Undergraduates Win Prizes For
Original Writing

The winner of the Robert A. Bolt and Elinor Ginzberg prizes have just been announced by the Humanities Depart-
ment.

A bequest of Robert A. Bolt provides prizes for undergraduates and the Undergraduate Asso-
ciation Finance Board, since the complexity of these finances pre-
tently allows Inscomm no opportunity to consider these in detail, but instead leads to the “rubber-stamping” of an A.A. budget and financial programs.

New Gym Floor To Be Installed
In Rockwell Cage

A large portable gym floor is to be installed at the Institute to enlarge and improve its indoor athletic facili-
ties, President James B. Killian, Jr. announced last week.

Speaking at the Institute convoca-
tion, Dr. Killian said that the new floor will cover a total area of 131 ft. x 84 ft and will be installed in the end-bay of the Rockwell Cage. Made of best-quality rubber by the nation’s leading gym floor manufacturer, it will provide for an interlaminated bas-
ケット court, two intramural courts, a gymnasium, and a 40-yd. field, with or without wooden mats.

Beginning next season, all varsity and freshmen basketball games will be played on the new main court while intramural courts will be avail-
able for intramural and recreational use.

The main court will be provided with standard glass backboards, and the basketball floor will be supplemented with a white and with glass backboards, and the basketball floor will be supplemented with a white and with eight inches of rubber matting.

This is Science Fiction. Second prize was taken by Donald E. Markus, II, with his essay, “The Nature of Beauty."

Christian Science Organization. Spring reception. Speaker: Mr. Seville Davis, American News Editor, Christian Science Monitor. Hayden Library Lounge, 8:00 P.M.
The Engineers nearly handled their team to split its two games last week and took the stand to 6-4. The WPI game was played to a lift, but the Rice pitchers had the seven innings start. Beaver starter Walker "Lightning" Wranic 1-0 to a lead in the seventh inning and covered three score runs. Beaver reliever Dick Starkey 9 to a lead in the seventh inning and covered three score runs.

The Engineers managed to put six hits of the 11 WPI whistles. Captain Ladd got four hits of them. The Beaver hit Brandon pitcher Brown for four runs in the fourth inning and were able to score with one run. The four runs, however, proved more than the necessary margins March 8-0 and Dick Field 9 held the Beavers to one run and six hits.

Toby's four runs came on two walks, a single, a double, Paul Valensi's single and a double. One was scored each in the two of the nine innings called by Batterman and called and ruled on by the umpire.

The surprising race of the day in the Tech Carnival was the Freshman sixteen relay, which was won by the Freshman team. But the Harvarders were in every lap, but were beaten by the Freshmen in the first, and were beaten by the Harvarders in the second lap. The Harvard team was led by the lads. B.U. - Cornell was the next relay, the course was set by the New York Stock Exchange.

**Question:**
What makes a Lucky taste better?

**Answer:**
"IT'S TOASTED" to taste better.

No question about it, Luckies taste better to thousands of cigarettes smokers.

**Question:**
What is the reason about the question why Luckies taste better, either.

Today, nearly everybody knows L.S., M.F.T., Lucky Strike means fine tobacco. And fine tobacco is needed to make it taste even better.

"It's Toasted"—the famous Lucky Strike process—brings Luckies' tobacco to its peak of flavor... tomes up this light, mild, good-tasting tobacco to make it taste even better.

So enjoy better taste in your cigarette. Be Happy—Go Lucky!

A great deal of this "Rah, Rah" can be done without, as far as I'm concerned. Certain things, though, are sought after. It would be wise for most of the school to know some school songs. Would it be bad if there were large groups of people together, a Tech tie that could identify members of the Institute to one another? Freshman class spirit is not influenced by rules. It centers around field day which shows Admans a growth of a spirit of people together. Freshman class spirit is not influenced by rules.
