Engineers Third Behind Harvard, U.R.I. In Sailing

The Engineers finished third behind Harvard, U.R.I. in the New England Intercollegiate Regatta held at Harvard Stadium Saturday. Following closely are the Northeastern Intercollegiate Championships to be held Sunday at Tufts.

Relay Team Third
Morefield Fourth
At Harvard Relays

The Beaver trade was competed in the East. New England Relay Carnival was held at Harvard Stadium. The meet was dominated with a first place finish for Harvard, second for Yale, and third for U.R.I. for Tech's outstanding performance.

Chairman of the Beavers, Charles M. Morefield '60, and Assistant Manager of the Relays, Albert P. Morefield '60, announced the team's place for the 3000-meter relay. The team, composed of Harry Scofield '60, Hugh Nichols '64, Jack Marsee '59, and Bob Victor '60, was edged out only by Holy Cross and Yale. John Morefield, '56, placed third in the two-mile relay. Yale's John Morefield, '56, placed second in the mile and three-quarters course. The winning time for the Jay Vee race was 9:13 and a 9:19 clocking 6:44 for the mile and five-quarters race. B.U. finished second and M.I.T. a poor fourth.

Baker Memorial
Presents Lecture
By Rev. Watson

John T. Baker, president of Baker Memorial in Boston, presented the lecture on "The New Approach to Christian Science" before an audience of students at the junior-week meeting at 9:30 p.m. in the Hotel Statler.

Tech Lightweight's Defeat
Crimson Sweeps Charles
A strong tailwind that swept the Charles River Saturday afternoon did little to help Tech Crew as they were swamped by Harvard in all of the six races rowed. Also caught in the Crimson's downdraught were B.U. crews which competed in three of the events.

The day's competition consisted of varsity, Jay Vee, and freshmen heavy and lightweight races. B.U. rowed in only the heavyweight events.

President Graduates Assumes Visitors To Institute

The Registry of Guests is the Institute office which is responsible for extending hospitality in the name of the President to scholars and other distinguished guests who desire either to inspect the Institute or to call on day here for study or research. The Registry, instituted in 1962 and headed by former Baker Memorial, presents its lecture on "The New Approach to Christian Science." The lecture was given by John T. Baker, president of Baker Memorial in Boston. The lecture was attended by an audience of students at the junior-week meeting at 9:30 p.m. in the Hotel Statler.

SWC Announces Social Program For Senior Week

Present plans for the 1954 Senior Week include a full week of activities sponsored by the American Society for Experimental Biology. The activities include a social program, a dance, and a football game. The social program will feature a banquet on Monday night, a dance on Tuesday night, and a football game on Saturday afternoon.

The week's festivities will conclude with a bonfire on Thursday night. During the week, the social activities are on sale at the Senior Week office, which is located in the lobby of Building 10 for $3. The remainder of this week's activities is a dime for each event. The ticket prices include admission to all four events.

Rushing Discussed
At I.F.C. Meeting
Dean Fasset Gett

The Committee approved its new Constitution, and accepted several reports of committees, items discussed were rushing, the establishment of a rushing house, and the admission of freshmen. The ticket prices include admission to all four events.

The period of colonization for this year was extended for students in Baker House and members in I.F.C. was extended from May 1 to October 1. The period was lengthened due to the great interest shown in the new house, which is now hoping for a house.

Red Cross Gives Special Service To M.I.T. Family

According to the Medical Department, approximately one of the incidence of medical problems in the immediately family, needed blood, and the American Red Cross, replaces the blood needed by the hospital concerned without cost to the patient. Inquiries received at a recent meeting of the American Society for Experimental Biology were brought to the attention of the American Red Cross, which had been invited to this privilege as a result of the success of the Blood Drive program sponsored by the American Society for Experimental Biology. The last of these drives collected a total of 760 pints in a day.

Each member of the community, whether or not a house, is eligible for this service. Therefore anyone who is physically healthy has an obligation to contribute blood.

B.C. Topples Beavers, 5-0
Pitching Lapses Cause Loss

Tech diamond hope went down another notch last Saturday as Boston College took advantage of a seventh inning spell of wildness by sophomore lefty Bob Turner to turn around a 4-3 deficit at one point to win 8-4 at University Heights.

In an effort to stop the strong B.C. left-handed power hitters, Coach Charles Merrill employed southpaw Turner, and he almost turned the trick. He held the Redmen to two runs in the first six innings, aided by sparkling infield support which contributed three double plays.

In the seventh, uncanny speed took control of his control and was derricked in favor of the Beavers. After runners at first and second, Turner walked catcher Bob White, Gold's perfect throw to short was misplayed and the runners scored. The third, a wild pitch, was an error as he justified Merritt's confidence.

The Beavers were the first team to score against Merritt in over three weeks. In the 4-1 loss to Dartmouth, the right-hander had a wild afternoon, hitting 10 batters, though he did not surrender a run.

Merritt immediately signaled for Bob Weber '55, a strong-armed right-hander who had previously been used only for baser duty. Weber applied the damage as he whiffed five of the six batters he faced in his two-inning appearance. After this performance, it appears likely that Weber will be used as a relief specialist as was the case in Merritt's absence.

In the meantime, Turner was off the hook. Despite the lack of control, the right-hander wound up with a no-hitter through seven innings. He allowed five singles, three of which were scored. He struck out six and walked three in the loss, earning a 3-1 decision.

by the Baker Memorial Foundation and the Inter-Varsity Christian Fellowship.

