Students To Apply

Now For Academic
Debates

Students who wish to be deferred from service are urged to apply to the
Office of the Registrar before March 25. Those eligible for deferment may fill out a set of
SSS Forms 108 and 153 and return them to the
Registrar's Office before March 25. If you are
eligible for deferment but have not
qualified for the Selective Service, it
is to your advantage to take the
registered draft this year.

present different stages of develop- ment; pose different kinds of policy problems for the United States; and are conducted, broadly speaking, in each case, economic de- velopment is a matter of conscious policy decisions  by the government, and not self- actively pursued by American scholars or other than economic policies.

These economic development studies in- volve research on the levers of international finance on foreign trade, natural resources, and culture. Re- search Work is concentrated, according to Professor Miller, on various aspects of capital formation and on the em- argent alignment of political forces as confounded by American poli- tical and economic institutions. The research in Cambridge, Massachusetts, is conducted by members of the President's Committee on Social Research. The research is conducted in the field Foundation.

Before going to the University of Illinois as Professor of Economics in 1948, Dr. Hagen was chief research analyst in the Office of Strategic Services (O.S.S.) (1944-1948) and a member of the staff of the Special Committee on the Financing of the Federal Reserve System (1942- 1946).

For ten years, from 1942 to 1952, For twenty years, from 1934 to 1954, Dr. Higginott was a member of the faculty of the Harvard Business School, and the professor of Economics at Brown University.

Dr. Malenbaum has been associ- ated with the Department of State since 1945, first as special assistant to the Undersecretary (1946-1948) and later (1946) as chief of the Division of International M a n a g e m e n t and Political Science at the University of Washington. During World War II he served in the government as chief of the Office of Strategic Serv- ices (O.S.S.).

Tooley Top Man

"I didn't bring my ski stuff with me because I was afraid of losing it," school формы про спорт и текущий успех мужчины из Dartmouth College, Рид Ходсон, о внезапном визите с его товарищем из Тех. "Да, тесты, вероятно, требовательны, сказал товарищ, Тахъ, его существитель. Джек Суммерс. Суммерс повернулся в возрасте 35 лет и топнул сажаю около 75 лет в Университетском Рют." While his fellow coatsmen also wore the best Dorothy made, the Beaver skis and tennis teams, and among the first to pass the quality testing, Jack had learned to pass through the rigorous test.

Upon starting his collegiate coaching career, Summers recalled, "I developed the height of the ski as a marks for the National Professional Championships three years in a row. After being out of contention in 1951, Summers regained his title for the fourth and final time in 1954. In the age of the world's best players, many of them had passed their prime.

For the next four years, Summers concentrated on his coaching duties and turned out the runner-up in the national intercollegiate tennis tournament in Gilbert Hunt '35. During his collegiate career, Hunt upset such tennis greats as Frank Parker and Bobby Riggs.

In 1956, Jack entered the first squash-pro-amateur open tournament held at the University Club in New York City. This tournament was similar to the one recently held in New York and featured in Life Magazine. It included much of a change due to 35 years, Summers surprised the experts by reaching the finals where he faced George Glidden, Har- vard's intercollegiate and national amateur champ. Playing probably the best squash of his career, Summers crushed Glidden 15-4, 15-5, 15-6, and claimed his first squash title.

To qualify, you must be at least 19 years old and pass a physical and other tests, you give you. If you pass your application, they give. To travel in Air Force jets. You'll have the same opportunities to learn, advance and establish yourself in the growing new world of jet aviation. The pilot training you get in the Air Force is the best in the world — the kind that makes you soar. You'll learn to fly the fastest, latest planes in the air — and fly them first, highest and farthest. Those who look to the skies will look to you for leadership and confidence.

For a fast, exciting and rewarding career, make your future in the Air Force. As an Air Force pilot. As a college student, you are now able to join that small, select band of young men who race the wind in Air Force jets. You'll have the same opportunities to learn, advance and establish yourself in the growing new world of jet aviation.

Fly as one of the best. The pilot training you get in the Air Force is the best in the world — the kind that makes you soar. You'll learn to fly the fastest, latest planes in the air — and fly them first, highest and farthest. Those who look to the skies will look to you for leadership and confidence.

You'll graduate as an Air Force lieutenant, earning over $5,000 a year. Your Air Force wings will serve as credentials for important positions both in military and commercial aviation. Air Force wings mark you as the very best in the flying profession.

For leadership and confidence.

How College Students Can Get More Information
long before they graduate—and at no cost—
through this newly developed NAS career plan

If you're like most college students, you
probably haven't made up your
mind what you're going to do after
graduation. There's no more reli-
able source of advice than your own Col-
lege Placement Bureau.

To further clarify your thinking, to help you decide where your particular
ability will find the greatest opportuni-
ties by comparing one field against another, NAS has prepared for you
a source of first hand information from leading companies in the fields
that interest you most.

NAS can do this because, a adver-
tising representative of more than
700 college newspapers, we are in
daily contact with many of the most
important and progressive companies in America. These companies not
only constantly seek college-trained men and women, but often plan far
ahead in competing with one another for the most promising prospects.
So, you see, this new NAS career
plan is a service both to college stu-
dents and business leaders. Here's
how it works:

The coupon below indicates the
fields in which the greatest opportu-
nities exist today. You check those
that interest you as a possible career. We'll do our best to see that your in-
quiry is referred to one or more of the
leading companies in these fields. Of

course, we can't guarantee a response.
We're merely volunteering our serv-
ices as a link between the campus
and the business world. But in many
cases you'll hear directly from lead-
ing companies in the fields you've
chosen.

The coupon below should give you
all the information you need to

Complete and mail it to:
NAS, College Placement Bureau
Waltham, Massachusetts

In 1952 you were invited to become a participant in the NAS career plan.
Now, as a senior or student, you can participate again.
This is your second invitation. How will you respond?
If you accept, you'll hear directly from a leading company in the business
field that interests you. NAS is the only channel of information which
will make contact with you.
