, OCTOBER 13

Aeronautical Engineering Department. Seminar: "What Did the Wrights Invent?" Dr. Jesse C. Hornbeck. Room 33-317, 4:00 p.m. Refreshments in the duPont Room from 3:30 to 4:00 p.m.

Committee on Machine Methods of Computation. Seminar: "The Digital Computer Laboratory (Whirlwind 1)." Professor C. W. Adams, Room 10-250, 4:30 p.m.

Metallurgy Department. Colloquium: "Solid Solutions of Intermetallic Phases." Dr. F. M. Moore, Room 6-120, 4:30 p.m.

Glee Club. Rehearsal. Room 2-190, 5:00 p.m.

Outing Club. General meeting: fall trips. Room 18-007, 5:00 p.m.

CUE Club. Rehearsal. Room 2-190, 7:30 p.m.

WEDNESDAY, OCTOBER 14

Concert Band. Rehearsal. Moser Hall, Women's Memorial, 7:30 p.m.

Electrical Engineering Department. Seminar: "Control of Fossil-, Fission-, and Fertile-Fueled Power Plants." Part I: Professor A. B. Van Tienhoven. Room 3-103, 4:00 p.m. In the duPont Room from 3:30 to 4:00 p.m.

EXHIBITION

Photographic Salon prints by Wellington Lee of New York City will be on display in the Photo Service Gallery, Basement of Building 11, through October 13.

CALENDAR OF EVENTS

Although THE TECH will not appear next Tuesday because of the holiday, the Calendar of Events will be published as usual, carrying announce- ments for the following eight days (Wednesday through Wednesday). Notices, typed or typewritten, must be in the office of the editor, Room 7-204, no later than noon on Thursday prior to the date of publication. Material for the Calendar of October 14-21 is due on October 8.

In the spotlight--real beer!

Why are so many people talking about Schaefer and drinking it? Because Schaefer brewers know that to be satisfying, a lager must have true beer character. Schaefer is brewed light and dry, but we haven't gone too far. We haven't sacrificed the flavor, bouquet, and other basic qualities that add up to real beer. Treat yourself to a glass of Schaefer soon.

Tech Student Starts Trip. Describes Israel Voyage

This is the first in a series of articles by Benjamin Hayman '54 describing his trip to Europe and the Middle East this summer. Succeeding articles in this series will describe, among other things, his experiences in Israel, Greece, and in an Antwerp jail.

By Benjamin Hayman, '54

"Mess!! Supper--supper!" I staggered down into the meatloaf hells with forty hungry members of the engine crew who were grouped around the table waiting like vultures. Somebody had placed the food in their midst, when they poured on it in a manner which jarred my Boston induced smallsensibilities. I was suddenly awakened to the fact that I was now at sea, where one leaves aside fantasies and may act in a spontaneous fashion.

What happened to the mobile in Building 10, we care.

The light, dry beer with character.

The Tech

Engineer Sailors Bow To Harvard
In Wood Regatta

in a very disappointing performance, the favored six-man sailing team placed third among twenty entries, in the Wood Trophy race held at New London, Connecticut, on Saturday. The Harvard team easily paced the field, followed by Rhode Island, and M.I.T. who finished third after their rivals. Hotchkiss Guard was fourth, and Dartmouth fifth. Sailing conditions were poor, with a very light wind and a strong tide which provided with an all-round off day for the Tech sailors, contributed to the upset. The results are far from expectations, as both Tech and Harvard team easily paced the field.

Record Number
Of Players Enter Tennis Tounry

The all-Tech tennis tournament got underway with a large number of participants who will win the junior-senior cup. The tournament has never been completed. This year, however, the tourney committee is determined to complete the championships by the end of October.

Outing Club Trip
(Continued from page 1)

Groups will return Sunday and Monday night to Boston.
Among the highlights of last year's trip was the square dance under the stars followed by a monster bonfire and songs with campfire cheer. Nearby by Tengan and Elder Mountains provided an ideal headquarters for the mountaineers.

"With a twenty-five-man squad we will have enough depth to substitute freely and keep the men rested," said Coach Roy Martin, "Last year's small squad was hampered by lack of endurance in the late minutes. That shouldn't bother us this season," he concluded.

The freshman team had a turnout of over thirty-five men. They looked very good swimming against the varsity.

No entry blanks!
No box tops!

Twice as many Awards this Year

Makes 25!
Write a Lucky Strike Jingle Based on the fact that Luckies TASTE BETTER!

From well-known toasts to those unknown...
Most any place for a better taste...
His Lucky Strike tastes in the home!

Some Jingles:

1. Write your Lucky Strike jingle on a single piece of paper or pasted card and send it to Reader-Go-Lucky, F. O. Box 77, New York 36, N. Y. Be sure that your name, address, college and class are included—so that they may be legal.