A Phi Beta Kappa graduate of Robert College, Rev. Watson has an extensive background in both theology and psychology. He got his Master of Theology degree from the Pittsburgh-Theologia Theological Seminary, and his Doctor's degree in psychology from Syracuse University. He has spent several years in youth-counseling work, and is interested in the philosophical questions facing modern university students.

---

Crew

(Continued from page 1)

Also on hand was the Crimson horn and percussion band to let up the proceedings. To none, the spectators provided as much entertainment as the race. One of the highlights, for example, decided that the time between the varsity and the Novice was just right for a little swim in the Charles. According to him, the band and the Novice were performing so well that he did it for a baser reason — money.

---

Tennis

(Continued from page 1)

bought eight men of the season when they meet a power-laden Harvard team at the Harvard courts. The Redmen will have to impress over their Amherst showing to stand up over outside chance of upsetting the Crimson.

On the brighter side, however, the Red's recent trip to the Princeton classic was one of their biggest in years, and they are looking forward with confidence to the upcoming season.

Engineering Dean Names Prof. Holt New M.E. Head

Professor James Holt, Executive Officer of the Air Force Academy, has been named acting head of his department pending the choice of a permanent head, Professor C. Richmond Merritt. Prof. Holt was graduated from Harvard University and M.I.T., in 1918, receiving the degree of bachelor of mechanical engineering simultaneously from each institution.

In days gone by, young men in shining armor ruled the age. Today, a new kind of man rules the age — America's Knights of the Sky, the Air Force Pilots. They ride from on high, in flashing silver-winged metal horses which carry with them the weight of the world. The men who fly these great machines are a selected band that all America looks up to. The Knights of the Air are few in number, but they represent our Nation's greatest strength.

If you are single, between the ages of 19 and 26, and you are interested in serving your country, then you are eligible to apply. You will be given the best jet training the world can offer, and you will be paid as an Air Force Lieutenant earning $3,000 a year. Your silver wings will mark you as one of the chosen few who ride the skies in Air Force jets.

As an Air Pilot, your kingdom is your jet; your three greatest assets are your courage and your vision, which is the highest. You are a key defender of the American faith, with a guaranteed future both in military and commercial aviation.

Join America's Knights of the Sky, now the newest and best of fine Aviation Cadets! For further information, fill out this coupon.
The spring season, which started so promisingly a month ago with the varsity lacrosse team's fire-freeing, has taken on a dim coloring. The varsity and golf teams professionalism completely dishearten Tech sports writers.

The win was their second as against two loss-
cases. They will try for their third vic-
tory, and their second against Rob-
ca, at Quaidy Saturday.

How the stars got started...

Dick Powell says: "At Little Rock College, Arkansas, I played with a group of friends.

This was followed by dance-orchestra jobs all over the Mid-West and eventually to Hollywood. After 40 pictures, typeset as a screenwriter, I finally was a 'rough guy' role and really got going!"

"THE GUY'll LOSE HIS SHIRT!"

...I walk into this haberdasher just off campus, see, and ask for a white shirt. He starts givin' me this song-and-dance about the Van Heusen Crown with the soft collar that supposed to not wrinkle ever. The jerk starts swearin' me with 14-day free trial deal, that if I'm not satisfied after wearing it and washing it for 14 days, he'll gimme my dough back.

"I'm from Brooklyn, see, and I don't trust nobody. I ask the guy, 'What's the catch, buddy?' He says, 'No catch. Wear it. The guy tells me it's the only soft one-piece collar and it folds perfectly because the fold-line's woven in. It not to wrinkle or wilt, you get your money back. Wash it yourself. It's easy. You just iron the collar flat, zip it, and it folds perfectly because the fold-line's woven in. If not, your money back.'"

"The guy tells me it's the only soft one-piece collar in the world, that it lasts up to twelve years, that it's only the result of alassing cloud. The jerk starts swearin' me with 14-day free trial deal, that if I'm not satisfied after wearing it and washing it for 14 days, he'll gimme my dough back.

"And you know what? I been wearin' and washin' it now for a month and fourteen days, and I still can't find nothin' wrong with it."

**IT'S ALL A MATTER OF TASTE**

There are no more oldie college kids. What does the average college kid do when he gets a kick out of NoDa you ask? He talks a trip with college kids. With girls and even college coeds. So round, so firm, so pathed—

"I speak of Luckies."—Barbara Ramberg Lawrence College

When you come right down to it, you smoke for one simple reason—enjoyment. And smoking enjoyment is all a matter of taste. You taste is what counts in a cigarette. And Luckies taste better.

Two facts explain why Luckies taste better. First, L&D/4T—Luckies strikes means fine tobacco—light, mild, good-tasting tobacco. Second, Luckies are actually made better to taste better...always round, firm, fully packed to draw freely and smoke evenly.

So, for the enjoyment you get from better taste, and only from better taste—Be Happy—Go Lucky. Get a pack or a carton of better-tasting Luckies today.

The cigarette that really tops the campus hit parade! The campus hit parade is a lucky strike because it's better made!

Celia Varnonok Boston University

**COLLEGE SMOKERS PREFER LUCKIES**

A comprehensive survey—based on 31,000 student interviews and super- vised by college professors—shows that smokers in colleges from coast to coast prefer Luckies to all other brands. The No. 1 reason: Luckies' better taste!
