Plans have recently been made for the
arrangement of the Institute lots without a permit. The permit
issuers are located on campus, the
registered permit will be mailed to the
owners of the lots. The permit will be
available to full-time students during
the fall applications for a permit will not be
accepted by the permit issuers.

For future students, the permit
issuers will be located in the
Public Relations, Office of the
Registrar's Office, and the
Office of the Director of Student Affairs
during the fall term.

For current students, the
permit issuers will be located in the
Public Relations, Office of the
Registrar's Office, and the
Office of the Director of Student Affairs

The Tech through the mail

In the Editor of The Tech: The October 18 issue of The Tech reported that the Baker House Committee tabled a motion to censure its chairman, Jerry Perrell, '56 for exceeding his authority when he ruled that Baker House membership cards were necessary to draw athletic equipment from the desk. This motion for censure was not tabled but discussed, voted upon, and defeated with only one vote in favor. The article goes on to state the purpose for the House Membership cards was to raise funds for the support of dances. The purpose of the Membership Cards is to raise the house funds. As an inducement we are offering a 20% discount to all house social functions.

Baker House collects about four hundred dollars a term from Dormitory Committee. This sum is far less than either East Campus or Burton House receives. We have expenses (mostly salaries) and our normal operating expenses for the house are equivalent to those of the other two houses, yet we receive a smaller appropriation. In the past Baker House has always accepted the Dormitory Committee allotment and has made up its deficit with the sale of Membership Cards. Last year’s House Committee voted to sell a total of six membership cards. This year, the same House Committee has refused to sell Membership Cards to the Dormitory Committee. The reason given is that the membership cards are too expensive. The membership cards may be purchased by the members and their guests. Now that the Membership Cards are strictly voluntary, the residents of Baker House must be urged to purchase their Membership Cards in order to supply the funds necessary to buy new athletic equipment and to make home improvements.

ATO, Kappa Sigma, SAE, Phi Gam Move Into Finals

by Paul Jay Goldin, '54

I
ntramural football competition neared the playoff stage, as four frontrunners fought their way to the last two East Campus, did the officials fail to keep the run-down third-down play alive.

This 11-point lead was cut in half as Tom Hoffman and the sharp passing of Coley Bresee and the tough blocking of SAE's line anchored by Rich Wilson and Mitch Savin.

Delta Theta, 26-6. Once again it was the running attack as they routed Phi Delta uncorked a fine passing and the tough blocking of SAE's line anchored by Rich Wilson and Mitch Savin.

mural protest council upheld an East Campus Protest.

Toledo, 24-13, clinched the decision in the Test Monday afternoon however, the intramural protest council upheld an East Campus protest. Their decision was to replay the game this Saturday from the beginning of the second half when the score was 0-0.

Defending champions Phi Gamma Delta unsealed a fine passing and running attack as they routed Phi Delta Theta, 24-13, once again it was the sharp passing of Coley Bresee and the tough blocking of SAE's line anchored by Rich Wilson and Mitch Savin.

The touchdown twins, Bob Chambers and Bob White, combined their talents to lead SAE to an 18-6 win over a

Phi Kappa Sigma team.

Chambers took two scoring passes to lead SAE to an 18-6 win over a

Phi Kappa Sigma team.

The Sophomores Face Tabor Academy In First Contest

This year's freshman teams made their choices as follows: Aeronautical Engineering, 64; Architecture, 12; Building Engineering and Construction, 4; Civil Engineering (Non-licensed), 57; Economics and Economic Policy, 107; Electronic Engineering, 107; Film, 107; General Engineering, 3; General Science, 2; Geology and Geography, 2; Mathematics, 23; Mechanical Engineering, 122; Metallurgy, 17; Meteorology, 2; St'orm Prediction, 1; physics, 15; Quantitative Biology, 5; Science Teaching, 1.

This column is happy to report the fourth period as he stole an errant pass, which he returned to the end-zone with Jim Hazard and Tom Cantrell on the rescuing run.

This column is happy to report the fourth period as he stole an errant pass, which he returned to the end-zone with Jim Hazard and Tom Cantrell on the rescuing run.

These teams will have to place these teams in the playoffs to determine the institute champions.

Friday Oct. 30, In Bldg. 6, Room 1B10, 10:45 a.m.; Wednes-day eve-
The College Press
(Continued from page 1)

In the Ambler Student, "Yale's idea of making lecture attendance voluntary raises some interesting questions. At Oxford and Cambridge lectures have never been popular. If non-compulsory attendance was instituted in American colleges, professors would have to enlarge their large audiences. In the words of a professor, 'the boys need more than a show."

From experience here, it seems unlikely that the lecture room ever rival TV or movies as a medium of popular entertainment. As for those unpatriotic English lectures, students should send their Professor's heads and his enigmatic moments everywhere.

From the same paper, "The largest percentage of intellectuals and pseudo-intellectuals in Ambler accounts for the remarkable support given to the showing of foreign films and films which, while made in Hollywood, later turn through their third revival in Singapore and Kenya colony." We wonder if there is any statistically measurable difference in the size of the "pseudo" and the real thing.

A posting comment on movies from the Harvard Crimson: "Recent months have proved that a movie is that dimension does not necessarily imply depth."

FRIDAY, SATURDAY NITES

J. Paul Sheedy* Switched to Wildroot Cream-Oil
Beards He Flunked The Finger-Veil Test

"Go jump in the lake," squawked Shelly's monkey with buried beauties. "You look simply crabby with that messy hair. Better get your hooks into Wildroot Cream-Oil, America's favorite hair tonic. Keeps hair combed to perfection and helps keep your style in place. And when you're waiting for? Hurry and get a bottle or handy tube at any toilet-goods counter. And nets time you need a quick lift, just rub on a little Wildroot. Cream-Oil, America's favorite hair tonic. Keeps hair combed to perfection and helps keep your style in place. And when you're waiting for? Hurry and get a bottle or handy tube at any toilet-goods counter. And nets time you need a quick lift, just rub on a little Wildroot."

Eight-letter word meaning "real beer"
The word is "Schaefer"... and it's no pun, it means "cool beer," Schaefer, brewed by America's oldest brewer of lager beer, isn't just another "super-light, super-dry" beer. Schaefer is light and dry, but it retains its true beer character, too. It has the flavor, bouquet and solid body qualities that make beer so distinctive a beverage. Try a glass of real beer soon.