2. Your jingle on any cigarette package of Luckies.

3. Every student of any college, university or postgraduate school may submit jingles.

4. You may submit as many jingles as you like. Remember, you are eligible to win more than one prize.

RULING:

To enter a jingle is to participate limited to "Lucky Strike Jingles." The contest is open to all students of the college campuses. The rules are as follows:

1. Make your jingle on any cigarette package of Luckies.

2. Your jingle will be selected by the judge.

3. Every student of any college, university or postgraduate school may submit jingles.

4. You may submit as many jingles as you like. Remember, you are eligible to win more than one prize.

Best: $25 you ever made. Sit right down and write a 4-stanza jingle based on the fact that Luckies TASTE BETTER.

That's all there is to it. More awards than you can believe.

Read the jingle on this page. Write original ones just like them—or better!

Write as many jingles as you want. There's no limit to the number of awards you can receive. If we pick one of your jingles, we'll pay you $25 for the right to use it, together with your name, in Lucky Strike advertising.

Remember: Read all the rules and jingles carefully. Be on the safe side, clip them out and keep them handy. Act now. Get started today.

Page Three
Professor And Mrs. Mason

(Continued from page 1)

The Masons have found life in Baker House pleasingly serene and peaceful. Dr. Mason has never yet been mistaken for a freshman and takes for granted his affiliation with the Institute. Although he could happen because he relaxes so naturally with the undergraduate who, within the walls of Baker House, needs no call by Dr. Mason.

Dr. Mason was graduated from Rutgers with a B.S. in EE in 1942; he then moved on to the Institute to take part in government research in the radiation lab. He received his M.S. in 1945. Alternatively, he was graduated from the Institute in 1947, added his Sc.D. in 1952.

A Social Calamity

Mrs. Mason is a native New Englander from Norwalk, formerly a dancing teacher. The Mason family now seeks a solution to a prevailing minor calamity. Although Mrs. Mason was an instructor, neither of the Masons, in fact, except Mrs. Mason, can do the mamba. This makes them feel like the words of L.T. Abbott, "nothing human.

An "Eric bent" who has in some degree mastered the mamba is requested to contact the Masons at Baker House. Dr. Mason emphasized that this is a sincere request for aid. The Masons would like to remain at the Institute for a long time. Dr. Mason is proud of his affiliation with this school and equally proud of the way the student members of the students respond to what he calls the liberal policies of our school.

Discrimination Questions

(Continued from page 1)

"Are there any provisions or restrictions "understanding" as to restriction of membership? Local, sectional, or national?

"Are there any provisions for removal of restrictive clauses either locally or nationally? How active? For how many years? What are such obstacles to removal? Is your chapter supporting removal of such clauses? Describe the role, (i.e., passive approval, active approval, actual move for removal, etc.) About what percentage of the chapters in your national support removal? Has your chapter organized or participated in regional groups attempting to remove restrictive clauses from their national constitution, by-laws, or codes?"

Haysem Trip East

(Continued from page 2)

an efficient system. One of the best was to use the clothes and a "drying" cloth to remove the impression of water. You can use a hay bag in the sink. After you have cleaned the person because the cloth caught most of the greasy soaps out of him. Very effective but tedious, and rather messy.

Another psychological approach I used was to keep the silly maid busy and out of the way. This system was also economical as I estimated the cost of both in the interest of the ship owners. When the dishes were needed again, it was only once. The system gives maximum output of hull-warmth of the Middle East sun and minimum labor. May be a Saturday morning was in decline and inactive as East Coast was taking its part on opening night of the "Old Iowa." There was no welcoming crowd, no formidable army of police or custom officials or fast talking souvenir salesmen. There was just one sleepy guard at the pier gate who we promised that we had to arrive on any day of rest. Everyone was either sleeping or busy with a sidestreet coffee shop, or sleeping. But when stimulated I must admit that the whole country of Israel was at my disposal — Jerusalem, Tel-Aviv, Acco, Galilee and the rest, in spite of the poor weather.

SMOKERS BY THE THOUSANDS

NOW CHANGING TO CHESTERFIELD

the ONLY cigarette ever to give you...

PROOF

OF LOW NICOTINE HIGHEST QUALITY

The country's six leading cigarette brands were analyzed — chemically — and Chesterfield was found low in nicotine — highest in quality.

A PROVEN RECORD

with smokers

Again and again, over a full year and a half a group of Chesterfield smokers have been given thorough medical examinations... the doctor's reports are a matter of record. "No adverse effects to the nose, throat and sinuses from smoking Chesterfield." A responsible independent research laboratory supervises this continuing program.
